From M. S. Burr & Co., the oldest Wholesale and Retail Dealers in Proprietary Medicines, Perfumery, &c., in New England:

"We have sold large quantities of Dr. Warren's Billious Bitters during the past five years, both at wholesale and retail, and have yet to learn of a single instance wherein they have failed to give perfect satisfaction. From personal knowledge, as well as from the reports of our numerous customers, we confidently recommend Dr. Warren's Billious Bitters to the public as a safe, reliable and very valuable Family Medicine. M. S. BURR & CO."

GLEASON HALL
PRESENTATION FESTIVAL.
The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, 26th and 27th, and 9th and 10th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present at the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The tickets, which have been limited to 75,000, at
ONE DOLLAR EACH,
can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket—Among the presents to be awarded are the following:—

Two Bedroom sets,	200
One Grover & Baker Sewing Machine, plated,	85
One Wheeler & Wilson Sewing Machine,	70

And Thousands of Other Presents,
Consisting of
Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Glassware, Silver Pitchers, Sets Knives and Forks, Sets Spoons, Dressing Cases, Port Monnaies, Scarfs, Tables, Bedsteads, Chairs, Mattresses, and other articles too numerous to mention.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are safely deposited in our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be presented by Mr. Casey and no other, and we will pay off and discharge from the moneys so received, all mortgages upon the property. ANDREW ALEXANDER,
THOMAS RATH.

The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts to the favorable and favorable support, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to all.

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, OCTOBER 4, 1867.

— A correspondent of the Cincinnati Gazette, speaking of the impression felt in Virginia that Andrew Johnson means mischief, says it is asserted by well-informed and trustworthy parties that an ex-Confederate General, of considerable note, has of late mixed generally with the rebels in that section, discussing plans of organization in certain contingencies.

[We receive all such stories with some grains of allowance. Nevertheless, if a portion of the ex-rebels, with the aid of the vermin in and around the White House, in Baltimore and elsewhere, really wish for another civil war, they can have it, and will have such an one as they have not dreamed of.]

☞ The Boston Herald has this item:

Two gifted clergymen have been recent inmates of the Washingtonian Home of Chicago, seeking a cure of their habits of intoxication; and a third, after preaching on trial for months to one of the largest and wealthiest parishes in the city, was rejected, despite his overpowering pulpit ability, because he was a secret drunkard.

All drinkers of wine and strong drinks are liable to such consequences, whether they be clergymen or coal-heavers, preachers or playactors. Total abstinents only are safe from this evil.

FROM HAYTI, Sept. 30.—President Salnave's position is dangerous. The rebellion is attributed to Cabral. Salnave was favoring Bafz at Port au Prince. The government was unable to support the clergy, and commerce was paralyzed. No products had arrived, and vessels had been waiting for freight since June. The currency has fallen to 40 per cent. discount.

LOUISIANA.—The New Orleans Republican has returns from 12 parishes, including Orleans, giving a total vote of 28,681, and a majority of registered voters of 1618. In every parish heard from a majority of the persons registered voted. It is supposed that nearly every one of the remaining 36 parishes will swell the majority.

INDIANA STATE FAIR at Terre Haute has been in progress during the present week. The attendance has been very large, and it is estimated that 20,000 persons were on the grounds Wednesday. The number of entries was very large, that of stock alone being larger that the entire number of entries last year. Financially the fair is a complete success.

GEN. GRANT AND THE PRESIDENCY. A special Washington dispatch says Gen. Grant, in a conversation a few days since with two Republican members of Congress, said that if it should seem to be the will of Providence and the decree of the American people that he should be President, he would not be at liberty to resist the one or to disappoint the other.

☞ A Washington letter says:

The President authorizes it to be stated that there is not a word of truth in the story that he has lately said to certain Tennesseans that he should resist any attempt to suspend him from office pending a trial for impeachment. He talks with no one on this subject.

We take the denial for what it is worth, from an author whose veracity is doubtful at best.

☞ In England, the Governor Eyre controversy has assumed a new phase.—Captain Edenborough, an American officer, deposes that Gordon entered into negotiations with him to purchase an armed ship and munitions of war.

GOLD, Thursday, 144 5-8. Cause of advance, decline of American securities in Europe, and European troubles, threatening war.

—McCoy's banking House at Independence, Mo., was robbed of $30,000 on Sunday.

—Colored veterans were hissed at the Sheridan serenade in New York by the few skedaddlers, draft rioters and bounty-jumpers who happened to be out of place in the crowd.

—The first snow of the season fell in the vicinity of North Adams, Mass., Friday night. Greylock and the adjacent mountains were white with it on the following morning.

—The missing Gen. Humphreys of Pittsfield experience, with Miss Kenyon, his willing or unwilling accomplice, has been heard from within a day or two as being at the Burnett House, Cincinnati, O. The lady is reported en route for the East.

—The record of the man Jeffries, who has recently been appointed Register of the Treasury, is not creditable to him, nor to the President who appoints such a man to an office of trust and emolument under the National Government.

—The Liverpool Mercury, alluding to the suspension of the well known American firm of James Hewitt & Co., in that town, says the liabilities are estimated at £250,000 sterling, and the assets, it is feared, will prove small.

—The Italian Government would at once set Garibaldi free, if he would only consent to give his parole not to invade the Papal States. But Garibaldi refuses, and it is not likely that he will ever change his mind. Will the Government dare to keep him long in prison? We doubt it.

WASHINGTON ITEMS.—The President has ordered the pardons of Alexander H. Stephens and R. M. T. Hunter, who was ex-rebel Secretary of State, to be made out.

The Internal Revenue receipts on Wednesday were double those of Tuesday, and reached nearly two millions of dollars.

The returns received by the Internal Revenue Bureau for the first quarter, ending Sept. 30, of the fiscal year foot up fifty-five millions; the corresponding quarter last year showed ninety-nine millions, being a loss of forty-four millions of dollars.

No person who has lost any of his property by gambling within four months of his application, can receive the benefits of the bankrupt law.

Secretary McCulloch announces that he will now issue three per cent. temporary loan certificates, to the amount of $30,000,000, for redeeming and retiring outstanding compound interest notes during the present month and December next.—This is in pursuance of the act of Congress of the 2d of March last.

CABLE ITEMS.—Intelligence has been received of quite a serious revolutionary demonstration by the partisans of Garibaldi at Vitterbo, Saturday. The latest dispatches, however, assume that the outbreak has been quelled and that the city is tranquil.

There is much distrust in the political and financial circles of Paris.

No farther telegrams relating to the recent disturbances in Italy have been received. In the meantime many wild rumors are afloat. It is said that a serious revolt has broken out in Rome and that the Pope was obliged to fly to Civita Vecchi for safety. The *Opinione*, a semi-official journal of Florence, says that Rome will soon belong to Italy, and that without a broken treaty.

At Glasgow, Oct. 2, Messrs. Buchanan & Co., a firm largely engaged in the American trade, stopped payment. Liabilities not stated.

On Sunday Admiral Farragut arrived in London. He is receiving marked civilities.

MARYLAND MILITIA.—The New York Times special says there is no doubt that the Maryland militia, composed mainly of ex rebels, would willingly march to Washington to take forcible possession of the capital during the session of Congress, and at the parade in Baltimore of the Third Maryland Zouaves on Monday, remarks were made to that effect.

The Herald's special says all sorts of stories are afloat as to the future movements of the Maryland militia; that they will be sworn into the United States service on a call of the President for troops; that they will take possession of the approaches to Washington, isolate the Capital from the North, East and West, while Congress is being overturned and the members arrested as revolutionists.

ANOTHER HEAVY BANK DEFALCATION. Another Bank has suffered. The new victim is the Litchfield County Bank of New Milford, Conn. The defaulter was the cashier of the bank, Mr. J. J. Conklin, a man who stood high in the confidence of the community, and had for many years.—He has absconded, and it is thought he has gone to Canada. The amount missing is between $50,000 and $75,000. The absent funds were taken from the bank, as there is every good reason to suppose, for purposes of speculation, and the money doubtless went into stocks principally, if not wholly. It also appears that the defaulter has left the town funds in the lurch to the amount of $5000. He was treasurer of the town, and was thus enabled to appropriate in that quarter.

The New Haven Palladium says much consternation exists in New Milford. Mr. Conklin was the last man to be suspected of such a crime. He had been a deacon in the Presbyterian church and had never lived in any way extravagantly or recklessly. The feeling towards him by those who knew him best is one of charity, and they base it on the assumption that the defalcations were not in the least premeditated, and were taken for investments in what appeared to be perfectly safe speculations, and with no other idea than that of replacing them before they should be called for or wanted. The capital of the bank was $125,000. Before abandoning the scene of his ruin, he surrendered his entire assets to the bank. These were not large. The defalcations were not discovered until Monday morning.

NASHVILLE CIVIC AFFAIRS.—Chancellor Harrison declined to grant the injunction asked by Mayor Brown in behalf of the old city authorities; and on Monday afternoon Col. Blackburn with a company of cavalry, acting under the orders of Gen. Cooper, demanded of Mayor Brown possession of the Mayor's office and archives of the city. Mayor Brown submitted to military force, and Col. Alden, the New Mayor was put in his position. A large crowd collected in the public square, and cheers were given for Mayor Brown as he left the office. No signs of a riot were shown.

☞ The printing of the impeachment testimony has been suspended for the present and will not be resumed until the week previous to the reassembling of Congress. This is deemed necessary to prevent its being known before presentation to Congress, the obligation of secrecy imposed upon the employees of the Government printing office not being deemed sufficient to keep the testimony out of the hands of newspaper correspondents.

☞ A Washington special says the Internal Revenue Bureau has received information from the office of the 5th district in Virginia that extensive frauds in distilling whiskey had been discovered at Richmond. An effort to seize the establishment was unsuccessful, the officers having been met by a large body of men and forced to retire. Measures have been taken to suppress the establishment, but further trouble was anticipated.

☞ At Providence, R. I., Oct. 1, twenty-two thousand dollars worth of United States bonds were adroitly abstracted from the cashier's desk of the First National Bank. Several banking houses were visited by three or four strangers on frivolous errands, but only in this case did they succeed in accomplishing their object of robbery.

☞ A Cincinnati special says S. S. Cox favored paying the government debt with greenbacks, and Vallandigham opposed it at the Democratic meeting in Columbia.

Gen. Sheridan will be in Columbus on the 16th, to witness the marriage of Gen. Forsyth, one of his staff.

☞ It is said official statements show that Stanton promised arms to the Governor of Maryland, but was removed before fulfilling the promise. Subsequently General Grant declined to do so, on the ground that the law does not authorize substitution of artillery for other arms.

☞ A dispatch from Dover on Thursday informs us that the Strafford County Fair is proving a great success. Two thousand tickets had been sold, including season and single tickets, and the entries of all kinds are said to number about 1200. The track was in splendid condition.

☞ The trial of Dr. Thomas J. Gardner, indicted with Dr. J. Edward Turner for arson in setting fire to the New York State Inebriate Asylum, in September, 1864, commenced on Wednesday at Binghampton.

—The New Albany (Ind.) Commercial says the middle and northern divisions of the Louisville, New Albany and Chicago Railroad are heavily taxed in transporting cattle to the northern and eastern markets, owing to the scarcity of grazing on account of the drouth.

The better nations become acquainted with each other, the fewer will be their prejudices, and the more likely will they be to love and respect each other. Just so with Herrick Allen's Gold Medal Saleratus—the more you know of it, the more you want to, and the more anxious you are to have your friends become its patrons. It not only makes the best bread, biscuit, &c., but it cures dyspepsia and strengthens weak stomachs. It has no equal. Most of the grocers have it. 12

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column,—the best for Table, Family and Medicinal Use.

☞ The fact that the Commissioner of Internal Revenue has exempted from all tax the funds which are raised by the Washington Library Company of Philadelphia for the endowments of the Riverside Institute; that Messrs. Thomas A. Scoble & Co., the well-known Bankers, No. 33 South Third street, Philadelphia, have consented to act as receivers of the moneys thus raised, together with the names of those well-known and prominent citizens who have associated themselves with the Institute, and have consented to act as Trustees, should certainly be a sufficient guarantee to the public that every pledge and promise will be carried out to the letter. The method adopted for the endowment of this much needed institution is one by which every individual actually receives more than could be obtained with the same amount of money if expended in the ordinary way. In the distribution of presents every one stands an equal chance, one present being guaranteed for each share of stock.—Read Advertisement.

ARE ALL MEN EQUAL?—All men are equal in natural Rights—but not in Intellect and inventive genius. Thousands of Saleratus makers have tried in vain to make a first-class article! James Pyle has surpassed them all, and his Saleratus is the perfection of the art. Tell your grocer you want Pyle's Saleratus, and no other. His name is on every package. 22

MANY PERSONS desire to use some pure stimulant, yet do not feel confidence in the many different articles recommended. To all such we would say that Dunster's old London Dock Gin may be depended upon as being the very best article they can find. It is sold only in bottles, by the apothecaries and grocers. 18

— The Prince of Wales appeared at the Iladen race, dressed all in white from hat to boots, and smoking a white cigarette. Such is the heir apparent to England's throne!

— A few days ago, a train of cars ran into a hand car containing fifteen men, one mile east of Aurora, Ind., and killed three men on the spot, besides wounding six others, some of them mortally. The train was an extra, and was running cautiously, but, owing to a dense fog, neither party could see over a few yards in advance.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membiane, and the air in passing over those putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the DeWitt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place—but these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success every where he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited this city, and feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. SCHENCK'S NEW OFFICE.
DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 36 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer, but by it he can tell about how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All his medicines are needed in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. In order to lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the pills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 on behalf dozen. Mandrake Pills 25 cents.

Local.

☞ Three men from Durham, while going up river Wednesday afternoon in a large sail boat loaded with varieties, struck Portsmouth bridge, and stove the boat badly and capsized her, drowning one man reported as Charles Davis of Durham, whose body was not recovered. One of the others (whose names we did not get) was boisted up on the bridge, and the third was picked up near Freeman's barn, where he floated by the help of a bundle of shingles.

☞ The Exeter News Letter, both editorially and by a gassy Hampton Falls correspondent, has the impudence to express doubts as to the "responsibility" of the gentlemen managing the Piscataqua Fair, for paying the liberal premiums offered, &c.; when the editor well knows the list of names is good for half a million dollars or more on 'Change any day.

The News Letter also calls the Fair here a "Side Show." Well, it will be more of a show inside than out, which is more than can be said of some displays on paper.

The Exeter Fair has never been held more than two days, we believe, and was announced for two this year; but when the Portsmouth show was advertised, and a purse of $200 offered for one trot, Exeter added a third day, and a purse of $250.—Now Portsmouth offers another additional purse of $300 for the last day, and the money is up, for we have seen it. So, as will be seen by the list of trots, we are to have one for $200 on Wednesday, and for $300 Thursday. Will Exeter go any better?

We shall not find any fault that the Exeter people and paper do and say all they can for their own Fair—but it is *not* fair to express any such doubts, which are utterly false, and which nobody feels who knows the gentleman referred to, who are among the most "responsible" in this city and vicinity.

It will be seen by the Concord Railroad advertisement, that grand arrangements will be made for extra trains to the Fair grounds.

Col. John S. Godfrey of Hampton Falls is Superintendent of the Grounds; and Marshal Wendell will announce his assistants to-morrow. A march of Town Teams, &c., from over the river, with the Portsmouth Band and citizens who chance to fall in, will be a feature for the first morning.

With a fair field and no favor, let the best win—but don't have any mean ly—insinuations about us, Mr. News Letter or any other man, for we tell you all, if you come here and win a premium or a purse, you will surely get it.

GRAND TRIALS OF SPEED AT THE PISCATAQUA FAIR.

☞ THE MATCH GAME OF BASE BALL at the Plains on Wednesday afternoon was won by the Granite States of this city in six innings, game being closed at dark. The Clionians (of Newburyport) won the toss and sent their opponents first to the bat. Rowell the first striker after missing two balls struck the third to short stop and made a home run on an overthrow to third base. Yeaton of the Granites and Montgomery of the Clionians made a clean home run each—the only ones made during the game. Payne of the Clionians made two very fine fly catches at centre field. The score stood at close of six innings, Granite State 32, Clionians 22.

The Belton Club did not put in an appearance and forfeited their game to the Minnehahas.

☞ Remember!—Free Lunch at the Union Billiard Hall, to-night, 9 o'clock. o2

☞ A large number of high naval officers being now quartered at the Rockingham House, the band of the Piscataqua has furnished excellent music in front of that hotel for several evenings past. The Piscataqua will probably go into commission about the 10th inst., and will sail for her destination as flag ship of the Asiatic squadron early in the coming month.

☞ Remember!—Free Lunch at the Piscataqua House, to-night, at 9 o'clock. o2

☞ On Monday evening, about 8 o'clock, the schooner Ada F. Low, Capt. Alfred G. Blatchford of Rockport, ran ashore at the end of the breakwater at that port, while on her return from a mackerel voyage to the Eastern shore. One of the crew leaped part way ashore on a barrel and swam into the cove; another dropped overboard and clambered up the rocks, bruising himself badly. An attempt was made to reach the vessel in the life boat, but failed. Late in the evening a line was thrown on board from the morter, but by this time the sea had smoothed down and the life boat succeeded in rescuing the remainder of the crew with the exception of one man, who fell overboard and was drowned. The schooner left Portsmouth for Rockport on Monday afternoon. She had 180 barrels of mackerel on board; will prove a total loss. The Ada F. Low was 48 96-100 tons, built at Essex a year ago, and owned by Messrs. Brainard, Low & Co., and was valued at $8000. Insured at the Rockport office for $2500; Beverly office, $1500. The name of the man drowned Emanuel Silva, a resident of Rockport, where he leaves a widow.

☞ On Saturday Auctioneer Morse will sell at auction the personal property of the late Phinehas Drake, at the Iron Foundry on Mechanic street. Also, said Drake's right of redemption in the land and buildings of the foundry.

—A Christian Union Convention was held at Manchester on Wednesday, attended by ministers and others of Trinitarian churches, viz.: Congregational, Methodist, Baptist, Free-will Baptist and Episcopal.

☞ Remember!—Free Lunch at the Piscataqua House, to-night at 9 o'clock. o2

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior States and Territories*, which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, westward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, with which it will meet and connect with the roads now building east of the Rocky Mountains. About **100** miles are now built, and the road and its rolling operation to the summit of the Sierra Nevadas. Within a few days **35** miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for **300** miles of road, and **10,000** men are employed in the construction.

The local business upon the completed portion of the road during the past nine months, the figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS	OPERATING EXPENSES.	NET EARNINGS,
$187,579 64	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which about one-fourth is from freight, no more than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal aid of government transportation, and is exclusive of the materials carried for the further extension of the road.

Of the bonds and interest liabilities during the same period were less than $325,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the Government will have invested in the completion of 865 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of 12,000 acres of the Public Lands for each mile becoming a Joint Investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the Central Pacific Company is enabled to invite the co-operation of private capitalists, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and interest payable in Gold Coin, in New York City. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon the completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds is payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

SUNDAY,
SEPTEMBER 1st, 1867.
[On the Return Home of a beloved Pastor.]

Shine on! September sun!
And burn the kindling Sumach's flame to red,
And spread to gold the budding flowers that run
By hedges dry and dead.

Light up the Autumn sea,
And sprinkle diamonds on its beating breast.
And make its surging grow to symphony,
Throbbing itself to rest.

Unveil the crimson mist
And purple splendors dying into night,
And hang out gorgeous clouds of amethyst
On Heaven's serenest height.

So Autumn is begun,—
Unconscious of the summer's soft retreat,
With flowers and fruits whose blushing tints now
To garnish earth so sweet. [come

And all the winds that sway,
Unlike the languid airs of other shores,
Waft a thanksgiving from each heart to-day
To Him who thus restores—

Restores in harvest time,
Before the summer freshness all is past,
While nature shows the infinite design
In progress wide and vast.

And we who touch the hand,
And wonder at the year that lies between,
By this reunion here may understand
Something of the unseen.

C.

DEXTER has closed his career on the turf, and now occupies a favorite stall in Mr. Bonner's famous stable. On being delivered to the indefatigable Ledger man, Mr. Fawcett, his late owner, received a check for $33,000 for the great trotting marvel of the age. Thirty-three thousand dollars is an immense sum to expend on a single horse who has nothing to recommend him but his wonderful speed, and yet the "Turf, Field and Farm" states "Mr. Bonner will pay ten thousand dollars more than this amount to any one who will bring him the equal of Dexter. The offer is a perfectly safe one, for the record of the game little Hambletonian stands unsurpassed and unapproachable. In less than two years Dexter has trotted twenty-seven heats in 2:22 and under— conclusive proof that his fame is not of an accidental character.—Dexter is a king, and he is withdrawn from public life in the zenith of his fame. This is as it should be, for as the incomparable hero, crowned with fresh laurels, we choose to remember him, and to commit him to posterity. The triumphs of Dexter henceforth will be confined to the road. Having conquered all opponents, it was well to retire him from the turf. Last week, Mr. Bonner, for the first time, drove him. It is the intention of his owner to drive him single for some days to come. When placed to the pole, Flatbush Maid will be selected as his mate, though this position will sometimes be given to the Auburn horse. Flatbush Maid, we are told, has never been hitched alongside of anything that could force her to her utmost speed. She is faster than most people give her credit for, and she will make a worthy mate for the renowned Dexter."

☞ At a late Temperance Mass Meeting in Sullivan county, Rev. Mr. Babcock said,

There may be some here who think rum necessary as a beverage, but he was not there to discuss that and kindred questions. He must confine himself more especially to the necessary measures for the suppression of intemperance. This is strictly a moral and Missionary work. It is not, and should never be made, a political issue. There were two kinds of laborers in the field of politics. The statesman labors to mould public opinion aright, on political matter of state and national importance—the mere politician follows in the wake of public sentiment, be it right or wrong, in pursuit of office and personal emolument. We want the aid of no politician of this stamp to create a healthy public sentiment on temperance measures.

The speaker was happy to say that public sentiment in New Hampshire is right on the matter of PROHIBITION. That is here a settled question. More stringent or stronger safeguards against the encroachments of "King Alcohol," should not be adopted until they are unmistakably demanded by public opinion. He then discussed, at some length, the Constabulary question. He cited documents to show that it is an economical and an efficient measure for the enforcement of due and uniform obedience to law, and the promotion of sobriety and good order throughout the State.

— The Bosphorus is to be bridged. The whole distance is 3360 feet, and there are to be but three arches.

— Mr. Alexander T. Stewart, the New York dry goods merchant, has been made the recipient of a public reception in his native town in Ireland.

— Portions of a cargo of logwood were found in Portland, Me., a few days ago, which were lost overboard forty years since. The logs were in a perfect state of preservation.

— The first steam whistle, so far as is known, was made by a workman named Adrian Stephens, at Dowlais, England, about 1832, and fitted to one of the boilers there, as an alarm when the water fell short.

NEW ADVERTISEMENTS.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubg. St.-Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment: if you will send at the same time your account, I will forward you the amount through Messrs. EMORY & Co., New York.
Baron Solomon Rothschild having recommended, as a remedy for his friends, DR. LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unsurpassed. It is also most efficatious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum*, and is without exception the Most Wonderful Panacea the world affords. NO FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and emergencies of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Trade Mark Cross per Label. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 186 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by Major THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

MORE VALUABLE THAN GOLD.
Dr. W. Ainsworth's Dead Ur. for the Catarrh, a perfect and speedy cure for this loathsome disease in its worst form. No person suffering from Catarrh can but have faith in this remedy. Hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the Dead Ur. for Catarrh. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BUCKINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co., Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence discovered, while in the East Indies, a certain cure for *Consumption, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up by all. The child was cured and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those who wish it the recipe, with full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption that it does not at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in. Address DR. CRADDOCK & CO., 1032 Race street, Philadelphia, Pa.

Manhood and the Vigor of Youth restored and weakness guaranteed.
DR. RECORD'S Essence of Life restores manly power, from whatever cause lost; the effects of early indiscretion, which alone, impotency and climate, give way at once to this wonderful medicine, if taken regularly according to directions in the book and pamphlet (which are restraint from business or pleasure). Failure is impossible. Sold in bottles at $3, or 4 quantities in one for $9. To be had only of the sole appointed agent in America, HERMAN GEUIZEN, 323 Bowery and 206 2d Ave., N. Y.

RECOVERY FROM DROWNING. — A writer in Rumney sends an account of a case of this kind, to the Boston Journal.

About three weeks since a little daughter of J. L. Spalding, about ten years old, in company with another little girl of the same age, went to the river and both went in to bathe. Her companion, observing that she sank and then came to the surface, attempted to get her out. Not succeeding, she became alarmed, dressed herself, ran about forty-five rods and gave information to an aged and feeble gentleman, who went to the river and after some little time found the child where the water was higher than his own head. He was obliged to go in five times and shove her along on the ground with his feet where the water was shallower, before he could get her out. She appeared quite dead. The usual remedies were continuously applied. About twelve hours after she was taken out she became slightly conscious, but did not regain entire consciousness until two days after. According to the best calculations she must have been in the water twenty-five to thirty minutes. I consider this case as a remarkable instance of resuscitation, and relate it to encourage long continued efforts in the use of means to revive those who have been long under water.

JOSH BILLINGS' SAYINGS.—There is but phew men who hev character enuf to leed a life of idleness.

Those who retire from the world on account of its sins and peskiness, must not forget they have got to keep company with a person who wants just as much watching as any body else.

A puppy plays with every pup he meets, but old dogs have but few associates.

When a man loses his health, then he fust begins to take good of it. This is good inducement, this is!

Most people decline to learn only by their own experience. And I guess they are more than half right, for I do not spose a man can get a perfect idea of molasses candy by letting another feller taste it for him.

Success in life is very apt to make us forget the time when we wasn't much. It is just so with a frog on the jump; he can't remember when he was a tadpole, but other folks can.

An individual, to be a gentleman, has either got to be born so or be brought up so from infancy; he can't learn it sudden, any more than he can learn how to talk Ingin correctly by practicing on a tomahawk.

— It is said that Cham, the celebrated, French caricaturist, is about drawing a man with his eye blackened and his arm in a sling as a correct idea of a delegate just returned from the peace Congress at Geneva.

— During the war a lady passing from cot to cot through the wards of a hospital was shocken to hear a soldier laughing at her. She stopped to reprove the wretched fellow. "Why, look here ma'am," says he, "you have given me a tract on the sin of dancing, when I've both legs shot off."

— Australia shows rapid progress. In 1865 the imports into the Australian colonies reached $175,000,000, and the exports $150,000,000. Within the last sixteen years New South Wales and Victoria yielded $750,000,000 worth of gold, and New South Wales has produced 5,000,000 tons of coal. South Australia has also, within the last ten years, exported $25,000,000 worth of copper.

— A young woman eighteen years of age has been doing a thriving business in Barton, Vt., by borrowing mourning in which to attend the funeral of her mother. She sobbed a black dress from one kind hearted lady, a shawl from another, a funeral cloak from another, and then took the train. The son of one of the sufferers, suspecting something, followed her to the depot and got back a dress, to the immense disgust of the afflicted soul, who swore at him roundly. The rest of her plunder she made off with.

— A young lady in Canandaigua, N. Y. went to a dentist to have some teeth extracted, and in the operation he cracked her jaw, but she being under the influence of chloroform, was insensible to her misfortune. The dentist did not discover it, but attempted to extract another tooth, pulling out a piece of the jaw bone of sufficient size to contain two teeth. By this time she began to recover from the effects of the opiates, and they were again administered, and a physician and surgeon being immediately summoned, her jaw was set. About six weeks after, the young lady (being obliged to breakfast, dine and sup on gruel) was informed by her physician in attendance that she might loosen the bandage and commence to use her jaw, which being done, she found that her jaws were set; and after vain efforts to operate them they gave up in despair, feeling that they were locked forever.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all its want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. THOS. EWBANK,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, OCTOBER 5, 1867.

SWANN, JOHNSON, AND STANTON.—The Boston Advertiser's Washington special, lets a little daylight into the Maryland Artillery plot, as follows:

Since Governor Swann's action in artillery matters has come to light, the President has made an attempt to shield him by making the statement that Governor Swann's first requisition for artillery was favorably received by Secretary Stanton, and that but for his suspension he would have filled the requisition. This is another move in the old game of claiming support from both sides. Grant and Mr. Stanton.—The fact is, that while Secretary Stanton may have said in a general way that Maryland had a right to her quota of arms, he from the first refused to issue the value of such quota in artillery, and his refusal was endorsed by Gen. Grant at that time. It is further known that this refusal was one of the main points of difficulty which led to Mr. Stanton's suspension. The President informed the Secretary that he desired him to honor Gov. Swann's requisition. Mr. Mr. Stanton declined to issue the guns on his own authority, but he told Mr. Johnson that he would do so upon the receipt of an executive order directing it to be done.—Mr. Johnson, it seems, was not willing to commit himself to such a course, and replied that Maryland had a perfect right to the value of her quota, and the Governor's requisition was all that was legally necessary to secure it. The President was very earnest and Mr. Stanton very decided, and the result is known. A similar attempt to get artillery through Gen. Grant has, as before stated, signally failed.

WASHINGTON GOSSIP.—After the ward meetings in Baltimore Tuesday evening, large gangs of rowdies rode through the streets cheering for Jeff. Davis.

Southern politicians at interviews with the President, suggest that speedy reconstruction would ensue if the principle of the right of each State to decide the question of suffrage be allowed them. They would include negroes as voters as they became qualified by intelligence.

The Sec. of the Treasury has accepted the resignation of Asst. Sec. Chandler.

CABLE ITEMS.—The Roman Catholic Bishops of Austria have met in Congress and declared their opposition to any change in the concordat now established between Rome and Austria.

A Florence item of Thursday evening says the rebels hold many posts in the Provinces of Viterbo, and await the attack of the Pontifical troops.

The Emperor Alexander of Russia has demanded of the Sublime Porte the cession of the Island of Candia to Greece.

The Turkish Government has made an apology to the American Ambassador at Constantinople for the insult offered to one of the messengers attached to the U. S. Consulate.

☞ One of the most interesting reports to be laid before Congress at the coming session will be that of the Freedmen's Bureau, relative to the special relief afforded the Southern people under the act of March 30th, 1867. It will be remembered that a strong effort was made to get an appropriation of one million dollars in aid of the sufferers, without regard to race or color. This failed, but a bill was passed empowering and and directing General Howard to extend aid to all classes from the funds already under his control. The report of this work will show that nearly half a million of dollars was thus expended. Georgia received more than any other State, and the three States of Georgia, Alabama and South Carolina received more than half the whole amount expended. Only twelve thousand dollars was needed in Virginia. The bureau closed its agencies for furnishing relief under this act on the 20th of August.

— Oberlin College gives to all students who are Freemasons an honorable dismissal, but will not permit them to remain.

— Forty years ago the number of horses, cattle and sheep in Australia was under 400,000; the number is now nearly 35,000,000.

—By returns made to the United States Assessor it appears that the private banks of Chicago hold an aggregate of $5,500,000. Add to this the deposits in the National banks, as shown on the first of July, and the entire bank deposits of Chicago foot up seventeen to eighteen millions.

—The low stage of water on the Ohio river is making coal a scarce article in Cincinnati, Louisville and other cities. Several of the largest of the manufacturing establishments in New Albany, Ind., will have to suspend operations within the next three or four weeks, unless they are able to replenish their stocks of coal.

—The second cook of the St. Nicholas Hotel, St. Louis, while at work in the kitchen, shut off the wrong cock in the cooking range, which gave rise to a terrific explosion, sending the stove at double quick through the rear of the building, and scattering bricks, &c., in every direction. The cook was dangerously scalded, and a boy in the adjoining house badly injured by a brick.

WHISKEY RIOT IN PHILADELPHIA.—The Revenue Inspectors made a raid on unlicensed whiskey stills in the northern part of the city, Saturday last, and were driven off by the people of the vicinity. They made another raid Thursday with increased forces, but fared worse than Saturday, having several of their party badly wounded with bricks and pistol shots. They seized several stills and were taking them off in carts, when a large crowd of men and women attacked them, recovered the copper vessels and drove off the officers.—Deputy U. S. Marshal Schuyler received six serious wounds. Thomas Lane, one of the rioters, was shot in the head. The affair occurred near Port Richmond.

☞ On Tuesday, by order of General Grant, the bodies of the assassination conspirators and Wirz, the Andersonville jailor, were removed from their graves at Washington Arsenal and reinterred in another portion of the grounds. The removal was necessitated by a projected movement in the Arsenal grounds.

J. Wilkes Booth was buried in what is known as the warerooм of the Penitentiary building. The body was enclosed in an ammunition box. After the grave was filled up with dirt, the brick flooring was replaced, the windows boarded up and the door made secure, Secretary Stanton taking the key with him. The key was kept at the War Department until a few weeks ago, when it was returned to the Arsenal officers. The bodies were placed in a common grave. From this action it seems that it is not intended to surrender the bodies to their relatives.

THE MANCHESTER MILLS.—The Mirror gives the following statistics of three of the Manchester corporations for the last year;

Print Works.—Capital stock, $1,800,000; quick capital, $1,300,000. The products of the mills have been 11,682,320 yards of delaines; 7,083,127 yards common and fine cotton cloth; 840,358 yards of woolen goods; 57,579 dozen of hosiery; —a total of 19,555,805 yards of cloth; or 256,000 yards more of cloth, and 14,500 dozen less of hosiery than the previous year. This is a greater product than ever before.

The number of yards printed was 12,681,326 yards of delaines, 6,806,931 of cotton, and 267,450 of woolen: a total of 19,756,308 yards,—4,424,000 yards more than the previous year, and the largest year's printing, except in 1863, when 115,000 more yards were printed.

The gross sales amounted to $4,441,854, —$1,105,000 less than the previous year.

Amoskeag Co.—This establishment has three departments, the Mills, Machine Shop, and Land and Water Power Co.—The Treasurer reported that the money had been made chiefly from the Mills.—They had 100,000 spindles; they had manufactured during the year 5,778,000 pounds of cloth, of twenty-six varieties, at a profit to enable them to pay two dividends of 10 per cent. each, and leave them $28,000 better off than the year before. Their quick capital was larger than was necessary, and three dividends of 5 per cent. each were at the disposal of the stockholders, *leaving them $1,300,000, all that was needed.* The mills were in good condition. The fixed capital is $2,700,000.

Stark Mills.— Capital, $1,250,000.—Quick capital, $600,000. It has made, during the year, 5,046,153 pounds of cotton goods and 212,000 pounds of linen goods, and paid two dividends amounting to fifteen per cent., apart from previous earnings.

—Two stockbrokers in Paris have made a bet, it is said, of a hundred thousand dollars that Gen. Grant will, or will not, be Emperor of the United States within five years.

—The retirement of Captain Raphael Semmes from the Memphis Bulletin leads to a bit of severity on the part of the Troy Times, which says: "Though a pretty good pirate, he made a poor editor," and his "literary piracies were never appreciated."

— A quiet, honest, old colored man, named Alexander White, went to church at Salem, Ind., on Sunday evening, and his presence was objected to by an ex-rebel ruffian, but the old man staid to the close of the services. On his way home the ex-rebel waylaid and killed him.

—The convicts of the Penitentiary at Michigan City, Ind., appeared to be leaking out of its hospitable walls in some mysterious manner last week, when a thorough overhauling of the concern disclosed a sixty feet tunnel under the walls. It was stopped up, but seven of the convicts had gone.

— The widow of Stephen A. Douglas, now Mrs. Williams, entered a suit for right of dower, some time since, in real estate in the south part of Chicago, now worth $100,000. Although it was proved in evidence that she had signed away her right of dower, she claimed an informality which vitiated the action. The trial has just taken place and the case has been decided against Mrs. Douglas.

— Mrs. Abraham Lincoln publishes the unwelcome fact that her income—$1700 a year—is insufficient for her proper support, and that she has been compelled to offer for sale many costly articles which she would otherwise gladly keep. She desires to return to Springfield; but to dwell there, and entertain the host of visitors that would descend upon her, would require a larger outlay than she can afford.

☞ The Washington Chronicle states that the facts regarding Gov. Swann's application to Secretary Stanton for the requisition for artillery due the State of Maryland are, that the latter from first to last refused it. The refusal was one of the main points of difference between Secretary Stanton and the President, who told him that he wanted him to honor the requisition. Stanton declined to do so, and further said if the President wanted it he must issue the necessary Executive order directing it. The President neglected to issue such an order.

☞ On Thursday the Secretary of the Treasury received letters from Deputy Commissioner of Internal Revenue Messmore, declining the request that he should resign. The Secretary replied by mail dismissing him from office, in accordance with the decision made by the Department a few days since. Every effort was made to secure Presidential interference to prevent the dismissal, but, as the appointment was vested in the Secretary of the Treasury by law, these efforts were of no avail. Messmore's friends threaten terrible revelations about the Department for his untimely taking off.

☞ In New York city, Wednesday evening, the dinner to the Mexican Minister Romero was presided over by Wm. Cullen Bryant. Letters from Gen. Grant and others were read.

Gen. Grant's letter says, after expressing his sympathy for the Liberals, that their cause was our cause to a greater extent than ever will be appreciated now that success has attended it. Failure would have demonstrated how much we were interested in the success of the Liberals of our sister republic.

☞ European dispatches of Wednesday are silent in regard to Rome, but confirm the reports that a revolt has broken out in the Papal Province of Viterbo.

CONCORD & PORTSMOUTH R. R.—The annual meeting of this corporation was held in Manchester on Thursday. The annual report was read and accepted. It contained no important items out of the common course of such reports. The old Board of Directors was elected—Stephen Kenrick, Franklin, President; Samuel P. Dow, Newmarket; Benj. F. Martin, Manchester; Joseph B. Walker, Concord; S. N. Bell, Manchester; Wm. H. Hackett, Portsmouth, Clerk, and Moody Currier, Manchester, Treasurer. Voted to accept the act of the Legislature extending the road at Portsmouth to the wharves. Also voted to authorize the Directors to make any desired arrangements with the Portsmouth & Dover Road with regard to running, &c.

ALABAMA ELECTION.—The returns for two days are received from 15 counties, in which the number of registered voters is 61,400, and the number of votes polled 34,360, being 3600 more than the required majority.

—Wm. H. Ketchum, a well known stock broker of New York, fell dead while eating supper at a hotel in Philadelphia, Thursday night.

— During a late thunder storm the lightning struck in the midst of a flock of sheep near Canterbury, Vt., killing thirty two of them.

—Chicago is infested, just now, with even more than the usual number of pickpockets, swindlers, confidence men, &c., especially around the depots, in railroad cars, and wherever there is a rush of people.

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs,—if they will now and forever use Herrick Allen's Gold Medal Saleratus—for wherever it has made an acquaintance, it "sticks closer than a brother." It will be your protector and shield, besides always giving you nice, light and digestible bread, biscuit, puddings, cakes, etc. Try it. Most merchants sell it. Depot 112 Liberty street, New York.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to special advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a scated consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its ten dency and productive of such unhappy consequences, no one will be supprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place—But those do not apply to Dr Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success every where he has practiced. He is a reliable and skillful specialist, and a physician of integrity and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

Home Address, - Norway, Me.

DR. SCHENCK'S NEW OFFICE.
DR. J. H. SCHENCK, of Philadelphia, has opened an office, second floor, at No. 32 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars
Dr. Schenck can explain to patients very correctly the nature of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but if he can not exactly tell how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Laryngeal Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint
His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will heal; then the colds and night sweats will stop, and the expectoration become free and easy.
He keeps a full supply of medicines at his rooms, which can be had at all times.
Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Local.

☞ We give elsewhere the list of Horse Trotting attractions at the Fair here next week, which are ample for all the days. The Cattle Show and the premium horse stock will speak for themselves on the spot. Arrangements are believed to be very complete for a good time. It is hoped the splendid neat stock of Col. J. W. Peirce, from his estate at Greenland, may be on the grounds—which would make a fine show of itself.

IN BOARD OF ALDERMEN, Thursday evening, a petition from N. G. Mason and others for a new highway from Boyd's road to Sherburne's road, was referred to the Mayor.
Aldermen Henderson, Odion and Carr were appointed a committee to invite Gen. Sheridan to visit this city.
Charles H. Tucker, Thomas Entwistle and John Milton were appointed Special Police for the Fair. Seven others were appointed Special Police for the same occasion, without pay.

POLICE COURT, Oct. 4. — Edward Kingsley, drunk, was fined $3 and 3 86 costs.
In the case of Joseph N. Lewin, for assault upon Anna Lewin, a nol. pros. was entered.

☞ "Our American Cousin," a shadow pantomime, a laughable extravaganza, and other attractions are offered at the Temple to-night, under the management of Edmund Coles, the popular comedian.

IMPORTANT TRIAL!—A Naval Court Martial has been in session at the Navy Yard since Wednesday, convened for the trial of 2d Assistant Engineer George F. Sawyer, on a charge of disrespectful language towards the President of the United States in saying in a discussion with some officer of opposing political sentiments who had denounced certain Senators, "What the Senate would probably impeach President Johnson, and he ought to be impeached." The Court is composed of Com. Charles Steedman, Captains John L. Worden (of Monitor fame,) Gustavus H. Scott and J. J. Almy, and Chief Engineer Thomas Williamson. Wm. H. Hackett, Esq., conducts the defence on the part of the accused.—Dr. Gilson, late Surgeon of the Yard, who was more ready in former days to criticise the late lamented Lincoln, than he appears to be willing to have Mr. Johnson condemned, seems to be the principal witness in the case. The proceedings of the Court are regarded with much interest, as the question whether an officer can be allowed to speak in any other than terms of commendation of the politics of the President on any occasion, is one of interest to all in the service.
Doubtless the Senate of the United States will be desirous of examining, by and by, the case, and determine how far a man can be punished for an offence that is not supposed to exist by the laws of the land. It must be an annoying position for the gallant officers who compose the Court, to be engaged on duty of this character.—*Journal.*

DEAFNESS AND CATARRH.
Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.
My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.
WM. CARTLEDGE, JR.
Portsmouth, N. H., Oct. 3, 1867.

☞ A little son of Mr. James Freeman of Portland, aged 12 years, was run over by an ox team, at the Dover Fair, Friday, and instantly killed. He climbed upon the wheel unknown to the driver, and when the team started, he was thrown to the ground and his head crushed by the wheel.

☞ The Fair at Dover is a great success every way. 3000 tickets sold first day, 7000 the second—and it is expected to sell 3000 more to-day, as there is good trotting. Visitors speak in high terms of the liberality and hospitality of the citizens of Dover.

☞ We are indebted to the managers of the Exeter Town and County Fair, for a complimentary ticket to their show. Also, to the Strafford County Fair at Dover, and the Middlesex Fair at Lowell, for similar courtesies.

☞ Invalids whose cares have assumed a chronic form are referred to an advertisement of Dr. Dio Lewis, in another column.

☞ Gen. Sheridan has been invited to visit Portland and Springfield, Mass. The banks of Boston, and the schools there, will be closed on Monday in honor of his visit.

☞ Rev. O. F. Lamphear has accepted a call to be pastor of the Dane Church in Beverly, Mass.

GOLD, Friday, 144 5-8.

—H. C. Craig, the man who has been telegraphing false reports of Indian outrages over the country from Ellsworth, has been arrested for forgery in Missouri, and taken to that State for trial.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *only link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$487,579 64	$86 042 17	$401 537 47

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual legitimate traffic of the road, and is unremunerative in the mountains, and with only the normal ratio of government transportation, and is exclusive of such materials carried for the further extension of the road.
The Company's interest liabilities during the time required to complete the road are less than
Add to this an ever-expanding through traffic and the proportions of the future business become magnificent.
The Company are authorized to continue their line eastward until it shall meet and connect with the Union Pacific now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 345 miles $28,350,000, or at the average rate of $3,500,000 per mile—not including an absolute grant of 10 000,000 acres of the finest lands, likely to become a joint investor in the magnificent enterprise by waiving its first lien in favor of the First Mortgage Bondholders, the National GOVERNMENT, IN EFFECT, INVITES THE CONSTRUCTION OF THE ROAD CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.
Principal and interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount per mile as the Grant and Loan of Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the same absolute and sole guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all the other classes of railroad bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the through line.
Second—Besides the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from the several States.
Third—Fully half the whole cost of grading 500 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.
Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous increase by the time of completion.
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

A SCENE AT FIVE POINTS, N. Y.—As the Superintendent of our Mission establishment was looking out of his door he saw a man running up the street, apparently in a state of wild excitement. His coat was off, he had no hat on and his feet were bare. The Superintendent approached him and led him into his room. He soon sunk into unconscious slumber. He remained in this condition an hour, The prayer bell sounded and he started in alarm, and cried out, "what's that?" He was told it was the prayer bell. "Prayer bell!" exclaimed the man, "Do you have prayers in this dreadful locality?" "We have prayers," said the Superintendent, and invited the man to go in. He went in, and his sobs and cries so interrupted the service that is was with difficulty that the parties proceeded. He soon learned where he was; he then made a clean breast of himself. He was a Western merchant; he had a load of butter on the way to Boston; was a man in good standing at home, a class leader in the Methodist church.

Having leisure, he took a stroll around New York to see the sights. A respectably dressed and good looking woman asked him to treat her. As he wanted to get material for a letter that he was to send home, he thought a compliance with her request would enable him to see a side of life that he could not otherwise she, so he went in to treat. Having drank, see insisted upon treating him. A teetotaler at home, he complied with her invitation and drank. From that time till he was awakened by the prayer bell he had no distinct consciousness. He had an indistinct recollection of being led now some dark, damp steps. He had over $1000 in money with him, and he recollected taking that out. Money, watch, hat, coat, all were gone. "Can't I get my money and my coat?" he asked. "Yes," said the Superintendent, "I can get them for you, but you must go before a magistrate. Your name, place of business and all about you must come out and be blazed in the papers." "Then let it go; I had rather lose my money than my good name."

Money was furnished him, cost, hat and shoes were supplied, all of which he promptly paid for when his butter reached Boston. His search for things to put in a letter was so amply rewarded that he will not probably try it again. New York is said to be a very wicked place, full of traps and gins, pitfalls and snares, but if it was not for gentlemen from the country, the victims would be much fewer than now.

The above story is told for the Boston Journal by Burleigh, (Rev. Matthew Hale Smith), and if substantially true, as it may be, is certainly very suggestive. But there are some points in the merchant's account of himself that look like lies, and he has the appearance of a hypocrite. A teetotaler (professedly) and a class leader at home, he treats a street walker in New York city,—and all to write a letter! No sensible man who has seen the world, can believe this account of the motives. No doubt he treated, drank and was drugged and robbed, as he deserved to be—and he deserves exposure too, but he buys off from that, by letting his property remain with the thief. For the benefit of his class, it is to hoped his name and adventures will get reported at home.

TEMPERANCE—It is high time something was done to stay the onward tide of the hydra headed monster which is destroying its victims at the rate of 300,000 a year in our own country alone, at an annual expense to the nation of $500,000,000. The vice of intemperance has increased during the past eight years in an alarming degree. Let there be a grand rally of men and women of all parties and sects, and of no party or sect. *It is no* matter of partizan politics or of sectarian creeds, but a platform as broad as humanity itself, and sufficient for every lover of his kind to stand without jostling his neighbor.—*Wolfeborough News.*

REMARKABLE CASE.—Mr. E. D. Parconto, of Clintonville, N. Y., accidentally swallowed a sharp pointed nail, about a year since. He thought nothing of it, but a while after was taken sick, and was supposed to be in rapid consumption, spitting blood freely and becoming much emaciated. He recovered sufficiently to proceed to Boston and resume work in a store, but was obliged to leave for home. Last Friday night, at White River Junction, Vt., during a severe fit of coughing, the nail was raised into his mouth and taken out—He is now, apparently, doing well.—*St. Albans (Vt.) Messenger.*

BREATHES there a man with soul so dead, who never to himself hath said, I will my local paper take, both for my own and family's sake? If such there be, let him repent, and have the paper to him sent, and if he'd pass a happy winter, be in advance should pay the printer.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild, PARIS, 8th April, 1864, 25 Rue Fauby. St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.
Baron Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal—For the relief and cure of *Rheumatic and Neuralgic Affections. Sprains, Bruises, &c.*, it is unequalled.—It is also most efficatious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS should never be without it. Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, it is the surest remedy ever discovered. Prepared by **Major LANE'S INDIAN LINIMENT,** and take no other. Price **50 Cents** per bottle. For sale at wholesale and retail by Demas Barnes & Co., 32 Park Row, N. Y.; Gale & Blanchard, 188 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. CHEAP BEEF.—Paris letter writers think there is a good time coming in the meat market, a hope that is echoed by consumers everywhere. One of these writers ventures the prediction that in consequence of a new and simple method of preventing taint, fresh meat will before long be sold everywhere at five cents a pound; and he bases his calculation on the fact that there are in the provinces of La Plata, South America, 27,000,000 cattle and 40,000,000 sheep, and in Australia 180,000,000 cattle and 300,000,000 sheep, all of which only need sufficient means of preservation and transportation to be made available for supplying the world with meat.

NOT BAD.—A colored witness was examined in Washington City Court to prove the identity of a white man, the other day.

Dist. Attorney—"Did you see the man ?"

"Yes, sir, I seed him."

"Was he a white man ?"

"Don't know, sir."

"Do you tell me you saw the man and can't say whether he was white or black ?"

"Yes, sir, I seed him, but there's so many white fellers callin' themselves niggers, round here, I can't tell one from tother!"

Witness dismissed—explanation satisfactory.

CHINESE SUPERSTITION.—In the province of Shangtung, China, two mines, one of silver and the other of gold, among its mountains are well known, but the Government will not permit them to be worked cause it is said the repose of the dead is dist urbed by the undermining of the earth.

RULES FOR HEALTH.—Rise with the lark. The best way to do this is not to stay up on a lark all night.

Exercise with the dumb-bells. A little exercise with belles that are not dumb is also conducive to health.

— The Princes of Wales, who is still at the German baths, has had no fresh illness whatever; no relapse of any kind; nothing to give cause to even the slightest feeling of anxiety.

—The King and Queen of Portugal have been lately amusing themselves at Lisbon, by making an excursion on the Tagus in a gondola which had been sent from Venice for the use of the royal establishment. The affair created a great sensation.

— Thorlow Weed, in speaking of Mr. Lincoln's renomination for the Presidency in 1864, says that instead of wishing the nomination of Mr. Johnson as Vice President, his (Lincoln's) candidate was the late Daniel S. Dickinson.

—Time, says a late writer, brings experience in its train. We learn that "vice does not pay." We discover by degrees that the sin is far less sweet than we fancied, and that it costs much dearer than we bargained for. We grow better calculaters than we were; we reflect more profoundly; we measure and weigh more accurately.

— A Scottish member of Parliament, named Sainde, has resigned his seat. He was foolish enough to bring a libel suit against a country newspaper, and the disclosures made by the defense were such as to compel his resignation.

— A fashionable lady of Reading, Pa., a woman of culture and refinement, was found in the streets of that city on Monday in a state of brutal intoxication, and uttering most shocking language. A gentleman acquaintance happened to meet her, and conducted her away to her home.

— The ultimatum of Spotted Tail and Turkey Leg, the principal chiefs of the hostile Indians on the western prairies, includes the abandonment of the Pacific Railroad by the long-faces. The prosecution of that enterprise is probably the real grievance of the beligerent red skins, who are not civilized enough yet to know that the penalty for butting against the locomotive is death.—*N. Y. Atlas.*

— The temperance movement has enrolled 1,500,000 persons within the last twenty-five years. Its societies have 3000 members in New Jersey, in addition to the women who are members, 25,000 members in New York, from 8000 to 10,000 in Nova Scotia alone, and from 35,000 to 40,000 in the British Provinces, and in the whole of North America 200,000.

— It will not be encouraging to those who are hunting up fortunes left in England to unknown American heirs, that a statue of limitation, passed in the latter part of the reign of William III., about 50 years ago, legislates away all chance of receiving such property, if left by testament or otherwise, after ten years from the passage of the Act of Parliament.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

GLEASON HALL.
PRESENTATION FESTIVAL,
The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, August 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are confident that all the ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The tickets, which have been limited to 75,000 at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:—

Three Melodeons, - - - -	375
Two Bedroom sets, - - - -	200
One Grover & Baker Sewing Machine, plated,	85
One Wheeler & Wilson Sewing Machine,	70

And Thousands of Other Presents,

Consisting of

Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Glassware, Silver Plushes, Sets Knives and Forks, Sets Spoons, Dressing Cases, Port Monnaies, Scarfs, Tables, Bedsteads, Mattresses, and other articles too numerous to mention.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that the moneys received for the sale of Tickets are to be placed to our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be countersigned by Mr. Casey as correct, and we will pay off and discharge, from the money so received, all mortgages upon the property. ANDREW ALEXANDER,
THOMAS BATH.

The undersigned Citizens would most cordially recommend the enterprise engaged in getting up these Concerts as an honorable and reliable person, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public.

Hon. Oscar F. Potter, Member of Assembly, Albany Co.; Hon. George Mark, Supt. West Troy Penitentiary Co.; N. F. Wilbeck, N. Y. C. R. R.; Wilbeck, Att'y and Coun. at Law; A. J. Rousseau; Dr. J. P. Rogers, Justice of the Peace; Russ & Co., 34 Dey st., N. Y.; John A. Gladding, Lansingburgh, N. Y.

SPECIAL TABLE OF CASH RATES.—Five Tickets, $4.50; Ten Tickets, $9; Twenty Tickets, $18. A photograph of the Metropolitan Hotel may be seen at the office of our Agents.

Tickets may be procured at

At BATCHELDER & CO.'S STORE,
3 Congress Street, Portsmouth.

N. B.—In order to give confidence to the public, and secure them in their investment, we allow our agents to retain all moneys received for the sale of tickets, until the distribution takes place.

We, the undersigned, having been appointed a Committee by the ticket holders of the Gleason Hall Presentation Festival, to decide in what manner the drawing shall be conducted, do decide and determine that all the numbers from 1 to 75,000 which shall be printed in one wheel for the first drawn number shall take the highest prize, the second the next highest, and so on until all the prizes are drawn. Having this will meet the approval of the ticket holders, we remain, &c.,

WASHINGTON ITEMS.—The sub Committee of the Judiciary of the House appointed to investigate and report whether Maryland has a government republican in form, meet in Baltimore this week. Congressman Frank Thomas of that State is chairman of the sub-committee. It is understood that Thad. Stevens takes deep interest in this matter, and intends to labor zealously at the coming session to induce prompt congressional action. Among the points which the committee will investigate is the alleged fact that the present constitution places the control of the State in the hands of the lower and eastern counties, which contain but a few more than a fifth of the voters, and not a tenth of the property of the entire State.

Telegraphic advices from Montgomery, Alabama, state that the election closed on Thursday, in that State, and that a large majority of the registered votes have been cast on the question of calling a convention under the Reconstruction act, and that a majority of the number are in favor of the convention.

Col. Thomas W. Sweeney, of the 16th Regular Infantry, and of Fenian fame, has been tried by Court Martial and sentenced to six month's suspension from pay and and rank, on serious charges of indecent conduct, &c.

MEXICO.—News from Mexico by way of Havana is to the following purport:

"The decision of the government has revealed to the political prisoners their fate, but has not yet revealed to them all, for they know not where or how they are to be imprisoned—that is, those condemned to this punishment. Those exiled know they must leave the country, but not for how long, or if for life."

The Convocation of Juarez is generally condemned. The mayor of the city of Vera Cruz writes to Juarez that the reprobation is general, and not confined to the discontented.

Detonations have been heard from Penon Mountain, causing great fears of a volcanic eruption, which would cause great damage to the capital.

The city governments of Zaragoza and Tulaucingo have formally protested against the Convocation.

A NEW COTTON MILL at Nashua was "dedicated" on Wednesday evening by a social levee, a promenade concert, and a complimentary benefit to the Nashua Cornet Band. The levee was held in a great hall in the fifth story, where addresses were made.

While the speaking was going on the number of persons present probably exceeded three thousand, and was thought to be the largest in-door gathering ever known in New Hampshire. Among those in attendance were Mayor Scripture and both branches of the Nashua city government and Mayor Clark of Manchester. At 10 o'clock it was in order to trip the light fantastic toe, and over five hundred couples joined in the first dance.

The new mill takes the place of the old mill erected in 1832, and which was torn down to give place for the present structure. The foundation walls were laid in November of last year. The building is 258 feet in length, 77 feet in width, and five stories in height, exclusive of basement. 1,800,000 bricks were used in its construction, besides 190,000 feet of timber and 500,000 feet of planks and boards. The machinery will all be new. 30,000 spindles will be run and 500 operatives employed. An extra fine grade of sheeting will be manufactured. The capital stock of the Company amounts to one million of dollars, and the new mill will be built and furnished entirely from the surplus earnings of the corporation. The new structure will certainly be one of the model cotton mills of the State.

ELIAS HOWE, JR., the great sewing machine inventor, is dead. He struggled through difficulties to success, achieved fame and large fortune, and is gone the way of all the earth. His success at the Paris Exhibition is of too recent date to dwell upon at length. In July last he received the gold medal for his sewing machine, and was made a member of the Legion of Honor by the Emperor as a personal mark of recognition for services which he had rendered the industrial world.

Howe was a peculiar, remarkable man, not free from the infirmities of genius; but possessing a patriotic heart, he raised a regiment in Connecticut during the war,—and refusing the command of it, accepted the position of private. He served with the regiment, performing duties which contributed to the comfort of the men, and when ill health obliged him to ask for his discharge, his associates felt that the Father of the regiment was leaving them.

☞ At Philadelphia, Oct. 4, the raid on illegal whiskey stills was very successful; the marines having their muskets loaded, overawed the still owners, and the Marshal's officers were not disturbed except by threats and groans. 11 illegal stills were seized.

NEW HAMPSHIRE ITEMS.

—— Two starch mills were burned in Coos county week before last, one in Wakefield, the other in Colebrook.

—— Mr. & Mrs. Safford Watson, of Sutton, celebrated their golden wedding on the 24th of September.

—— Samuel B. Hope of Dunbarton gathered ten barrels of good Baldwin apples from a tree standing in his pasture, grafted fifteen years ago, and having no extra care for five years past.

—— The late Aaron Lawrence, of Amherst, leaves to the American Board of Commissioners for foreign missions, $1000; American Home Missionary Society, $500; New Hampshire Bible Society, $500; American Tract Society, at Boston, $500.

—— The body of John Daroughty, an Irish laborer about forty years of age, was found in Nashua, Thursday morning, suspended by the head between the pickets of a fence. It is supposed he became insensible while leaning upon the pickets, and thus met his death. Daroughty was a member of the Third Regiment, and appears to have been disposed to insanity while in the service and since. He leaves no family.

—— Miss Fanny Harper, of Meredith, was fatally burned Sept. 18, causing death the following day. She had two kerosene lamps upon the floor, one lighted, and while filling the other spilled some oil from the can, the vapor of which immediately took fire from the lighted lamp, and in attempting to put out the fire by stamping upon it her clothes took fire, and she was almost instantly enveloped in flames, in which condition she ran out of the house; but the fire was not extinguished until about everything was burned from her person, and her body terribly burned. People must be careful about filling kerosene lamps near fire, as there is danger of combustion, or other accidents.

☞ Mrs. Stephen Webster of Amesbury, who was killed on the Railroad at Hampton, recently, was in company with Mr. John Kimball, returning from a morning ride to Hampton Beach. On nearing the railroad crossing in Hampton, and hearing the approach of the 11:30 train from Portsmouth, he stopped his carriage, but the shrill whistle of the engine so frightened his horse that, becoming unmanageable, he ran with great speed towards the crossing, arriving there just as the train was passing, then turned, and as the carriage came round in an opposite direction from that of the train, it caught on the forward part of the car, and horse and carriage was dragged along with the train a distance of nearly a rod, throwing out the occupants, and Mrs. Webster fell, striking, it is supposed, against a post, and was instantly killed by the breaking of her neck. Mr. Kimball, a highly esteemed merchant of Amesbury, was somewhat injured, though it is hoped not seriously.

☞ The Congressional Committee *charged with investigating the* treatment of Union Prisoners, give notice to the Prisoners of War and Union Citizens held by the Confederate authorities during the late rebellion, and now residing in New England, that they will commence their session for taking testimony for the N. E. States, at Boston, the 15th Oct., and will probably remain in session several weeks. Every soldier and citizen desirous of appearing before the committee is requested to send his address to Gen. A. F. Stevens, Nashua, N. H., as early as possible.

☞ At Amesbury Mills, Sept. 20, Palestine Social Temple No. 8, in connection with Whittier Temple of Honor, was instituted in the Temple Hall. The Social Temple bears the same relation to the Temple of Honor as the degree of Rebecca does to Odd Fellowship. They are Temperance institutions. The Villager says, Whittier Temple of Honor started eighteen months since with eighteen members, and has now about sixty. It is looked upon as one of the five Temples of the State. Although the cost of the initiation and degrees is eighteen dollars, yet their possession fully recompenses those who have taken them.

—Kirby Smith is teaching a high school in Tennessee, under the auspices of the Southern Episcopal Theological University.

— Fifty head of cattle and a large lot of sheep were burned to death on Thursday on board the Bermudan barque Eliza Barss, lying in the North river at New York.

— An important decision has recently been rendered in Maine, in regard to the bearing of statutes which regulate the validity of the wills informally made by soldiers in actual service. The general principal asserted is that such documents should be religiously respected.

—At the lakes in the northern part of Maine, on Monday, the snow fell to the depth of ten inches. At Rumford, Oxford county, there were four inches, which remained on the ground and roofs of buildings all day. Such a snow storm was never before known in these regions in the month of September.

PRANG'S AMERICAN CHROMOS.—L. Prang & Co., Boston, have just issued two exquisitely colored chromo-lithographs.—One of these—called Correggio's Magdalena—of the French-Italian school, in design and execution, is an artistic representation of the human form, and will find many admirers among persons having a fancy for such pictures. The firm say: "We have spared no pains and no expense to make this picture a satisfactory specimen of our art, and while we do not venture to anticipate the verdict of the public on our work, we feel confident that it will be regarded as the most finished piece of chromo printing which thus far has left our press. This chromo is the result of twenty-four printings, each representing a different tint or color."

The other picture, entitled "The Poultry Yard," is a very spirited and beautiful sketch of those comfortable looking fowls forming one of the chief ornaments of every well stocked farm. Chanticleer and his family appear as contented and happy as possible. Thrown into the foreground of the work, the brilliant rod of a portion of them contrasts finely with the setting of green arraying the foliage of the trees in the background. The effect of the whole is to produce a picture of more than ordinary attractiveness. Chromo-lithography has almost reached perfection, when sketches like that to which we have referred in the foregoing, so rich in color and commendable in finish, are among even its rarest products. The artists in this case are entitled to high praise for their remarkable skill in their profession.

These two works are included in a list of thirty chromos, published by Prang & Co., 159 Washington street, Boston, and may be seen for a day or two in the window of Mr. Foster's bookstore.

☞ Rev. Wm. F. Bacon was installed pastor of the Congregational Church and Society at Amesbury Mills, on Thursday evening, Sept. 26th. Invocation and reading of the scriptures by Rev. A. B. Peabody, of Hampton Falls; sermon by Rev. S. J. Spaulding of Newburyport; ordaining prayer by Rev. J. R. Thurston of Newburyport; Right Hand of Fellowship by Rev. E. O. Jameson of Amesbury; charge to the pastor by Rev. D. T. Fisk of Newburyport; charge to the people by Rev. R. Campbell of Newburyport; benediction by the Pastor. The examination of the candidate and the singing under the direction of Mr. J. H. Carter were well sustained and highly acceptible.

☞ Workmen are busily engaged in getting the halls of the Senate and House of Representatives in order for the coming session of Congress. Both are being furnished throughout with new furniture.

—It is stated that the King of Italy has recently had an attack of apoplexy, and that, though it has produced no evil consequences in his body, it has given him great disquietude as to the state of his soul

—The Washington correspondent of the Baltimore Gazette, an intense Southern sheet, thinks Grant will be the radical candidate for the next Presidency. He declares that the General is kept in the background now in view of the possible defeat of radicalism in the coming elections, when his name and prestige are to be brought forward to stay the current.

Herrick Allen's Gold Medal Saleratus is cleansed of all impurities, and contains the largest amount of all necessary and wholesome properties which can be concentrated in the same weight; is guaranteed to give the most perfect satisfaction, or the money refunded.—It will cure dyspeptic persons, and save the health of all who use it. Grocers and druggists sell it. Depot 112 Liberty street, New York. 14

A NOBLE RESPONSE.—Too much praise cannot be given to the noble response with which the Washington Library Company of Philadelphia are meeting in their patriotic endeavors to raise the required funds for the endowment of the Girard Institute, a home for the gratuitous education of soldiers' and sailors' orphans. The plan adopted by the company has been subject to careful deliberation, and has received the endorsement of eminent legal authority. The trustees selected to disburse the money thus raised are well-known citizens of Pennsylvania and New Jersey, and their names should be a sufficient guarantee to those who would aid in rearing one of the noblest charities that ever threatened itself before the people. Every subscriber to the stock, which costs but one dollar per share, not only receives a fine steel plate engraving, worth at retail fifty per cent. more than what is paid for the stock, but is also guaranteed some present in the great distribution of the $200,000 worth of presents which are to be awarded to the stockholders. The three largest presents are worth $70,000.—Each shareholder has an equal chance to obtain one of the largest presents. Every one will obtain some present and a beautiful engraving.—Read advertisement.

DUNSFER'S L. D. GIN is put up in large square bottles, neatly and strongly packed in zinc boxes. It is a pure Gin and gives universal satisfaction. Sold by C. A. RICHARDS & CO., 99 Washington street, Boston, and by their agents every where. 15

IMPORTANT ANNOUNCEMENT. LAST CALL! The Gleason Hall Presentation Festival and Drawing will POSITIVELY TAKE PLACE on THURSDAY Evening, October 10, 1867.—This is no gift swindle gotten up under the guise of charity to defraud the public, but a purely business enterprise, gotten up on strict business principles, to dispose of the large and valuable property named in our advertisement. The better to please the public that are inclined to invest, we allow all of our agents to retain all moneys they receive from the sale of tickets until the drawing takes place, and we advertise to that effect. Parties desirous of investing had better secure their tickets in time, as the drawing will positively take place on the evening above named.

ARE ALL MEN EQUAL?—All men are equal in natural rights—but not in intellect and inventive genius. Thousands of Saleratus makers have tried in vain to make a first-class article! James Pyle has surpassed them all, and his Saleratus is the perfection of the art. Tell your grocer you want Pyle's Saleratus, and no other. His name is on every package. 22

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh in its unhappy consequences, who are not aware of the danger to which they are exposed. Symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to progress from one stage to another, increasing in virulence and march more and more surely, resistlessly, if you would avoid the danger of its ultimate consumption, do not neglect a Cold or Catarrh in the head. That this disease is seated in its tendency and productive of such unhappy consequences, no one will be apprised to deny. It will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air impressing over these putrid and ulcerated surfaces, must necessarily imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is conveyed full of poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been as little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful, in this and other cities, and in every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, he feels justified in thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the Jewett House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professions generally, who practice from place to place; but there do not apply to Dr Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced, well known for his able and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city,—feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867

Persons troubled with blindness, deafness or catarrh, should go well to consult Dr. Carpenter. We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the Editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had great success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

QUARTER OF A MILLION SAVED A DAY.
One hundred thousand men now labor with good results, who, until they used
ALL OCK'S POROUS PLASTERS,
had not done a day's work for years. So these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.
AN IMPORTANT LETTER.
SHRUB OAK, N. Y., June 19, 1860.
T. ALLCOCK & CO.—Gentlemen: I have been troubled with a lame back over ten years, so as to be entirely helpless, and have had to keep out of hard work. In June last I procured one of Allcock's Porous Plasters and Soreit 3 weeks when I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days.
STEPHEN PUGSLEY.
ALLENSTOWN, Penn., April 4, 1865
Messrs. T. ALLCOCK & Co.—Dear Sirs: My daughter used one of your Porous Plasters. She had a very bad pain in her side, and it cured her in one week. Yours truly,

SCHENCK'S MANDRAKE PILLS.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates the fatty particles from it. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, dyspepsia, fever, headache, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make us miserable while we live, and unfit for the performance of any of the duties of life. This healthy state of the system very often can be restored by a few doses of
The circulation of the blood is conducted in this manner:—The heart sends the vital current from through the arteries; they carry it to all the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphine or opium in some shape, which locks up the liver in a fast of relaxing the secretions giving a tone to the stomach, and breeding a healthy flow of bile. Dr. Schenck's
PULMONIC SYRUP SEAWEED TONIC AND MANDRAKE PILLS,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are separately and full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the lungs, the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his residence. Prices of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

TO OWNERS OF HORSES AND CATTLE.—THOMAS' DERBY CONDITION POWDERS are warranted superior to any other, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn disease, etc., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P. Bush of the Jerome Race Course, Fordham, N. Y., has found out use them until he was told of what they are composed, since which he is never without them. He has one of the finest stables of trotting horses in the country, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Local.

☞ October 7th, 1756, just one hundred and eleven years ago this (Monday) morning, Daniel Fowle issued the first newspaper ever printed in this State, which he called the New Hampshire Gazette — the name it still bears. Mr. Fowle's office was on Pleasant Street, as ours now is; but his was in the irregular shaped building still standing on the corner of Washington and Howard Streets;—and singularly enough, a boy living in that very house, is now employed in this office.

☞ The Boston Journal says—"there was a pleasant party at Dedham on the 1st inst., to witness the marriage of Mr. George K. Hooper, of the firm of Beal & Hooper, to Miss Louise M. Adams, the accomplished vocalist, whose retirement from professional life will be regretted by the community. The best wishes of all attend the couple in their new relation." We regret business forbid our attendance on the happy occasion. Mr. Hooper, although not exactly a Portsmouth boy, lived here in his youth; and the father of the bride, Mr. Benjamin Adams, now residing at Dedham, also formerly lived here, and we believe was a native of this city. The lady will be remembered by Portsmouth people, as the charming vocalist who appeared in concerts here with Mr. Barnabee, last winter. We wish the happy couple all the bliss which fate seems to promise them.

☞ The Piscataqua Fair will be all ready to-morrow, if we only have Fair weather for it. It will be a grand occasion for old Portsmouth, and we hear talk of making a general holiday in the city on Wednesday or Thursday—suspend business, dismiss schools, and all go to the Fair. This ought to be done, and will be if some live man will take hold and see to its being arranged. The cars on both Eastern and C. & P. Railroads stop all trains near the track—and every able bodied man, woman and child ought to visit the Trotting Park at least once during the Fair. We have no doubt school children would be admitted for half price in a body.

☞ William Collins, a fisherman who has lived on Gates Street with his family, consisting of his wife and several children, left here in a whale boat to go fishing on the 18th of last month, since which time nothing has been heard of him alive. A dead body was picked up on Hog Island, Gloucester on the 29th of Sept., which it is presumed may have been Mr. Collins. He was a sober and industrious man.

☞ The Concert at the Temple on Tuesday evening will doubtless be a nice affair, where all can spend an hour in listening to fine music by the Band from the U. S. ship Vandalia, under the leadership of Antonio Galvao, and at the same time, get the result of Elections in four States. Tickets by the package can be had at the Temple at reduced prices. One gentleman from each political party will be chosen to receive and announce the telegraphic dispatches. The following is the *musical* programme, it remains to be seen what the political programme will be.

1. Rudolph's March of Thos. Gung'l.
2. Potpourri, of del Opera Vespores Sicilian of Verdi.
3. Mabel Valse, of Godfrey.
4. Potpourri of Opera Somnambula, Mercadante.
5. Soldiers' Polka, of Ch. Albert.

2D PART.

6. Overture of "Zampa," Herold.
7. Il Baccio. Valse of Ardite.
8. Lombardi, Opera Donizetti.
9. Banditti, Verdi.
10. Summer night in Denmark, Galop of H. C. Lumbye.

NAVAL.—Surgeon Albert C. Gargas has reported for duty at this naval station.
Surgeon A. L. Gihon is ordered to duty on board the Idaho, now fitting as storeship of the Asiatic squadron.

☞ Two suspicious appearing men hired a bay mare and top buggy at Stoddard & Beacham's livery in this city on Friday 4th inst., and the owners offer $100 for arrest of the thieves and return of the team.

☞ There is talk of a Promenade Concert at Congress Hall, one evening during the Fair, by the same managers—music by the Portsmouth Cornet Band.

☞ At a meeting of citizens at the Mayor's office Saturday evening a committee was appointed to extend an invitation to Gen. Sheridan to visit this city. The Committee will with the committee of Aldermen, wait upon the General to-day in Boston and personally present the invitation.

☞ On account of the storm, Saturday, the Annual Meeting of the Horticultural Society of this city stands adjourned to this (Monday) evening at 7 1-2 o'clock, at the Common Council Room. All members are requested to be present. 1t

☞ A drove of cattle, belonging to Mr. Harvey Philbrick of Shelburn, while crossing the bridge from South Berwick to Salmon Falls, on Wednesday, of last week broke through, and 12 of the 64 which went into the river were drowned before they could be got out.

☞ The Strafford County Fair adjourned on Saturday morning until Tuesday the 15th when the races for the last day will take place. "Nellie Locke" goes that day for the largest purse. The receipts thus far have been about $5000.

☞ The barn of Thomas Motley, in West Roxbury, was burned on Saturday morning, with 70 sheep, 7 cows and 2 horses. Loss $12,000.

☞ The U. S. Court meets at Exeter on Tuesday the 8th. Several counterfeiting cases will be tried.

GOLD, Saturday, 144 7-8.

—Mrs G. V. Brooke (Avonia Jones) died in New York on Friday, aged 29.

☞ Remember! — Free Lunch at the Union Billiard Hall, to-night, 9 o'clock. o7

☞ The Headquarters of the P. R. Agricultural Association are at Room No. 4, Franklin House. Meetings will be held every evening, and all officers, members and other citizens interested in the success of the Fair, are invited to be present. 1w

Fresh Beef and Vegetables.

NAVY PAY MASTER'S OFFICE,
58 State St. Portsmouth, N. H., Oct. 1, 1867.
SEALED PROPOSALS, endorsed "Proposals for Fresh Beef and Vegetables," will be received at this office until 2 o'clock, P. M. on the 12th day of October, for the supply of 50,000 pounds of Fresh Beef, and 50,000 pounds of Fresh Vegetables, at the Portsmouth Navy Yard and Station, as required. The Beef and Vegetables must be perfectly fresh and of good quality, and each article must be offered for by the pound. The Beef to be in equal proportions, fore and hind quarters.
Bonds, with approved security, will be required in one-half the estimated amount of the contract, and twenty per cent. in addition will be withheld from the amount of each payment to be made, as collateral security for the due performance of the contract, which will, on no account, be paid until it is fully complied with.
Every offer made must be accompanied by a written guaranty, signed by one or more responsible persons, that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the articles proposed. The responsibility of the guarantors to be certified to by the Assessor of Internal Revenue for the District in which they reside.
No proposal will be considered unless accompanied by such guaranty, and by satisfactory evidence that the bidder is a regular dealer in the articles proposed and has the license required by act of Congress.
The Department reserves the right to reject any proposal not considered advantageous to the Government.
It is understood that in case the stipulated quantity of either article shall be delivered, leaving a balance due on the other article, the contract may be considered as completed in full at the option of the Department.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *only link across the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, connecting at Ogden with the Great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be vigorously pushed. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$497,404 84	$286,418 47	$210,986 37

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the section of the line where the traffic of both its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $125,000.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain range.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 863 miles $28,592,000, or at the average rate of $33,000 per mile—and will receive a land grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interest against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are offered for sale at par and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the *work progresses*, and to the same amount only as the Bonds granted by the Government for said work—and, in all cases, *the first liens* upon a completed, equipped and productive railroad, in which have been invested Government Bonds, Company's Stock and Subscriptions, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have the additional and noticeable advantages over all other classes of railroad bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the through line.
Second—Besides the fullest interest of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.
Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.
Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.
Fifth—The principal and interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Guardians and others as an unusually *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

☞ Speaker Colfax, in a note referring to a speech of his, says:

"I said that I counted the days till Congress would meet, because in twenty days after that time Edwin M. Stanton would go back again to the War Department in spite of the malignant President who sought to expel him from the position in which he had served the country so faithfully; that when Congress resumed its legislative authority, the House, in accordance with the demand of the loyal masses throughout the land, would be required to place the President before the tribunal provided by the Constitution, to defend himself there from the charges of persistent usurpations, and persistent violations of the oath which requires him to take care that the laws shall be faithfully executed; and that, while I did not believe Mr. Johnson dared to fulfil the threats against Congress now being made by his Washington organs, apparently in his name, yet whoever did dare to destroy the Legislative Department of the Government, by revolutionary force, whether President, Cabinet Minister or citizen, would be tried for his treason, and punished as a traitor, with his feet, not like the traitors of the recent rebellion, on the earth, but in the air."

PECULIARITIES OF THE YELLOW FEVER.—The Yellow fever has been especially severe at New Iberia, La., a place of about two thousand inhabitants, of whom over seven hundred and fifty, or more than a third, were attacked and one hundred and fifteen died. Of the effect of the disease on different classes in the community a correspondent of the Franklin Banner remarks:

"Women are the most fortunate, children next, bachelors occupy the third place, and married men come last. The latter have had but a poor show here. The more loving and tender the wife, the more certain the death of her husband if attacked. Too great a display of attention, mixed with anxiety not easily disguised, has hastened the end of many husbands, and yet, so long as yellow fever remains, and wives are constituted as they are, the same results will follow from similar causes. You may draw a useful hint from the above. If taken sick send off wife and children, make your bed in a good airy room, get two good nurses and have plenty of ice on hand. When you get to bed keep your stomach free of solids, your feet warm and head icy cold if possible; keep all lugubrious visaged friends away, see only a few, and those of a cheerful sort.

A QUESTION FOR BANK CASHIERS — Lent $1480,—part of it at 6 1-2 per cent., and the remainder at 5 per cent. At the expiration of fifteen months, received for principal and interest $1584.75. Required the separate sums loaned.

This question may be easily solved by Doubly Position, but the answer is required by Analysis, illustrated. TYRO.

—A man receiving a visit from a creditor, can be said to have a *bill*-ious attack.

— A "close morning,"—to-morrow morning is the closest at present.—*Punch.*

— Hon. Henry J. Raymond says he has personally quit politics for good.

— Why is a newspaper like a wife?—Because every man *ought* to have one of his own.

— It is estimated that the late hail storm in Philadelphia destroyed $200,000 worth of window glass.

—A Confederate soldier in Virginia claims to have marched over 17,000 miles during the war.

— James Gordon Bennett taught school in 1818, at Steuben, Me., for two dollars a week and his board.

—"Sam," the oldest dog in Troy, N. Y., died last week, aged 18 or 20 years. He had his day, didn't he?

—A farmer of Guilford, named Boyden, while at the Vermont State Fair had his pocket picked of $1100.

—The Hartford Times, annoyed by the enthusiasm of the people over Sheridan, tartly snarls out: "He should be sent out West to his post of duty."

—Senator Sherman, who is electioneering in Ohio, opposes female suffrage. During a recent speech in Bellefontaine he stated, among other reasons, why women should not vote, that they are now well represented by their husbands, sons, brothers and lovers.

—The Young Men's Christian Associations of Massachusetts, (of which there are forty-eight in the State, more than in any other State in the Union,) are to hold a State Convention at Springfield on the 10th and 11th of this month, for the purpose of mutual encouragement and consultation in regard to the best way of extending their efficiency and usefulness.

— Chief Justice Warner and Judges Harris and Walker of the Supreme Court of Georgia, have written letters favoring reconstruction under the military bill. All the Judges unite in asserting that their acceptance of the measure is one of necessity and not of choice, and they urge the people to adopt it, regardless of its unconstitutionality and negro suffrage clause, rather than risk more oppressive laws as a result of rejection.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild, Paris, 8th April, 1864, 15 Rue Fauby St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Baron Solomon Rothschild having recommended to several of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—It is also most efficatious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diahrœa, Dysentery, Cholera Morbus, Cholera Infantum*, &c., and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of stomach complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT**, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 126 Greenwich st., N. Y.; Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by Doms Enos. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for Consumption, Bronchitis, Asthma, *Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up by all. The child was cured and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those who wish it, the recipe, with full and plain directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay postage. There is not a single symptom of Consumption that it does not at once take hold of and dissipate. Night sweats, feverishness, alteration of the voice, indistinct memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.

The Chronicle.

— The old English brutal "fag" system prevails at West Point Academy. The young men are trained to be subservient and cringing to those over them, and arrogant and brutal to those below.

—Mistress: "For goodness gracious sake, Martha, go and take that ridiculous thing off, do." Martha (which I were well aware it were my new bonnet she were eluding): "Well, there, Mum, I declare, Mum, I give my milliner borders to make it precisely similar to yourn, Mum!"

—A sailing carriage, designed for crossing the plains, has been made at St. Louis. Its wheels are ten feet high; it has two upright jib sails, and a sail on each spoke of the two wheels on one side of the wagon.—The steering gear acts on the forward wheels. The body is shaped like a boat, and hung low, and will be used as a boat in crossing the streams.

— London is enjoying the distinguished honor of entertaining the Viscountess Frankfort de Montmorency. An unlucky girl had not been three weeks in her service when she learnt what very opprobrious terms might proceed from the lips of a Frankfort de Montmorency; and the opprobrious terms being speedily followed up by the flinging of the pillow, the girl had recourse to justice, which condemned the Viscountess to pay forty shillings, or to go to prison for two months.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of whom know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse, CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. E. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 Endicott St., Boston, is consulted daily for all diseases incident to the female system, such as Uterine or Fluor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience the cure of diseases of women than any other hysician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to the office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, OCTOBER 8, 1867.

—"No person who has lost any of his property by gambling within four months of his application, can receive the benefits of the bankrupt law."

So say the papers; but will anybody tell us who is to define and decide as to this "gambling?" Does it mean only the poor devils who pitch cents in dark alleys, the richer ones who shake props or play cards for larger stakes; the bottors on elections or horse-races; or the biggest of all gamblers, those who "speculate" in gold or less real stocks and breadstuffs? This word gambling has a broad signification, and includes all games and business where there is "chance" to make or lose.

HAYTI.—St. Thomas advices say a serious engagement took place on the 13th ult., before Fort Biasson on the borders of St. Domingo, but on Haytien soil.

The Cacos Haytien revolutionists who are specially opposed to President Salnave, were in possession of the fort, hoisted a white flag, and while Salnave's troops proceeded to take possession they were fired upon and cut to pieces by the revolutionis's. Some of the members of the best families of Port au Prince are among the fallen.

☞ In New York city, two men have been arrested for setting fire to the ship Invincible which was burned a few weeks since. They had sold her rigging, &c., for junk.

Private letters state that great frauds have been perpetrated at the election in New Mexico.

Two agents of the State of New York are about to be prosecuted for frauds on negroes during the war, they having recruited them for that State, but retaining the bounty money.

CORREGIO AND HIS READING MAGDALENA.—The Italian artist, Antonio Allegri, born in Corregio (now Reggio), a small town near Modena, called himself after his native place, "Corregio," and under that name he became of world-wide renown. He was born in 1494, and died in 1534, and one of his last productions was the small but famous picture, the "Reading Magdalena," now in the possession of the Dresden Art Gallery.

Corregio is not known to have had much schooling in art, nor is he known ever to have visited even Rome (the only great centre of art and study at that time); he probably never knew the great painters of his age, but through their works; yet, by the force of his individual genius, he created a manner entirely original, and his creations are held by many critics to be the equal in form of Michael Angelo's, in expression of Raphael's, in color of Titian's. Like most artists of this time, he painted principally for churches and monasteries, but through all his works, even those of the most serious character, a vein of good humor, of kindly, humane feeling and of love for the beautiful in man, is perceptible.

His Madonnas and his Saints, in expression chaste and tender, full of dignity and holiness, are resplendent with life and earthly beauty, and his Reading Magdalena is considered to be one of the most perfect women ever painted. This picture perhaps has been multiplied through engravings more than any other in existence; but to reproduce it to all its glory of color, and to give back the very soul of the painter and of his work, has been reserved for the chromo-lithographic process, which in the hands of good artists and good printers, alone is able to render justice to the exquisite gem, and to bring a copy of it within the means of the art-loving thousands.

This latest and best issue from Prang's press, may be seen at Mr. Foster's Bookstore, where copies may be had.

☞ Dispatches from Omaha say a party of railroad thieves, whose operations extended over the Pacific Railroad during the past six months, has been broken up, and most, if not all, of them arrested. The parties implicated were connected with the road. The Pawnee scouts are highly incensed with Spotted Tail's Indians, and say when they are mustered out of the United States service they will make war upon them.

☞ A Washington item says Gen. Sherman had an interview with the President and called on Gen. Grant. Rumors are plenty that Gen. Sherman is called to fill any expected emergency, and the fact that the President's order for his presence was not sent through Gen. Grant, as required by a recent act of Congress, is cited to sustain the stories.

☞ The planing Mill of Jonas Fitch, Boston, corner of Federal and Florence streets, was burnt early Saturday morning, with a machine shop and some houses.—Whole loss $100,000.

☞ Blackwood's Magazine and the North British Review for September are received. These acceptable publications are furnished by the L. Scott Publishing Co., New York, at $4 a year.

— Alex. Reed, a colored man, who for many years had officiated as a waiter upon the Mississippi House of Representatives, died last week at Jackson. He was emancipated long since, by act of the Legislature, for his services in Mexico and for general good conduct.

NEW HAMPSHIRE ITEMS.

—— On Friday the Amoskeag Co., of Manchester, received orders for steam fire engines, from Boston, Albany and Detroit.

—— At the grand trial of steam fire engines at Albany, N. Y., the first prize was awarded to the Amoskeag Company of Manchester.

—— A fire in Concord, at 2 o'clock Sunday morning, did about $15,000 damage in Stickney's north brick block. Partly insured. Cause, bad chimney, or incendiarics.

—— On Saturday morning, Albert York, while at work at the Manchester Print Works, fell through an elevator 47 feet, bruising his back and hip seriously.—The wonder is that he was not instantly killed.

—— Wednesday morning of last week, Mrs. R. C. Hannaford of Peterboro', a fleshy, healthy-looking woman, about sixty years of age, arose in her usual health, built a fire in her stove, and soon after dropped dead upon the floor.

—— Two horses belonging to N. H. Batchelder of Haverhill, were recently found dead in Wood's pond in that town.—They had probably gone to the pond for the purpose of drinking, and wading in too far soon sunk in the mire until nothing but their heads could be seen.

—— Last week, in Peterboro', Geo. H. Longley, who had just finished grinding an axe at Felt's machine shop, while stepping down, from the frame, had his left leg caught by a projecting bolt and drawn between the stone and frame in such a way as to break the bones below the knee and mangle the flesh in a horrible manner.

THE PARAGUAYAN WAR.—The Buenos Ayres Standard states that in consequence of Brazil being unable to raise any more money at home or abroad, and finding herself unable to provide any longer for her army and navy, the allied forces had moved ahead to try a last chance to bring this war to an end, as the day that army bills cannot be discounted the war is at an end, and King Gold dictates peace.

ALABAMA.—Additional returns indicate a vote of 97,000, of which only two per cent. are against a convention. The probable number of white votes for a Convention is 20,000, against a Convention 2000. No colored vote was cast for a Convention. It was systematically and generally asserted till the voting was over, that the election had been postponed, thereby keeping thousands, mostly freedmen, from the polls.

CABLE ITEMS.—Dispatches from Rome states that great agitation and alarm prevails in that city.

Deputations are arriving at Florence, and memorials are pouring in from all the cities of the kingdom demanding that Rome by made the capital of Italy. The press throughout the country are urging subscriptions and raising money for the Garibaldi volunteers, who have been wounded in the fights which have occured in Viterbo.

At Paris it is reported that Napoleon has informed the Italian Government that it may occupy the Roman teritory with its troops, but they must not enter the city of Rome.

GEN. SHERIDAN'S RECEPTION in Massachusetts, and in Boston especially, were of the most enthusiastic and gratifying description; the details almost engross the Boston papers of Monday evening and Tuesday.

DOVER BREWERY.—966 1-4 barrels of Ale were sold from this establishment in the month of August. Tax $866 25.—*Enquirer.*

— There were only three cases of yellow fever in Mobile on Saturday.

— The entire fall of rain for August was nearly a foot; for September hardly an inch.

— Jefferson Davis is expected to arrive at Richmond about the 25th inst.

— The missionary bark, John Williams, has been lost on one of the Society Islands.

— New Orleans papers recommend that the public schools should be closed on account of the prevalence of the yellow fever. Children suffering with the disease are sent home almost every day.

— The President's construction of the effect of his amnesty proclamation upon suffrage has been put into a circular for Southern dissemination.

— Mrs. Deborah Saunders, of Gloucester, Mass., reached the advanced age of one hundred and one years on the 4th inst., and still retains her faculties to a wonderful degree.

— The official canvass of the late election in Colorado shows a Republican majority of ten in the Legislature. The State question was not agitated. The Democratic journals throughout the country have been claiming a great victory.

— A serious riot took place in Jefferson City, Louisiana, on the second day of the election. It commenced in a dispute between a white and black man and was followed by a general melee, in which firearms were freely used. Two whites and four negroes were seriously wounded. The military were called upon and soon quelled the riot.

— The details of the prize fight, on Smutty Nose Island, on Wednesday, are of the most disgusting character. If we have not got law enough in this State to reach such worse than beasts, it is time we had. We don't fancy having John Smith's islands made the rendezvous of bullies and blacklegs.—*Monitor.*

Unfortunately, Mr. Monitor, Smutty Nose Island is entirely beyond our jurisdiction, lying in the State of Maine. The Sporting Times sportively alludes to the scene of the late fight as "Bloody Nose Island."

☞ We have been shown one of the most dangerous counterfeit ten dollar bills which has ever been issued. It is on the First National Bank, Philadelphia. The general appearance of the bill is good and it is calculated to deceive even experts.—The money was intended to to be "shoved" this week, instead of which the Treasury Detectives "shoved" the makers last week, and captured $22,000, and paper all cut for $100,000 more. The parties arrested were two men and one woman. They are held to bail in the sum of $20,000 in Philadelphia.

☞ A dispatch from Ellsworth, Kansas, says that two desperadoes, named Charles Johnston and Geo. Craig, were forcibly taken from the custody of the officers by citizens and hung. It is rumored at Ellsworth that Gen. Butterfield and Superintendent Murphy are forcibly held by the Indians now assembled at Medicine Lodge Creek, waiting the arrival of the Indian Commissioner.

☞ From the Portland Star we copy the following taxable income returns in York county:

Elliot—Sylvester Bartlett, $304; James W. Bartlett, $304.

Kittery—Theodorus Bailey, $2678; Sarah Bailey, $552; Oscar Laighton, $1150; John Neal, $475; A. J. Penhallow, $88.

York—Nath'l G. Marshall, $132.

☞ In the Criminal Court in Boston, Saturday, George L. Briggs, alias Robert Dunlap, who was indicted for assault and battery, with intent to rob and also to kill Charles W. Andrews, liquor dealer, at No. 99 Union street, on the night of the 26th of last July, but to which a plea of guilty to assault and battery with intent to rob was accepted by the Government, was sentenced by Judge Brigham to twelve years in the State Prison.

☞ Gen. Augur has been appointed on the Indian Commission in place of Gen. Sherman, who, instead of leaving St. Louis on Saturday for the plains, as was reported by the newspapers of that day, left for Washington by order of the President, where he arrived Sunday morning. His name is mentioned in connection with the war office.

☞ The Concert at the Temple this Tuesday evening will doubtless be a nice affair, where all can spend an hour in listening to fine music by the Band from the U. S. ship Vandalia, under the leadership of Antonio Galvao, and at the same time, get the result of Elections in four States. Tickets by the package can be had at the Temple at reduced prices. One gentleman from each political party will be chosen to receive and announce the telegraphic dispatches. The following is the *musical* programme, it remains to be seen what the political programme will be.

1. Rudolph's March of Thos. Gung'l.
2. Fragarri, of Gil Oppera "Vespres Sicilian of Verdi.
3. Matel Valse, of Godfrey.
4. Fragarri, of Opera Somnambula, Mercadante.
5. Soldiers' Polka, of Ch. Albert.

2D PART.

6. Overture of "Zampa," Herold.
7. Il Fresco, Valse di Ardito.
8. Lombardi, Opera Donizetti.
9. Bandetti, Verdi.
10. Summer night in Denmark, Galop of H. C. Lumbye.

— Mr. James Piper of Barre, Mass., died on Thursday at the patriarchal age of 104. He was the oldest free mason in the State.

The young lady who had a thousand acres of valuable land, which the young man said was sufficient grounds for attachment, did not marry as well as the young lady without a fortune, who had learned to discard all kinds of Saleratus or Soda, save Herrick Allen's Gold Medal, which has no equal on this or the other continent. Go, ye young ladies, and do likewise, and Dame Fortune will smile on you also. Everybody retails it, and one of the wholesale groceries has opened a Depot 112 Liberty street, New York. 15

IMPORTANT ANNOUNCEMENT. LAST CALL. The Gleason Hall Presentation Festival and Drawing will POSITIVELY TAKE PLACE on THURSDAY Evening, October 10, 1867.—This is no gift swindle gotten up under the guise of charity to defraud the public, but a purely business enterprise, gotten up on strict business principles, to dispose of the large and valuable property named in our advertisement. The better to please the public that are inclined to invest, we allow all of our agents to retain all moneys they receive from the sale of tickets until the drawing takes place, and we advertise to that effect. Parties desirous of investing had better secure their tickets in time, as the drawing will positively take place on the evening above named.

JOHN H. CASEY, West Troy, N. Y.

Tickets for sale at Batchelder & Co.'s.

Where are you going?

I am going into CARTER'S Saloon, to get a dozen Providence River oysters, and shell.

Has he got Providence River oysters?

Yes; and has made arrangements to have a supply of them all the time.

Does he cook them?

Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. 82d

ARE ALL MEN EQUAL?—All men are equal in natural rights—but not in intellect and inventive genius. Thousands of Saleratus makers have tried in vain to make a first-class article! James Pyle has surpassed them all, and his Saleratus is the perfection of the art. Tell your grocer you want Pyle's Saleratus, and no other. His name is on every package. 22

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young merchantman for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to special advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market rates, are such as to enable them to offer them at prices which to-day are lower than any other house who sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"

"Muscatel,"

"Still Champagne,"

"Hock" and

"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to progress from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the danger of a seated Consumption, do not neglect a Cold or Catarrh in the head. That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect, that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these morbid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence none for the practice of which, adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He never professes to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Ear, Head and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will go to Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professions generally, who practice from place to place—but these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has been. He is a reliable and skilful specialist, and a physician of reputation and honor. We are glad that the Doctor is to visit our city, as feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb. 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter. We know him personally. He is a gentleman, is well read in his profession, is no humbug or deceiver, will not, in many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst forms. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Disordered Liver and the many Dangerous Diseases which are caused by a mor- bid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce their wonderful effects, which are attest- ed by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to se- crete and prepare the bile. It like wise filters the blood and seperates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function. If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause dys- pepsia, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and wearing, but rarely fatal. It is quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy condition of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner;—The heart sends the vital current down through the arteries, it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of miseration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treat- ment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relax- ing the secretions, giving a time to it. Death ensues, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A pamphlet may be required, to give a brief ac- count of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Sea- weed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. un- til 3 P. M. His visits are strictly confined to a thor- ough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also in Ports- mouth, at all times at his rooms. Price of the Pul- monic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

☞ The Fair at the new Trotting Park commences this morning, to continue three days. Most of the show, as designed, will be on the grounds; and the Town Ox Team from this city, with any stock which may come at the proper time from Maine, and cit- izens who may join, will be escorted to the grounds by Marshal Wendell and his assis- tants, Messrs. T. S. Nowell, E. D. Coffin, T. W. Jones, John Marden. The usual ques- tion is being asked, Which will be the best day the Fair? Well, we cannot say, but it is never sure to depend on having Fair for an- other day, and there is plenty of attraction all through, as the programme advertised will show. This morning, Procession at Park; this afternoon, Stallion Trot and Pacing Match. Cars on both Roads stop near the grounds. To accommodate the public, Tick- ets are for sale by Messrs. Preston and N. P. Thacher.

☞ The funeral of Nathaniel Knowlton of Eliot, took place on Sunday at the Methodist Church in Eliot, and was very largely attend- ed by the friends of the deceased from all quarters. He was much beloved and re pected by all who knew him, and his loss will be deeply felt in the town, of which he was a fi- nancial officer; in the church, of which he was an active and devoted member—and to the family circle to which he was endeared by his untiring love and kindness.

EPISCOPAL SOCIETY IN GREENLAND.—The first regular service of this society was held in Academy Hall, Greenland, Sunday last, on which occasion Rev. Thos. F. Davies, Rector of St. John's Episcopal Church in this city, officiated. The choir of St. John's Church were also in attendance, furnishing excellent music, which added much to the in- terest felt in the services. The attendance was large, and the interest taken in this new undertaking by the Greenland citizens indicat- ed that a flourishing society will soon grow up in that locality. Hon. Clement March and Hon. Albert Blaisdell are movers in the work.

Mr. Lane has furnished fine fruits to this mar- ket for a number of years, and from what we have tested of its productions we are prepared to state that his farm was one of the best in Candia.

☞ The Grand Encampment I. O. of O. F. for this State, held its annual session in this city on Monday. The Grand Lodge meets here to day, and the brethren in this city will give them a complimentary ball at Congress Hall to-night.

☞ On the Eastern Railroad, during the Fair, tickets from Newburyport, Ames- bury, and Way Stations, will be reduced to One Fare for the Round Trip. Trains will stop at the Plains Bridge to leave and take passengers.

☞ We learn that the new ship of about 1200 tons now building by Tobey & Little- field for John S. Pray and others, is soon to be launched, and is to be named "Ye Se- mite."

☞ In accordance with our custom when a Fair is held in town, we propose to give all our hands a chance to go, on Thursday, and so shall keep holiday on that day, and print no paper on Friday. Who will follow suit?

☞ A dispatch from the Committee of Invitation informs us that Gen. Sheridan will visit Portsmouth between now and the twenty- second inst.

☞ Two boys were run over and killed at Dover during the Fair.

ACROSS THE SIERRA NEVADAS.

THE CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE ACROSS THE CONTINENT,

being constructed with the AID and SUPERVIS- ION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great In- terior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Re- gions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the sum- mit of the Sierra Nevadas. The whole will be in a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, where the in- terior progress will be easy and rapid. Iron ma- terials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Expenses,	Net Earnings,
$187,579 64	$86,548 47	$101,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on the first 100 miles worked. This is now the sec- tion of the road

Morning Chronicle.

GEN. BEAUREGARD favors the public with the opinion that "unless the conservative element of the nation soon awakens to the danger that threatens the liberties of the country, we shall have anarchy and then military despotism." According to his way of thinking, we have military despotism now; so that there will be no change in the end. A man who thought that the country was to be saved by the southern rebellion is not the one to point out remedies for national troubles; a man who was educated at the cost of the nation and then deserted its flag, is not the one to preach political morals; a man who has utterly failed in his undertaking, is not the one to point out the path of success.

☞ A Democratic paper of Louisiana illustrates the rebel sentiment of its party down South by the following polite language:

"Grant said of Sheridan, 'He is a great general—fit to command a million of men.' *Ergo*, 'I, Ulysses Grant, am fit to command any given number.' They are both small fry, and should the President and Congress come to blows, and these lusty heroes go over to Congress, as they undoubtedly will, old Forrest, who can't parse a sentence of English, can take a good 'critter company' and whip them both out of their boots, and give them two to his one."

— A certain Lord Mayor, hearing of a gentleman who had had the small pox twice, and died of it, asked if he died the first time or the second.

—An English clergyman states that he recently advertised for a governess to instruct little children only, and that he received no less than two hundred and fifty applications for the past. "A vast number of the applicants were ladies competent to teach pupils who are finishing their education."

NEW ADVERTISEMENTS.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubly. St. Honore.
"Will you be kind enough to have forwarded to me here, 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. Belmont & Co., New York.
—Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Spasms, Sprains, &c.*, it is unrivalled.—It is also most effectious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT**, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 120 Fulton street, N. Y.; Chas. N. Crittenden, 48 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed John Tenn. LANE and countersigned by J. T. LANE & CO., Proprietors, 168 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."
☞ Use **Dr. Langley's Root and Herb Bitters** for Jaundice, Costiveness, Liver Complaint, Humors, Indigestion, Dyspepsia, Piles, Dizziness, Headache, Drowsiness, and all Diseases arising from Disordered Stomach, Torpid Liver and Bad Blood, to which all persons are subject in Spring and Summer. Sold by C. G. C. GODWIN & CO., Boston, and by all Dealers in Medicines.

MORE VALUABLE THAN GOLD.
DR. HOSKWORTH'S DRY-UP, for the Catarrh, a perfect and speedy cure for this loathsome disease in its worst term. No person suffering from Catarrh or bad Cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BURRINGTON, Druggist, Peabody, Mass. Also by G. G. Goodwin & Co. Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. The child was cured and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those who with it, the recipe containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption that it does not at once take hold of and dissipate. Night sweats, feverishness, irritation of the nerves, failure of memory, pain in the chest, hoarseness, all parts in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in. Address, CRADDOCK & CO., 1032 Race street, Philadelphia, Pa.

Manhood and the Vigor of Youth restored to the feeble and unfortunate.
DR. RECORD'S Essence of Life restores manly power, from whatever cause lost; the effects of early pernicious habits, the abuse, indiscretion or dissipation of mature years, the decline, and climax, give way at once to this wonderful medicine, if taken regularly according to directions (which are very simple and require no restriction in business or pleasure). Failure is impossible. Sold in bottles at $3, or 4 quantities in one for $9. To be had only of the sole appointed agent, Dr. AMBROSE RECORD, 1 GEUTZEN, 323 Bowery and 206 2d Ave., N. Y.

NEW RAILROAD CAR.—A novel style of rail car, carrying its own track, and designed for use of common roads or for the streets of a city, was shown at Philadelphia on Monday. In this vehicle the car moves the wheels instead of the wheels moving the car, and the wheels do not touch the ground at all. There are six pairs of wheels, and each pair has a broad, flat foot attached.—These "feet" rest on the ground and bear up the wheels, while two rails under the body of the car are made to roll along the upper surface of the tire as if it were passing over so many pullies or friction rollers. The feet and wheels are all connected by an endless chain, and as fast as the body of the car passes beyond one of these feet it is lifted from the ground and made to travel along to the front of the car, where it drops on the road again, and the whole is thus kept in continuous motion. The wheel truck in fact "walks" along the road, while the car itself rolls along over the wheels.

— The shoe business at Haverhill is reported as very quiet, but not stagnant.—Most manufacturers are doing something on orders, but none of the shops employ their full quota of hands.

— The Pennsylvania Female Good Templars have passed resolution not to engage themselves to any young person who indulges in even an occasional drink, or does not advocate the temperance cause.

—A singular case of accidental death has been the subject of a coroner's inquest in London. A woman was found in the streets with her throat cut, having fallen on the edge of a basin which she carried in her hand.

— A day or two since, a bright five year old boy, who had evidently just awakened from dreaming of eggs and chickens, suddenly exclaimed, "Mamma, where did they hatch the first hen ?" The reply of "mamma" was not heard by our informant.

— The French Emperor has taken decided steps to prevent the reckless use of timber in his dominions; and a great many of our sovereigns here in New England would do well to take example by him, as regards the preservation and planting of trees.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from the large list of purchasers are given for reference:

WEDNESDAY, OCTOBER 9, 1867.

STORM ON THE GULF COAST.—The papers contain accounts of tremendous gales at Galveston on Thursday, estimating the damage to wharves, shipping, goods and buildings at $1,000,000.

A three story new brick hotel was blown down upon Odd Fellows Hall, crushing it. The water spread in places entirely across the island.

The storm was general along the Gulf coast. Schooner Kadosh sunk in Brazos harbor. The storm was heavy at the mouth of the Mississippi.

Capt. Austin, of the steamship Tartar, reports having brought off the keeper of the southwest reef lighthouse. The structure was nearly destroyed by the gale.

CABLE ITEMS.—A Florence dispatch of Monday morning says reports hourly received from the south show that the revolutionary volunteers are invading the Roman territory on all sides. Yesterday a detachment of troops was sent out from Rome to meet the invaders in Frosinone, a province lying southeast of that city. A fight took place between them and the Garibaldians near the Abruzzi frontier, when the Papal troops were again defeated and compelled to fall back toward Rome.

At Paris, a report is current that Prussia receives with favor the appeal of the Italian Government to the European powers against the treaty of September, and will support the demands of Italy in regard to Rome.

A dispatch from Aden, at the mouth of the Red Sea, announces that the pioneer steamers for the release of the British captives, have sailed from that place for the Abyssinian coast.

Late advices from China report that a violent and destructive typhoon had visited the harbor of Hong Kong, causing great damage among the shipping. Several vessels were driven ashore and became total wrecks. Others were badly damaged and disabled. The destruction among Chinese craft was very extensive, the shores being strewn for miles with fragments.

TRIAL OF JEFF DAVIS.—A Richmond dispatch, said to be authentic, says the trial is set down for the fourth Monday in November, and as the Government will not interfere, there will be no postponement by counsel on either side. The offence of levying war against the United States will be testified to by Judge Scarborough of Norfolk, and Hon. John Goode, members of the Confederate Congress, and Captain Hendrea, who was compelled to appear before the Norfolk Grand Jury and testify to the facts upon which the indictment was made. There will be very few, if any, witnesses for the defence, the fact of levying war being admitted. The prosecution will then proceed with a legal argument that the prisoner is guilty of treason, and the counsel for the defence will argue that he being a citizen of a State, and under its laws, a primary allegiance was due to it and not to the United States. It has been positively asserted that Judge Chase would preside, but as the Supreme Court commences on the first Monday in December, this is not possible, as the trial is expected to last several weeks.

WASHINGTON ITEMS.—In order to put an end to the tremendous pressure made by the candidates to fill the vacancy in the Deputy Commissionership of Internal Revenue, occasioned by the dismissal of Mossmore, the Department on Monday decided to detail one of its clerks, George Parnell, who is familiar with the Internal Revenue law, to sit in the Metropolitan Revenue Board. This decision has occasioned much regret among the host of candidates, speculators and politicians who have been endeavoring to control the appointment.

General Sherman was at the War Department Monday, and had a long conference with Gen. Grant, Gen. R. S. Granger, Gen. Howard and several members of Congress.

FROM WASHINGTON. — The N. Y. Times special says it is believed that the President intended to offer the Secretaryship of War to Gen. Sherman, but finding his friendship for Gen. Grant too strong, he will not make the offer.

Nine-tenths of the voters in Louisiana were in favor of a Convention.

Only two per cent. of the votes in Alabama are against a Convention.

The Tribune's special says it is untrue that Chief Justice Chase attacked General Sickles' administration in the Carolinas.

It was decided at the last Cabinet meeting not to sell any more iron-clads.

—I friends of Pres. Anderson of Rochester, N. Y., have subscribed $30,000 to procure for him a house and library. He, in declining the Presidency of Brown University, said; "I felt that those who had me when I was comparatively worthless had a right to the benefit of any rise in the stock."

CHROMO PRINTING OR PAINTING.—Under the heading of "How Chromos are Made," the Boston Advertiser gives some very interesting facts concerning this process which has been carried to such perfection.

"Chromo-lithography is the art of printing pictures from stone, in colors. The most difficult branch of it—which is now generally implied when chromos are spoken of—is the art of reproducing oil paintings.

To understand how chromos are made, the art of lithography must first be briefly explained. The stone used in lithographing is a species of limestone found in Bavaria, and is wrought into thick slabs with finely polished surface. The drawing is made upon the slab with a sort of colored soap, which adheres to the stone, and enters into a chemical combination with it after the application of certain acids and gums. When the drawing is complete the slab is put on the press and carefully dampened with a sponge. The oil color (or ink) is then applied with a common printer's roller. Of course the parts of the slab which contain no drawing being wet, resist the ink; while the drawing itself, being oily, repels the water, but retains the color applied. It is thus that, without a raised surface or incisions—as in common printing, wood-cuts and steel engravings — lithography produces printed drawings from a perfectly smooth stone.

In a chromo the first proof is a light ground tint, covering nearly all the surface. It has only a faint, shadowy resemblance to the completed picture. It, is, in fact, rather a shadow than an outline. The next proof, from the second stone, contains all the shadows of another color. This process is repeated again and again; occasionally as often as thirty times. We saw one proof in a visit to Mr. Prang's establishment—a group of cattle—that had passed through the press twelve times; and it still bore a greater resemblance to a spoiled colored photograph than to the charming picture which it subsequently became. The number of impressions, however, does not necessarily indicate the number of colors in a painting, because the colors and tints are greatly multiplied by combinations created in the process of printing one over another.

In twenty-five impressions it is sometimes necessary and possible to produce a hundred distinct shades.

The last impression is made by an engraved stone, which produces that resemblance to canvas noticeable in all of Mr. Prang's finer specimens. English and German chromos, as a rule, do not pretend to give this delicate final touch, although it would seem to be essential in order to make a perfect imitation of a painting. The paper used is white heavy 'plate paper,' of the best quality, which has to pass through a heavy press, sheet by sheet, before its surface is fit to receive an impression.

The process thus briefly explained, we need hardly add, requires equally great skill and judgment at every stage. A single error is instantly detected by the practiced eye in the finished specimen. The production of a chromo, if it is at all complicated, requires several months—sometimes several years—of careful preparation. The mere drawing of the different and entirely detached parts on so many different stones, is of itself a work that requires an amount of labor and a degree of skill, which to a person unfamiliar with the process would appear incredible. Still more difficult, and needing still greater skill, is the process of coloring. This demands a knowledge which artists have hitherto almost exclusively monopolized; and, in addition to it, the practical familiarity of a printer with mechanical details. 'Drying' and 'registering' are as important branches of the art of making chromos, as drawing and coloring.

On proper registering, for example the entire possibility of producing a picture, at every stage of its progress, depends. "Registering" is that part of a pressman's work which consists of so arranging the paper in the press that it shall receive the impression on exactly the same spot of every sheet. In book work, each page must be exactly opposite the page printed on the other side of the sheet, in order that the impression, if not on thin paper, may not "show through." In newspaper work this is of less importance and often is not attended to with any special care. But in chromo lithography the difference of a hair's breadth would spoil a picture, for it would hopelessly mix up the colors.

"After the chromo has passed through the press, it is embossed and varnished and then put up for the market. These final processes are for the purpose of breaking the glossy light, and of softening the hard outlines which the picture receives from the stone, which imparts to it the resemblance of a painting on canvas.

"Mr. Prang began his business in the humblest way, but has rapidly increased his establishment until he now employs fifty workmen—nearly all of them artisans of the most skillful class—and is preparing to move into a larger building at Roxbury. Nearly all his force are Germans. He uses eighteen presses, and his sales are enormous. His catalogue now embraces a large number of Album Cards—about seventy sets of twelve in each set—a beautiful series of illuminated 'Beatitudes' and 'Scriptural Mottoes'—an endless list our great men, and of men not so great after all; of juveniles, notably, a profusely illustrated edition of "Old Mother Hubbard;" and of half chromos and chromos proper. Tait's "Chickens," "Ducklings" and "Quails" were the first chromos that met an instant and wide recognition. Nineteen thousand copies of the "Chickens" alone were sold. Bricher's "Early Autumn on Esopus Creek," is one of the best chromos ever made on a small scale. The "Bullfinch" and the "Linnet" (after Cruikshank,) are admirable. There are other chromos which are less successful and one or two that are not successful at all, but they are nearly all excellent copies of the originals, with which the defects must be charged.

"The chromos of Bricher's paintings are really wonderfully accurate. Mr. Prang's masterpiece, however, entirely surpasses all his previous efforts. It is Correggio's "MAGDALENA," and can hardly fail, we think, to command a quick sale and hearty recognition.

"Like every modern discovery, chromo-lithography has its partisans and detractors—those who claim for it perhaps impossible capabilities, and those who regard it as a mere handicraft, which no skill can ever elevate into the dignity of an art. We do not care to enter into these disputes. Whether an art or a handicraft, chromo-lithography certainly re-produces charming little pictures, vastly superior to any colored plates that we have had before, and it is at least clearly entitled to be regarded as a means of educating the popular taste and thereby raising the national ideal of art.

SALE OF UNITED STATES VESSELS.—The Navy Department sold, on Saturday, at the Navy Yard, Charlestown, through Messrs. Harris & Phinney, auctioneers, side-wheel steamship Bienville, 1558 tons for $45,500; sailing sloop-of-war John Adams, 700 tons, for $10,000, and the sailing sloop-of-war Wisconsin, 700 tons, for $8,600.

—It is expected that the cars will run as far as Alfred on the Portland & Rochester road by December next.

— The York National Bank has declared semi-annual dividend of 5 per cent., and the Saco National Bank a semi-annual dividend of 5 per cent.

— The disclosures relative to Mrs. Lincoln's wardrobe are causing considerable agitation among fashionable and political circles in Washington.

— A French steam corvette has arrived at Bangor from St. Pierre, Miq., for a cargo of bricks and cement for rebuilding the district in that city, recently swept over by fire.

— An eel was caught at Lewiston on Wednesday, which measured 4 feet and an inch and weighed 11 1-2 pounds, if the Journal tells the truth.

— The President of the Cuba Telegraph Company publishes a card, explaining the causes of the delay in the working of the new cable. The yellow fever and the stormy season in Florida have interfered with its operations.

— The internal revenue returns this year in Philadelphia show an increase in the number of watches owned in that city over those reported last year of over eight thousand gold and nine hundred silver timepieces.

— Maximilian's first made will, dated from Miramar, in 1864, constitutes the Empress Charlotta his sole legatee; in the second, written at Queretaro a few days before his execution, the late Emperor, in the belief of the death of the Empress, leaves the bulk of his property to the Archduke Francis Charles. The delegates appointed to settle the estate have decided to act according to the first will.

— Congressman Washburn made a speech Saturday, at Galena, in which he stated that Gen. Grant's sympathies are with Congress in reconstruction matters.—He accepted the Secretaryship of War from a stern sense of duty to the country to prevent a copperhead appointment; that he accepted it after a full consultation with Secretary Stanton; but as to Grant's acceptance of the candidacy for President he (Washburn) had no right to speak.

A large portion of the American people are wholly unaware of the deleterious effects incident to the use of common Saleratus, thereby producing disease and destroying health. The highest perfection of art has been attained in the manufacture of Herrick Allen's Gold Medal Saleratus. Use one paper and you will never have any other. IMPORTANT ANNOUNCEMENT. LAST CALL! The Gleason Hall Presentation Festival and Drawing will POSITIVELY TAKE PLACE on THURSDAY Evening, October 10, 1867.—This is no gift swindle gotten up under the guise of charity to defraud the public, but a purely business enterprise, gotten up on strict business principles, to dispose of the valuable real estate property named in our advertisement. The better to please the public that are inclined to invest, we allow all of our agents to retain all moneys they receive from the sale of tickets until the drawing takes place, and we advertise to that effect. Parties desirous of investing had better secure their tickets in time, as the drawing will positively take place on the evening above named.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, for the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot let him go adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and standing. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, we trust, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of the Organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce their wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and separate the bile. The bile filters from the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, a complaint of the stomach, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man miserable and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries, it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and when it passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is five ($5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

THE FAIR.

The first annual Cattle and Horse Fair of the Piscataqua River Agricultural Association, commenced at the new and splendid Rockingham Trotting Park near this city on Tuesday morning. Marshal H. F. Wendell, with his assistants John Marden, T. S. Nowell, E. D. Coffin True W. Jones and J. D. Butler, formed procession on Market Square and marched to the grounds, with the Portsmouth Cornet Band.

A Town Team of 17 yoke of fine oxen came over from Eliot, and Portsmouth turned out 23 yoke of handsome cattle.—The good horse teams of the Portsmouth Ice Company followed, and a number of citizens and strangers in carriages.

Arrived at the grounds, a pleasant sight met the eye, in the lovely morning. The Track is one of the best, for a new one, and an exact half mile by Mr. A. M. Hoyt's measure—and the appointments are all complete. For our part, we rejoice in its establishment, and hope and believe it will conduce to the innocent and healthy amusement of the people, and never need tend to the harm of any.

On the grounds already, were Town Teams from Greenland, of 20 yoke, and Newington 20 yoke, making in all over 100 yoke of cattle, mostly heavy and handsome, and forming the finest display of the kind we ever saw, and said to be the best ever made in the State. We may not give the number of yokes in each team right, as we get it only from hearsay.

The display of horse and neat stock in the pens was also good, and will compare favorably with County Fairs generally in the State, although all has been done in so short a time. We shall give a full list of entries to-morrow. A herd of 34 cattle from C. H. Hayes & Son's farm, drew much attention; and three ponies from Jas. S. Pierce at Sagamore, and a brace of Magenta Fowls from the farm of Mr. Davis near the same, and Mr. Stoddard's triplet calves were among the beautiful curiosities.

The first race which ever took place on the new Track, was a trot for $25 and $10 open to all stallions in the Association, mile heats, 3 in 5 in harness. For this, Moses Mann of Greenland entered grey stallion "Greenland," 4 years old; and though he had the outside and contended with three horses of six years, he won the race and first money in three straight heats, 3:33, 3:31, 3:29. The other entries were by Geo. T. Walker of Newmarket, ch. s. Cœur de Leon, 6 years—who is a handsome and fine horse, and took second money; Joseph Hoyt of Newington ch. s. Firefly; and J. Hoit of York, b. s. Ethan Allen, 5 years.

The judges of this race, and the Pacing Match which followed, were Messrs. W. O. Jones of Eliot, Richard Cross of Rochester, and Geo. H. Shannon of this city.

The entries for sweepstakes purse $25, for pacing horses, half mile heats, 3 in 5, were Uriah Blaisdell's b. g. Major, and F. W. Miller's b. m. Jill. The mare, driven by Isaac Copp, won in three straight heats, time, 1:28 1-2, 1:31, 1:29.

The attendance, though not large, was fair for a first day, and included many of our most respectable citizens in their own carriages,—ladies as well as gentlemen.—All are surprised and pleased at the fine accommodations provided for stock and spectators, and the track is pronounced one of the best.

The trial of draft oxen also took place Tuesday after the races,—with what result we did not learn.

For to-day there is plenty of sport, as per programme advertised. Trot this morning for green horses—then matched horses; and this afternoon family horses and a grand trot for $200, in which Nellie Locke and other fast ones will contend. All should go and see the horses "go," and the other stock, and the nice track.

AN OLD AND FAITHFUL SERVANT.—Mr. John Christie of this city, went to the Portsmouth Navy Yard in April, 1825, while in his minority, as steward to the late Purser Nathaniel Lyde, (who is well remembered by our aged citizens). Mr. Christie was appointed Commandant's clerk in 1827 by the late Commodore J. Orde Creighton, and has served the sev Commandants (twelve in number) in that capacity until the 1st instant, the close of Admiral Bailey's administration; with the exception of nineteen months, from May, 1856 to Jan., 1858. At the former date, he was dismissed by the late Com. J. T. Newton in favor of a son, and restored by Com. John Pope, who succeeded Com. N. as Commandant.

Admiral Lanman, the new Commandant, having brought a clerk with him, Mr. Christie's occupation there is gone; and thus, after more than forty years of most devoted and efficient service, is his experience and knowledge of governmental business lost to the position he filled to universal acceptance. This may be nobody's fault in particular, but as in private matters as with public, and we think Uncle Sam misses it to change employees thus. In fact, any man competent to fill any important place for a lifetime, ought to be in the line of promotion, and be able to arrive at a Secretary's berth in due time.

☞ The Portsmouth Philharmonic Society voted to hold their first rehearsal of the season, on Wednesday evening, Oct. 16th, at Mercantile Hall.

I. O. O. F.—The R. W. Grand Encampment of New Hampshire held its annual session in this city, at Odd Fellows Hall on Monday. The following officers of the Grand Encampment were present:

S. D. Baldwin, M. W. G. C. Pattiarch.
J. D. Stratton, M. E. G. High Priest.
G. W. Varney, R. W. G. S. Warden.
C. H. Brown, R. W. G. J. Warden.
L. B. Smart, R. W. G. Scribe.
L. M. Peacock, R. W. G. Treasurer.

There were present representatives from every Encampment in the State. The M. W. Grand Patriarch made his annual report, which was of the highest interest to members of the order, and which was accepted. Bro. J. B. Adams, the Representative to the Grand Lodge of the United States, made his report, which was accepted, and it was voted that the same be recorded on the minutes of the Grand Encampment. The following Patriarchs were elected for the ensuing year:

J. D. Stratton, Dover, M. W. G. P.
G. W. Varney, Rochester, M. E. H. P.
C. H. Brown, Manchester, R. W. G. S. W.
J. B. Smart, Concord, R. W. G. S.
L. M. Peacock, Concord, R. W. G. T.
B. M. Parker, Portsmouth, R. W. G. J. W.
J. B. Adams, of Portsmouth, Representative to the Grand Lodge of U. S., holds his office for another year.

The Grand Lodge met on Tuesday, and had a grand ball at night.

POLICE COURT, Oct 8.—There was a fair show of drunks this morning. David Elvin, Antonio Foley and John Mahoney, were all convicted of this failing. Elvin paid $6.86, Foley $4.09, and Mahoney $6.86.

William Brandreth, for an assault upon Arthur Walters, was fined $5 and $3.86 costs.

☞ The body found at Hogg Island, Gloucester, and supposed to be that of Wm. Collins, a fisherman missing from this city, is evidently that of some other person, having been in the water for a great length of time.

— The Washington correspondent of the New York Times says Gen. Grant contradicts the statement published a few days since that during an interview with several Republican Congressmen he said if it was the will of Providence or the desire of the American people that he should become President, he would not resist the one or disappoint the other. He has been characteristically reticent on this point, and has too much reverence to desire even to insinuate that he has the power to resist the will of Providence.

—The Farmington Chronicle says that a destructive fire occurred in Kingfield, Me., on the night of the 1st inst., consuming a saw mill, grist mill, clapboard, shingle and planing mill, clover mill and thrashing machine, shovel handle and rake factory, blacksmith's shop, containing a trip-hammer and turning-lathe. Three dwelling houses, occupied by five families, were also destroyed, of which the furniture was mostly saved. Loss about $50,000. The manufacturing part of the village is mostly in ruins.

—Grape vines trained on the south wall of a building, with a full exposure, will ripen from two to three weeks earlier than the same kind of a vine and the same exposure, with the vines upon an open trellis.

—They have a kind of bread in New Orleans, called "Guillare," which is baked in the presence of purchasers, to avoid imposition.

—— The annual encampment of the Second Regiment of State Militia, in command of Col. Augustus W. Rollins of Dover, and comprising all the military in the first and third Congressional districts, commenced at "Camp Cole," near Lake Village, Tuesday, to continue three days.

ACROSS THE SIERRA NEVADAS.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION in the world, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to the still richer Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipments are ready at hand for 300 miles of road, and 10,000 men are employed in the construction

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in Gold:

Gross Earnings.	Operating Expenses.	Net Earnings.
$457,379 65	$89,057 87	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net, with only less than 100 miles worked. This is upon the scattering business to be had on a road with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $165,000.

And the Company are empowered to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,592,000, or at the average rate of $33,000 per mile—not including the absolute grant of 10 SECTIONS, or 6,400 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of this large and increasing bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and every person who has invested their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds,

Principal and Interest payable in Gold Coin, at the New York Agency, in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are the only bonds issued upon the entire line of the road

Morning Chronicle.

☞ At the recent Republican State Convention for Mississippi, one hundred and twenty-five delegates attended, representing thirty-seven of the sixty-two counties of the State—those not represented being the sparsely settled counties. The delegations from each county were mixed, except the two from Copiah county, who were black, and the two from Winston, who were white. A platform was adopted, indorsing the principles of the National Republican party, pledging to keep step with it in all political reforms, indorsing the Congressional plan of reconstruction for Mississippi, promising free education to every child in Mississippi, and the ballot to every man not disfranchised for crimes, including treason, condemning all distinction of race or color in conferring the ballot or other civil or political right, and pledging protection to honest industry. It is expected that on this platform the Republican party will carry the State by forty thousand majority.—*Tribune.*

☞ It is a significant fact for the progressives, that members of the United States Congress circulate under their official franc, documents from the office of the American Equal Rights Association, 37 Park Row, New York, in favor of women voting. The Legislature of Kansas has submitted, separately, the questions of Suffrage for colored men, and suffrage for women, to a vote of the electors of that State, the coming November; and the above Society ask aid in money for the cause,—which may be sent as above, "to send tracts and speakers into the State, to make a thorough canvass, feeling sure that with such an agitation both questions may be easily carried at the November election."

☞ The record of repeated and continual outrages upon the freed people in Kentucky, is one of utter horror and shame.—Nearly five hundred victims to rebel hate and bloodthirstiness have been reported within one year, the names, dates and details, on file at the office of the Freedmen's Bureau, giving proof that those charges are not vague accusations. Men have been beaten, shot, drowned and disemboweled; women have been scourged, outraged and murdered, and a band of "Regulators," countenanced by local authority, and defying that of the State, threaten the life of every negro or radical whom they may choose for a victim.—*Tribune.*

☞ A competitor for Mrs. Partington, who resides not a thousand miles from Rochester, was asked on the occasion of one of the battles in Virginia, what the news was. "O," said he, "the rebels have vaccinated Molasses Junction, and Gen. Mucculum is throwing umbeculls after them as fast as he can."

— A new grass is springing up in the Southern States. It appears to be a dwarf clover, is very thick set, covering the earth with a beautiful carpet of green. It is much relished by cattle, and is a complete extermination of Bermuda, joint, sedge and other grasses. In Middle Georgia it is very abundant and is attracting much attention.

—A proposition to extinguish the national debt of Brazil is to establish lotteries from which $200,000 can be raised annually, which is to be applied to the purchase of bonds of the debt, and using the interest of all bought thus for the redemption of others until the debt is extinguished.

A Man of a Thousand. A Consumptive Cured.

DR. H. JAMES, a retired physician of great eminence, while in the East Indies, discovered a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. She was cured and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to prepay expenses. There is not a single symptom of Consumption that it does not at once take hold of and dissipate. Night sweats, wakefulness, irritation of the nerves, loss of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.

CHOLERA RIOTS IN ITALY.—Ignorance and superstition prevail to a remarkable degree among the lower classes of Italy, and recently led to some terrible outbreaks of popular frenzy in the Southern provinces, where the cholera has swept away many victims. The populace appear to be excited by the belief that the cholera was propagated among them by the authorities or other persons, who either poisoned their wells or had some means of infecting the air with the deadly epidemic. A fearful scene occurred at Ardore, a town in Calabria. Upon the appearance of the cholera in that place the populace assembled in arms before the druggist's shop, declaring their intention of burning it to the ground. There were only a few soldiers in the place, but their commander, Signor Garzoni, at once hastened to the spot and endeavored to dissuade the deluded people from their purpose. The appeals of Garzoni, however, only inflamed the rioters, who rushed forward, crushing the unfortunate officer to death under their feet. The druggist's shop was immediately set on fire and the whole family within ruthlessly butchered.—But the thirst for blood was not yet appeased, for twenty other persons also fell victims to the ferocity of the populace.—The body of the officer, Garzoni, adds the narrator of the scene, was thrown to the pigs. Six soldiers and three carabineers were wounded. Many of those who took part in these excesses fled from the town to escape retribution at the hands of the troops, which were rapidly marched upon Adore immediately upon receipt of intelligence of what had taken place.

Similar tumults occurred in the district of Potentino; A letter from Florence says;

"Early on the morning of the 5th inst., the populace, mostly armed, surrounded the house of a man Antonio Sabellino, whom they accused of being a poisoner. In the same house were Francesco, the brother of Antonio, and a friend named Giacomo di Mattia. Some of the chief rioters broke their way into the house, which they immediately began to search for the alleged poison. At length they found on a shelf in one of the rooms a jar full of paste that Sabellino kept for poisoning rats. 'Here is the poison,' shouted a woman, one of the foremost among the savage crew. To prove its effects a dog was made to swallow some of the paste, and, of course, died in a few minutes. No sooner was this known than the mob rushed upon the two brothers and their friend, and brutally murdered them. The few carabineers on the spot were utterly powerless before the rioters, and it was necessary to send for a company from Potenza, which did not arrive, however, until after the populace had dispersed."

At Leoni the people assembled riotously, shouting that one of the public wells had been poisoned, and demanding that the water should be analysed. At Cagliano the people firmly believed that poisoners went from door to door and blew the infection through the keyhole. This notion became so universal and deeply rooted that the majority of the lower class abandoned their houses and camped out in the open air so that they should not be poisoned. Those who remained at home were constantly firing muskets out of the windows with the idea of paralysing the action of the poison. Only after great effort by the authorities were the people convinced of their folly.—At Bocchigliero a hundred armed peasants paraded the streets, demanding that the chief of police and the carabineers should leave the place at once. They said they wanted to elect as Mayor a peasant like themselves. They were tired of seeing the poison brought into their houses. The Captain of the National Guard, however, finally prevailed upon the peasants to return home, and further disturbance was avoided.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

American and Foreign Patents.

H. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington under the Act of 1837.

No. 78 State street, (opposite Kilby street,) **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one of* which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. ELISHA MASON,"
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,"
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Caution

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Falling of the Womb, and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. He invariably certains in this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience the cure of diseases of women than any other Physician in Boston.

Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases, and female Complaints, acknowledges no superior in the United States.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, OCTOBER 10, 1867.

THE RETURNS from the elections on Tuesday show that the Democratic party have carried Philadelphia, and made large gains in the States of Pennsylvania, Ohio and Indiana, while the Republican vote has diminished. President Johnson and his associates at Washington are delighted with "the reaction."

The suffrage Amendment in Ohio is said to be defeated, and both parties claim the State. Both also claim Pennsylvania. Large gains are claimed for the Democratic party in Iowa.

CABLE ITEMS.—A Dublin dispatch of Oct 8, says one of the Fenian prisoners named Kelley died in prison, and his funeral took place Monday. On this occasion there was a great demonstration of sympathy for the deceased. An immense crowd of people surrounded the house where the remains were laid out, and a long procession followed them to the grave.

In Paris an intimation is officially thrown out that the Emperor contemplates many liberal reforms in the Government.

Dispatches from the East report that a sanguinary conflict has taken place on the Turkish frontier between the Montenegrins and the Turks.

At Biarritz, Oct. 8, M. Moustier, Minister of Foreign Affairs, and Chevalier de Nigra, the Italian Ambassador, arrived just before the troubles broke out in Italy, and have been since in constant consultation with the Emperor. It is said that the following plan for the Roman question has been agreed upon: Italy is to take possession of the Roman provinces, but Pope Pius Ninth is to remain in Rome and retain the government of the city until his death, when the temporal power of the Pope will cease.

A Florence dispatch of Oct 8th says the officers of the Papal forces engaged at Bagnarea claim that they gained the victory in that battle. They claim that 70 of the enemy were wounded and 110 made prisoners.

The volunteers of Garibaldi are marching upon Rome from every direction.

The Florence press says the Government is anticipate them and occupy the city with National troops.

Garibaldi has issued an address denouncing Ratazzi, and urging his followers to carry on the war for the protection of Rome.

FROM NEW ORLEANS.—During September the City Railroad Company received as fare $1900 in counterfeit nickel cents.

The majority of registered votes polled so far is 8634, with 21 Parishes to hear from.—The majority for a convention is estimated in three parishes to be over 4000.

Recorder Ahern of the 1st District Court is dead. His seat is filled by a negro Assistant Recorder.

The Grand Jury, half whites and half blacks, were dismissed until Monday.

☞ The Gleason Hall Presentation Concert takes place to-night. Arrangements have been made whereby the Agents can sell tickets until 4 o'clock of the afternoon of this 10th inst. No tickets will be sold after that hour. The drawing will positively take place on the evening above named. They allow agents to retain all moneys they receive for the sale of tickets until the drawing takes place, thereby securing the public in their investment beyond a doubt. SHORT SPEECHES.—When Gen. Sheridan visited Charlestown, Mass., on Tuesday, with only two hours notice, the Mayor made a very brief speech, and the General made as brief a reply. The Mayor said:

GENERAL SHERIDAN—I wish to bid you a hearty welcome to Charlestown. Here, under the shadow of this monument, we can say we appreciate your services and heartily indorse your action.

To which Gen. Sheridan replied:

I thank you Mr. Mayor, for your kind reception. It affords me great pleasure to meet the citizens of Charlestown on this occasion, and to receive your kind welcome.

PRINTERS' RIOT IN MEMPHIS.—At Memphis, Tenn., Oct. 8, an attempt was made to prevent by violence compositors in the Bulletin office from going to work at the terms offered by the proprietors. One printer named Jameson was shot and several wounded.

HON. CHAS. G. LORING Boston, died at Beverly Tuesday afternoon, aged 73. He was a public spirited citizen and practical christian. At the morning service in Boston in honor of President Lincoln, he was the orator.

—Peter Lorillard, the millionaire tobacconist of New York city, died at Saratoga last Sunday, aged 72.

—A man in Alexandria, Va., who spent a legacy of $12,000 in one year, is now in jail for stealing chickens.

—It is officially announced that the centenary contributions of the Methodist Episcopal churches, so far as heard from, exceed four millions of dollars; and it is estimated that when the Western conferences are heard from the whole sum will nearly reach six and one-half millions.

—The new bridge on the Eastern Railroad at Newburyport will be ready for use about the beginning of November. The company are to place entire new cars upon the route from Boston to Portland another season.—The cars that are used now are to be kept for extras and for their branch roads.

Local.

☞ We are compelled to omit our report of the proceedings of the Grand Lodge of N. H., I. O. of O. F., at their annual session in this city, until our next issue.

The ball at Congress Hall, given by the brethren of this city in compliment to the Grand Lodge, was a most satisfactory affair. The attendance was large, and beside the pleasure to be found in the whirl and glitter of the ball room, there was an excellent collation served in the banquetting hall, interspersed with appropriate remarks by State Treasurer Sanborn, Messrs. Osgood, Doe, Spring, Kidder and other gentlemen. The dancing was well kept up until 4 o'clock Wednesday morning.

☞ Wednesday was a lively day in our streets. Shortly after our Portsmouth Cornet Band had enlivened the air while on their way to the Fair Grounds, the band of Charley Shay's troupe made a tour of the principal avenues. Closely following them came Granite Fire Company No. 2, of Newmarket, a fine-looking set of men in bright uniforms, attended by the Newmarket Band. They were provided with a collation by Sagamore S. F. E. Co. No. 2, at their house on Court street.

☞ Mr. Oscar H. Lackey, who has most acceptably filled the position of First Assistant Engineer at this Navy Yard for nearly two years past, has been made the recipient of a beautiful cane made from timber of the original frigate "Ironsides," suitably inscribed and mounted. The donor was Elbridge G. Pierce, Esq., who is confident of the authenticity of the stick as a portion of the material of the glorious old Constitution when built three score and ten years since.

☞ We are pleased to learn that the dry goods merchants of this city have decided to close their stores at 12 o'clock, noon, to-day, it being the closing day of the Fair of the Piscataqua River Ag. Ass'n. To the exertions of Chas. L. Tidd, Esq., we are informed the success of this effort is due. All but one of the dry goods men were willing to close for the entire day.

GEN. SHERIDAN.—The citizens of Portsmouth are invited to meet at the Common Council Room on Friday evening at 7 1-2 o'clock, to make arrangements for a reception of the brave and patriotic Gen. Philip Sheridan.

☞ Elder William A. Pile of Newark, N. J., will preach evenings through this week commencing at 7 1-2 o'clock, at the Advent Chapel. Subject, "The evidences of Christ's coming this year, 1867." Come and hear.

☞ We are indebted to Mr. Robert B. Henderson for late Cincinnati papers.

DUPREZ & BENEDICT'S NEW ORLEANS MINSTRELS.—It is only necessary to remind our readers that the above champion Troupe are announced to appear at the Temple, Monday evening, Oct. 21st. This Troupe is too thoroughly known and highly appreciated to need comment from the press. This city has a reputation for her high appreciation of this order of talent' consequently they are sure to draw. This is the oldest, best organized traveling Troupe on the American continent, their entertainments are unrivaled. Their jokes are original and would excite the risibles of the greatest cynic that ever lived. Yet they carefully avoid any thing that would have a tendency to offend the ears of the most fastidious.

☞ The Washington correspondent of the New York Times is responsible for the statement that President Johnson, when he called Gen. Sherman from duty on the Indian Commission, "intended to offer him she War Office. Finding, however, that the General's fast friendship for Gen. Grant, and his political principles, which, whatever they have been in the past, are now similar to those entertained by his brother, Senator John Sherman, rendered the acceptance of the offer uncertain, the President hesitated to make it, and it is probable that the General will return to the West without having accomplished anything beyond spending several hundred dollars of the Government money in mileage, and having several fruitless interviews with the President."

The same correspondent says that "formal charges have been filed in the Post Office Department against Wells, Fargo & Co., for gross neglect in the transmission of mails on the overland routes in California and the territories. Included with the charges are affidavits containing statements that United States mail-bags are frequently thrown out when trains are heavily loaded, and left to rot on the prairies or to be spoiled by the Indians."

☞ Gen. Ord, commanding the Fourth Military District, comprising the States of Mississippi and Arkansas, has ordered the election, as provided by the Reconstruction acts, to take place on the first Tuesday in November. Gen. Ord states that should any violence or fraud be perpetrated at the election, he will exercise, to the fullest extent, the power vested in him by Congress for the prompt punishment of offenders, and the election will be held over again under the protection of the United States troops.

—Thursday is to be observed in Canada as a day of Thanksgiving for an abundant harvest.

—The two Fenians, Colonel Kelly and Deery, who were rescued from the police at Manchester, walked all the way to Liverpool on foot, thus eluding the detectives who were watching all the railway stations, and it is rumored, succeeded in getting on board a vessel which sailed for America.

A WARNING TO RAILROAD COMPANIES.—The full bench of the Massachusetts Supreme Court have just rendered an important decision regarding the liability of railroad companies for accidents occasioned or damages sustained through the incompetency of their servants. Joel E. Gilman, an employee of the Eastern Railroad company, sued the company for damages sustained by an accident caused by a drunken switchman, and at a trial in the Supreme Court, before Judge Chapman, the jury returned a verdict of $9000, his injury having been so severe as to cause the amputation of his leg near the thigh. Exceptions were taken and the case carried before the full bench, which ordered judgment upon the verdict, the rescript saying that "a railroad corporation that continues in its employment an incompetent servant, after his incompetency is known to its officers, or so manifest that its officers, using due care, would have known it, is liable for an injury occasioned to a fellow servant by their incompetency."—*Amesbury Villager.*

☞ The Boston Courier says that the Essex Merrimack bridge, which has a single span of 244 feet and forty feet above the water, was built earlier than any suspension bridge in Europe. The first bridge of the kind on the other side of the water, was in Scotland in 1819; the one in Newburyport was in 1810, planned and constructed by Timothy Palmer, who afterwards became famous for building such bridges in different parts of the country.

☞ The rebel newspapers of Georgia and Alabama contain appeals to the Southern whites not to vote at the coming elections for a convention to reorganize the States. A campaign document, which has been sent through these States, counsels the adherents of the Lost Cause in this manner: "We wish that this able document could reach and influence every voter in the State to die freemen rather than live as slaves. Better, far better, the poverty and black broth of the free Spartan than the riches and banquets of the degenerate Persian with the chains of slavery around our necks."

CHATHAM, Canada.—Saturday afternoon, Mrs. Isaac Smith, two children and Mrs. William Baxter, Jr., while driving in the country in a buggy, were upset over a culvert, the whole party being thrown into a ditch, and the horse falling upon them. Both of the children were killed, while Mrs. Baxter was fatally and Mrs. Smith seriously injured.

—The fastest time in American railroading was that of a directors' train on the New York Central Railroad, the other day, from Hamburg to Buffalo—ten miles in eight minutes, or at the rate of seventy-eight miles an hour.

—The Belfast (Me.) Age says that potatoes have taken a sudden upward turn in price in that market some good ones having been sold as high as seventy-five cents a bushel. The buyers are active and it looks as though high prices would rule during the season.

—The Ohio Wool Growers' Association met at Dayton on the 25th, and declared in favor of the present tariff as passed, and that the present depressed state of the wool market is due to excessive importations of wool and woolens before its passage, rather than to any defect in the tariff or its enforcement."

—The Rome (Georgia) Commercial says: "One month since it was thought the cotton crop in this section would not exceed that of last year, but the past month has been fine for cotton, and it is now thought that ten thousand bales will be shipped against three thousand four hundred last year."

—The "Swamp Angel" has gone into the furnace of a New Jersey foundry. The operations of this celebrated gun against Charleston ought to have suggested its preservation, not only as a relic of the war, but as a prominent feature in the history of modern gunnery.

—Recently William C. Vial took in his fish pond at Napeague Harbor, a few miles west of Montauk Point on the Gardiner's bay side of the island, an enormous marine turtle of a species unknown to fishermen and seamen in that locality, who have visited various parts of the sea where turtles are taken, and which competent judges estimate to weigh fully seven hundred pounds.

"Then shalt not steel," is an axiom which no one disputes, but which very many evade, and seem quite willing to forget its teachings. Unscrupulous persons have, and are still, imitating Herrick Allen's Gold Medal Saleratus We make mention of this fact to put all persons, who want the best article, on their guard and our advice is to buy no other, as that, in our judgment, is the only article that should enter the stomach of any one who cares for health and good bread or biscuit. Most of our grocers have it for sale. The depot is 113 Liberty street, New York. 1y

Fresh Beef and Vegetables.

NAVY PAYMASTER'S OFFICE,
53 State St. Portsmouth, N. H., Oct. 1, 1867.

SEALED PROPOSALS, endorsed "Proposals for Fresh Beef and Vegetables," will be received at this office until 2 o'clock P. M. on the 15th day of October, for the supply of 50 000 pounds of Fresh Beef, and 50 000 pounds of Fresh Vegetables, at the Portsmouth Navy Yard and Station, as required. The Beef and Vegetables must be perfectly fresh and of good quality, and each article must be offered for by the pound. The Beef to be in equal proportions, fore and hind quarters.

Bonds, with approved security, will be required in one-half the estimated amount of the contract, and twenty per cent. in addition will be withheld from the amount of each payment to be made, as collateral security for the due performance of the contract, which will, on no account, be paid until it is fully complied with.

Every offer made must be accompanied by a written guaranty, signed by one or more responsible persons, that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the articles proposed. The responsibility of the guarantors to be certified to by the Assessor of Internal Revenue for the District in which they reside.

No proposal will be considered unless accompanied by such guaranty, and by satisfactory evidence that the bidder or his sureties are willing to comply with and has the license required by act of Congress.

The Department reserves the right to reject any proposal not considered advantageous to the Government.

It is understood that in case the stipulated quantity of either article shall be delivered, leaving a balance due on the other article, the entire contract may be considered as completed in full at the option of the Department.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She now is a formidable competitor in the vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her new and increasing vineyards.

The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large assortment on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such, as to enable them to offer them at prices which to-day are lower, than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The Angelica and Muscatel are rich, sweet wines. The Hock is fully equal to the medium grades of Rhine wines. The Port is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a settled Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and so productive of such unhappy consequences, no one will be supposed to deny, if he will but reflect that every breath of air that is inhaled into the lungs, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over those putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations to the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Eye, Ear and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professional aids generally, who practice from place to place — But these do not apply to Dr Carpenter, who combines the practice of the profession in the towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful physician, of high standing in his profession and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He has brought relief to this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst forms. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

AN IMPORTANT LETTER.

SHRUB OAK, Yorktown, N. Y., Jan. 19, 1860.

T. ALLCOCK & CO.—Gentlemen: I have been troubled with a lame back over ten years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters and received relief, when I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days. SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Disease of Liver and the many Dangerous Ills which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful results which are attended by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man who reads the article. s30daw

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a state of impurity, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, and the bile if not sent through to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This is healthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and returns to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is out of order. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the same old worn out medicine, the basis of which is morphia or opium in some shape, which locks up the liver in a sort of relaxing the secretions, forms a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 33 Bond street, New York, and 25 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives his advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also for sale by all at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

TO OWNERS OF HORSES.—THOUSANDS of Horses Die Yearly from Colic. This need not be. Dr. Tobins' Venetian Horse Liniment will positively cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable ready for use. It is warranted superior to anything else for the cure of Colic, Wind Galls, Sweeny, Sore Throat, Sprains, Bruises, Old Sores, &c. This Liniment is no new remedy. It has been used and approved of for 20 years by the first horsemen in the country. Given to an over-driven horse, it acts like magic. Orders are constantly received from the racing stables in England for it. The celebrated Hiram Woodruff, of trotting fame, used it for years, and said it was far superior to any other he had tried. Recollect Dr. Tobins' Venetian Liniment is put up in pint bottles — Take no other. Sold by Druggists and Saddlers. Depot 56 Cortland street, N. Y. o8wlm

Local.

THE FAIR Thursday *was* a Fair indeed; and the fair sex were there, and so of course other folks were. Never has a finer display of the kind been seen in this region. Besides the rich music of the Portsmouth Cornet Band, a Newmarket Fire Company came on the grounds with the Newmarket Band; and then there was the music of happy voices, and the pattering feet of quick stepping horses; and all hearts beat high in glad unison. The attendance was very large and brilliant, and the Piscataqua River Agricultural Association is a fixed fact, as is also the Rockingham Trotting Park. The display of handsome ladies and fine toilets upon the grand stand and in the caravan of carriages on the grounds, was very gay and beautiful.—Among the gentlemen present, we noticed ex-Governor Goodwin, Hon. Albert Blaisdell, ex-Mayors Bailey and Simes, Col. M. F. Wentworth, and other prominent citizens of this and neighboring towns, with their families.

According to the programme, the trial of draft oxen and exhibition of mares and colts came off in the morning—and trot for citizen's purse of $50, mile heats, 2 in 3, in harness. For this, Stephen Meador entered b. s. Young Draco, Isaac Copp, br. g. Bradford Boy, and J. H. Ferguson, bl. m. Lady Cram. The Judges were D. D. Perkins of Newmarket, J. E. Butler of Dover, and Mr. Wentworth of Rochester. The Meador horse won handily in 2:42, 2:44.

Two or three of the noble Town Teams of oxen, and other handsome stock were shown round the Track at noon; and the owner of a pet horse in this city, drove him a number of times round the track at perhaps four minute speed, without reins or bridle, which seemed to please the crowd considerably—and we understand he has consented to repeat the novel performance to-day, as desired by the managers of the Fair.

The grand excitement of course was the $200 Trot—for which the little pet grey mare Nellie Locke and Gipsey Boy, a piebald horse of Mr. H. Rogers from Bridgewater, contested. The race was a very pretty one, and caused considerable excitement. Judges, Albert Blaisdell, D. D. Perkins and Joseph F. Hoyt. Nellie won first money, time, 2:42 1-2, 2:39, 2:35 1-2. She trotted beautifully in Mr. Copp's hands, and won hosts of friends in this her first trot at home. Remember these two, and another reported to be as good as either are to go this afternoon. Gipsey Boy is a good and game trotter, and was well up to Nellie at each finish. Look out for 'em this afternoon.

Between the heats of the big trot, another match between John E. Rider's handsome sorrel road horse Sheppard Knapp and a bay horse of a Mr. Goodwin in Wells, was trotted, for owner's purse of $100, which Knapp under Copp's tooling won handily in 3:16, 3:20, the Wells horse nowhere.

The Programme shows lots of sport to-day—forenoon and afternoon; among the rest a grand trot for $300 between three good horses—Nellie Locke, the Gipsey Boy, and a new one of Mr. Copp's. If good weather, everybody will be there—and ought to be.

Among the curiosities to-day, the patent Dumping Wagon will be exhibited on the grounds.

THE PISCATQUA RIVER AGRICULTURAL ASSOCIATION will give a PROMENADE CONCERT, at Congress Hall, This (Thursday) Evening, October 10th. Music by the Portsmouth Cornet Band. Tickets 50 cents.

☞ The Dry Goods Dealers of this city will close their stores at 12 o'clock to-day (Thursday). The object being to promote the interest of the "Piscataqua River Agricultural Association," and go the Fair themselves.

As all the Chroniclers are going, for all day, if pleasant, we shall print no paper on Friday.

At the late Show in Dover, all business was suspended one whole day, and we hope our Dry Goods friends will reconsider and call it all day—and that all the rest of the community will follow suit. What is the use or sense of plodding and digging all the time? We believe the schools all had holiday Wednesday, and many children were at the Fair—which they couldn't help enjoying.

CHEERING A GOOD CITIZEN by mistake, instead of a good General.—At Cambridge on Tuesday, as we learn from the Boston Journal, "Col. H. W. Bellows of Walpole, N. H., gave ex-Gov. Smyth and two Boston friends a ride in the afternoon after his magnificent Black Hawk six-horse team, and the turnout created admiration wherever it went. Such a rare show of horse-flesh suggested the idea among the people assembled in the central part of the town that some person of mark must be in the barouche, and Gen. Sheridan being in everybody's mind, of course must be the man. Imagination helped them to embody the idea and to fix on a chunky-built civilian, to whom war would be a great antipathy, as the gallant "little Phil." Cheer after cheer went up for the hero of Winchester, for which compliment the man who was not Sheridan bowed his thanks. It is a pity to deprive our suburban friends of the pleasure they had of greeting—as they supposed—the most popular man of the day, but the truth and the desire to describe the joke, induce us to correct their mistake."

—All of the Yarmouth cod fishing fleet but four have arrived home, and the most of them have good fares; but at present prices they will not pay their expenses.

☞ A comparison of all the harvest of the world this year, leads a careful writer to say that the countries which will be compelled to buy breadstuffs between the present time and the next harvest are Great Britian, France, Belgium, Portugal, Spain, Switzerland, Italy, Algeria, Tunis and Morocco; while the countries which will have grain to sell are the United Sates, Canada, Chili and some of the other South American States, Russia, Turkey and the Danubian Principalities.

STATISTICAL.—Gen. Halpine, who served honorably in the war, says he believes there were two Democrats to one Republican in the loyal army.—*Exchange.*

We have very great doubts whether Halpine said any such thing. If he did, he is either grossly ignorant on that point, or else he chooses to lie.

—New York consumes a thousand barrels, or nearly a million, of eggs per day. They come mainly from the West.

—The English champion swimmer has swam a thousand yards in seventeen minutes. This is said to be the fastest time on record.

—Master Richard Coker, once celebrated as a boy soprano, has passed the transition stage, and his voice is entirely gone.

— Trinity Church spire, which is already one of the most prominent in New York, is to be raised 90 feet.

— The Montreal Witness gloomily says: "With the most sincere desire to see the New Dominion Constitution work well, it is impossible to deny that grave difficulties stare us in the face."

— An exchange says; "a few months ago we had a book entitled Ecce Homo; then we had Ecce Deus; then Ecce Coelum, and now we have Ecce Bonus Liber. The first was exceellent, but the last is execrable." No more so than the semi-pun.

— The Tribune says: "It is plain that the experiment of female suffrage is to be tried; an I, while we regard it with disgust we are quite willing to see it pioneered by Kansas. She is a young State, and has had a memorable history, wherein her women have borne an honorable part."

ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES for COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, for all time to come.

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada. With a few days more miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS,
$187,579 61	$86,548 17	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles completed. The bulk of the actual legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and exclusive of the materials carried for the further extension of the road.

The Company's interest identifies during the same period were less than $185,000.

And to this an ever expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the lines now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completed road $27,840,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10 000,000 acres of the Public Lands By becoming a joint investor in the magnificent property, and forming its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, SERVES AS THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent, Coupon Bonds,

Principal and Interest payable in Gold Coin, in New York city They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. on the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock actually paid in, and all surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which it has issued.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of the United States, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line

Second—Beside the fullest benefit of the Government subsidy, (which is now $48,000 per mile,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 100 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with additional business to be created by the road.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to the favorable notice of Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

HAIL TO SHERIDAN!
BY GEO. LANSING TAYLOR.

Hail to Sheridan! Hail!
Hail to the hero of Mission Ridge hight!
Hail to the rider of Winchester's fight!
Hail to the ruler who *dared to do right!*
Hail to Sheridan! Hail!

Hail to Sheridan! Hail!
Rebels in arms from the thrill of his sword,
Whirled like the chaff in the wind of the Lord;
Rebels in riot were awed at his word.
Hail to Sheridan! Hail!

Hail to Sheridan! Hail!
Honor the warrior who honors the laws;
Writes as he battles, for Liberty's cause;
Hurls the bold truth into treachery's jaws—
Hail to Sheridan, Hail!

Hail to Sheridan, Hail!
Treason o'erthrown, backed by treason in power,
Vainly essayed him with smile or with lower,
Lured him, nor daunted him, nor for an hour.
Hail to Sheridan, Hail!

Hail to Sheridan, Hail!
Hail from the people whose will he has done,
Hail from the people whose hearts he has won,
Hail from the nation who honors her son,
Hail to Sheridan, Hail!

Hail to Sheridan, Hail!
Hail from the hearts of the loyal and free,
Hail from the future whose glories we see,
Hail! and hozza, with a *three times three!*
Hail to Sheridan! Hail!

MR. COLBY'S SUCCESSOR.—It is well known in this State that our fellow citizen Colby, Register of the U. S. Treasury, was a loyal man, and that a successor has been appointed by President Johnson. Alluding to this appointment, the *Tribune's* correspondent telegraphs:—

"The Colonel Noah L. Jeffries of Maryland, who was appointed Register of the Treasury, vice Colby, by the President, was an active supporter of McClellan and Pendleton against Lincoln, and it is fair to presume now supports Pendleton's policy of repudiation. His military record, briefly stated, consisted of having been provost marshal during the draft in Maryland and Delaware for a short time, and afterward chief clerk to Provost Marshal General Fry, who was removed from his position by Congress. Jeffries is now inspector general of Swann's militia, and has distinguished himself in that position by persecuting Unionists in Western Maryland. His appointment is considered as made at the solicitation of Montgomery Blair, Swann and Bradford. Jeffries has been a party to all of Swann's efforts against Congress. Loyal men from Maryland who know him, say they can prove against him a record that will insure his rejection by the Senate when his name is presented to that body for confirmation."

☞ When Sir Rowland Hill set on foot the penny postage he little thought that he was lying the foundation of a bridge over which tens of thousands of little Chinese boys and girls would toddle into heaven. A correspondent of the Weekly Register, by name John Good, writes to that paper, in answer to an inquiry as to the use to which defaced postage stamps can be put, to say that a good nun once told him that for every single defaced postage stamp collected and sent to China, a Chinese child is brought to baptism; and that ever since the good nun told him this, he has been diligently collecting defaced English postage stamps wherewith to save sinful little Chinese souls. Why the Chinese should bring their children to be baptized on receipt of a defaced postage stamp the good nun did not explain to Mr. John Good.

— Bishop Clark of Rhode Island, when he preached before the Pan-Anglicans, openly expressed his opinion that the exclusion of the laity from its councils was the great defect of the English Church.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Salomon Rothschild, Paris, 8th April, 1864, to Sire Fauby St Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.
Baron Rothschild had having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal—For the speedy and sure cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—Has also most efficacious taken inwardly, in the cure of *Cholera and Cholera Infantum, Sick Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for Major LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle. A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered in this wise: His own child, a daughter, was given up to die. His child was cured and is now alive and well. Desirous of benefiting his fellow men, he will send by mail to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption that it does not at once subdue and dissipate. Night sweats, feverishness, irritation of the nerves, loss of memory, difficult expectoration, sharp pains in the limbs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.

AGENTS WANTED FOR
GENERAL L. C. BAKER'S
HISTORY of the SECRET SERVICE.
This work will be announced more than a year ago, but owing to the attempts of the Government to suppress it, its publication was delayed. It is now being issued, SIMULTANEOUSLY and UNDER THE SUPERVISION OF GEN. BAKER, whose marvelous narratives are all attested by the highest official names.
The Morals of the National Capital are THOROUGHLY VENTILATED, and there are some Startling REVELATIONS concerning Heads of Departments, Members of Congress, **Female Parade Brokers**, and distinguished Military Characters. Send for circulars and see our terms, and a full description of the work. Address JONES BROS. & CO., 26 So. Seventh St., Phila., Pa.

FIRST MORTGAGE BONDS,
ST. LOUIS AND IRON MOUNTAIN RAILROAD CO.
Interest payable semi-annually, February and August.
These Bonds cover a road of 81 miles, finished from St. Louis to Pilot Knob, and in first-class condition. An extension of about the same length from Pilot Knob to Belmont, now rapidly constructing, for which the proceeds of these Bonds are to be used, making a through route from St. Louis to New Orleans by rail. The earnings of 91 miles are $600,000 a year; the net profits are now sufficient to pay the interest on the entire amount of bonds, were they all issued. The basis of security is believed to be beyond that of any other bonds now offered. Apply at the office of the Company, No. 43 Wall street, to H. G. MARQUAND, Vice President, or to CLARK, DODGE & CO., corner Wall and William street.

SECRETARY MCCULLOCH writes to a friend about the Repudiation talk, as follows:

Too much importance is attached to the utterance to which you refer. The people of the United States are sound upon the question of the preservation of the National faith, as they were upon the question of the preservation of the Union. I consider the faith of the Government pledged to pay the five twenty bonds when they are paid in coin. There need be, I think, no apprehension that they will be called in at the expiration of five years from their respective dates, and paid in United States notes. The United States notes were issued under the pressure of a great necessity, and are, by authority of Congress, being rapidly withdrawn from circulation. No more can be issued under existing laws, nor can I believe that any considerable number of the members of Congress would favor an additional issue for any purpose whatever, much less for the purpose of paying bonds in violation of the express understanding under which they were negotiated. The policy of contracting the circulation of United States notes adopted by Congress and being steadily pursued by the Secretary, should of itself, even if the honor of the nation were not involved in the question, satisfy holders that the five-twenty bonds will not be called in and paid before maturity in depreciated currency.

CHROMO LITHOGRAPHS, such as are printed by L. Prang & Co., Boston, are the people's Oil Paintings, and are superior to any but the best oils. A writer, looking at chromos from this point of view, thus indicates (it may be somewhat enthusiastically) their possible influence on the culture of the people:

What the discovery of the art of printing did for the mental growth of the people, the art of chromo-lithography seems destined to accomplish for their æsthetic culture. Before types were first made, scholars and the wealthier classes had ample opportunities for study and for seeing what Bibles were chained in churches, and copies of the Scriptures (then only so styled) were worth a herd of cattle, there were large libraries accessible to the aristocracy of rank and mind.

But they were guarded against the masses by the double doors of privilege and ignorance. A book possessed no attractions for the man who could not read the alphabet, and because they were rare and hard to get at, he had no incitement to master their mysteries. Made cheap and common, the meanest peasant, in the course of a few generations, found solace for his griefs in the pages of the greatest authors of his times and of all time — Mental culture became possible for whole nations; and democracy, with its illimitable blessings, gradually grew up under the little shadow of the first 'printer's proof.'

Until within a quite recent period, art has been feudal in its associations. Galleries of priceless paintings, indeed, there have always been in certain favored cities and countries; but to the people, as a whole, they have been equally inaccessible and unappreciated, because no previous training had taught the community how to prize them. It was like Harvard College without the District school — a planet without satellites, and too far removed from the vision of the people for its light to shine in the cottage and in the homes of the masses.

Now, chromo-lithography, although still in its infancy, promises to diffuse, not a love of art merely, among the people at large, but to disseminate the choicest masterpieces of art itself. It is art republicanized and naturalized in America. Its attempts hitherto have been comparatively unambitious, but it has not Homer and Plato that were first born to us by the printing press. It was dreary catechisms of dreary creeds. So will it be with this new art. As the popular taste improves, the subject will be worthier of an art which seeks to give back to mankind what has hitherto been confined to the few."

A CLERGYMAN ON A SPREE.—Some days ago a minister arrived in St Louis from a town in Illinois. He belonged to an evangelical denomination, and came to this city to preach a trial sermon before a congregation, with the understanding that if the sermon was satisfactory, he was to be engaged as shepherd of the flock. His sermon was "powerful," and the object of his visit was secured. But he became so elated with his success, that he indulged in a little drink. He strayed into vile precincts and fell a victim to the allurements of a painted Jezebel. After this what transpired is not known, but he became unconscious, and when he regained his senses he discovered that his money, $51, had disappeared from his pocket. He applied to the police, but so far his money has not been recovered. He succeeded in raising a small amount of money, and returned to his family, a sadder and wiser man.—*St. Louis Repub.*

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington under the Act of 1837.

No. 78 State street, (opposite Kilby street,) **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twelve* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. In Style, Durability and Finish.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, OCTOBER 12, 1867.

THE FAIR of the Piscataqua River Agricultural Association, which closed on Thursday, wound up with a grand climacteric indeed. The crowd present was very large,—probably nearly 8,000 persons, including many distinguished citizens and strangers, and hosts of ladies. The programme for Thursday was exclusively Horse, all other stock being dismissed the second night. A greased pig and foot race to wind up with, were all ready, but the delay in the races made it too late.

The first thing, the trot for 4 and 5 years old mares and geldings that never went for money, mile heats, 3 in 5 in harness, for $25 and $10, was quite interesting. The entries were T. J. Pettigrew, Portsmouth, Messenger colt 5 years; Aug. Stevenson, Kittery, colt 4 years; E. D. Coffin, Portsmouth, black mare Jessie, 4 years; N. Wiggin, Greenland, sorrel colt Gen. Scott, 4 years. Pettigrew's colt took first money, $25, in three heats of 3:31 3-4, 3:30 1-4, 3:31 1-4. Stevenson second, $10. Wiggin's colt was a close third, and came near taking second premium.

The Gentlemen's Driving Horses' trial of speed made as much sport as almost anything. Of the eight entries, six came to the score for a trot. Frank W. Miller's trained black horse Jack, which was so much applauded the day before when his owner drove him around the track at good speed without reins or bridle—and which now came on the course with no bridle and with only a Rarey bit buckled in his mouth —drew much attention. The contest was between this Jack, Mr. Stoddard's sorrel mare Topsey and Mr. Ferguson's black Lady Cram, all driven by their owners, and Mr. J. Horace Jenness' fine chestnut mare Fanny, driven by Copp. As there were so many horses, Copp, Stoddard and Ferguson were started first. Topsey in sulky took first heat in 3:03; Fanny to light wagon, threw a shoe at the start, broke badly, and came in nowhere; Lady Cram, in heavy wagon, third. Jack now went round alone, to wagon, (as the others of the second lot started were not entered for speed,) in 3:09. For the next heat, Fanny having put on her shoe, came with Jack and Topsey, all in sulkies, with Lady Cram still to heavy wagon. This was won by Fanny (*and* her jockey driver) in 2:57, Jack second in 2:58, Doll third. Jack in this heat cut his foot badly, and did not trot well again. Many friends of the old horse thought he could beat them all, but it is often harder to beat drivers than horses, especially those like Ike Copp, who when his horse can't win by trotting, makes him run, for, as he says, "you can't win behind!" Ike is emphatically "one of 'em," but is always so cool and good natured that he often escapes censure, though it is said he has been ruled off several tracks in Massachusetts for foul driving. But *let us* finish this race, which, like some of the others, was too long in the trotting, and is in this telling.

For the third heat, all four came to sulkies, Lady Cram and her driver having got enough of dragging a road wagon against the gigs. This time the horses came in as they started, Fanny first in 2:52, Topsey second, Jack third, Lady Cram fourth. The last, deciding heat 2:57 1-2, was similar. The first premium (this not being a purse trot, but merely a race for the fun of it,) for gentlemen's driving horses, was awarded to Lady Cram, second to Jack, third to Topsey. Since so much has been said and sung of "Jack," we will add that it is a little singular that when a colt he was owned by Mr. C. H. Hayes, who was now in the stand, and who bought him of Mr. Stoddard; and that Mr. Copp afterwards owned and sold him in Boston for $700—and his present owner would not give him away now, if he is a dozen years old or so. In fact, Bro. John B. Clarke of the Manchester Mirror says he don't want a horse less than ten years old, for he don't know anything. And how *can* a young horse know much more than a young man?

The Judges of the colt race were S. Meader, H. Eldredge, and C. H. Hayes—and of the last, E. Frank Page, Lyman Prescott and S. Meader.

For pairs of trotters, Copp took first purse, $25, with H. H. Smith's blacks Dixie and mate, and G. H. Shannon second, $10, with Frank Jones' beautiful sorrel colts Lady Emma and mate. E. F. Page, Hampton, also had in pair bays Hemlock and Prince. The judges were R. M. Perley, Newburyport; N. F. Mathes, Portsmouth; L. Prescott, Raymond.

In the afternoon, for trot for mares and geldings, $30, $15 and $10, L. R. Lydston's nice bay mare Gipsey Maid, 6 years; True W. Jones's white mare Lady Drake, 9 years; J. H. Ferguson's splendid black mare Lady Palmer, 7 years; Frank Jones' promising black horse Jack of Clubs, only 5 years; N. Wiggin's noble bay horse Major, which always "promises" to trot so well, but never does it when you want him to; and Mr. Eldredge's mare Fan, were the entries. Lady Palmer won the race in beautiful style in three straight heats, 2:56, 3:00, 2:53—Jack of Clubs, who show himself a good one, second; Gipsey Maid third. Judges, S. H. Dumas, E. F. Page, M. F. Wentworth.

Owing to delay in commencing the programme in the morning, the match for trotters with running mates, had to be omitted —also "the men without a country" who were to chase the greased pig—and the horse without a bridle, as promised.

The grand trot between Nellie Locke and Gipsey Boy, for $300, at last commenced; but it is almost impossible to hurry such affairs, and the people grew impatient. Mr. Rogers himself drove his spotted horse to-day, and kept both Nellie and Copp hot at work all the time. After scoring almost interminably they got off, Nellie inside; but when they came on the home stretch, Gipsey swung to the inside, for which movement each complained of the other for driving foul. Just before making the score, Gipsey led a little; but Nellie broke and ran over it ahead of him. But for this, the little mare would have had the heat, as the horse gained more by running on the back stretch, than he led at the finish. As it was, after considerable consultation, the Judges, (Messrs. Page, Dumas and Wentworth,) declared it a dead heat in 2:38. This astonished many present, but we decided the same in our mind before the judges announced it. Both owners of the horses claimed the other should be distanced for foul driving.

The second heat, after long delay and scoring enough to tire all the horses and spectators in the County, was given to Nellie, although many thought that neither her driver nor the judges used Mr. Rogers and his horse fairly. Time 2:38.

The third heat resulted much the same, and was given to Nellie in 2:36.

It was so dark when the fourth heat was trotted, that the judges declared it dead, in 2:44, and that the race must be postponed. Afterwards, by mutual consent, it was agreed to draw the race, and all bets and pools must follow. One thing is pretty certain, each man and horse went in to win, and did plenty of trotting. There are various opinions as to the merits of the two horses, which there will be another chance of testing on the same grounds Oct. 18th. And while it is very easy and common to censure judges for their ruling, and drivers for not coming to time sooner and better—those who have tried either position, know both are beset with difficulties. And horses and men who do such fast and wearing work, must have rest between heats. The trouble was in the managers attempting to give too much of a good thing in their programme.

Between the heats of the trot, the Running horses were put on—H. R. Stoddard's Gen. McKenzie, J. H. Ferguson's Pony, and S. Somerby & Son's Eclipse. This was an attractive sight for all. We do not know how the race was decided, but the McKenzie horse came in a long way ahead on first heat.

ELECTIONS.—*Ohio.*—A Columbus dispatch of Thursday evening says, that Hayes is without doubt elected Governor by a majority of from 1000 to 2000, and that the Legislature is Democratic by a small majority. Three counties are to be heard from.

Pennsylvania.—On Thursday, at Philadelphia, the chairman of the Democratic State Committee received positive information from the diferent counties indicating Sharswood's majority at from 3000 to 8000.

The Evening Telegraph has a dispatch The Bulletin estimates the majority for Williams (Rep.) at 1286.

from Harisburg which says pretty full reliable returns from all portions of the State indicate that the Legislature will be composed: Senate, 20 Republicans to 13 Democrats; House, 55 Republicans to 45 Democrats.

Returns from 69 districts of Alleghany county give Williams (Rep.) a majority of 5876. For State Senator, Evarts' (Rep.) majority over Barr is 5410.

Iowa.—Returns from Clayton County give 1200 Republican majority, from Winnechiele County 750 Republican and Howard County 325 Republican majority.

[We do not consider these figures to be all exact or reliable. But if they are any where near the truth, the Pres. Johnson and his allies crowed rather quicker and louder than the victory demanded.]

Whatever doubts may be entertained as regards the Union, there is one thing that there can be no doubt about, and that is (for we speak from experience) that Herrick Allen's Gold Medal Saleratus is the best and most perfectly healthy dough expander in existence. It is so far ahead of any other saleratus or sods, that all who use it can see at a glance or a taste that what we say is true. Go to your grocer and get a paper of it, and our word for it you will never use any other. Their depot is 112 Liberty street, New York. Most merchants sell it. 18

Fresh Beef and Vegetables.

NAVY PAYMASTER'S OFFICE,
58 State St. Portsmouth, N. H., Oct. 1, 1867.

SEALED PROPOSALS, endorsed "Proposals for Fresh Beef and Vegetables," will be received at this office until 2 o'clock, P. M. on the 12th day of October, for the supply of 50,000 pounds of Fresh Beef, and 60,000 pounds of Fresh Vegetables, at the Portsmouth Navy Yard and Station, as required. The Beef and Vegetables must be perfectly fresh and of good quality, and each article must be offered for by the pound. The Beef to be in equal proportions, fore and hind quarters.

Bonds, with approved security, will be required in one-half the estimated amount of the contract, and twenty per cent. in addition will be withheld from the amount of each payment to be made, as collateral security for the due performance of the contract, which will, on no account, be paid until it is fully complied with.

Every offer made must be accompanied by a written guaranty, signed by one or more responsible persons, that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the articles proposed. The responsibility of the guarantors to be certified to by the Assessor of Internal Revenue for the District in which they reside.

No proposal will be considered unless accompanied by such guaranty, and by satisfactory evidence that the bidder is a regular dealer in the articles proposed and has the license required by act of Congress.

The Department reserves the right to reject any proposal not considered advantageous to the Government.

It is understood that in case the stipulated quantity of either article shall be delivered, leaving a balance due on the other article, the contract may be considered as completed in full at the option of the Department.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one step to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That foul disease is so fatal in its tendency and productive of such unhappy consequences, no one will be supprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Ear and the Throat, and their allied affections, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help; as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.
Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to his cures, skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place.—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months to practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

QUARTER OF A MILLION SAVED A DAY.
One hundred thousand men now labor with good results, who, until they used

SCHENCK'S MANDRAKE PILLS.
A Certain Cure for Disease of Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER,
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! In the liver is deposited, it cannot purify the blood, and it is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make life a burden and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often arises from costiveness or torpidity.
The circulation of the blood is conducted in this manner:—The heart sends the vital current down into the lungs, the liver; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—by which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 33 Bond street, New York, and 36 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer (for which charge is five dollars). His medicines are for sale by all druggists and dealers. TO OWNERS OF HORSES.—THOUSANDS of Horses Die Yearly from Colic. This need not be. Dr. Tobias' Venetian Horse Liniment will positively cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable ready for use. It is warranted superior to anything else for the cure of Cuts, Wind Galls, Swellings, Sore Throat, Sprains, Bruises, Old Sores, &c. This Liniment is a new remedy. Is used and approved of for 20 years by the first horsemen in the country. Given to an over-striven horse, it acts like magic. Orders are constantly received from the racing stables in England for it. The celebrated Hiram Woodruff, of trotting fame, used it for years, and said it was far superior to any other he had tried. Recollect, Dr. Tobias' Venetian Liniment is put up in pint bottles.—Take no other. Sold by Druggists and Grocers. Depot 56 Cortland street, N. Y. o8dwim

Local.

I. O. OF O. F.—The R. W. Grand Lodge of New Hampshire held its annual session in this city on Tuesday. The following Grand officers were present:

John L. Spring, M. W. Grand Master.
True Osgood, R. W. Dep. Grand Master.
Charles H. Brown, R. W. G. Warden.
Joel Taylor, R. W. G. Secretary.
J. H. Gardiner, R. W. G. Treasurer.

There were also present about a hundred Representatives from the different subordinate Lodges in the State. Three visiting brothers were present from the Grand Lodge of Maine, and two from Massachusetts.

The annual Report of the M. W. Grand Master was a very interesting document, showing that the general prosperity and condition of the Order is advancing. The following invitation was read, and it was voted that it be accepted:

To the Officers and Members of the Right Worthy Grand Lodge I. O. of O. F. of the State of New Hampshire:

Brothers:—On behalf of Piscataqua Lodge No. 6, and New Hampshire Lodge No. 17, I. O. of O. F. of the city of Portsmouth, we cordially and fraternally invite the officers and members of this Grand Lodge to a Complimentary Levee this evening, at 8 1 2 o'clock, in Congress Hall.

It is earnestly desired by the officers and members of these Lodges, that every member of your honorable Body be present at this occasion, and also all the Visiting Brothers from other jurisdictions will honor us with their presence this evening.

Respectfully yours, in F. L. and T.
BENJAMIN M. PARKER,
JOSEPH B. ADAMS,
Sub. Com. from the Com. of Arr.

A large amount of legislative business was transacted. The best of feeling prevailed, and all seemed to work together for the advancement of the principles of the Order, and for the peace and harmony of the Lodges. It was unanimously voted to hold the next annual session of the Grand Lodge at Keene, on the second Wednesday of October, 1868.

The following brothers were elected as officers of the Grand Lodge for the ensuing year:

True Osgood, Concord, R. W. G. M.
Ch. H. Brown, Manchester, R. W. D. G. M.
Jos. H. Gardiner, Portsmouth, R. W. G. W.
Joel Taylor, Manchester, R. W. G. S.
Robt C. Fernald, Salmon Falls, R. W. G. T.
C. A. Downs, Lebanon, Grand Chaplain.
John L. Spring, Milford, Rep. to Grand Lodge U. S.

The session was closed about half past 9 o'clock, and in pursuance of the invitation from our local lodges, the visiting brethren, with their ladies, repaired to Congress Hall, where were also gathered many members of the Lodges in this city aside from those belonging to the Grand Lodge, and a large number of the charming ladies for which our city is noted. P. G. M. Parker, in behalf of the Committee of Arrangements, welcomed their guests.

At about 11 o'clock, the company, to the number of nearly three hundred, partook of a bountiful and well ordered supper in the banquet hall, prepared by the Com. of Arr., with Bro. W. W. Cotton as chief caterer. B. W. Curtis, N. G. of Piscataqua Lodge No. 6, assisted by M. H. Tilton, N. G. of New Hampshire Lodge No. 17, of this city, presided at the tables.

After a considerable time spent in the vain endeavor to clear the well filled tables of their viands, the company was called to order, and remarks were made by Grand Master Osgood of Concord; P. G. Masters Spring of Milford, Bird of Nashua, Kidder of Manchester, Davis of Nashua and Weeks of Manchester; Past Grand Smith of Portland, and P. G. Sanborn of Concord.

The dancing was then resumed to the music of Lamprey & Tompson's Quadrille Band, and just before daybreak the levee broke up, all being well pleased with the business and pleasures of the occasion. This was the first session of the Grand Lodge in this city since 1853.

POLICE COURT, Oct. 10.—John Smote, a marine, was smitten with a fine of $3 and $3 86 costs for being intoxicated.

James Carlton, a sailor, for a similar failing, was fined $3 and $3 86 costs.

Thomas Maxwell, a marine, another case of intoxication, received a similar sentence.

All the foregoing transgressors were committed to the House of Correction, in default of payment of their fines.

☞ Mr. Jesse M. Walker of Rye, died at the Navy Yard on Tuesday the 8th of October, aged 68 years. For about 30 years he has superintended the work at the Commandant's quarters on the Yard, and had charge of that officer's boat in crossing the river from the Navy Yard to Portsmouth.

☞ The U. S. Circuit Court began its session at Exeter on Tuesday, Oct. 8, and continued three days—Judges Clifford and Clark being present.

Leonard W. Noyes, convicted of passing counterfeit money at Dover, was sentenced to two years in the State Prison.

Thomas McDermott, indicted for passing counterfeit money, had his case continued to the next term.

Several parties indicted for smuggling also had their cases continued to next term.

☞ The Portsmouth Cornet Band furnished fine Music through the Fair; but the exercises at the Park continued so late, that the Prominade Concert designed for Thursday evening at Congress Hall, was given up.

☞ The attention of dealers in gloves, hosiery, worsted goods, trimmings, buttons, and small wares, is called to the advertisement of J. C. Young, in this morning's paper.

☞ Major Hackett sells at auction today a house and blacksmith shop, both to be removed.

Auct. Morse sells a large lot of Naval stores at the Navy Yard. See auction column.

Auct. Wendell has his usual Saturday sales, as do also Betton & Co.

☞ The annual York Co. Cattle Show and Fair was held in Biddeford and Saco, Tuesday, Wednesday and Thursday, the same days as the Rockingham County Fair at Exeter, and the Piscataqua River Agr. Association Fair (comprising part of both these counties) at Portsmouth.

☞ The Biddeford Journal says, it is proposed to have the steamer Enterprise of Saco, (now running between Saco, Portsmouth, and Boston,) to run between Portland and Boston touching at Saco.

CABLE ITEMS.—It is reported that on Wednesday there was another battle between the Garibaldians and Papal forces, near Moulalibieta. It is reported that the invaders were defeated, but no reliable account of the result has been received. The party of action assert that an insurrection will soon break out in the city of Rome itself; they say preparations for this purpose are complete, and the leaders of the movement in Rome are acting in concert with the invaders in Viterno and elsewhere.

The excitement about the Fenians in the north of England is unabated. Government continues its precautious against an outbreak.

The degree of Doctor of Laws has been conferred by the Cambridge University on all American Bishops now attending the Pan-Anglican Synod.

WASHINGTON NEWS.—Washington specials say a fraud has been discovered in Philadelphia, by which three thousand illegal Democratic votes were cast in that city.

The colored juries in North Carolina are giving full satisfaction to the Bar generally.

Gen. Sherman leaves for St. Louis on Friday.

There are all kinds of rumors of Cabinet changes. It is probable that some changes will be made before Congress meets, but none have yet been determined upon.

Another special says the friends of the Administration are confident of important changes in the Cabinet, to be followed by a wholesale decapitation of under officials. The President will take a stand which will astonish the country.

NEW HAMPSHIRE ITEMS.

—— William H. Sheppard, a young man confined in the jail at Lancaster for horse stealing, poisoned himself with morphine and died last week. The drug, it is said, was furnished him by his wife.

—— The Winslow Hotel on Mt. Kearsarge caught fire in the cook room, while a grand closing ball was being danced in the hall. The guests took hold and saved most of the furniture, but could not save the house, for want of water. The house and furniture were insured for $20,000.

— Butter sold for 36 and 38 cents at St. Albans, Vt., on Tuesday, and some fancy lots at 40.

GOLD, Friday, 143 7-8.

DEATHS.

In this city, Oct. 10, Miss CAROLINE E. ROGERS, aged 30 years.
In this city, Oct. 10, JOHN G. BREWSTER, Esq., ages 89 years, 9 months. He had been a Selectman, and held other offices in former years.
In this city, Oct. 10, Mr. GEORGE W. BURT, sailmaker, aged 54 years.
☞ Funeral this (Saturday) afternoon, at 2 o'clock, from No. 41 Hanover street.
In this city, 9th inst., ELBRA ELIZA PERKINS, aged 10 months and 6 days, youngest daughter of Joseph C. and Annie E. Perkins.
☞ Funeral will take place from the Franklin House, Sunday afternoon at 4 o'clock.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be rapid and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous estimate. The figures for December ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$187,579 65	$86,548 17	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles severed. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal rates of government transportation, and is exclusive of the material increase to be added by the further extension of the road.
The Company's interest liabilities during the same period were less than $125,000.
And to this an ever expanding through traffic and the proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the road now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,427,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the finest lands.
The Company are now issuing a joint investor in the magnificent enterprise they are carrying to first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, BY EXPRESS, INVITES THE CO-OPERATION OF CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds,
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the extent of only one half the amount granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, and that only as the lands granted by Government, and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, and that only as the lands granted by the Government;

Morning Chronicle.

LICENSE.—There has been another pounding match for "one thousand dollars a side," this time at the Isle of Shoals, the pugilists being Messrs. Rooke and Moor. The details were as usual—eyes closed, teeth knocked out, blood drawn, faces battered, &c. It being found impossible to stop ring-fighting by law, the heavy-weights and the light weights snapping their fingers at the police everywhere with equal contempt, and fighting just as often and just as long as they please, would it not be a good plan to license the business? A license is thought to be a plaster for every other inquity—why not for prize-fighting? Of course the provisions of the privilege must be numerous and stringent. The valiant Rocky Moores and George Rookes must give bonds to fight in the most Christian manner, and strictly according to the rules of the P. R., being also solemnly sworn not bit below the belt, and to refrain from gouging under the most exasperating temptations. They must also file within thirty days of the fight, in some court of record, evidence of good moral character. No fight shall be lawful unless attended by two justices of peace, one doctor, and a chaplain. No license for fights upon Sundays shall be issued; and a standing Board of Commissioners, consisting of Joe Coburn, Mike Coburn Jim Coburn, Kit Burns, J. C. Heenan, and Barney Aaron, shall have power at any time to stop any fight out of which they think it impossible to make any money. The Commissioners will have an office in City Hall, will be allowed twenty clerks at $1,000 per annum each, and will provide ropes, sponges, fighting-shoes, brandy-flasks, and other ring necessaries at the cost of the city, having first duly advertised for contracts to furnish the same. They shall be paid twenty per cent. of all battle money, and as much more as they can squeeze out of the combatants.

This is merely a skeleton of the statute which we propose for the legalizing, refining, tempering, and modifying of prize-fights. We have consulted many professors of the fistic art; they all like the plan, and if the law been enacted would show it the same respect which they are accustomed to pay to other statutes. This is encouraging, and we think we must start a petition at once.—*Tribune.*

FOREIGN OPINION OF ANDREW JOHNSON.—Bayard Taylor, in a letter from Germany to the Tribune, has the following significant paragraph:

"Let me say, since I have touched upon a political question, that since I have come to Europe I have constantly been called upon, in France, Switzerland and Germany, to explain our present difficulty, and that while I have found a great many persons unfriendly to the permanence of the Union, no one has the courage to confess himself the admirer of Andrew Johnson. Whatever may be the prevalent ignorance of our institutions in Europe, most persons can distinguish between the functions of the Legislative and Executive Departments, and the attitude assumed by the President is the more mortifying because it renders his office, through him, ridiculous in the eyes of both parties—those who wish us well and those who wish us ill. I heard Mr. Buchanan praised, over and over again, by members of the party of reaction in Europe, by men who would restore absolutism if they could; but the same men do not dare to praise Andrew Johnson, lest they should seem to sympathize with what even they admit to be folly and stupidity. As for the McCracken style of diplomacy which has come into practice at Washington, let us blush and be silent.

— A wealthy banker of Amsterdam purchased a picture as a Rembrandt, and gave two thousand guineas for it. A carpenter was called to fit it to the frame, in which it was rather loose, and the owner remarked to him how wonderfully the picture was preserved, considering that it was nearly 200 years old. "That is impossible," said the carpenter, "this wood is mahogany, and mahogany had not been introduced into Europe at that time." The picture was burned.

A Man of a Thousand. A Consumptive Cured.

DR. H. JAMES, a retired physician of great eminence discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* This discovery was discovered by him when his only child, a daughter, was given up to die. His child was cured, and now lives to bless the parent who, by benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption that it does not reduce take hold of and dissipate. Night sweats, nervousness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chills, nausea, pain at the stomach, inaction of the bowels, wasting away of the muscles,

AGENTS WANTED FOR

GENERAL L. C. BAKER'S

HISTORY of the SECRET SERVICE.

The work was announced more than a year ago, but owing to the attempts of the Government to suppress it, its publication was delayed. It is now being issued, UNALTERED AND UNDER THE SUPERVISION of GEN. BAKER, whose marvelous narratives will attract the highest official authority.

The MORALS of the National Capital are THOROUGHLY VENTILATED, and the most startling SECRET REVELATIONS concerning Heads of Departments, Members of Congress, **Female Parasites** and Sharks, and distinguished Public Characters. Send for circulars and see our terms, and a full description of the work. Address JONES BROS. & CO., 26 So. Seventh St., Phila., Pa.

FIRST MORTGAGE BONDS,

ST. LOUIS AND IRON MOUNTAIN RAILROAD CO.

Seven per cent. Interest, February and August.

These Bonds cover a road of 91 miles finished to Pilot Knob, St. Louis to Pilot Knob, and in first-class order, and an extension of about the same length from Pilot Knob to Belmont, now rapidly constructing, for which the proceeds of these bonds are to be used, making a through route from St. Louis to New Orleans by rail. The earnings of 91 miles are $600,000 a year; the net profits are more than sufficient to pay the interest on the entire amount of bonds, were they all issued. The basis of security is believed to be beyond that of any other bonds now offered. Apply at the office of the Company, No. 43 Wall street, to H. G. MARQUAND, Vice President, or to CLARK, DODGE & CO., corner Wall and Williams street.

The Chronicle.

—Reader did you ever enjoy the extatic bliss of courting? You didn't? Then you had better get a little gal-an-try.

—Out of a list of one hundred and ten persons, summoned as jurors for the approaching October term of the District Court in the parish of East Feliciana, La., eighty-one are set down as colored.

—A member of a Pittsburg volunteer company which just received its arms from the State was astonished in receiving the identical gun which he carried for three years in the war, and which he had left at Petersburg, Va.

—A gentleman who has kept a record of cotton losses during twenty-two years makes the statement that more cotton has been destroyed by fires and other casualties, in that time, than would now pay the national debt.

—A calculating correspondent of a British journal has discovered that the famous race horse "Achievement" has literally won his weight in gold. This, he says, is represented by twenty eight thousand sovereigns, which, in round numbers, weigh four hundred pounds avoirdupois.

—Mrs Maria Starks, residing in Ontario County, New York, cut and harvested this season over twenty-five acres of wheat with her own hands. Her health improved immensely by the operation; she accquired the bronze complexion so fashionable just now in Paris, and is said to have gained fifty pounds of flesh.

—An old fellow who is always perpotrating bad jokes, persists in describing gamesters as birds of par o' dice and he accounts for the presence of blackleg in a sheepfold by citing the notorious fact that lambs are always passionately fond of gamboling.

—Henry Ward Beecher said to Robert Collyer, the other day, after hearing him preach: "If you preach in that way the deacons of Plymouth Church will not hesitate to let you into their pulpit." Collyer responded: "If they have stood you, Mr. Beecher, these ten years, they would gladly stand me by this time."

—When Dr. Day was President of Yale College, a party went out with him once to practice surveying, and the President felt gratified with the intelligence evinced. Next day one of the party was examined. "How would you go to work to survey a piece of land?" The student hesitated. "If a man were to come to you and wished to have his farm surveyed, what would you do?" "I—I—I should advise him to get somebody else to do it, sir."

—At dinner recently, a gentleman unwittingly placed his fingers in the sugar bowl instead of using the pinchers. The lady of the house ordered the servant to remove the bowl and bring another. The gentleman drank his coffee, and after he sipped the last drop he smashed the cup, remarking "Of course if a sugar bowl into which I put my fingers cannot be used again no one would think of using a cup which has touched my lips."

—The Paris *Charivari* publishes a woodcut representing a female figure entitled "Political Chronicler," bobbing a pen, and just about to indite a telegraphic despatch. Near her is a male figure in a Turkish costume, supposed to be a cook, from the case of culinary instruments hanging at his side. "Here," he says, "is a new victory we have just gained over the insurgents!" and he presents to her a dish containing a *canard* neatly dressed up.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, OCTOBER 14, 1867.

THE MILITIA OF NEW HAMPSHIRE under the old order of affairs, consisted of forty regiments; most of which had an annual muster, usually by itself, although occasionally there were what went by the name of Brigade Trainings. During that period, the latter part of September and most of October constituted a season of extraordinary interest to the population of the State. The State, County and Town Fairs have of late years engrossed much of the attention formerly given to Trainings.

The N. M. of the Granite State is now embraced in two regiments. The First, Col. J. N. Patterson, was mustered and reviewed in Manchester a few weeks ago. The Second went into camp at Lake Village last week Col. A. W. Rollins of Rollinsford, Commander. Fourteen Companies composed the Regiment, tiring upon territory from the sea to Coos county. Among those in this vicinity were the Strafford Guards, Dover, Capt. Thos. Currier; Granite State Zouaves, Dover, Capt. William Millen; Portsmouth City Guards, Capt. P. Mitchell; Rockingham Guards, South Newmarket, Capt. J. E. Simpson.

Col. Rollins' Staff consisted of Lt. Col. N. Shackford, Laconia; Maj. M. T. Betton, Portsmouth; Adj. Clarendon Everett, Dover; Quartermaster, Wm. P. Moses, Great Falls; Surgeon, C. H. Horsh, Dover; Asst. Surgeon, A. H. Varney, Newmarket; Chaplain, Rev. E. P. Ladd, Alton.

CABLE NEWS, Oct. 11.—Reports from Paris say that Napoleon complains of the delay of the Austrian Government in completing the military organization of the empire.

The *Presse* says the Pope is confident of the ability of his forces to successfully resist the straggling parties of the invaders. He greatly fears that the Italian Government will yield to the popular outcry and order its troops, now concentrated upon the Papal frontiers, to march upon Rome and occupy the city.

Three iron-clads have been dispatched from Woolwich to the Irish coast.

Intelligence has been received from China that the rebels are meeting with success and threaten Pekin.

The insurgent and invading parties in the province of Viterbo have concentrated at Forner, where they have thrown up intrenchments. Many other places in the Roman territory have also been occupied by Garibaldians. Several detachments of Pontifical troops have been sent out to dislodge them, and the garrison of Rome is at present very small.

A strong Papal force had left Rome to prevent a junction of Menotti Garibaldi and the parties under his command with the insurgents at Forner. The plan of the Garibaldian leaders seems to be to draw the soldiers of the Pope away from Rome, and thus give their friends in that city an opportunity to rise.

Admiral Farragut was the guest of Prince de Joinville at Claremont, Thursday, Oct. 10.

The United States squadron, with Admiral Farragut on board, will visit Portsmouth, Eng., after which the whole fleet will proceed to sea.

ELECTION RETURNS from Pennsylvania, mostly official, concede the election of Sharswood, the Democratic candidate for Judge of the Supreme Court in Pennsylvania. His majority will be small, perhaps 2000.

Hon. Winthrop W. Ketchum (Rep.) telegraphs to a friend that he has been beaten by Judge Woodward in the 12th district for Congress. Woodward has a majority of about 300.

A dispatch from Ohio says that the democrats concede the election of Hayes (rep.) for Governor, by majorities ranging from 400 to 1000. A Democratic majority of eight on joint ballot in the Legislature is generally conceded.

An Iowa dispatch says: "We have fought all sorts of side issues and political villainy; but in the face of this we give a vote of 30,000 in favor of making treason odious and radicalism triumphant. We have a four-fifths majority in both Houses of the Legislature, elected on a negro suffrage platform. Iowa stands true in the storm."

☞ The Strafford County Fair stands adjourned to Tuesday, Oct. 15, or, in case the day is stormy, the next fair day, when the programme of the 3d will be carried out, consisting of a grand Flowing Match for premiums of $20, $15, $10 and $4; Trotting for purses of $25, $40, $15 and $100; games of Base Ball for the championship, and the prize Bat and Flags, will be concluded between the Barrington, Rochester and Gonic Clubs; Foot Race, &c., &c., and final announcement of premiums.

☞ The White Mountains are now well covered with snow, and present a beautiful appearance, from Lookout Mountain on South Road, when the weather is clear enough to distinguish them from so great a distance, 90 to 100 miles. Mount Washington looks like a sugar-loaf. The kaleidescopic variegated pictures presented from Stratham Hill, are worth going a hundred miles to view.

— The New York Times calls Mrs. Lincoln's attempt to sell her superfluous clothing a "black-mailing raid."

Local.

☞ The City Marshal's Report for the quarter ending Sept. 30, shows a total of 362 arrests, for the following offences: Assault 35, aggravated assault 10, assaulting officers 4, brawl and tumult 10, common drunkards 5, deserters 8, keeping disorderly house 3, drunk 174, fornication 3, house-breaking 1, lodgings 76, liquor selling 1, larceny 8, malicious act 1, night walking 1, using obscene language 7, pickpocket 1, resisting officer 1, truancy 5, violation of Ordinance 31 one, violation of Sunday ordinance 8, vagrancy 1.

☞ John McCarey of Boston, a minor, who had been shipped on board the Vandalia, was discharged last Saturday by order of the Secretary of the Navy, upon a decision of Judge Tapley of Maine. Wm. H. Hackett was attorney for the petitioner, and the case decides that minors cannot be legally enlisted into the Navy without consent of parents or guardians.

NAVAL.—The following officers have been ordered to the steamer Piscataqua, flag ship of the Asiatic Squadron, now fitting for sea at this station.

Lieutenant-Commanders—Arthur R. Yates, Horace E. Mullan, Henry B. Robeson, O. A. Batcheller, C. M. Schoonmaker.

Lieutenant, Francis Morris.

Chaplain, Edmund C. Bittenger.

Captain George W. Collier, fleet marine officer.

Master, James B. Weaver.

First Assistant Engineers—Robert H. Gunnell, Henry Scott.

Midshipmen—Arthur A. Boyd, Edwin S. Jacob, John F. Meigs, Frederick M. Symonds, Edward H. Gheen, Charles E. Brown, Wm. H. Reeder, Matthew Bolles, Wells L. Field, Alfred Force, Edward W. Very, Daniel Delehanty, Frederick M. Wise.

Surgeon—R. F. Macoun.

Passed Asst. Surgeon—Henry S. Pitkin.

Assistant Surgeon—Adam Trax.

Second Asst. Engineers—Wm. H. Harris, J. F. Brigham.

Paymaster— George F. Cutler.

Carpenter—Theodore H. Bishop.

Gunner—George Sirian.

Boatswain—John McCaffarey.

Acting 2d Assistant Engineer—Thomas E. Lynch.

Acting 3d Asst. Engineers—A. D. Radcliff, A. M. Shaw, E. J. Swords.

The Surgeon, Paymaster and Chief Engineer of the Piscataqua will, in addition to their duties on board that vessel, perform those of fleet officers of the squadron.

Acting Ensign John Dennett has been detached from the Wateree and ordered to duty on the Vandalia.

Acting Ensign George W. Baker has been detached from the Vandalia from the 15th inst., and granted leave for discharge.

WHO ARE REJOICING?—We read in the papers such items as this:

The Democrats gave a salute at Hartford of 100 guns, in honor of their victories; 100 in New York City Park; 100 at Concord, N. H., where ex-President Pierce spoke; and were jubilant everywhere.

All this is very natural, and should not be found fault with by any party who ever fire guns at their own successes. But who are these people that fire and rejoice? And did they fire and rejoice when our armies in the field put down the rebels and quelled the rebellion? No indeed. On the contrary, Franklin Pierce was making his great speech about the Mausoleum of Hearts, at the great Copperhead Powow in Concord, on the 4th of July, when the news came of Gen. Grant's success at Vicksburg—but the guns and the rejoicing then and there came from those who considered Pierce and his company to be the allies of the rebels,—and the cheers and guns saddened him and them.

But the same ex-President Pierce, in his speech at Concord a few days ago, alluding to the recent elections, said:

"I think the great battle has been fought and won. If the results are significant in nothing else, they are in this, that the white race—our race, the German, Italian, Irish, French, Scotch, and Anglo-Saxon people—are still to be the controlling power on this continent."

On the same day when this was uttered, President Johnson was visited by large number of persons, and judging by the reports, he seems to have expressed himself quite freely. He is stated to have said, among other things, that—

One result of the elections would be the defeat of the convention policy in all the Southern States where the whites have a registered majority; that New York will certainly go against the Republicans in November; that impeachment is as dead as radicalism, and that the people have declared their confidence in him and his policy, in a most unmistakable manner.

President Johnson and Ex-Pres. Pierce are kindred spirits, and representative men. They, and such as they, are joyful; but reasonable and thinking men do not rejoice with them. Pres. Pierce's stale remark about the white man's government might be varied, in the present instance, to a drunken man's government, and be quite as significant.

But, letting it stand "a white man's government," verily we had exactly that when Frank Pierce was President and Jeff Davis was Secretary of War—and when Buchanan, Breckinridge, Floyd, Wise & Co. ruled the roast. Does Mr. Pierce expect to bring these "golden days" back again? Perhaps so,—but they will never come back,—never!

NEW HAMPSHIRE ITEMS.

— The greatest exhibition of fruit at the Strafford County Fair, was made by Mr. Samuel H. Wentworth, of Rollinsford, who entered 55 varieties of pears, 20 of apples and peaches—85 varieties in all.

— The late Fair of the Agricultural and Mechanical Association of Claremont, it is said, was the best one ever held by the Association, and the attendance was quite large.

— President Smith, of Dartmouth College, has our thanks for a copy of a Baccalaureate Discourse, delivered by him on the 14th of July last. It was printed at the Dartmouth Press, and make a neat pamphlet of thirty-one pages.

— The house of Mr. Charles Woodman, Dover, was broken into last week, during the absence of the family, and a gold watch, silver spoons, jewelry, &c., stolen, to the amount of about $300. No trace of the thieves have been, who were, doubtless, professional characters from abroad.

— Our Strafford County friends lost a very fair day and won a very fool one by the postponement of their fair last week.—We intended to attend, but the only day on which we could do so fairly, was decidedly too foul for a fair day. Therefore we decided to save our fare and gave the whole affair the go by; all of which was no more than fair, considering the unfair termination of so fair a fair.—*Wolfeborough Argus.*

— A fire broke out at Hillsborough Bridge village, about 1 o'clock Thursday morning, in the stable of Geo. A. Robbins, and immediately communicated to an adjoining stable, occupied by O. P. Ascleaf & Co., both of which were wholly consumed. Robbins had five horses burned and nearly all his livery stock. Total loss $5000. The buildings were owned by Paul Morrill and John Muzzey. All of property destroyed is reported to have been insured, but the amount of the policies has not been ascertained here. It is believed by many that a set of desperate incendiaries are traversing New Hampshire, and that the above fire is a part of their work.

— West Virginia reports the finest grape crop ever gathered there.

— Gen. Brown states that the reported negro squatter difficulties on the farm of W. Taylor, near Norfolk, are untrue.

— The 1st regiment U. S. Infantry has lost more than 100 men by yellow fever at New Orleans.

— A mammoth ox seven years old and weighing 5000 pounds, belonging to Wm. Dean at Manchester, Vermont, was found dead in his stall last Saturday.

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products and is fast withdrawing herself as a purchaser for the manufacturers of the various brands of inebriate she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young competitor, for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and putting them at the lowest market value, are such as to enable them to offer them at prices which today are lower than any other house which sells California Wines of quality. We bottle five kinds. They are—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are so trifling at first, as not to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a Cold, or a ringing in the head." That this disease is so fatal to its tendency and productive of such unhappy consequences, no one will be disputed to deny. But what but a reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises in the head, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

DR. CARPENTER'S success in treating Catarrh has been almost wonderful. He does not profess to cure every case that he undertakes, but he has had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself perfectly competent to perform in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS,

OF

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed in a loud tone close to my ears. I have been deceived by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the state of my ears was so far restored, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed in the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear by a new and successful process, left Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many reasons why persons should seek with confidence such professionals generally, who practice from place to place—But these do not apply to Dr. Carpenter, who continues his practice to the leading cities and towns in Maine, and is met with great success every where he has practiced. He is a reliable and skillful specialist and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers of people have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has met marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases to his made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

Home Address, - Norway, Me.

DR. SCHENCK, the LUNG DOCTOR.

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to DR. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous Pulmonary, Bronchial, Catarrhal or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to be come familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK'S to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. If coughs up the liver, stops the circulation of the blood—hemorrhage follows, and in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He can be consulted free of charge for examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, and a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Manuake Pills 25 cents. Manufactured by GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. Local.

☞ Our venerable fellow citizen, Hon. Abner Greenleaf, (the first Mayor of Portsmouth,) recently, at the age of 83, walked home from Greenland, about five miles.—We were pleased to see Mr. Greenleaf at the Piscataqua Fair last week; and also Mr. James Dennett, who is still older, being in his 86th year, and who walked the three miles to the Trotting Park, and returned, without fatigue—which some of the young folks made such a fuss about. Mr. Dennett is one of our admirations, and about the best specimen of a hale and hearty old gent we ever saw. He has worked all his life as a house joiner, and can do a good day's work yet; and only last summer we saw him on a roof laying shingles, one of the hottest days. He has every tooth in his head as sound as ivory; can hear and see well, and does not drink spirits or use tobacco, and never was sick or had a doctor in his life. His wife is but one year younger, and is of the same stamp; they have lived together 60 years, and bid fair for another half score. Their oldest son, Mr. Charles B. Dennett, now about sixty years old, was an apprentice in the Portsmouth Journal office in his youth, and could do a day's work of two 10 and 11 quire "takens," hand press, an hour, the year round, easier and better than most pressmen could half the heap. He was afterwards of the printing firm of Tuttle & Dennett, Boston; then we believe employed on a Cincinnati paper, and is at this time in the office of the Chicago Tribune. Both father and son are hard to beat now.

Another venerable citizen, and one who though apparently less strong, has done desk work enough to kill ten men, is Hon. John Bennett, who was City Clerk for Mr. Greenleaf, and Town Clark for a generation before, and who in conversation with us last week, stated that he on that day completed his fourscore years. May all our old friends live a thousand.

☞ The display of handsome Oxen in the Town Teams was a grand feature at the Piscataqua Fair last week, as it is on all such occasions. But it should always come on the second day, so the people can see it. Mr. Haven L. Scott deserves much credit for getting out so fine a team and tastefully decorated cart for Portsmouth.—Besides the nice teams which did come, Rye had one all-made up; but a lot of seaweed drove in from sea on Sunday, and the farmers of that fat town couldn't resist the smell of rockweed — and not much wonder, though we should like to have seen them here.

Of town Teams, Portsmouth had 40 yoke, Newington 23, Greenland 20, Nottingham 15, Kittery 18—total 116 yoke, besides 10 or more yoke of other cattle on the grounds not entered.

☞ One of the first transactions on Tuesday last, (after the fire Monday night) by one of the active business men of Concord, was to call at the Statesman office and procure the printing of a placard bearing these words: "*Smoking positively forbidden on these premises.*" That is just what the occupants of the Raynes Ship Yard in this city did, after the fire which came near burning them up last week, and which they thought was set by some smoker's carelessness—but which they made out to extinguish by the aid of No. 6 Engine near, without any public alarm.

☞ There will be considerable sport at the Rockingham Trotting Park next Tuesday. Besides the horses announced, it is hinted that there may be some new ones as good or better—and certainly there will be two sharp races, and a Greased Pig. Sport will commence early, and finish in good season.

☞ An old gentleman who was buried in this city on Saturday, at the age of 90 years, had his gravestone, and we believe his coffin, in his garret for nearly twenty years. The stone was lettered, all but date and age, and the socket set in his lot at the North End, more than eighteen years ago.

POLICE COURT, Oct. 12.—Wm. Buckley, a marine, for being drunk, was fined $3 and $3 86 costs.

John Williamson, drunk, same sentence.

☞ Among the noble cattle at the Fair here last week the yoke of C. Hayes & Son, which drew as large and backed the heaviest load of all, were sold to J. H. Butler for $325, and by him disposed of to go in a logging team. The Judge sold $2600 worth of cattle here, from the Nottingham string.

☞ Among those who aided to keep things moving at the late Fair, were Marshal Wendell, and his sole Assistant most of the time, J. D. Butler, who together did the work usually done by four or six Aids. It was never any fault of theirs, if things lagged.

☞ Those wishing to invest, will find the Rockingham Co. Bonds a safe investment.—See the notice.

☞ With the exception of a few claps of thunder on the 4th of July, scarcely its sound has been heard in this vicinity the past season.

☞ We are indebted to Mr. Albert Emery of this city, chief officer of bark Niobe, for late New Orleans papers.

☞ Considerable anxiety was expressed in this city on Saturday for the safety of Major W. D. Fuller and Private French, of the garrison at Fort Constitution, who left Cape Neddick on Thursday evening for that post. Finding the water very rough, they returned by land to this point, having employed the intervening time in duck shooting.

☞ R. H. Gonnell, 1st ass't engineer, has been detached from special duty connected with the Wyoming, and ordered to the Piscataqua.

☞ There is to be a meeting of the Philharmonic Society, at Mercantile Hall, Wednesday evening, for business and rehearsal. All members are desired to be present and bring the Chorus Wreath; and other musical ladies and gentlemen interested, are invited. It is proposed to exchange the last book procured, for the Cantata of the Haymakers. 8t

☞ At the Dover Fair a week since, they had a Base Ball match, and a foot race. The distance was half a mile, and a purse of $5 was awarded to Ed. Tebbetts, of Rochester, who made that distance in 2 34. Among the horses exhibited was "Old Whitey," a carriage horse belonging to Hon Jacob H. Ela, which was driven around the track several times without saddle or bridle. Mr. Ela and Hon. J. D. Lyman were in the stand at the Piscataqua Fair when "Jack" of this City performed, and Mr. E. said Jack beat his horse; but both the Honorable Jacob and his steed are hard to beat and Jack and Whitey will be pleased to make each other's acquaintance at Dover to-morrow.

☞ A dispatch from Tennessee says that Sizemore, the instigator of the riot at Rogersville last summer, was shot dead by Union soldiers at Knoxville, Friday. His trial for murder had just been postponed, and the soldiers probably feared that this rebel rioter and murderer would finally escape the halter.

GOLD, Saturday, 144 3 8.

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE

ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINKS of communication in the world, as it is the *sole link between the Pacific Coast and the Great Interior States*, over which the immense Overland travel will pass.

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the trains now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 30 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for 33 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the first nine months of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and of ordinary local business, are carried to the further extension of the road.

GROSS EARNINGS,	EXPENSES,	NET EARNINGS,
$187,279 61	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. In the spring of 1868 the whole mountain portion of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and of ordinary local business, will be carried to the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

And to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain range.

Assuming that they will build and control half the entire distance between the Pacific coast and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,592,000, or at the average of $33,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the whole of the Company's line, saving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, will receive one-half of the PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons at the end of January and July, bearing 6 per cent and accrued interest from July 1st added in currency, at which rate they yield nearly

Seven per Cent upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government, and secured in all cases, *the first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, Bond subscriptions, Bond bonuses, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several valuable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is to be withdrawn, then) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles, eastward of the Sn Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of the Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

☞ WOOD SAWED and SPLIT when

Morning Chronicle.

ENGLISH SLOVENLINESS.—"A few years ago," says the Paris Figaro, "when a man of elegant appearance and irreproachably dressed entered one of our theatres, people used to say, 'It is an Englishman.' Now-a-days, when one remarks in the orchestra stalls a soft, dirty hat, and a red flannel shirt, one may, without fear of mistake, exclaim, 'It is an Englishman.' Why and how has this change come to pass? It is a mystery. Xavier Aubryet, however, has found an explanation for this atrocious unceremoniousness, and for these ignominious costumes. 'The English,' he says, 'travel abroad to wear out their old clothes.'"

☞ The U. S. Court at St. Louis has granted a writ of habeas corpus to Wm. Murphy, who was sentenced by a Military Commission to ten years' imprisonment for boat burning during the war. The jurisdiction and power of military tribunals to try a citizen is the question that is to be argued.

[If the military commission had given to this Murphy his full deserts, and hung him, his suit would have been avoided.]

WATCH THEM!—Those fellows who do not take their home paper—watch them! they are always on the alert on publication day, and when the papers come around to your place of business, are the first to take it up; failing in this, they read it over your shoulders, too impatient to demean themselves in a respectful manner. Spot these fellows. They are the small souled, stingy handful, who get through the world on other folk's money.—*Schenectady Dorpian.*

WAGGS went to the depot of one of our railroads the other evening, and finding the best car full, said in a loud tone: "Why, this car isn't going." Of course these words caused a general stampede, and Waggs took the best seat. The cars soon moved off. In the midst of indignation, Waggs was questioned: "You said this car wasn't going?" "Well, it wasn't then; it is now." The "sold" laughed a little; but Waggs came near a good thrashing.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubg. St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment: if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.
Baron Solomon Rothschild having recommended to many of his friends DR. LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal—For the relief and cure of *Rheumatic and Neuralgic Affections Sprains, Bruises, &c.*, it is unequaled.—It is also most efficacious taken inwardly in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Colic, Sick Headache, Influenza,* &c., and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every Hunter, Trapper and Farmer should have a bottle. Miners and Farmers residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price 25 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 136 Greenwich street, N. Y.; C. W. Wells & Co., 192 Fulton street, N. Y.; Chas. R. Crittenden, 28 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

MORE VALUABLE THAN GOLD.
Dr. WADSWORTH'S DEW DROP, for Catarrh, a perfect and speedy cure for this loathsome disease in its worst form. No person suffering from Catarrh in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $2 per bottle. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists generally.

A Man of a Thousand. A Consumptive
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for Consumption, *Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter of 3 years of age, was given over as incurable and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those suffering with these diseases, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption that does not at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, pains in the side, back and limbs, soreness of the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles, &c.
☞ The writer will please state the name of the paper they see this advertisement in Address, DR. CRADDOCK & CO., 1033 Race street, Philadelphia, Pa.

Manhood and the Vigor of Youth restored to all. Success guaranteed.
DR. RECORD'S Essences restore the lost manhypower, from whatever cause lost; the effects of early pernicious habits, self abuse, impotency and climatic give way at once to this wonderful medicine, if taken regularly according to directions (which are very simple and require no restraint in diet or exposure), in the shortest time possible. Sold in bottles at $3, or 4 quantities in one for $9. To be had only at the sole appointed agent in Boston, DR. GEO. C. GEUTZEN, 323 Bowery and 205 2d Ave., N. Y.

SPEER'S SAMBUCI WINE.
Prescribed by Physician for
FEMALES, WEAKLY PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated individual.
As a Diuretic, it imparts a healthy solution to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.
As a Blood Purifier, it is superior to any one of the best alteratives known in the medical pharmacopœia.
The qualities of SAMBUCI are "*medium in purpose,*" being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.
N. B.—Speer's Sambuci has been *long since* in use, and *SPEER'S SAMBUCI* is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and bearing ladies and children.
Be sure the signature of *ALFRED SPEER,* Passaic, N. J., is over the cork of the bottle.

The Chronicle.

FASHIONS.—We have received from that enterprising *modiste*, MME. DEMOREST'S Mammoth Bulletin of Fashions (70 figures) for Ladies, for the Fall and Winter of 1867-8; and also another of less proportions (51 figures) for children of all ages; each are accompanied by ten full-size patterns and a pamphlet of descriptions; the prices are, for ladies, $2 50; children, $1.50. Bulletins of fashions are issued semi-annually for gentlemen, but this is the first attempt to reduce the idea to practice for the benefit of ladies and children; and it is done with the liberality that characterizes all this lady's undertakings. The mammoth plates contain every variety of dress, beautifully colored for actual wear, together with patterns and the useful hints contained in the description books, should, we think, prove invaluable to every lady and mother as well as every dressmaker. The plain patterns are alone worth much more than the cost of the whole. For sale by Mme. Demorest, 473 Broadway, New York.

DROUTH IN WISCONSIN.—The Milwaukee Wisconsin says the equinox passed without at really heavy shower in Wisconsin, which is an almost unprecedented event in memory of weather-wise people. Farmers will have to commence feeding their stock very early this fall. But while all the farming interests are thus suffering from the drouth, the out-door laborers and mechanics are reaping a harvest. Within the recollections of the oldest inhabitants, since the first of June less working days have been lost by out-door mechanics than was ever before known in the history of the State. One contractor says his masons and out door laborers have lost three whole days since the first of June. There has been rain, but the rains have been on Sunday. This long and steady employment of men who are dependent upon their daily out-door work to support their families, adds a great deal of wealth to the State, and in some respects will neutralize the effects of the drouth.

A STATE PRISON ROBBED.—The State Prison at Weathersfield, Conn., was entered by burglars Wednesday night and $200 in silver ware stolen from the show case of the burnishing shop, where they were exposed for sale to visitors. The rogues gained access to the Prison yard by breaking through a small gate in the rear and took a wheelbarrow from one of the shops with which they rolled off the booty and then returned the wheelbarrow. The goods were the property of Hall, Elton & Co., contractors for the labor of convicts in the burnishing shop.

HARD TIMES FOR MANUFACTURERS. The Newburyport Herald says the manufacturing corporations in New Eng and, in the making of cotton and woolen goods, are now doing badly. Only those with the most approved machinery or at work on fancy goods, are paying their way. Wool is now lower, paid in gold, than before the war; and cotton is constantly declining, the depreciation falling upon the manufacturers in the decline of goods and the great dullness of the markets. It is doubtful if any of the companies in Newburyport will declare a dividend this year.

ACCIDENT AT COTUIT PORT, MASS.—While a party of ladies and gentlemen were out sailing, on Monday afternoon, in Cotuit harbor, the boat was capsized, throwing the whole party into the water.—They were all saved with great difficulty by Captain Austin Burlingame and Mr. Levi Nickerson, after being in the water nearly an hour. Two of the ladies, daughters of Rev. S. B. Chase of Cotuit, are not expected to recover from the effects of the accident.

— Near Vienna is the largest brewery on the continent of Europe. During the year 1866 nearly six million gallons of beer were produced. About six hundred men are employed.

— There are eleven George Washingtons registered in one of the small parishes of Louisiana.

— Barnum has purchased $500,000 worth of land on Broadway, New York, whereon he intends to build a museum.

— A jockey in Toronto bought a horse for $479, and a few days afterwards made a handsome profit by selling him at the Rochester Fair for $1100. But the new purchaser found he could trot in 2:37 and sold him the next day for $2300.

— The death is announced, in the Parish of St. Martin, Colchester, England, of Mrs. Ann Rumsey, widow, in her one hundred and fourth year. It is an interesting circumstance that she was the daughter of the celebrated navigator, Captain Cook.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all which I know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington under the Act of 1837.

No. 78 State street. (opposite Kilby street,) **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with despatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Late Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in such a form to secure for them early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

TUESDAY, OCTOBER 15, 1867.

FAIR AT EXETER.—The Portsmouth Journal says the Exeter Fair appears to have been very successful. 138 yoke of cattle made up the town teams of Exeter, North Hampton, Stratham, Seabrook, Kensington, Brentwood, South Newmarket and Epping. Seventy pens were occupied by the various animals on exhibition; and the Manchester Mirror gives some details and says, "the attendance on the second day, though counted by thousands, was not so large as the character of the exhibition warranted." The Mirror also says "the receipts were satisfactory, and the interest kept up from beginning to end." The track was poor, and so the speed slow in trotting, though Regulator and other good horses were there. A sack race and wheel-barrow race made much fun, and the bull race consisted of Mr. Treadwell's bull trotting in a sulky a half mile in 3 minutes without a break, drawing his owner. We wonder if this was the *only* "bull" the Exeter folks made in this matter? Where is the lawyer who got up on the second day, and Towled publicly that the Portsmouth Fair was a failure?

A LATE DISCOVERY.—In his letter, accepting the Democratic nomination for Governor of Maryland, Col. Adams says:

"Upon questions of finance and taxation is difficult to reconcile the incompetence which pervades our system of imposts, with a presumption of honest intent in the legislators who framed it."

This, reduced to plain English, means that the members of Congress intended, in framing the laws, to rob the people. Col. Adams sustained these legislators, and acted with the dominant party long after the laws, which he now denounces, were enacted. It is a little singular that this discovery was not made until this late day, and under the attendant circumstances.

☞ The Boston Journal's special from Washington gives these items:

The members of the Judiciary, better known as the Impeachment Committee, are nearly all here, and there will be a quorum at the meeting to-morrow. Mr. Boutwell of the Committee declares that his convictions on the question of impeachment are as strong as they were in the July session, and the other members who were in that way of thinking do not seem to have changed. The committee will be prepared, in accordance with resolutions of the House, to make a report on the first day of the coming session.

Advices from Gen. Mower show that the Convention in Louisiana, under the Reconstruction act, has been called by nearly 10,000 majority.

The President has officially decided not to grant Gen. Sickles a Court of Inquiry.—He bases it on the ground that the publication of the official correspondence is sufficient.

Gen. Grant has granted Gen. Sheridan two months leave of absence.

Gen. Grant authorizes the Star to contradict the statement that he was pleased with the result of the elections.

Secretary McCulloch states that the bankers throughout the country have been supplied with sufficient data to prevent them from receiving 7-30 counterfeits. Thus far the Department has received $80,000 of these counterfeits for conversion into 5 20s. It will return them to the parties who sent them.

Communication.

☞ While spending a few hours at Lawrence a short time since, we made a call on our friend Mr. E. Frank Page, who does an extensive business in the manufacture of leather belting, near the station of the Eastern and Boston & Maine Railroads in that city. Lawrence is a growing city, and her extensive parks, fine churches, private dwellings and public buildings, all bespeak an enterprising and live population. The City Hall and the new Court House, used by the Police Court, are fine buildings. At the entrances of the City Hall, opposite the park, are affixed the big shells presented to the city by Capt. Fox. They occupy a space on either side of the door, being held in a large hand, above which is a sleeve bearing the gold stripes of an officer in the Navy. On one of the tablets of brown stone, in gilt letters, reads, "This shot was hauled from the Monitor fleet against Fort Sumter, during the siege of Charleston in 1863, in the cause of human freedom; found among the ruins and presented to the city of Lawrence by G. V. Fox, Assistant Secretary of the Navy, 1865."

On the other is inscribed: "These shots, placed here by order of the City Council, have each struck a blow in the cause of freedom. They now rest in peace, monuments of the genius of Ericsson, and the administrative ability of the donor, our former fellow citizen."

It seems that the city of Lawrence appreciates Capt. Fox, who before the rebellion had charge of an extensive manufacturing corporation in that city. H.

—— Rev. Samuel Johnson, pastor of the Free church in Lynn, met with an accident at Dover on Saturday, whither he had gone on an exchange. As he was leaving the cars he fell and dislocated his shoulder and received a severe shock.

—— Mr. J. B. Eaton, of Nashua, Road Master on the Nashua & Lowell Railroad was instantly killed at Woburn watering station last week. He jumped from the cars while they were in motion, and slipping on the platform, fell between them and was run over, killing him almost instantly, as the only words he said were, "Oh! my poor wife and children."

☞ Four State Constables made a descent on a faro bank in Westfield, Mass., last Saturday night, capturing eight players and their gambling implements. A mob numbering about 300 attempted to rescue the prisoners, and during the row an ex-State Prison bird, named John S. Brooks, was shot dead by Deputy Chapin. This courageous execution of the law had the effect of quelling the riot.

☞ The success of the late Strafford County Fair was largely due to the exertions of the Secretary, Hon. Jacob H. Ela, and his assistant Noah Tebbets, Esq., and the exhibition was prosperous in every respect, and that of next year promises to be far superior.

Correspondence of the Chronicle.

NEW YORK, Oct. 9.

Messrs. Editors: The result of Tuesday's elections has made the Democrats delirious with joy. Possibly later and more complete election returns may somewhat abate the uncontrollable enthusiasm of the celebrators; but the World and its conferees are at present making the most of their palatable crumb of comfort.

The recent frightful horse-car accidents have had the effect to create serious agitation of the question as to whether these mercenary corporations have the right to jeopardize the lives of the public, by running dilapidated and worn-out cars on their routes. The friends of the young lady who lost her life on the Atlantic Avenue line, in Brooklyn, in consequence of the parting of a rusty brake-chain, have determined to sue the company for damages; and the city government have passed a resolution, directing the committee on railroads to require that every car shall be duly inspected, for the purpose of guarding against accidents in future. Thus the thousands of people who are daily under the necessity of going to and from their business on the street cars, will gain their just rights, and some of the now wretchedly managed lines will be compelled to supply to their patrons respectable traveling accommodations.

The New York Times, in its review of Dr. Holland's new poem "Kathrina," styles it "The most wretched poem ever published in this country." Peradventure the fact that the author of "Kathrina" and the proprietor of the Times wrote rival works on the life and times of President Lincoln, may have influenced the harsh and cutting criticism of Dr. Holland's production. But notwithstanding the fact that the Times calls Timothy Titcomb the American Tupper, the sale of his poem bids fair to be immense: inasmuch as fourteen thousand copies have already been disposed of, and still the demand continues. How fortunate the man who has an established literary reputation!

The American Institute Fair, now being held in this city, has been visited by hundreds of thousands of people. The exhibition of machinery, painting, statuary, cotton and woolen manufactures, boots and shoes, agricultural implements and the products of husbandry, is indeed very fine. The members of the Institute are about to commence the erection of a magnificent Palace of Industry that will cover a whole block, and cost not less than $1,000,000. It will contain galleries of art, conservatories, lecture rooms, and exhibitions of models of inventions and machines from all parts of the world. When completed it will be one of the finest among the numerous public buildings that rear their beautiful and stately proportions in every part of the great metropolis. LEON.

☞ The Post, speaking of the Democratic success in the recent elections, says: "This must be taken for the same sort of popular awakening that made the year 1861 memorable."

That's good! The awakening of 1861 was a crushing blow to men like Franklin Pierce, while this revives them again; before that, the majority of Democratic masses cowed, changed their tone, and, in some cases, dropped their politics and became neutral, while over this, they are all as happy now as they were miserable then; and that awakening, also, sent terror to Richmond and to the hearts of conspiring Southern Democrats, while this is a cause of jollification to all the "remnants of the rebellion." Great resemblance that, and very acute paper the Post to see it.

WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once depended. She sends a warning voice to the time-worn vineyards of Europe, and utters the hint as a fresh, young combatant for the production of wines from her own rich and increasing vineyards. We bottle five kinds. They are,—

"Angelica,"

"Muscatel,"

"Still Champagne,"

"Hock" and

"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Oporto from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so slight at first as to excite little or no attention on the part of the sufferer, and the disease is allowed to pass on from one stage to another, involving each successive march more and more serious results. Reasoning as you would avoid the dangers of a seated consumption, do not neglect a Cold or Catarrh in the head. That this disease is so fatal in its tendency and generally so free from danger, by those suffering from Chronic Catarrh, must depend on an unhealthy and diseased membrane, and the air in passing over this diseased and ulcerated surfaces, must of necessity imbibe the most loathsome and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous element. And there is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and up to the present time no healthy adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case without exception, for then he would have years of experience in treating the Ear, Eye and Throat and Catarrh alone, he thinks he could not be qualified to perform cures in many cases that physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ear. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and receiving Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have received by hearing so I can hear *distinctly*, when addressed in the tone above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this vicinity for a few weeks at the Winslow House, treating diseases of the Ear, Eye and Throat, will leave this city in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professional generals, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine and who has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and good honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months of practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst forms. He has also been versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

ALLCOCK'S POROUS PLASTERS,

had not done a day's work for years. Use these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.

AN IMPORTANT LETTER.

SUPER OAK, YORKTOWN, N. Y., Jan 19, 1860.

T. ALLCOCK & CO.—Dear sirs: I have been troubled with a lame back over ten years, so as to be entirely helpless and unable to do any kind of labor. I, in June last, procured one of Allcock's Porous Plasters and used it. Soon after, when I found my back entirely cured, and was able to mow and cradle as well as ever. I could in my best days.

STEPHEN J. UGSLEY.

ALLENTOWN, Penn., April 4, 1865.

Messrs. T. ALLCOCK & CO.—Dear sirs: My daughter used one of your Porous Plasters. She had a very bad pain in her side and it cured her in one week. Yours truly,

DR. SCHENCK, THE LUNG DOCTOR.

The Proprietor of SCHENCK'S PULMONIC SYRUP, the inventor of SCHENCK'S MANDRAKE PILLS, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, as upon the exact condition of the lungs, whether it is tuberculous, Pulmonary Bronchial, Pleuritic or Dyspeptic Consumption, and whether it is in the lungs or only one that are diseased.

A regular examination and long practice to become familiar with every sound or rattling of a tissue of bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone: when by a close examination with the Respirometer, as often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hæmorrhage follows and, in fact, stops pain the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week. 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. to 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. The medicines are put up by Dr. SCHENCK and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, $1 per bottle, or $9 the half dozen; the half dozen; Mandrake Pills 25 cents per box. GEO. C. GOODWIN & CO., 38 Hanover street, agents for Boston. Local.

☞ During the late Fair in this city, all the Railroads running here did everything in their power to accommodate the managers and the public. And this proved to their own advantage, as well as that of the Show—for on the Concord Road especially, the receipts were more than double what the Superintendent and Conductors expected, and the 900 tickets for the Portsmouth extra trains which were t ought sufficient for the three days, were all exhausted on the second morning—showing some things can be done as well as others.

☞ John S. Dodge, alias Capt. Dodge, alias General Dodge, was arrested at Newbury port a few days since by Marshal Pitts, for horse stealing. He personated a gentleman of this city, and Mr. Pitts came here and ascertained that the man whom he had represented himself to be belonged here, that in every particular he had told the truth, his personal description being, however, slightly different, and causing suspicion that he was not the man. Subsequent events prove that he was the first named party. He formerly worked in the Journal office in this city, and was arrested in Boston once on the same charge. He belongs in Fremont, Me.

☞ A special meeting of the stockholders of the Portland, Saco and Portsmouth Railroad Company is called for next Friday, 18th inst., at the hall at Kittery Station, to act upon the matter in conflict with the Eastern and the Boston & Maine Railroad Companies, relati e to the payment of the rental from those companies, in gold or silver coin, according to the terms of the lease. The directors will present a report upon this legal investigation into the rights in this regard, and suggest a course to be adopted by the stockholders.

☞ Gen. J. G. Hadley, of the Franklin House in this city, whose guests the Prize Fighting roughs were, at the time of the fate mill, says he never had a more quiet household, during the forty years he has kept hotel. No doubt the secrecy and success of the coming fight had something to do with this; for after the battle they were not so peaceable.

☞ The statement in the Chronicle of Monday, that the old gentleman of 90, who was buried on Saturday last, had in his garret for twenty years his gravestone and his coffin, is not correct. His wife died about ten years since. A handsome marble stone was erected to her memory, and being about eighty years of age and expecting soon to depart, he had prepared from the like material a corresponding stone for himself, which he kept in his store-house until needed.

That the grave stones are in good taste is evident from the fact that they had not long been erected before a widow, with whom he had had no acquaintance, called at his door one day and introduced herself by saying that she had seen in the cemetery a handsome stone erected to the memory of his wife; as she wished to erect a like one to the memory of her husband, she had called to know where he obtained it. The old gentleman told the story at the time, and expressed the belief that it was not wholly gravestones she was after.

☞ Our thanks to our old friend and subscriber, Mr. Thomas F. Foye of Newington, for a basket of handsome apples of different varieties of this year's crop, and several russets which have been wintered once and look as though they would stand it again. Also, a trio of immense hen's eggs, which remind us of Sinbad the Sailor and his Roc. The three weigh about three quarters of a pound, almost double common eggs, and the difference shows the folly of selling eggs by number.

☞ At the U. S. Circuit Court in Exeter last week, Judges Clifford and Clark present, on the application of Michael Quinlan for naturalization, the Court decided (both Judges concurring), that the Police Court of Manchester has power to naturalize, and that the naturalizations which have been had there are valid.—This disposes of a question quite warmly contested at our last municipal election.

☞ Four young ladies from this city, we hear, are going South to spend the winter, teaching Freedmen. They are all of good families, intelligent, and well-fitted to do honor to the honorable position. Three of them have already been in the same service, and one or two of them more than one season.

☞ The Trot for Tuesday, to-day, is at the Dover Fair track. It is on Friday the 18th, that the trotting takes place at the Rockingham Trotting Park near this city —and it will be good sport too; and there will be a crowd of gentlemen and ladies to witness it.

☞ A good judge of Cattle, told us on the Piscataqua Fair ground, that the oxen there were worth nearly $250 per yoke, take them all through; which would make, for the 130 yokes present, over $30,000 for that string of cattle.

☞ Of the bad bills on our books, scarcely one per cent. are against temperance men, and fully half the losses are traceable directly to drunkenness.

EXETER AND OUR FAIR.—The Exeter News Letter has published articles at once abusive and false, concerning what the writer of them called the "Side Show at Portsmouth." These articles professed to come from Hampton Falls; and among the rest, grossly insulted several of our citizens and others, and especially Col. John S. Godfrey, himself of Hampton Falls—one of the most honorable and high minded men, because he dared to accept employment on the Fair Grounds here, which he did at our personal solicitation. On this point, and concerning these articles generally, we shall have something to say hereafter; but for the present, we give the following note from a former President of the Exeter Fair, which was refused publication in the News Letter:

HAMPTON FALLS, Oct. 9.

Editors Chronicle:—The articles in the Exeter News Letter of this week and last, purporting to be written in Hampton Falls, are supposed by many to have been written by me. I wish to have it understood by all, that I am not the man; and I have satisfied myself that the author is not of Hampton Falls. I cannot thank him for using the name of our town in this manner. I do not think it a great a calamity to have the new Society gotten up, as many do. The thing to be regretted is, that they were disposed to appoint their Fair on the same days with ours.

Yours, &c., N. P. CRAM.

We were disposed at first to regret that, too; but lost all that feeling when Exeter extended her Fair another day, so as to cover ours on the third also.

POLICE COURT, Oct. 14.—John Williamson, drunk, fined $2 and $3 86 costs, and in default of payment committed to the House of Correction.

John McNally, same offence, terminating in his taking up his abode for a time with Supt. Philbrick.

Samuel Stewart, drunk, fined $3 and $3.86 costs.

☞ It is suggested that the New Hampshire State Fair be held in Portsmouth next year, in connection with that of the Piscataqua River Agricultural Association. With the Cattle Show, machinery, &c., at the Trotting Park; a Fruit, Vegetable and Flower display in the Temple, and a concert there for the evenings, it would seem a pretty good time might be had.

☞ Among other incidents of the late Piscataqua Fair, we noticed Ephraim Pickering of Newington, carrying off in his wagon a pretty calf of very tender age, which he did not bring there, certain. Following came his handsome premium two year old heifer, looking "as well as could be expected."

☞ Among the fine horse stock at the late Piscataqua Fair, a beautiful and very promising 2-year old iron gray or dark roan colt of Mr. J. Alfred Pickering of Newington, was particularly remarked; but not being displayed on the track before the Judges, he missed their notice.

☞ It is stated by the correspondent of the Boston Journal that James Hoyt (professionally "John Denier," the rope walker,) is now at his home in this city with both legs and one arm broken, from a fall of forty feet, received by the rope breaking while he was peforming at Mechanic Falls, Me.

☞ The Democrats of this city fired a salute of 100 guns on Saturday evening in their jubilance over the recent elections.

—Commodore John Rudd died in Philadelphia Friday night, after a lingering illness.

—Rev. Dr. Albert Barnes, author of Barnes' Notes, has been compelled by ill health to resign the pastorate of the First Presbyterian church, Philadelphia.

—The store of Wadsworth & Brothers of Pembroke, Me., was broken into Saturday night, the safe blown open, and $3000 stolen.

—The staging around a new Baptist church in Marblehead gave way on Monday morning, throwing seven men to the ground and killing one, a Mr. Chamberlain.

—Gen. Humphreys, the reconstructed rebel of Pittsfield notoriety, who escaped from custody at that place on Friday, was arrested a second time at Chatham, N. Y., Saturday night, and is now quietly resting at the scene of his former adventures.

—A Castine fishing vessel was lost on the coast of New Brunswick Monday week. Capt. Sylvester of Deer Isle, with the crew of seventeen men, belonging in Castine, were drowned. The vessel was built and owned by the crew. Nine of the men have families.

☞ There is to be a meeting of the Philharmonic Society, at Mercantile Hall, Wednesday evening, for business and rehearsal. All members are desired to be present and bring the Chorus Wreath; and other musical ladies and gentlemen interested, are invited. It is proposed to exchange the last book procured, for the Cantata of the Haymakers. 3t

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES FOR COMMERCIAL INTERCOURSE IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be rapid and easy. The iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the work on the section.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Expenses,	Net Earnings,
$487,579 64	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $185,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming, that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,382,000, or at the average rate of $33,000 per mile—not including the alternate grant of 10,000,000 acres of the Public Lands, which will be given for labor in the magnificent enterprise, and by waiving its claim in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, in effect, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS in the first and less carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and interest payable in Gold Coin in New York. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 93 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first* loan upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., etc., while it is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have also the following additional advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road interests one hundred of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

A Column From the Portsmouth Journal.

LYCEUM.

We understand the course will commence at the Temple on Tuesday Nov. 5.

The first Lecture will be by A. A. Willet of Philadelphia. He will be followed by E. D. Hickwood of Natick, Mass. Wendell Phillips of Boston, James DeNormandie of Portsmouth, H. W. Oliver of Salem, J. G. Holland of Springfield and others. Further particulars another week.

Rev. Mr. DeNormandie's lecture will be on the Holy Land.

NEW BAPTIST DECORATIONS.—On Monday noon we were waited upon by Mr. Timothy Meehan and his bride, just from the church, where they had been united in the bonds of matrimony, as appears by our marriage report. On Tuesday afternoon they were ready to receive company in a tent on the Fairground, and we returned their call. She was decorated in a style in which few brides appear. Her dress was a plain russet. Nothing especially ornamental about the head—but around the neck and hanging down by her sides was a real Boa—a live Boa Constrictor or Anaconda, weighing fifty pounds, measuring about a foot in circumference, and a dozen feet long! His head was occasionally elevated so as to come in contact with her neck, and his forked tongue imparted kisses to the bride! While thus arrayed, a black snake six feet in length playfully twined himself around her arms and body—and in her hand a little pet rattlesnake seemed to be fully at home. The scene brought fresh to our mind a picture in Dante's Inferno.

ROOFING.—It would be a matter of great satisfaction to those who, suffering from leaky roofs, have in vain tried the various mastic roofings which have been offered, to find one kind that does its work well and ensures a permanently dry house. We call attention to the Plastic Slate Roofing advertised by Messrs. Kelley & Co. on the fourth page of this paper, as deserving especial notice. It has been applied to a number of roofs in this city, several of which we have examined. They present every appearance of being impenetrable to water, and very durable, and neatly finished. The elasticity imparted by a mixture of India Rubber, renders it proof against cracking, and gradually hardens it is said to almost the consistency of solid slate. It has been in use for years in some localities, and received the highest commendation. The cost of putting it on is said to be less than that of shingling.

GENEROSITY.—Benjamin T. Tredick, Esq. of Philadelphia, whose ancestors for several generations were residents on Great Island, now New Castle, has forwarded a Library of between 200 and 300 volumes, at a cost of not less than $125 —a gift to the Sunday School in that place, which is but one of a series of benefactions from the generous donor to that institution. Nor has this been without effect. The school, which in 1846 had 50 pupils, has increased to 219 members, and is attended by the children of both the religious societies in that place.

BUILDING, DRAINING AND CATARH.—Dr. Carpenter's increasing practice has induced him to prolong his stay in Portsmouth. See advertisement in this paper.

From our personal knowledge of Dr. C. we regard him as a true gentleman, and well adapted to do good in his adopted profession.

NEW YORK OBSERVER.—This is a double paper; one secular, the other religious. It is ably conducted. See the advantageous offers they make in our advertising columns.

NO THUNDER.—With the exception of a few claps of thunder on the 4th of July, scarcely its sound has been heard in this vicinity the past season.

STILL VIGOROUS.—Our venerable fellow citizen, Hon. Abner Greenleaf (the first Mayor of Portsmouth,) recently, at the age of 88, walked home from Greenland, about five miles.

DESIRABLE LOCALITY.—The Hill estate on Vaughan-street will be sold on Saturday next at auction. The lot is large, on a corner, and the position desirable.

THE VACANT JUDGESHIP.—A petition is in circulation in this city for the appointment of Samuel N. Bell, Esq., to the position of Associate Justice of the Supreme Court, in place of Judge Bartlett, deceased. It is freely signed by attorneys in this city without distinction of party.

Mr. Bell is a son of Hon. Samuel D. Bell, formerly Chief Justice of the Supreme Court of this State, was born in the old town of Chester, graduated at Dartmouth College in 1847, in the class with the late Judge Bartlett, with whom he was very intimate. He commenced the practice of law in this city about the year 1850, and for several years was a partner of Attorney-General Clarke. As a lawyer, Mr. Bell maintains a high rank, and as a citizen has the full confidence of the community. —*Manchester Mirror.*

JUDGE DANIEL CLARK leaves for Rhode Island to-day, to hold the United States District Court, the Judge of that District being sick. During his absence the United States Circuit Court will be held here, and Judge Clifford, of Maine, will preside. Judge Clark may have to attend the Courts of Rhode Island during the whole Autumn.—*Manchester Mirror.*

THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon Rothschild.

Paris, 8th April, 1864, 78 Rue Faubg. St. Honore.

Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For Sprains and Bruises, Rheumatism, Neuralgic Affections, Spavins, Bruises, &c., it is unequalled.—It is also most effectious taken inwardly in the cure of, *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. NO FAMILY should be without it. The Army and NAVY, by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire of your Druggist for LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Wm. Read & Son, 156 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. No person suffering from Catarrh or a bad Cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.

DR. H. JAMES, a retired physician of great eminence discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Catarrh, Weak Throat, General Debility*, etc. This was discovered by him when his only child, a daughter, was given up to die. His child was cured and restored to health. Actuated by a desire of benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom, of consumption that it does not immediately hold off and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the breast, chills, coughs, hoarseness, weakness at the stomach, inaction of the bowels, wasting away of the muscles.

☞ The writer will please state the name of the paper they see this advertisement in. Address, CRADDOCK & CO., 1632 Race street, Philadelphia, Pa.

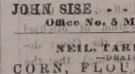
Touching at Mexican Ports and Carrying U. S. Mail
Through in Twenty-two Days.

Steamships leave the Atlantic:
ARIZONA, HENRY HAVEMEYER, NEW YORK, OCEAN QUEEN, NORTHERN LIGHT, COSTA RICA,

Connecting on the Pacific with the COLORADO, CONSTITUTION, GOLDEN CITY, SACRAMENTO, GOLDEN AGE, CONSTELLATION.



One of the above large and splendid Steamships will leave Pier No. 42, North River, foot of Canal st., New York, at 12 o'clock, noon, on the 1st, 11th and 21st of every month, (except when the date falls on Sunday) and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway, with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at ACAPULCO.

Departures of the 1st and 21st connect at Panama with Steamers for the SOUTH PACIFIC and CENTRAL AMERICAN PORTS. Those of 1st touch at MANZANILLO. Departure of 11th each month connects with the new steam line from Panama to ACCEALLA and NEW ZEALAND.

For Japan and China—Steamer of Nov. 11th connects closely with steamer JAPAN REPUBLIC, from San Francisco Dec. 4; at Yokohama with steamer NEW YORK, for Hong Kong, and COSTA RICA, for Nagasaki and Shanghai.

A limited number of *One Quarter* from Steamers' rates allowed to second cabin and steerage passengers with families. Also an allowance of *One-Quarter* on first-class rates to wives and children of officers and school-teachers. 100 lbs. Baggage allowed each adult. Baggage-masters accompany baggage through, one manifest to be made out for each without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads, and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

☞ The Lowell Courier publishes the following letter sent from New York by telegraph. It purports to be addressed to a gentleman in that city:

"LOWELL, Sept. 27

My Dear Sir: I am much gratified to find that my views meet the approbation of yourself. They are the matured opinion of close observation of the wants of the country. That they should accord with opinions of my former Democratic associates is not remarkable, as they are Democratic as was Democracy before it became conservatism under the manipulations of Fillmore, George T. Curtis, Winthrop and Josiah Randall, and persons of their opinion who never drew a Democratic breath. The Democrats must look to the Radical and Republican party for the resuscitation of its true principles, as applied to men as men. With us all true Democrats will ultimately be found who believe in equality of right, equality of power, equality of taxation under the government to every man, who, by the constitution, has the high position of American citizen. My hopes or expectations of political preferment have nothing to do with my political views. I must go forward speaking the truth in political as in other matters, and the more unpopular, if I find them just and true, the more surely will I declare them. This is not the kind of stuff Presidents have been made of, and it is more than doubtful whether they will ever be made of sterner stuff. Have I well answered your question whether I should make a good candidate for the Presidency? I will not say with Clay that I had rather be right than be President, because he was wrong and not President besides. But I will say that I would not sacrifice my independence of thought and action to be President ten times over; and that is not saying much, seeing what sort of men we have had and may possibly have hereafter to fill that now degraded place.

BENJ F. BUTLER."

THE LIVE MAN.—The live man is like the little pig, he is weaned young, and begins to root arly.

He is the pepper sass of creation—the alspice of the world.

One live man in a village iz like a case ov itch at a distrikt skool—he sets every boddy tew skratching at onse.

A man who kan draw New Orleans molassis in the munth of January, thru a half inch auger hole, and sing "Home, sweet home!" while the molassis iz running, may be strikingly honest, but he aint sudden enuff for this climate.

The live man iz as full of bizziness az the conductor ov a street kar—he iz often like a hornet, verry bizzy, but about what the Lord only knows.

He lights up like a cotton faktory, and haint got sumy more time tew spare than a skoolboy has Saturday afternoons.

He iz like a dekoy duck, always abuv water, and lives at least 18 munths during each year.

He iz like a runaway hoss; he guts the whole ov the rode.

He trots when he walks, and lies down at night only bekause every boddy else haz.

The live man iz not always a sleep thinker; he jumps at konklusions, just az the frog does, and dont always land at the spot he iz looking at.

He iz the American pet, a perfekt mistery to foreigners; but he haz done more (with charcoal) to work out the greatness ov the kuntry than enny other man in it.

He is jest as necessary az the grease on an axletree.

He don't alwus die ritch, but alwuz dies bizzy, and meets death a good deal az an oyster duz, without making enny fuss.—*Josh Billings.*

— Out of nine donations of books to the Knox College Library, Illinois, five were composed of volumes of public documents, three of proceedings of societies, catalogues and pamphlets, and one of five volumes of the Congressional Globe. These will be pleasant, light reading for the students.

— Mrs. Amy Aldis of Brattleboro', Vt., is in mourning for a daughter who died a few days since at the age of 80. The old lady is only 97, and retains her faculties and her interest in current events to a remarkable degree. At the age of 22—75 years ago—she was left a widow with four children.

— The Paris correspondent of the London Post writes of the fashions: "I have endeavored to find out what colored hair and eyebrows will be worn this year. The artists in hair have met and agreed that dark eyebrows are to accompany golden tresses, and golden eyebrows black hair. Brown or chestnut locks and curls are not to be tolerated."

— Roger A. Pryor, the once famous fire-eater, writes a letter in which he advises his friends in the South frankly to "accept the situation;" to adjust their ideas to the altered state of affairs; to recognize and respect the rights of the colored race; to cultivate relations of confidence and good will toward the people of the North; to abstain from the profitless agitations of political debate; and to employ their energies in the far more exigent and useful work of material reparation and development. He adds that if this view of matters makes him a Radical then he is a Radical.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

WEDNESDAY, OCTOBER 16, 1867.

ELECTIONS.—In *Ohio*, Gen. Hayes (Republican) is elected Governor by 3158 majority, though the other party have the Legislature.

When it was reported that Ohio had chosen a Democratic Governor, Andrew Johnson telegraphed to a Columbus editor, "God bless Ohio!" It is said that he now wishes to retract that observation.

In *Pennsylvania*, Sharswood (Dem.) has 707 majority for Judge, while the Republicans have both branches of the Legislature in spite of the defection in Philadephia.—*And the Democratic vote is not so large by several thousands as it was last year, when the Republicans gave Gov. Geary over 17,000 majority.*

As to *Indiana*, though the election was for local officers only, and the vote generally light, its average aspect is good, especially where the vote is heaviest.

Iowa has gone Republican on every ticket by at least 25,000 majority. The Republicans of that State early planted themselves openly on the Equal Rights of Man, and there they abide. They were damaged this year by the Liquor question; but they have at least 25,000 majority that may be depended on in the worst of times.

Such are the *real* results of the October elections. Do they not differ essentially from the reports still current in Democratic circles of limited information?

☞ Mr. T. H. Sweetser, the gentleman who failed to get the Democratic nomination for Governor of Massachusetts the other day, made a speech at the nominating Convention, and some of the Democratic papers like it so much that they have kept on printing and reprinting it ever since. Mr. Sweetser's discourse was a sort of wail over the general cussedness of the political situation; and among other lamentable things which afflicted his melancholy soul was this: "Worst of all," said he, "we find here and there springing up throughout the country this and that politician, with some scheme for getting rid of the national debt without in fact paying it."—Here was a direct blow at Mr. Vallandigham, straight between the eyes; and how Mr. Sweetser, even in the hour of his chagrin, could throw dirt at the great Democratic apostle of repudiation, we are at a loss to imagine. He may have been out of temper at the ballot for candidates, but that is no excuse for him. He ought to have reflected that his defeat in the convention saved him from a much more mortifying defeat at the polls.

— Trafton Hatch, Road Master on the P. S. & P. R. R., has been presented with a very fine and handsomly engraved gold watch by the employees of that Road.

— Rev. Samuel Bowker, late of Blue Hill, Me., assumed the charged of the Congregational Church and Parish in Wells on the 13th inst.

— Rev. Giles Lord, for thirteen years pastor of the First Congregational Church and Parish in Wells, closed his labors there on the 28th ult., and has accepted a call to the pastorate of a church in Eye, N. H.

— The cost of the army, from and including the year 1862 to June 30, 1867, was, for volunteers, $1,084,683,949, and for regulars, $50,933,918; total, $1,135,617,867.

—The city authorities of Saco have offered a reward of $1000 for the detection and conviction of any parties who set fires to any buildings within the limits of that city.

— The Ne Plus Ultra Collar Company, of Biddeford, this week, received an order for one million of their improved emittation linen collars, from one of the principal firms in Boston.

— William Gilpatrick, an operative in the lumber mill of Daniel Clark, of Wells, had one of his eyes destroyed on the 7th inst by the flying of a box board edging, occasioned by the fouling of the edging saw which he was tending.

— A young man was arrested by the New Haven police Sunday for being intoxicated, but on producing a marriage license which he wished to make use of that evening was released, and directed to the house of his waiting bride.

— A Boston ship-building firm have made a contact for the construction of two steamers for South America, one of them to cost over five hundred thousand dollars. The work will give employment to eight hundred men during the winter.

— The Republicans of Pennsylvania, who virtually suffered an election to go by default, are getting hot and well-earned reproaches from their political brethren all through the country. If the Republicans had brought out their full vote in Philadelphia, they would have carried Pennsylvania. When it comes the turn of our own State, remember every man to do his duty.

NEW HAMPSHIRE ITEMS.

— The *Lyndeboro'* Glass Co. has closed its works for the present.

— The Freshman class of the Scientific Department of Dartmouth College numbers 28.

— Michael Abern, a fireman on the Northern Railroad, fell from the steam box or the engine while oiling, near Danbury, about 9 o'clock Manday morning. He is badly injured in the back, but will probably live. The express train was delayed about an hour and a half by the accident.

A GENERAL WARNING.—A leading Republican paper in Philadelphia says that the State would have been saved to the Republicans by the selection of a stronger local ticket in that city. Wire-pullers were allowed too much sway on the Republican side, while the Democrats had the adroitness to cater to a strong sentiment in the community, by putting several soldiers on their tickets. The consequence was that many Republicats, dissatisfied with their own ticket, wished to vote for a few names on the other ticket, and so often threw the whole opsition ticket. Such instances as this ought to serve as a general warning.

STORM AND FLOOD AT GALVERSTON, TEXAS.—The details of the destruction as caused by the recent storm and flood at Galveston, Texas, have been published.—The city was submerged to Church street, the lower floors on the Strand being from two to four feet under water. The damage to goods and property is estimated at half a million dollars. The roof of the Masonic Hall was blown off and one man killed. Mechanicsville was also submerged, and great damage was done to property in that vicinity.

☞ "The Liberty of Preaching" was the subject of a stirring and emphatic sermon preached on Sunday by the Rev. S. H. Tyng, of New York, who has been arraigned for trial by a committee of his peculiar church, for having given heed to the command, "Go ye into all the world and preach the Gospel to every creature." Mr. Tyng is his own champion in this ecclesiastical dispute, and says: "The intellect, because its freedom is at stake, unites in the protest which christianity and country prefer against every restriction of the liberty of preaching."

☞ From the Bangor, Me., Whig we learn that a Mrs. Isaac Rich, of Hampden, left her room one day last week, leaving an infant daughter of ten weeks old sleeping in the bed, and a little boy of three years in the room, cautioning him not to touch the baby nor wake her up. She had been gone but a little while when she was *startled* by the screams of the babe, when, hastening to the room, she found the little boy in the act of getting off the bed, while the baby had its chest crushed in, its collar bone broken, and otherwise so severely injured that death ensued in 24 hours.

☞ On Sunday night, in New York city, a gang of roughs beat policeman Nicholson so badly that he is not expected to live. Three brothers named Shea have been arrested.—John McAvenee was shot on 22d street by robbers.—Rev. Dr. S.L. Ives, formerly Bishop of North Carolina, died at Manhattanville, aged 71.—Mrs. Webster, mother of nine children, was killed by an overdose of morphine, administered through the carelessness of an apothecary clerk.

☞ Rev. Benjamin H. Bailey of Dedham, Mass., has accepted the call of the First Parish Society (Unitarian) in Portland, Me., to become their pastor, and will enter upon his labors on the first of January next.

—A calf raised by Moses Benn, of Hodgdon, Me., was recently killed at the age of 12 weeks, and weighed 203 pounds, dressed!

—The oldest inhabitant of Alleghany county, Maryland, was married the other day, at the ripe age of one hundred and two, to a second wife. The happy couple are now on their bridal tour northward.

—Mrs. Mary Kimball, of Limeas, Me., was one hundred years old last May, and she is now quite smart for a person of her years. She retains her mental faculties well, can knit and do light work about the house. Undoubtedly she is the oldest inhabitant in Aroostook, if not in the State.—*Pioneer.*

☞ The London Daily News, in a review of business affairs in England, says it is the fact that for many years past the trading profits have rarely been lower than they are now. Many even of the highest mercantile firms, of first class standing and long established repute, are, as it were, living from hand to mouth. They just maintain their connection, and nothing farther.—Houses in the second rank suffer in proportion considerably more.

— A correspondent of an English paper writes that Garibaldi finds more sympathy than ever, and it would be a great mistake to suppose that those who are now agitating the country in his favor all belong to the poorer classes. On the contrary, some of his supporters are the leading men in the respective towns. In the face of these facts, the Minister and the Emperor both perceive that the country cannot sustain a third time the terrible stress which has twice already been put upon its self-command.

REMOVALS — WHY TO BE MADE.— The Washington special of the Boston Advertiser give the following account of the effort to remove Secretary McCulloch from the Treasury Department.

There is no doubt that a somewhat formidable combination of lobbyists, speculators, politician and whisky thieves is organizing for an onslaught on Sec. McCulloch and Commissioner Rollins. Col. Wellwise, the defeated aspirant for a deputy commissionership of internal revenue, swears vengeance against those officials, and so does the whole gang that tried to prevent Col. Messmore's removal. Another party in the ring, the democratic chiefs of New York city, has made its appearance here within a day or two. Col. Hillyer, one of the revenue collectors of that city, seems to be their spokesman at present. He had a long talk with the President on Saturday, and another on Sunday. The parties aforesaid declare that the Metropolitan Revenue Board is creating the very mischief with the whisky ring in New York, and will certainly interfere with the democratic programme for the coming State election. Money is wanted, and the whisky men threaten a revolt unless the revenue board is broken up.

The case has been laid before Mr. Johnson in as plausible a manner as possible, and it is currently reported that he advises a discontinuance of the board. Sec. McCulloch believes that this action would not now be advisable, and declines to be a party to anything which will tend to decreased efficiency in the collection of the revenue. Thereupon the ring informs the President that Commissioner Rollins is a radical, and Sec. McCulloch is not a true Johnson man. This allegation will be repeated day after day by the whole gang interested in a change, and it is not improbable that they may succeed after a while in driving both gentlemen out of office.

Perhaps so; but then there is a law about the Tenure of Office, which may trouble the waters a little. And when the President sends in his reasons for dismissing McCulloch, how it will it sound to say, "Removed to please the Whisky Ring, and to carry the New York election"?

☞ A Fenian who was accidentally killed on the gunboat Shamrock, was buried at Southampton, Eng., with American military and naval honors.

Garibaldi was released by the Italian Government on his avowed wish to go to Caprera, and was thence conveyed by a Government vessel. An immense crowd attended his debarkation at Genoa. He addressed the crowd, telling them never to forget Rome, to continue the common work of succoring their brothers at Rome. They might rely on his being at his post. He would go to Rome in spite of any demon or priest.

—The Newburyport Bridge will pass to the State this week, the forty years of its charter expiring on the 17th.

—The Oxford (Me.) Democrat learns that the papers and notes of the Norway Savings Bank have been recovered.

—It is said that the common squash bug is a deadly enemy to the cotton worm, and that a general planting of squashes in Texas now going on will afford an opportunity to test its truth.

Medical men, both Allopathic and Homœpathic, unanimously concur that the strong alkali contained in common saleratus is detrimental to health, and paves the way for disease. They also concur that Herrick Allen's Gold Medal Saleratus is the only perfectly harmless article in the market which can be relied upon. Use it with cream tartar instead of sods. Call on your grocers for it. Their depot is 112 Liberty street, New York. 21

A FINE PICTURE CHEAP!

SUNSET SCENE ON THE PISCATAQUA.

The novel and lively Oil Painting, "WORKMEN COMING FROM THE NAVY YARD," as seen at Mr. Joy's Music Store, is waiting the balance of subscriptions essential to its reproduction with artistic improvements, to be printed in colors. The picture has recently been taken to Boston, where Mr. J. H. Buford, at his Publishing House, assured me that he would print a beautiful colored Lithograph of the original, nearly or quite as large, without delay, at my order.

Three hundred subscribers are necessary to bring out the work—one-third are already obtained. It will be published and ready for delivery the first of January, if the subscription list is filled by the 25th of the present month. It will be a very handsome and valuable picture, especially to those who are interested in scenes about Forts mouth. Each copy will be worth five dollars, but the publishers, MOSES & JOY, have agreed to make the price only Three Dollars. Friends are politely invited to call and leave and add their names, to further the enterprise. It cannot be published if the list is not soon filled.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to the ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures by Inhalation at the store of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have received not my hearing so I can hear *distinctly*, when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the Elm House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special commendation to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professional generality, in practicing from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. SCHENCK, THE LUNG DOCTOR.

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can accurately detect the diseased murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both in the bronchial tubes that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients coming to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when, by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tubes, and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when, by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tubes, and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. Dr. SCHENCK'S PULMONIC SYRUP ripens the matter and liberates it from the lungs, stomach and liver, and throws it off by the bowels. His Sea Weed Tonic excites the liver to throw off the bile, stops the circulation of the blood—hemorrhage follows, and, in fact, stops in the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, at Hood street, New York, the Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Local.

NOT IN GOOD TASTE. — The Exeter News Letter of Monday has the following item:

"We have no space for even an abridged account of the Fair at Portsmouth. We learn from the Journal that there was a large attendance on Thursday, schools and stores being closed to swell the crowd at the Fair grounds. We learn from reliable parties who were present that there were in attendance the last day fully 7000 people, 6,500 of them *dead heads*."

Now it strikes us (says Uncle Toby,) that of all the foolish things which have been said about the two fairs, this assertion about the dead-heads is the most foolish, and at the same time the most false. If the Rockingham Fair at Exeter has not exhausted all its funds, there should be a special premium awarded to these "re-lie-able" parties, who have certainly told the biggest lie of the season. That there were, as they say, 7000 people in the Park, is true; but the other assertion is grossly false; as there was no more than the usual bestowment of tickets on eminent persons, or those who had rendered services, or who were in some way properly entitled to them;—and from our point of view we do not see how these persistent attempts to belittle this Fair by lying about it, can possibly benefit any other fair, or any person. We are glad that both fairs had good weather, good attendance and general success.

☞ Gen. Hadley wishes to say a word in regard to our item relative to the prize fighters, and we cheerfully give room to his communication. The noticeable good behavior of a large party of men, of whatever class, is worthy of mention, and our item, so far from reflecting invidiously upon our recent visitors, was intended to give them the credit to which they were entitled, much as we deprecate the errand upon which they came:

PORTSMOUTH, Oct. 15th, '67.

To the Editor of the Chronicle: Sir,—Allow me to correct a statement made in your paper of this morning, in relation to the prize fighters, in which you say that they were very quiet and orderly before the fight, but not so on their return. They were very quiet and gentlemanly during their stay with me,—more so than is usual with companies generally of the same number, regardless of their profession. No profanity or vulgar language was used in my presence, and nothing took place in their general deportment to which any gentleman could reasonably take exceptions. J. G. HADLEY.

☞ At a meeting of the Rockingham Bar held Tuesday afternoon, Hon. W. W. Stickney, W. H. Y. Hackett and Charles H. Bell were appointed a committee to report resolutions expressive of the respect of the Bar for the memory of Hon. Wm. H. Bartlett, late one of the Justices of the Supreme Judicial Court, and of Horace Webster, Esq., late a member of this Bar.

POLICE COURT, Oct. 15.—James Quigley and James Logan, marines, for an assault upon Wm. S. Berry, were sentenced to thirty days imprisonment, and to severally pay $2.51, one-half costs.

Samuel Dennett, drunk, was fined $3 and $3.86 costs.

Michael McGinnis, sailor, drunk, fined $1 and $3.86 costs.

Communication.

ONE HUNDRED NEW HOUSES WANTED. There has been such an increase of population in this city within a short period, that at least one hundred new dwelling houses are much needed. Many private dwellings are now occupied by several families, and it is difficult to find any vacant place. Landlords are thus enabled to take the advantage by increasing the rents about two fold more than they were a few years since. Now we have many skilful mechanics, able, by joining together or acting separately, to erect new buildings and make handsome profits by sales. X. Y.

[So writes a correspondent,—but the men who have money to invest, don't see it. Skilful building mechanics are getting so good wages, and have work so steadily, that only a few of them build houses for sale.]

☞ The case of Christiana Stimson vs. John W. Stimson, for divorce, has been on trial in the Supreme Judicial Court at Alfred during the past week and has excited much interest in Kittery, where the parties reside. The libelant sued for divorce and alimony, and also for the custody of the children. After the testimony of the libelant and a portion of that of the libelee had been offered, the case was withdrawn from the jury and the balance of testimony given to the Court, who, after hearing arguments of counsel, directed that the action be dismissed. The case was ably conducted by Hon. I. G. Jordan for libelant, and Hon. John M. Goodwin and Hon. Ira T. Drew for libelee.—*Saco Dem.*

☞ While walking on a tight rope last Wednesday, at Mechanic Falls, Me., John Denier fell thirty feet to the street, in consequence of the breaking of the rope. The fall injured both legs, both arms, and badly jarred his body generally, particularly his bowels. He curled himself up while falling, and fell somewhat as a drunken man falls, which probably was one reason why he did not break any bones. He will probably be well in a few weeks. X.

☞ A special dispatch from this city to the Boston Herald states that 2d Asst. Engineer Geo. F. Sawyer, U. S. N., who has been on trial here for several days before a court martial, has been found guilty of disrespect to his superior officer in declaring that the President ought to be impeached, and by order of Sec. Welles, has been suspended from duty for one year on half pay.

☞ An alarm of fire was given at about 8 o'clock Wednesday morning, caused by the burning of Pease & Conner's mineral water establishment, on Cabot street. At the time we go to press the house of E. & H. Loveen, to the north, and that occupied by Charles E. Peck, on the south, are in flames, with little prospect of being saved from total destruction. The house occupied by Mr. Peck was recently sold by Mr C. Buchanan Moulton of Boston, for $2,900, to a Mr Lydston of Kittery, who was soon to occupy it. The fire is said to have begun on the premises of Messrs. Pease & Conner, about 3 o'clock.

☞ The Supreme Judicial Court began its sitting in this city on Tuesday, with Judge Doe presiding. The empanneling of juries and reading of the docket were the main business of the day.

☞ The ladies of St. Philips' (Episcopal) Society, Epping, hold a Fair at Pawtuckaway Hall, this day and evening.

GOLD, Tuesday, 144.

— Drunken men in the streets of Virginia City, Montana, are refreshed by buckets of cold water, spectively emptied on their heads from second and third story windows.

— The Nantucket Mirror says the cranberry crop on the island is better and larger this year than for many years previous. It is estimated that 1000 barrels of this fruit will be gathered, worth in the market $10,000.

— The Farmington Chronicle editor acknowledges the receipt of damsons, cranberries, several varieties of grapes, apples one foot in circumference by actual measurement, and tomatoes by enough to test the capacity of any reasonable sized porringer.

— The vote of Sheridan Plantation has been reported at Augusta. The clerk spells the name "Sharadan." In this plantation it appears that Bingeminie Pilsburrey had 15 votes and Joshua L. Chamberlan got but 2. Good for Bingemine but bad for Joshua.

☞ There is to be a meeting of the Philharmonic Society, at Mercantile Hall, Wednesday evening, for business and rehearsal. All members are desired to be present and bring the Chorus Wreath; and other musical ladies and gentlemen interested, are invited. It is proposed to exchange the last book procured, for the Cantata of the Haymakers. 3t

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE ACROSS THE CONTINENT,

being contracted with the AID and SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, and in running operation to the foot of the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$487,579 64	$86,548 17	$401,031 47

Both the sale of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Added to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, they have now pending, the United States will have invested in the completion of 865 miles $28,592,000, or at the average rate of $35,000 per mile, and including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, by waiving in its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, DONATES ONE HALF OF THE CONSTRUCTION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. on the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad. They have been invested, Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the only ones upon altogether the most vital and valuable portion of the through line.

Second—Include the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed and in operation.

Fourth—A local business already yielding three-fold the annual interest upon its liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds is made payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, *Institutions and others as an eminently sound, reliable and remunerative form of permanent investment.*

☞ WOOD SAWED and SPLIT when

Morning Chronicle.

CRUEL.—It was needless cruelty on the part of our esperhead friends to call Gen. Pierce out of his warm bed the other night, to make a speech. He was sick, and not fit to attempt a speech. He has never been an orator since breaking his promise to Jeff. Davis, to keep "the fighting north of Mason & Dixon's line," and to make "blood run in our streets." His inability to fulfill that promise has weighed with crushing force upon his spirits ever since. He is not the man that he was, and we fear he never will be, unless he plighted faith can be, in some way, redeemed.—*Monitor.*

☞ S. R. Wells, New York, furnishes us with an illustrated edition of Pope's "Essay on Man," and a pamphlet entitled "The Gospel among the Animals," by Samuel Osgood, D. D. The Essay, which will ever be regarded as one of the masterpieces of English verse, is furnished in beveled boards for $1; paper, 50 c.

— A man in Connecticut recently had five men mowing in his hay field at one time, the youngest of whom was 64 and the oldest 80 years of age.

— The Indianapolis Journal says there is a field of corn, about two miles from that city, upon which no rain has fallen this season.

— The Highland County, Ohio, Agricultural Fair offers a silk dress to the handsomest young lady, and an overcoat to the handsomest gentleman.

— Boatmen on the Hudson river are fishing for cheeses, a part of the cargo of the Dean Richmond. It is found they are not at all injured by the water.

— A man at Huntington, Va., set two traps for a bear, the other day. That night bruin got into one of them and one of his neighbors into another.

—The General Hospital in Birmingham, England, has just received the handsome gift of fifty thousand dollars from a gentleman of that city, who refuses to have his name published.

— The dividends of the "Old Mutual" insurance company of Springfield have lately ranged from 88 to 93 per cent. on expiring policies, so that it has cost almost nothing to reinsure.

— According to a recent census, Rome contains 215,573 inhabitants, and the total for Pontifical States is stated at 692,112, London 2,800,000; Paris 1,643,000, Constantinople 715,000, Berlin 525,000, St. Petersburg 520,000.

— The receipts of a single hotel at Saratoga during the past season amounted to $780,000, of which one third may be computed as profit. About $4,000,000, it is estimated, has been spent this summer upon lodging, clothing, eating and drinking in that small village.

— Though the terrible distress, which prevailed last winter in the east of London, consequent on the almost entire cessation of ship-building, has been considerably diminished by the partial resumption of trade, and the exertions of benevolence, it is computed that there are still in the eastern districts of the metropolis nearly 30,000 dock, wharf and warehouse laborers out of employment.

— When Dr. Holmes was on his way to Dartmouth, N. H., some years since, to deliver a literary address in place of Rufus Choat, who from ill health was unable to be present, some one asked him if he was going to fill Choate's place. "*Fill Choate's place!* fill *Choate's* place!" exclaimed the Doctor: "No; I'm going to rattle round in it." This, says the New Bedford Mercury, is precisely what Andrew Johnson is doing in the place once filled by Abraham Lincoln.

THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon Ro hschild, to a friend, 9th April, 1864, 75 Rue Faubg. St Honore.

Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if your Liniment is the same thing your second, I will forward you the amount through Messrs. BELMONT & CO., New York.

The Baron Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready, as a killer of pain, taken inwardly, or outwardly applied, has no equal.—*For the relief and cure of Rheumatic Neuralgic Affections Sprains, Bruises, &c.*, it is unequalled.—It is also most efficacious taken inwardly in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. Every family should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and LUMBERMEN residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price **50 Cents** per bottle. Sold by Druggists and Country Merchants. Harnes & Co., 21 Park Row, N. Y.; Gale & Hobbins, 186 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Strittenden, 36 6th Ave. N. Y., and by respectable druggists throughout the world. None genuine unless signed by JOHN TROS. LANE, and countersigned by H. J. LANE & CO., Proprietors, 160 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."

☞ Use **Dr. Langley's Root and Herb Bitters** for Jaundice, Costiveness, Liver Complaint, Rumors, Indigestion, Dyspepsia, Piles, Dizziness, Headache, Drowsiness, and all Diseases arising from Disordered Stomach, Torpid Liver and Bad Blood, to which all persons are subject in Spring and Summer. Sold by G. G. & O. C. GOODWIN & CO., Boston, and by all Dealers in Medicines.

MORE VALUABLE THAN GOLD.

Dr. WADSWORTH'S DEW-UP, for the Catarrh, a perfect cure, and should be used by every one in its worst form. No person suffering from Catarrh or a bad Cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.

DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. The child was cured and is now alive and well. Grateful for benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and using this wonderful medicine, if taken regularly according to directions (which are simple and require no restraint from business or pleasure). Failure is impossible. Sold in bottles at $3, or 4 quantities in one for $10. Can be had only of the sole appointed agent in America, HERMAN GEULZEN, 323 Bowery and 205 2d Ave., N. Y.

A NEW STYLE OF "WATER FALLS."—It is announced on high authority, says a Paris letter, that a new mode of dressing chignons is to be introduced in the winter. Instead of being smooth, or plaited in broad bands, they are to be ornamented with a lot of tresses, which are to dance with every move of the head. The new chignon, it appears, is to be called a "Bismarck."—Moreover, a new head-dress has been invented to surmount the chignon. It is a sort of boy's cap with a large peak to it, a gold band around it, and gold knob on the top. It is also called a "Bismarck."

— It is said that ex-rebel Gov. Vance, of North Carolina, was the first prominent lawyer to address a colored jury," and won the case which he was trying.

— A scamp, who imposed a false marriage notice on the Maine Farmer, has been discovered and will be dealt with according to his deserts by the friends of the aggrieved parties.

— Rev. Dr. Palfrey of Belfast, Me., has been appointed to edit a liturgy for the use of the Unitarian churches, about to be published by the Unitarian Association.

— John B. Gough was hissed, as he deserved to be, at the Cooper Institute, recently, when he said he preferred prize fighting to horse racing.

— "Why do you always buy a second class ticket?" asked a gentleman of a miser. "Because there is no third class ticket," was the reply.

— Eve did not know as much as her daughters of the present day. Had they been in her place, instead of being deceived by, they would have deceived the devil.

— When you see a young man and woman walking down the street, leaning against each other like a pair of badly matched oxen, it is a pretty good sign that they are bent on consolidation.

— Scene on the street: Jubilant Democrat—"Do you hear those guns? I tell you we can afford to burn powder over such victories as these!" Touchy Republican—"That's so! You didn't burn much during the war, and haven't burned much since."

—A retired sea-captain who had made the tour of continental Europe and the Holy Land, was asked how he was impressed by his visit to Jerusalem. "Jerusalem," said he, "is the meanest place I visited. There is not a drop of liquor in the whole town fit to drink."

—Bob, that is a fine horse you have there; how much is he worth?" "Three hundred and fifty dollars." "Not so much as that." "Yes, every cent of it—another fifty on top of it." "All right." "What are you so inquisitive for?" "Merely for assessing purposes. I am assessor of this ward, and only wanted to know what you rated your nag at."

— Artemus Ward was enthusiastically entertained by the people of Virginia City, Nebraska, on his western tour. On leaving he made this speech from the top of the coach: "Good bye. Take care of yourselves. I never was in a place in my life where I was treated so well as I have been here, nor, I may add, so often!"

— Henry Ward Beecher, in his discourse on Sunday said that "some men will not shave on Sunday, and yet they spend all the week in *shaving* their fellow men; and many folks think it very wicked to black their boots on Sunday morning, yet they do not hesitate to black their neighbors' reputation on week days."

— An officer of the iron-clad Stonewall, now on her way to Japan, says the vessel is a first rate sailer, "and can go over the water or under the water—it is all the same to her," but as one of the results of this duck-like quality, he says he is about half the time up to his knees in water.

— Charles Lamb was once riding in a stage coach, in company with one of those troublesome fellow-passengers called a well-informed man, who after exhausting a variety of topics, asked what sort of a crop of turnips he thought they should have. Lamb replied, he believed that depended upon boiled legs of mutton.

—Great Britain now contains thirty millions of people, an increase of two and a half millions since 1852, and during that time she has furnished three millions of emigrants to this country, Australia, etc.—During the past fifteen years Ireland has decreased in population nearly eight hundred thousand.

— There is a clever man, named Chervin, in Paris, who cures stuttering in fifteen days, and his success has been very marked. *Le Temps* remarks that this question of stuttering is one of more consequence than would appear at first sight. Between the years 1852 and 1862, 6773 conscripts were released from military service in France, on account of this infirmity, and the number of marriages which have been missed, on account of stuttering lovers, would reach a much larger figure. M. Chervin will no doubt obtain more practice among lovers, than with persons liable to conscription.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to the superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pains have been taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of securing their applications in a form to secure for them an early and favorable consideration at the Patent Office.
Edmund BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TEAGUE."

To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 Endicott St., Boston, is consulted daily for all diseases incident to the female system. Prompt use (last one hour) will suppress any and other menstrual derangements, and all treason on nature's pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience (the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, solicits a call, as no superior in the United States.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, OCTOBER 17, 1867.

WASHINGTON ITEMS.—Gen. Mower has taken measures to stop rebel interference, through the civil courts, with those parties in his district who leased abondoned plantations from the government during the war and have since been engaged in cultivating them. The former owners have instituted all sorts of vexatious suits to invalidate the leases and get possession of the growing crops. Gen. Mower, after examining one of these cases, sets aside the proceedings of the court, declares them annulled and abrogated, and directs that the lessees have absolute use and disposition of the property.

Gen. Sickles' application for a court of inquiry was returned by the President to the War Department, with an endorsement declining to grant the court. It is understood Mr. Johnson refuses on the ground that Gen. Sickles has taken the case before the bar of the public, by publishing his correspondence with Gen. Grant, and therefore a formal investigation could be of no avail.

FROM ITALY.—Florence dispatches of Tuesday evening say, exciting news from the South has just been received. A battle has been fought near Verola, in the province of Frozinone, between the Garibaldians and Pontifical troops, in which the former were victorious. A strong detachment of the Papal Zouaves was sent from Rome during the latter part of last week, to prevent a junction of the insurgent bands in Frozinone with the party under Menotti Garibaldi, who were reported to be in that province. They were unsuccessful, and were obliged to meet the united forces of the insurgents under command of Menotti Garibaldi in person. A desperate fight took place outside the town of Verola. The Papal Zouaves were badly beaten, losing heavily in killed and wounded. The Garibaldians lost five killed and fifteen wounded.—No report is given of the number engaged on either side. The news is received with great rejoicing by the people.

It is reported that if the condition of affairs around Rome should become critical, the Pope will leave the city and take refuge in Bavaria, where he has been offered an asylum.

Mazzini has issued a manifesto in which he exhorts Italian patriots in Rome to rise and proclaim a Republic.

Garibaldi has sent out another address from Caprera, in which he earnestly calls upon the Italian nation to arms.

Many people here believe that Gen. La-Marmora, who is in command on the Papal frontier, will order his troops to cross the line and occupy the Pontifical territory, and possibly march on Rome.

FROM ITALY, *Latest.*—A Florence special says after the Papal troops were defeated at Nevota they were driven to Monte Maggiore in disorder.

A Paris special says says that the Papal troops, on Sunday last, attacked and defeated 300 Garibaldians who barred the road to Monte Librate.

☞ On Tuesday, at New York, the Jerome Park autumn meeting commenced.—The weather was beautiful and the attendance very large. The racing was the finest ever witnessed in the East, but a fatal accident in the hurdle race cast a shadow of gloom over the day's enjoyment. Six horses started in the hurdle race, viz: Leatherlungs, Tycoon, Julius, Redbird, Zara and Nigretta. Julius was the favorite against the field and won cleverly. In jumping the second hurdle Nigretta turned a summersault and threw her rider, Cassidy, on his head. He was taken up insensible and died shortly afterward. The time made was 3:35 1-2.

☞ At Washington, on Tuesday, Gen. Grant presented to the Cabinet meeting the record of the court martial in the case of Col. Gilbert, who was tried by Gen. Ord for suppressing a newspaper in Arkansas, and writing a defence of his act based on the ground that the military were the masters of the Southern people. Gilbert is found guilty, sentenced to pay a fine of $1000, and be reduced to the rank of captain. The sentence is approved by the President and Gen. Grant.

Gen. Ord reports to Gen. Grant that he has been obliged, on account of yellow fever, to remove his headquarters from Vicksburg to Yellow Springs, Miss.

☞ Seven large American flags, being the last of the property captured on board the rebel privateer Shenandoah, were sold at auction in New York, Saturday. A Mr. Miner was the purchaser of five of them. On being asked what he intended to do with so many flags, he remarked that he should give them to the breese for the first time when news shall be received of Gen. Grant's election to the Presidency.

SYLVIA'S BURDEN.—This is a very neat volume of 200 pages, just issued by Wm. H. Hill, Jr., of Boston, and for sale in this city by J. H. Head. It is one of the "Sweet Clover stories," written by Mrs. Carrie L. May. For youthful readers we have rarely seen a better book; and if some of ripar years should begin to read the story, we think they would find themselves reading to the end without stopping. There are four or five illustrations.

GOLD, Wednesday, 143 1-4.

NEW HAMPSHIRE ITEMS.

—— Chief Engineer Osgood of the Concord Fire Department has resigned his position.

—— J. H. Sawyer of Manchester has been appointed Agent of the Appleton Company in Lowell.

—— The Governor and Council have appointed Osmian Ray, of Lancaster, Solicitor for Coos county.

—— In the northern part of Merrimac County, potatoes bring 60 cents a bushel, No. 1 Baldwin apples $4.50 a barrel, and hay $18 a ton, at wholesale.

—— John Atwood, while at work in a sawmill at Cilleyville, (a village in Andover) Friday evening, Oct. 11, had his coat caught by a circular saw He was drawn upon the saw, having three ribs, a portion of one lung and one shoulder sawn entirely off. He lived until the next day.

—— The Governor and Council have sold all the public lands belonging to the State, about 60,000 acres, located in Grafton, Carroll and Coos counties, under an act of the Legislature, passed in June last, authorizing their sale. Aurin M. Chase of Whitefield, N. H., was the purchaser, for $25,000.

—— Mrs. Jos. N. Sanborn, owner of the famous Sanbornton grape vine, has picked 1000 pounds of grapes from it this years and expects to pick 200 pounds more.—The vine is 21 years old and covers 16 square rods of ground. The twelve canes that start from the ground measure 8 feet 7 inches in circumference.

A DIVE.—Sub-marine divers are at present engaged in removing Independence rock, near the Steamboat wharf, in Bangor, Me., by blasting with gunpowder. The powder is placed in tin cans and laid on the rock, and at high tide, when the pressure of the water is the greatest, the cylinders are exploded by electricity. Many persons go to look on. The other day, the cylinder had been located, the wires adjusted, and all was in readiness for the electric spark, when a genteel individual, dressed in fashion, with elegant silk hat, kid gloves and profusion of gold chains wound around his symetrical chest with artistic taste, approached the side of the scow to obtain a closer view of the "*modus operandi.*" The bottom of the scow was slippery with mud, and as our hero bent his dignified person to look into the depths of the water, his heels slipped up and with a yell of despair the animated bundle of elegant clothes, with the hat, necktie, gold chains, etc., disappeared in the river. Never did a bullfrog, when pursued by mischievous schoolboys, make a more perfect dive. A feeling of horror ran through the multitude, as the waves closed over the scene, but never was a bull fighting matador greeted with louder applause than was our friend as he rose to the surface of the water. Drowning men catch at straws; so our diver, grabbed the connecting wire of the electric battery, and in his struggles pulled it out of the cylinder, thereby letting in the water and spoiling the powder. The damage to the contractor by this interference with the wire was about fourteen dollars, but the amount of laugh caused made good the loss.

—On Sunday noon, just as the congregation were about leaving Dr. Burchard's church on West Thirteenth street, New York, the pavement at the door caved in, leaving a chasm so deep that a brick being thrown into it no sound was heard when it struck the bottom. The aperture proved to be a large well, which had been imperfectly covered over when the street was made, and its existence forgotten.

— The Eastern Railroad bridge at Newburyport is completed, and on Friday evening the workmen were assembled at a banquet in the workshop, which was arranged for a festive occasion, and the foremen of the different gangs employed on the bridge were presented with articles of silver ware by the Superintendent of the work, Mr. Dexter Pratt.

— On Monday a woman was taken to a police station in Providence for drunkenness. Hardly had she been committed, when three children, the oldest scarcely more than six years old, came in to find their mother. In response to an inquiry if they completed the family, one of the worse than motherless infants said the baby was left at home. Picture the situation of that family!

— The Postmaster at Skowhegan, Me., has been relieved of the labors of his office, and Hon. Stephen Coburn temporarily placed in charge of the office. There have been great complaints of loss of money sent through the mails over routes through Skowhegan, for a long time, and circumstances indicating the trouble to be at that point, have led to the displacement of the Postmaster.

— The decline in cotton has proved very disastrous to Liverpool dealers, and a further decline would bring down the whole cotton trade, and ruin the bankers connected with it. Many of the dealers, to obviate the effects of open insolvency, made private settlements with the bankers on favorable terms, with the understanding that the banks should continue to support them. In this way the price of cotton has been sustained. There is a want of confidence in New York, in the credit of Liverpool firms.

THE MODEL MAN.—The model man never disturbs a hen when she is a settin; never speeks cross tew a lost dog; alwuz puts a five cent shinplaster in his vest pocket last Saturday nite tew hev it ready Sunday morning for the church platter; rises whenever a lady enters the street kars; remembers your unkle plainly, and asks after awl the family. If he steps on a kat's tail he is sure to do it light, and immediately asks her pardon; hooks up his wife's dress a bit plays boss with the children. Never meddles with the cream in the milk pans; goes easily on errands, and cums back in season; attends everybody's funeral; kan alwaz tell when the moon changes; thinks just as yu do, or the other way if yu want him tew; follers everybody's advise but his owne; praktises most of the virtues without knowing it; leeds the life of a shorn lamb; gets sick after a while, and dies as soon as he kan, to save eny further trouble.

The model man's vices are not feared, nor his virtues respekted. He lives in the memry of the world just about as long as a plezzant day. He may be called a "clever feller," and that is only a libel; but he will get his reward hereafter—when the birds get theirs.—*Josh Billings.*

☞ If Asmodeus should unroof all the houses in New York, as the story says he unroofed those of Madrid, in the dressing rooms of nine-tenths of the *beau monde* would be seen Phalon's "Night-Blooming Cereus.—*Wilkesbarre Union.*

— A building on Bryant's wharf, at Newcastle, Me., owned by Stetson Brothers, was burnt last week. Loss $600 and no insurance.

— Dennis McGrath has commenced suit against Mrs. General Sherman, in St. Louis, for the recovery of a cow, which he claims to be his property.

—Judge E. F. Buckner of Brandenburg, Kentucky, at the age of 65, became so enamored of a young lady of nineteen, that on having his suit rejected he shot and killed himself with a double barreled gun.

— Sullivan, who murdered Farrell in New York recently, has been acquitted.—The homicide was not denied; but it was proved that Sullivan's wife was living in open adultery with Farrell.

— The State Constables, who were attacked by the mob at Westfield, Mass., on Saturday night, have all been admitted to bail in $5000 each, and are held for trial on a charge of manslaughter.

— Brooklyn printers are learning lessons from the English tailors. The other day, some of those on a strike assaulted two of the new compositors. None of those who struck are to be reemployed, their places being generally filled by female compositors.

— A public meeting will be held at Cooper Institute, New York, to-day, to discuss the project of freight railroads and the abuses of our present railway system.—Among the speakers will be ex-Gov. Andrew, Josiah Quincy and Gov. Fletcher of Missouri.

—Andrew Kane, who lives near Waterford, N. Y., one day last week set a bull dog on a cow, and finding that he was injuring her, was attempting to separate them, when another cow rushed at Kane, planted her horn in his abdomen, and threw him high into the air.—He was so much injured that he died soon after.

— The printers on a strike in Brooklyn assaulted one of the printers on the Union newspaper, brutally beating him, and another striker assaulted James Cooper, publisher of that paper, but Cooper not only thrashed his assailant, but handed him over to the police.

— The Eastern Railroad bridge at Newburyport is completed, and on Friday evening the workmen were assembled at a banquet in the workshop, which was arranged for a festive occasion, and the foremen of the different gangs employed on the bridge were presented with articles of silver ware by the Superintendent of the work, Mr. Dexter Pratt.

A FINE PICTURE CHEAP!

SUNSET SCENE ON THE PISCATAQUA.

The novel and lively Oil Painting, "WORKMEN COMING HOME FROM NAVY YARD," as seen at Mr. Joy's Music Store, is waiting the balance of subscriptions essential to its reproduction with artistic improvements, to be printed in colors. The picture has recently been taken to Boston, where Mr. J. H. Bufford, at his Publishing House, assures us that he would print a beautiful colored Lithograph of the original, nearly or quite as large, without delay, at my order.

Three hundred subscribers are necessary to bring out the work—one-third are already obtained. It will be published and ready for delivery the first of January, if the subscription list is filled by the 25th of the present month. It will be a very handsome and valuable picture, especially to those who are interested in scenes about Portsmouth. Each copy will be worth five dollars, but the publishers, MOSES & JOY, have agreed to make the price only three Dollars. Friends are politely invited to call at my store and add their names, to further the enterprise. It cannot be published if the list is not soon filled.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She is fast returning voice to the wine vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards. The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market val ue, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"

"Muscatel,"

"Still Champagne,"

"Hock" and

"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The Angelica and Muscatel are rich, sweet wines. The Hock is fully equal to the medium grades of Rhine wines. The Port is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vici ty who are suffering from Chronic Catarrh a its unhappy consequences, who are not aware the danger to which they are exposed. The sy toms of this disease are usually so mild at first to excite little or no attention on the part of t sufferer, and thus it is allowed to pass on fr one stage to another, involving in its destructi march more and more serious results. Ne if you would avoid the dangers of a scrofulo consumption, do not neglect a "Cold or Catarrh the head." That this disease is so fatal in its te dency and productive of such unhappy con quences, no one will be surprised to learn. If will but reflect that every breath of air that inhaled into the system, by those suffering fro Chronic Catarrh, must pass over an unhealth and diseased membrane, and the air in passi over these putrid and ulcerated surfaces, must necessity imbibe the most noxious and dea properties, and in this manner every breath air you take into the lungs is converted int poisonous agent of death. There is no disease the entire catalogue of human ills, the treatme of which has been so little understood as Chron Catarrh, and hence from the practice ordinar adopted by the profession, there is little to hop

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sen tions in the head, usually attributed to Neuralg frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been most wonderful. He does not profess to cure in any case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, h thinks himself better qualified to perform cur in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to myear. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not even relieve me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skilful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear distinctly when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot let him depart without a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professors as generally, who practice from place to place. But there do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

HORSES AND MAYORS.—An item in all the papers reads;

"Hon. E. A. Stevens, State Senator; F. W. Miller, Esq. of the Chronicle; ex-Mayor William Simes and Stephen H. Simes, Esq., are among those named for Mayor of Portsmouth at the approaching election."

And on this, and what the papers also said about the horse Jack—who at any rate is no Jackass—our facetious friend and brother of the Newburyport Herald says:

"Frank Miller of the Portsmouth Chronicle, drove his horse at the Fair three times round the course, at a four minutes gait, without bridle or rein. This is fast for the candidate for Mayor of so slow a city as Portsmouth."

Now if being "named" for Mayor, as the horsemen name (or enter) their horses for a race, is equivalent to being a "candidate" for the honor, we suppose we must plead guilty to the charge; but while we imagine few citizens have any desire to see us in that position, we certainly have none to occupy it, and few there be who have less idea of doing so. As for the other gentlemen named, either would do finely, but Mr. Stevens has always said he couldn't afford to neglect his business sufficiently, as few young men could.

Respecting the horses—whether or no we "had rather be right than be President," we surely *would* prefer to possess Bonner's horses rather than be President Johnson; and we shall always ride as fast as our horses can comfortably carry us, in the proper place, and with as little rigging as possible. We believe it is as natural and beautiful for a fast horse to go fast as for a swift bird to fly swiftly, or a quick fish to swim quickly; and nowhere can the perfection of horse speed be had except on the regular track.

We do not understand our Brother of the Herald to find any fault with us or the horse; and we invite him, who is the last man to fear an innovation, (and who *has* been a candidate for Mayor of his own city, but was defeated by rum), to come over and try a ride himself, with our team *sans* bridle and reins, *sans* crupper and breeching, and sans almost everything but intelligence and confidence in both rider and horse.

☞ The fire on Wednesday morning occurred at such an hour as to prevent our giving any details.

The fire was first discovered breaking from the stable occupied by Pease & Conner in connection with their mineral water establishment, both of which buildings were entirely destroyed. Lights were rarely ever used in the stable and the cause of the fire is unknown. The buildings were owned by Edward R. Warsaw, were valued at $3000, and were insured for $2000.—Pease & Conner estimate their loss at $6000, insured for $3000 at John Sise's agency. Their horses and carriages were saved, though the fire was dropping down into the racks when Mr. Church went in to release the animals.

The house to the north, owned by Henry M. Clark, and occupied by Mr. Leveen, was damaged about $400. Insured in the Norwich (Ct.) Co., Harvey & Son, agents.

The house on the south side, owned by C. Buchanan Moulton, and occupied by Mr. Peck, was damaged to the amount of about $2000. Insured in the Atlantic Mutual, of Exeter, for $1800. Mr. Peck saved most of his furniture which was fully insured.

The trial commenced on Tuesday afternoon, before Justice Doe, and will occupy several days. The jurors are excused until Thursday. The action was commenced in 1850, and has been heard once before Judge Bellows as auditor.

The Grand Jury are still at work, under the direction of Attorney Gen. Clarke.

FAMOUS MINSTRELS.—Dupres & Benedict's New Orleans Minstrels and Burlesque Opera Troupe will sing in the Temple, Monday evening, Oct. 21. Their wide-spread and well established reputation is owing to the uniform success and superior talents of the Company. They are no imitators, but have struck out a new and original manner and style for themselves. As comic delineators they are unsurpassed, and have taken the lead of all other traveling Troupes in the country.

☞ A fine ship of about 1200 tons, called the "Merrimac," built for Horton D. Walker and others of this city, was launched from the yard of John Neal, in Kittery, on Wednesday. She will be commanded by Capt. B. F. Jacobs, late of ship Granite State.

☞ The trot for Friday afternoon, at the Rockingham Park near this city, will afford some grand sport. Gipsey Boy and Nellie Locke are a close match, and in the hands of Rogers and Copp will make a lively race—and the same skilful drivers will handle Topsey and Jack of Clubs, and this will no doubt be a good trot, too. The great trot for the $500 will be called precisely at 2 o'clock, so that all can be finished before the trains leave. Extra trains on the Concord Road, out at half-past 1, in at half-past 5; and regular train in at 6.—We advise all who have not seen the new Track, and who have got sense enough to appreciate a good horse, to go; and all who have been before, will want to go again we know.

☞ Concerning the case of Mrs. Christiana Stimson of Kittery, who sued for divorce from her husband John on account of cruel treatment, we are desired to state that his defence was insanity, which we are told (to our surprise) is not a ground for divorce in Maine. But for this unexpected plea, it is thought the fair complainant would have gained her case; and if so, we hope she will do so ☞ a new trial—for in a quarrel between men and women, our sympathies are naturally with the weaker and better half of creation, and we would not wittingly say a word to prejudice their cause. In the items we have published concerning this case, cut from the Biddeford Journal, and said to be written by a lawyer employed by the defence—we did not know allusion was made to an old and esteemed acquaintance, in the lady referred to.

☞ We understand that Mr. Frank A. Allen, formerly of Allen & Paine and Allen Brothers of Boston and New York—and who retired from business in the latter city two years since—is soon to engage as special partner in a very large business in Boston.

☞ Among the premiums awarded at the Piscataqua River Agricultural Association's Fair, was the following, which was accidentally omitted in printing the list: C. B. Mason, first premium for the best three years old Colt.

☞ Jeremiah Smith, Esq., of Dover, son of the late Chief Justice Smith of the N. H. Courts, has been appointed Associate Justice of the S. J. Court of this State, in place of the late Judge Bartlett. Mr. Smith is 32 years of age, and the appointment a good one.

ACROSS THE SIERRA NEVADAS.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES and MEDIUMS OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$497,379 04	$96,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on the line now in full work. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The company's interest liabilities during the same period were less than $195,000.

Add to this an ever-expanding through traffic on the eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 960 miles $28,237,000, or at the average rate of $35,000 per mile—not including as absolute grant of 10,000,000 acres of the Public Lands, by donation to the Company as the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders. The CENTRAL PACIFIC COMPANY, in fact, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin in the New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, which rate they will not long remain.

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first* section of road completed, equipped and productive railroad, in which have been issued Government subsidies, stock subscriptions, donations, capital earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the safeguards, sinking fund provisions of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from individuals.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

DRINK, BUT REMEMBER.—If you think it is your duty to drink intoxicating liquor, by all means do so. On no account violate your conscientious convictions; but while you raise the cup to your lips, remember that this draught represents the bread of a starving brother; for the food of at least six millions of persons is yearly grasped by the maltster and the distiller, and its nourishment destroyed.

Remember that as long as you are in health, liquors are unnecessary—2000 medical men have asserted it, and hundreds of thousands of teetotallers have proved it.

Remember that most persons, who act as you do, injure their health or their lives by so doing.

Remember that not drunkenness alone, but drinking fills our jails, our penitentiaries, our poor-houses, and our lunatic asylums; employs our coroners and our hangmen; and works mischief incalculable upon both sexes, in all ways, of which the human institutions takes cognizance.

Remember that drinking retards education, industry, and every branch of political and social improvement.

Remember that multitudes yearly die a drunkard's death and go to meet a drunkard's doom.

Remember that every drunkard once tried to follow the example you set; and on trial, fell from his slippery ground into the whirlpool of intemperance.

Remember that if you sanction the custom, you are answerable for its fruits.

Remember that the weak and the tempted need look to you; and that under God, it depends on you whether they be drunkards or sober men.

Remember that "to him who knoweth how to do good, and does not do it, it is sin," and there is "a woe for that man through whom offence cometh to the little ones."

Remember that you cannot be neutral, and there will be a day when you will be unable to plead ignorance.

Remember that this weight of responsibility rests with you, as you raise that cup, if you think it right; but we envy not your conscience.—*London Temperance Star.*

WHAT MAKES A LADY.—When Beau Brummel was asked what made the gentleman, his quick reply was, "Starch, my lord." This may be true; but it takes a great deal more to make a lady; and though it may to some seem singular, I am ready to maintain that no conceivable quantity of muslin, silk or satin, edging, frilling, hooping, flouncing or furbelowing, nor purse, or dress-maker, constitute a real lady. Was not Mrs. Abbot a real lady just as much a lady when attired in twelve-cent calico, in Boston, as when arrayed in full court dress at St. James, London?

"Mrs. Washington was said to be grand a lady," says a celebrated English visitor, (Mrs. Thorp) "we dressed ourselves in our best bibs and bands; so we dressed ourselves in our most elegant ruffles and silks, and were introduced to her ladyship; and don't you think we found her knitting and with her check apron on? She received us very graciously and easily, but, after the compliments were over, she resumed her knitting. There we were without a stitch of work and sitting in state; but Gen. Washington's lady, with her own hands was knitting stockings for her husband." Does not that sweet republican simplicity commend your admiration.

HISTORY OF A DRINKING CLUB.—Some years ago, in a large town in the west of Scotland, there existed a drinking club of upwards of twenty members, all of whom belonged to the middle classes of society. This club had a great influence in municipal affairs, and several of its members were elected to fill posts in the town council. The drinking was carried on to a fearful extent in the tavern where they met. The members were to be found often in the club-room at all hours of the night and day. Their drinking was often connected with such a noisy mirth as to attract the attention of passers-by. The club was broken up. Two of its members were sent to a lunatic asylum. One jumped from a window and killed himself; one walked or fell into the water and was drowned; one was found dead in a public house; one died of delirium tremens; upwards of ten became bankrupt; four died ere they had lived half their days.

— Why cannot a gentleman legally possess a short walking stick? Because it can never be long to him.

— Probably the reason why the way of the transgressor is hard, is, that it is so much traveled.

—"Are these calico horses painted?" asked an inquisitive lady at the circus. "Aye," replied the clown, "they are grained every night and morning."

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Salomon Rothschild, PARIS, 5th April, 1864, 5 Rue Faubly, St.-Honore.
"I will not be blind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account. I will forward you the amount through Messrs. BELMONT & Co., New York."
Baron Solomon Rothschild having recommended the enemy of his friends Major D. LANE'S LINIMENT, and they being desirous to proceed, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready, as a killer of pain, taken inwardly, or outwardly applied, has no equal—as the relief and cure of *Rheumatic and Neuralgic Affections, Spinal Spasms, &c.*, it is unequalled. It is also most effectious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Sudden Colds, Coughs, Influenza, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every one is using it by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **MAJOR LANE'S INDIAN LINIMENT,** and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 186 Greenwich street, N. Y.; Gale & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave., N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN TOBY. LANE and countersigned by J. T. LANE & CO., Proprietors, 183 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."
Use **Dr. Langley's Root and Herb Bitters** for Jaundice, Costiveness, Liver Complaint, Dyspepsia, Indigestion, Dyspepsia, Piles, Dizziness, Headache, Drowsiness, and in all incases arising from Disordered Stomach, Torpid Liver or Bad Blood, to which all persons are subject in Spring and Summer. Sold by C. B. GOODWIN & CO., Boston, and by all Dealers in Medicines.

MORE VALUABLE THAN GOLD.
Dr. WADSWORTH'S DAY-DROPS, for the Catarrh, a perfect and speedy cure for this loathsome disease for the world. Sold by druggists. Sufferers from Catarrh or a bad Cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. Sent by mail any where for the above. Price $1 per bottle. Send stamp for pamphlet all about Catarrh. For sale by the Proprietor, H. H. WADSWORTH, Hospital, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his own child, a daughter, was given up to die. His child was cured and is now active and well. Desirous of benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names and two stamps to pay expenses. There is not a single symptom of Consumption that it does not at once relieve. Sold by druggists. Night sweats, restlessness, irritation of the nerves, failure of memory, difficult expectoration, thurp pains in the back, sore throat, chills, fever, pain or nausea at the stomach, incasion of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in Address, CRADDOCK & CO., 1034 Race street, Philadelphia, Pa.

Manhood and the Vigor of Youth restored in 4 weeks, Success guaranteed.
DR. RECORD'S Essence of Life restores manly power, from whatever cause lost; the effects of early pernicious habits, self abuse, impotency and all that gives man his due. As a purely medicinal medicine, if taken regularly according to directions which are very simple and require no restriction from business or pleasure, failure is impossible. Sold in bottles at $3, or 4 bottles in one for $9. To be had only of the sole appointed agent in America, HERMAN GEUZEN, 323 Bowery and 205 2d Ave., N. Y.

THE BILLINGSVILLE AGRICULTURAL FAIR.—*By Josh Billings.*—Agriculture is the mother ov provisions; she is also the grandmother. It it want for agriculture thar would not be eny beans; and if it want for eny beans, there wouldn't be eny suckertash. Agricultur was fust diskovered by Cain, and has since been discovered to be an honest way to get a very hard living.—Pumpkins owes awl her success tew agricultur, and so does lettuce and buckwheat.

The Billingsville Agricultural Society opened Sept. ten, and was a powerful success. The receipts of the Agricultural Fair was upwards of $30,000 (if my memory serves me rite, and I think she does.)—The Hon. Virgil Bickersstaff, the next agricultural Member ov Congress from our district, sold the agricultural poles.

Fust Day: a puss of ten dollars was trotted for, by sucking colts, that had never trotted before for money. There waz thirteen entry. There waz 60000 people on the track to witness this race (if mi memory serves me right, and I think she duz.) The puss was won, and vociferous exclamations, by a red colt, and the waving ov handkerchiefs, with a stripe in his face and the fainting of several fust-class females, and one white foot behind.

Second Day: it rained like a perpendicular awl day, and no trotting could be had, so the audience all went hum, cussin and swearin and offerin tew bet four to six on Pete Tucker's colt.

Third Day: the sun histed up in the east more butifuller than I ever saw her before: (if my memory serves me rite, and I think she duz.) It was a fustrate day for agricultur or enny other man. A puss ov $30 was trotted for, by sum 2 year old colts. The race did not attract much attention, on account of the time bein so slow. Time, 2 minutes and 38 sekonds.

Fourth Day: This was for 3 or 4 year old, who had not never beat 2:25. There waz 26 entrys; tha kudn't awl trot 2 once, so tha took turns. This race wuz won, after a bitter contest, by Pete Tucker's colt. He was immediately offered a thousand dollars and a fustrate farm, which was well stocked, for the colt, by three different agricultural men, but with a great deal of indignant good sense, he skorned to stoop so low. Pete Tucker and his whole family are all hoss.

Fifth day: it rained again harder than ever, and the day was spent in betting on the wait ov hosses. There were several good horse-swaps also made. One man swapped two horses for one; this struck me as a bully good thing, but everybody else said it was soft. At the end of the fifth day I come away. I got so full ov hoss that ever since when I laff I kant keep from whinnering. The fare was kept up for 10 days, and some red hot time was made. I think 2 minits and ten seconds was made (if my memory serves me rite, and I think she duz).

I forgot to say that there was tew yoke of oxen on the ground, besides several yokes ov sheep, and a pile ov carrots, and some worsted work, but they didn't seem to attract enny sympathy. The people hanker for pure agricultural hoss trots.

RUM DID IT.—Hon. Charles Holden, for many years chairman of the Portland Overseers of the Poor, in his remarks at the opening of the new Police Court Room in the City Building, on Thursday, said that seven-eighths of the cases in the Almshouse in that city, in which persons are reduced to such poverty as to be obliged to call for assistance from the public, had their origin in liquor-selling and liquor-drinking. Judge Kent of the Supreme Court of our State, recently said that more than three-fourths of all the crime which he was called upon to take cognizance of, had its origin in rum-selling and rum-drinking. Thus it appears that nearly seven-eighths of all our taxes in support of the poor, of Almshouses, houses of correction, jails, prisons, courts, police officers—at least three-fourths of our aggregate taxation—to say nothing of the waste of property, loss of production, premature deaths and misery involved, are directly caused by rum. These facts ought to arouse new efforts to spread total abstinence principles and to stop the sale of intoxicating liquors as a beverage.—*Lewiston Journal.*

—Upon Mount Mica, Oxford county, Me., in an area of less than forty feet square, more than thirty different kinds of minerals have been found, some of them rare and beautiful. A small tourmaline taken from this space was valued at the London Exhibition at $15.

— Archbishop Manning has issued a pastoral letter, in which he says of the coming general council of Roman Catholics, "it will not turn its back upon any of the acts of the Church, or of its head, which already in virtue of the divine assistance are irreformable and infallible; it will be composed of those, who believe as an article of divine faith the visible unity an infallibility of the Catholic and Roman Church."

— A comparative statement of prices in New York, Philadelphia, Paris, London, Berlin and other prominent cities in every part of the world, shows that New York is the most expensive on the globe, in the matter of food. The whole cause of this social misfortune lies in the fact that the food itself comes to the consumers through too many middle men, all of whom must take their percentage.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified enconiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

Portsmouth.

John H Moran, Joseph H Gardner, John H Morrill, Edward J Moulton, Addison Carroll, Mrs Isaac Jenness, Capt John Fisher, Mrs Wm Haslet, Jersel Marden, James D Akerman, Samuel Cook, Gideon Walker, John Frisbee, George Herbert, Mrs Chas Hodgdon, J H Downing, Jacob G Crockett, John Mills, Thomas Moore, Mrs Hannah Stevens, Ebenezer Haines, Alfred D Moses, James Douglas, Ephraim H Downs, George Booth, Mrs Augustus Shackley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, Robert Bell, William Skeels, Alice A Rand, John Kimberly, W H Thompson U S N, Alexander L Robinson, Elizabeth Hewitt, Wm B Norton, Jos Hill, Mrs J N Sherburne, Patrick Crane, Michael Murray, George Philbrook, Chas A Green, Simon H Mills, Mrs Mary McAvley, Phineas Hoyt, Nathan Whitley, E A G Holmes, Oliver Stacy, Edwin Sanborn, Asa F Jeanese, John Senter, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, Chas Locke, Frank Watkins, Albert Lesch, Wm Hunter, J F Lord, James Greenwood, Leonard Evans, Oliver Frye

FRIDAY, OCTOBER 18, 1867.

COMPOUNDING A FELONY.—A letter writer in Augusta, Maine, says:

A movement is on foot to effect a pardon of the Bowdoinham Bank robbers, who are now incarcerated in Wiscasset jail. Parties are here for such purpose, who will shortly obtain a hearing before the Governor and Council. It is stated that the robbers have made a proposition to refund one-half of the proceeds of their robbery, or about $40,000, on the condition that they be liberated and all further legal proceedings against them stayed.

This is a very cool proceeding. These rascals pleaded not guilty, then proved an A-LIE-BY certain New York rascals, their confederates, who could not tell what their occupation was! Then the prisoners' counsel moved an arrest of judgment and talked about a new trial,—and now the robbers offer to give up $40,000 if they may keep the other $40,000, and go out to rob some more banks and keep half the money they get!

It may be "policy" in the Bowdoinham Bank people to take the money,—but it is bad policy for the State of Maine, or any other State, thus to offer a bounty on Robbery! It would be better for the State to pay the Bank $40,000 and let the robbers "rot in jail."

☞ At the conclusion of the Dover Fair, Tuesday, they had their Plowing Match with oxen, for four premiums of $50 in all; Base Ball; Pacing Match for $25 and $10, of which John Wiggin took first in 2:55, 2:54, mile heats, and Ike Copp the second—Harry Bradley third. For purse of $25 and $15, to 5 year olds,—a very pretty heat race—John Wiggin took first in 2:52, 2:54, 2:52, and H. Rogers the second money, Copp and Bradley after.

Among the "promiscuous driving," was some very promiscuous; Mr. Ela's well-known and knowing horse Whitey was put to sulkey to go a heat against Jack of Portsmouth in like rig; but when they came to start, Whitey's owner put Rose Smith in his place—thereby reducing the weight carried, not less physically than socially.—However, Jack, at the end of a twenty mile journey, was ready for the clipping little white horse; and, notwithstanding Smith thought he could "trot right over him," Jack came in winner, time say 3 minutes. Then Whitey,—who is a beauty, pure white, with very full mane and tail—was driven about, handily enough, with a young man on his back, without saddle or bridle; and Jack went round in sulkey, without reins or bridle, at first drawing his owner, but afterwards went, for short distances, alone, to the great amusement of the crowd.

A foot race in the morning was won by Chas. S. Allen of Gonic; time 2:35, half mile, purse $10, with six competitors. Another in the afternoon, with seven contestants, was won by F. W. Lord of Rollingsford; time 2:36, half mile, purse $5. A Running Race was won by Nero, of S. A. Haley, Newmarket, in 1:03, 1:03, half mile, against Santa Anna of Dover.

For the $100 trot, Mr. Rogers had in Gipsey Boy, and Copp his brown horse Willie Wist. The spotted horse of course had it all his own way, as Nellie Locke did not go up.

Our thanks to Mr. Ela, Chief Marshal Daniel Hall, and other officers of the Society, for courtesies. Also to the host and clerk of the New Hampshire Hotel,—where we found good quarters,—and Conductor Ansel Tucker "laid up in ordinary" with rheumatism or g—t.

☞ The returns in Pennsylvania thus far show a falling off in the Republican vote of 26,416, and in the Democratic vote of 10, 743. The "enormous gains" of the Democracy over their vote for Clymer consist of 19 votes in Huntingdon and 3255 in Philadelphia. *In every other county they lose*, their entire falling off being about six per cent. of the vote of 1865.

GOLD, Thursday, 143 3-4.

—— A barn belonging to E. G. and E. Wallace, in Rochester, near the Union House, was burnt on Thursday, 3d inst.—Loss about $1 000.

— A Glasgow (Scotland) paper states that no less than from twenty to thirty thousand men connected with the iron trade on the Clyde have been thrown out of employment, owing to the successful competition of foreign with home manufacture.

— On Mr. Alexander's stock farm at Woodburn, Ky., there are one hundred and twenty brood mares of thorough blood running over its acres, one hundred cows and eight hundred sheep of the finest varieties, just the half of the number before some epidemic swept over the flocks.

— The linen of the Grand Hotel at Paris, and that of the Hotel de Louvre and the Grand Cafe, with a few other hotels, is washed at the rate of forty thousand pieces a day at a place three miles from the city. Washing machines, drying ovens and polished rollers are used. Three hundred people are employed.

DECISION OF CHIEF JUSTICE CHASE IN A CASE OF NEGRO APPRENTICESHIP.—At Baltimore, Oct. 16, in the United States Circuit Court, a hearing was had before Chief Justice Chase upon the petition of Elizabeth Turner (colored) by her next friend Henry Minaky, addressed to Hon. Salmon P. Chase, Chief Justice of the Circuit Court of the United States in and for the District of Maryland. The petition alleges that she is the child of Elizabeth Minaky, formerly Elizabeth Turner, that she is restrained of her liberty and held in custody by Philemon H. Humbleton, of Talbot county, Maryland, in violation of the Constitution and laws of the United States. Also that the petitioner is restrained of her liberty by virtue of certain alleged indentures of apprenticeship, made not in accordance with the laws of the State of Maryland as applicable to binding white children.

The respondent stated that the child and its mother were formerly his slaves, and were set free by the Constitution which went into operation November 1, 1864. The child was apprenticed November 3, 1864, two days after she was emancipated. The law of Congress called the Civil Rights Bill was passed since the child was indentured, April 9, 1866, and everybody told him that the law did not interfere with his case.

Judge Chase wished the case argued by counsel; but it was not,—and so, after looking at the facts in the case, he says:

The following propositions seem to me to be sound, and they decide the case:

The first clause of the 13th amendment of the Constitution of the United States inter-dicts slavery or involuntary servitude except as a punishment for crime, and establishes freedom as the constitutional right of all persons in the United States. The alleged apprenticeship in the present case is involuntary servitude within the meaning of these words in the amendment.

If this were otherwise the indenture set forth in the return does not contain important provisions for the security and benefit of the apprentice which are required by the laws of Maryland in the indentures of white apprentices, and is therefore in contravention of that clause of the 1st section of the Civil Rights law enacted by Congress April 9, 1866.

This law having been enacted under the 2d clause of the 13th amendment in enforcement of the 1st clause of the same amendment, is constitutional, and applies to all conditions prohibited by it, whether originating in transactions before or since its enactment. Colored persons equally with white persons are citizens of the United States. The petitioner must therefore be discharged from restraint by the respondent.

☞ On Wednesday evening the Republicans of New York city held a mass meeting at the Cooper Institute, to ratify the nominations of the Syracuse Convention. The attendance was large, and great enthusiasm was manifested. Senator Morgan presided. Resolutions were read by Horace Greeley, endorsing the nominations and reaffirming the cardinal principles of the Republican party, and speeches were made by Senator Nye of Nevada, Hon. Wm. Evarts, Gen. John Cochrane and others. Gen. Grant was hailed as the candidate of the party for the Presidency.

—A new company is forming in Salem, for the manufacture of White Lead. The capital will be over $100,000.

— Thirty new wells are going down in the vicinity of Pithole at present. This does not look as though the place was affected with the "dry rot."

— The crops in Utah are turning out better than the most experienced anticipated, notwithstanding the damage by grasshoppers.

— Two negroes have been appointed in Vicksburg to office by the military and sworn in; one as a Justice of the Peace, and the other as Constable, at Davis' Bend.

—A special dispatch from Philadelphia says the Republican Central Committee of Pennsylvania have decided to contest the election of Judge Sharswood.

— A Democratic paper has as a display on the recent elections, "Pennsylvania rebels against the Rump Congress," and the Detroit Tribune thinks this a very good name for them.

— Hon. James G. Van Volkenburg of Chatham, N. Y., was instantly killed on Saturday last by a yoke of cattle running away with him. His neck was broken.

— The New Orleans papers advise absentees, on account of the yellow fever, to return for some weeks yet, although the disease is abating.

— Christian Seitzer, a merchant of St. Louis, entered the Frankfort House, New York, while under the influence of liquor, recently, and was ejected with so much force as to cause his death.

— The journeymen carpenters of Fall River have adopted a resolution that they "will commence work at 7 o'clock A. M. and work until 12 M.; commence again at 1 P. M. and work as long as they can see, without any reduction of wages."

— The examination of the ex-rebel Gen. Humphries, at Pittsfield, Mass., on Tuesday, showed him to be a consummate rascal. The private papers found in his trunks reveal a course of swindling operations beginning previous to the war.

— In a speech the other night, Mr. Smith, the defeated candidate for Congress in Cincinnati, congratulated the Republicans that the nomination of Gen. Cary saved Hamilton County, and perhaps the State, from the Democrats, by bringing out all of the sleepy Republicans. He did not allude to the fact that the nomination lost him his seat in Congress.

CABLE ITEMS.—In London, Oct. 16, there was a wild rumor that the Fenians were planning an attempt to seize the person of the Queen at Balmoral. Although little or no credence was given to the report, precautionary measures have been taken and the household guard at Balmoral has been doubled. The Fenian alarm is spreading. The Government is in receipt of many dispatches, announcing the possible plans of the brotherhood. Troops and gunboats have been dispatched to Ireland, and the entire western coast of that island is guarded with extraordinary vigilance.

The last advices received from the Roman territory report that the Papal forces were falling back towards Rome.

It is reported that Marshal Narvarez, the Spanish Prime Minister, has offered to the Emperor Napoleon the assistance of Spain, in sustaining the temporal power of the Pope.

The press of Italy, almost without exception, favor the seizure of Rome by the Government. The strength of the party of action increases hourly. The recent successes have given them new courage.—Sharp fights have occurred near Fornez and Alfino, as well as at other points in the province of Viteybo, in all of which the insurgents have been successful. The Pope has called an immediate meeting of the Cardinals to consider the situation.

MARYLAND SOLDIERS.—On Thursday, the much talked of parade of the Maryland militia took place. The weather was fine, and the people turned out to see the soldiers, and many of the schools seemed to have a half holiday. The parade was confined to the first division of the National Guard, two companies of cavalry, three companies of artillery, and nine regiments of infantry. None of the companies or regiments were full, and the number of the men in line did not exceed 4500, and there seemed to be no enthusiasm or disorder.—The division was commanded by Major-General Bowerman, formerly of the regular army. The First Brigade commander was Gen. Cooper, late of the rebel army; the Second Brigade commander was Brig. Gen. Carr, never in the field; the Fifth regiment, made up of the Baltimore aristocracy, was commanded by Col. Herbert, late of the rebel army.

NEXT PRESIDENT.—The Elections have made Gen. Grant the next Republican candidate for President, and he is already nominated in the minds of the people. We shall need a candidate whose name, inscribed on a legion of Republican banners, will cause one of those ground swells such as swept James Buchanan out of, and Lincoln the Martyr into, the Presidency. Such an one will be ULYSSES S. GRANT. The Democrats, with him as the Republican candidate, will shake in their shoes from the beginning to the close of the campaign, if they do not actually "come down" at once, like the animal which appreciated the folly of awaiting the discharge of the rifle of Capt. Scott. Gen. Grant may now be regarded as next President of the United States, the conventional nomination and the November ballot being matters of form. —*N. Hampshire Statesman.*

☞ Soulouque had a curious idea of the pardoning power. On one occasion several general officers, tried by court martial, were acquitted. The minister of war submitted the record of the court, on hearing which the Emperor exclaimed, "Mister Minister, I commute their sentence—let them be shot." The secretary suggested that the men were acquitted. "What of that, Sir?" sternly asked this constitutional monarch, "haven't I got the pardoning power?" The men were shot.

So says an exchange: and this item puts Uncle Toby in mind of Gen. Jackson's famous order in Florida, to hang Arbuthnot and Ambrister. The court martial which tried them did not sentence them to death, but Jackson disapproved of their doings and hung the men. Soulouque is only a black Jackson.

We have heard of people asking for bread and receiving a stone. We should consider ourselves much worse treated, after asking for Herrick Allen's Gold Medal Saleratus to have some other kind palmed off on to us. We state this that our readers may enjoy the same pleasure we have, viz.: to eat a better biscuit by their own firesides than any other saleratus or soda. Most of the merchants have it for sale. Their depot is 112 Liberty street, New York. See that the name of Herrick Allen is on the wrapper, and no mistake can occur.

CAUTION. THE PARENT OF SAFETY.—None should purchase any of the poisonous compounds called saleratus, unless they desire decayed teeth, sore throats and dyspepsia. Pyle's Saleratus alone is harmless and wholesome. Sold by grocers everywhere, in one pound packages.

Where are you going? I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.

Yes; and has made arrangements to have a supply of them all the time.
Does he cook them?
Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s24

A FINE PICTURE CHEAP!

SUNSET SCENE ON THE PISCATAQUA.

The novel and lively Oil Painting, "WORKMEN COMING FROM THE NAVY YARD," as seen at Mr. Joy's Auction Store, is waiting the balance of subscriptions essential to its reproduction with artistic improvements, to be printed in colors. The picture has already been taken to Boston, where Mr. J. H. Bufford, at his Publishing House, assured me that he would print a beautiful colored Lithograph of the original, nearly or quite as large, without delay, at my order.

Three hundred subscribers are necessary to bring out the work—one-third are already obtained. It will be published and ready for delivery the first of January, if the subscription list is filled by the 25th of the present month. It will be a very handsome and valuable picture, especially by those who are interested in scenes about Ports mouth. Each copy will be worth five dollars, but the publishers, MESSRS. & JOY, have agreed to make the price only Three Dollars. Friends are politely invited to call at my store and add their names, to further this enterprise. It cannot be published if the list is not soon filled.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a neglected Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and none can be truly said to be justly adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.
DEAFNESS AND CATARRH.
Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skilful and reliable physician, I concluded to consult him personally under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.
WM. CARTLEDGE, JR.
Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the DeWitt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot let him pass without a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should go to Bath with regard to the profession already, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

AN IMPORTANT LETTER.

SHELDEN OAK, YORKTOWN, N. Y., Jan. 19, 1866.
T. ALLCOCK & CO.—Dear Sirs: I have been troubled with a lame back over ten years, so as to be entirely helpless and unable to do any kind of hard work. I send you this to inform you that Allcock's Porous Plasters saved me in three weeks when I found my back entirely cured, and was able to move and transact business as usual in my best days. STEPHEN TUGSLEY.

ALLENSTOWN, Penn., April 4, 1865.
Messrs. T. ALLCOCK & CO.—Dear sirs: My daughter used one of your Porous Plasters. She had a very bad pain in her side and it cured her in one week. Yours truly,

DR. SCHENCK, THE LUNG DOCTOR.

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can in a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to DR. SCHENCK, to know the exact condition of the lungs, before it is tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or one that are affected.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. But no one can deceive SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone, when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tubes and stomach, a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is positively injurious, for it locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 33 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists. w28—daw1w—no4

TO OWNERS OF HORSES.—THOUSANDS of Horses Die Yearly from Colic. This need not be. Dr. Tobias' Venetian Horse Liniment will positively cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable ready for use. It is warranted superior to any other remedy for the cure of Cuts, Wind Galls, Swellings, Sore Throat, Sprains, Bruises, Old Sores, &c. This Liniment is no new remedy. It has been used and approved of for 20 years by the first horsemen in the country. Given to an over-driven horse, it acts like magic. Orders are continually received from the racing stables in England for it. The celebrated Hiram Woodruff, of trotting fame, used it for years, and said it was the equal to any other he had tried. Recollect, Dr. Tobias' Venetian Liniment is put up in pint bottles.—Take no other. Sold by Druggists and Saddlers. Depot 56 Cortlandt street, N. Y. o8dwim

☞ If this shall only be a fine day for the race, there will beyond question *be a* fine race—and a couple of them too,—at the Rockingham Trotting Park. The sport begins early, so as to allow ample time for the finish—and there will be nothing but the two trots, and the greased pig, to require time. Tickets are fixed at the usual price of admission to Trotting Parks, 50 cents; and none but special cards for the day will pass; Carriages free. There is much curiosity to see the Gipsey Boy and Nellie Locke meet again; for they are a very close match, and many who would like to see Nellie win, are afraid she can't. But this afternoon will show; and with a fair field and no favor, may the best horse win—and no doubt each will strive for the victory.

S. J. COURT, Thursday, Oct. 17.—The Grand Jury came into Court on Thursday, and returned 29 indictments and one certificate of non indictment by reason of insanity.

The following persons were arraigned on Thursday afternoon: Jona. Robinson of Boston, assaulting Benj Swain, a police officer of Exeter, while in discharge of his official duties. Plea, guilty. Respondent stated that he was drunk and didn't know that Swain was an officer. Has been in the army for four years, and the cause of his offence was the bad rum he drank at Exeter. Sentence postponed till Friday.

Frank Walker, disorderly house; trial assigned for Monday.

Arthur Brown and Nellie Avery; not present.

John Stanton, a transient man, stealing an overcoat and frock coat from the entry of J. G. Sise, in Portsmouth. Plead guilty of simple larceny, the plea not accepted by the Attorney Gen.; plead guilty afterwards. Sentenced to two years in State Prison.

Lowell Fowler, Jr., not present.

James B. Locke of Seabrook. Reading of indictment waived. Keeping liquor for sale. Fined $50 and costs.

John W. Locke of Seabrook, same offence, waived reading the indictment, plead guilty and was fined $50 and costs.

Daniel Nealy of Exeter, adultery with Mary A. Pettigrew. Plea, *nolle contendere*.

Samuel Wilson, disorderly house. Plea not guilty. Trial Monday. Hatch for respondent.

Andrew J. Haines, not present.

Daniel K. Dans, not present.

John Lyons of Manchester, for stealing pocket book and contents from John Rider & Son. Plea not guilty. Hatch for respondent.

James Cantlin, not present.

Leonard Burke, larceny from Rich'd H. Currier; indicted last term. Plea guilty. Sentenced to State Prison for 13 years.

State vs. Chas Butman; indicted April term. Plea changed to *nolle contendere*. Wood for defendant.

In case of Sarah Mills, against whom the Grand Jury found evidence of her being guilty of burning a barn in Derry, the Attorney Gen. moved that she be sent to the Asylum for the Insane as an insane person.

On the Civil docket, Nutter and wife vs. F. W. DeRochemont, is still on trial before the Judge. Stickney and Christie for plaintiffs, Rollins and Hatch for defendant.

In indictment State vs. Moody Foster and others, the witnesses were recognized to appear on Monday of second week of the January term.

Communication.

THE MAIN GRAPE.—*Messrs. Editors:*—Three years ago I bought a Main Grape vine, paying the proprietor himself, therefor, three dollars,—having the assurance that it would ripen fully three weeks before the Isabella or any other grape in our gardens. I have nursed up the little vine until this year, and have now six bunches of fruit upon it. Now for *my* experience: In my garden, which has a full southern exposure, are three grape vines in one row. The first is a Hartford, from which I have gathered the fruit two weeks since, dead ripe. Next to this is the Main grape, the fruit of which is not now (Oct. 17) nearly ripe; the bunches have turned purple, but are very sour. Next is an Isabella vine, on which the fruit to-day is sweeter than the Main grape. If either of these vines has a more favorable position than the other, it is the "Main" grape. STATE STREET.

☞ Mr. Lamprey has a very large and fine class at his Afternoon Dancing Academy at Irving Hall,—as he well merits. The second ball term will commence on Saturday the 26th Oct., and among other attractions we learn that he has just received two entirely new and splendid dances, recently imported from Paris. Mr. L. is always bound to have the best in his line.

☞ In the climate, at the approach of winter, it behooves every one to see that their raiment is such as shall properly protect them from the sudden transitions from heat to cold, which lie at the foundation of so many of the pulmonary diseases which seem to be almost restricted to the North. Mr. Wm. P. Walker, at the City Clothing Store, has for sale a garment known as the Cardigan Jacket, which at once commends itself as admirably fitted for the use and comfort of gentlemen. A knitted over vest, with sleeves, aside from its protecting warmth, it will be found more convenient for office or warehouse wear than any sort of a coat.

— Several mercantile firms in Richmond have suspended within the last two days. Their liabilities are reported at $200,000.

— The Treasury Department will disburse, on the 1st of the incoming month, about twenty-seven millions of dollars in gold, as interest on Five-Twenty Bonds. This is the largest amount of specie that has ever been paid for any half-year's interest.

ACROSS THE SIERRA NEVADAS.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *link link between the Pacific and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most productive parts of California, Nevada and Utah, conducting to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada, within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point on the Great Salt Lake Valley, and hence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$487,379 64	$86,54847	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on the 100 miles worked. This is upon the essential legitimate traffic of the road, with its terminus in the mountains, and with only the normal rates of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have granted, on the completion of 860 miles $28,592,000, or at the average rate of $35,000 per mile—not including the subsidy grant of 9,000,000 acres of the Public Lands. By becoming a joint sector in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT will effectually INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds,

Principal and Interest payable in Gold Coin, in the New York City, they are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest. Currency July 1st added in currency; at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are secured only upon the progress, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon the road, equipped, and prospective, railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several notable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles of road from San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of the Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

BE A WOMAN.

Oft I've heard a gentle mother,
As she twilight hours began,
Pleading with a son or daughter,
Urging him to be a man.
But unto her blue-eyed daughter,
Though with love's words quite as ready,
Points she out the other duty—
"Strive, my dear, to be a lady."

What's a lady? Is it something
Made of hoops, and silks, and airs,
Used to decorate the parlor,
Like the fancy rings and chairs?
Is it one that wastes on novels
Every feeling that is human?
If 'tis this to be a lady,
'Tis not this to be a woman.

Mother, then, unto your daughter
Speak of something higher far,
Than to be mere fashion's lady—
"Woman" is the brightest star.
If ye, in your strong affection,
Urge your son to be a true man,
Urge your daughter no less strongly
To arise and be a woman.

Yes, a woman—brightest model
Of that high and perfect beauty,
Where the mind, and soul, and body
Blend to work out life's great duty.
Be a woman—naught is higher
On the gilded list of fame;
On the catalogue of virtue
There's no brighter, holier name.

Be a woman—on to duty,
Raise the world from all that's low,
Place high in the social heaven
Virtue's fair and radiant bow,
Lend thy influence to each effort
That shall raise and bless human;
Be not fashion's gilded lady,
Be a brave, whole-souled, true woman.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubg. St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your 'Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Baron Solomon Rothschild having recommended to many of his friends the INDIAN LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled. It is also most effectious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Colicin Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No Family should be without it. Every TRAVELLER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for MRS. LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Blanchard, 186 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave., N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE and countersigned by J. T. LANE & CO., Proprietors, 168 Broadway, N. Y. Send for circular.

Any person suffering from Catarrh or a bad Cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietors, H. H. WINGATE & CO., Agents, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. His child was cured and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of this notice, with two stamps to pay expenses. There is not a single symptom of Consumption that it does not at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, pain at the stomach, inaction of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in. Address, CRADDOCK & CO., 1032 Race street, Philadelphia, Pa.

VOL. XXXI. PORTSMOUTH, N. H. SATURDAY, OCTOBER 19, 1867. NO. 95.

The Chronicle.

A COSTLY VICE.—Rev. D. C. Babcock, formerly of Great Falls, but now of Claremont, is State Temperance Agent; and in a discourse at Milton, he spoke of a Great Falls drinking saloon. On this, a saloon keeper published what purported to be a card of thanks to Mr. B, for "advertising his business," but which contained a threat of personal injury. In a published answer Mr. B. says:

In illustrating one feature of the ev. I am endeavoring to oppose, I said that sometime since I was walking up High street in Great Falls, and was met by one of the best ladies of my church, who was weeping. She asked me if I would not go up into that saloon—pointing towards one—and get her boy, stating that she had asked for him and they would not let her have him; that they said he was not there, but she knew he was.

I can see, having my attention called to the matter, how readily one might infer that "that saloon" was yours. * * * That mother, like others to whom I might refer in that village, had trained her son to love virtue and purity. She saw that the influences which were about him in the drinking saloons of that village, and the habits he was there forming, would result in his ruin. I do not wonder she wept as she contemplated the probabilities with reference to her son. She is not the only woman I have seen weep over the desolation that drink is making.

Do you know that there are more than five hundred thousand drunkards in the United States to-day? The U. S. Government receives about $20,000,000 revenue from liquors. It ought to have, and would but for frauds, $80,000,000. The loss from its manufacture and sale is equal to ten dollars for every one it gets, or $800,000,000. Its manufacture from grain is *more* than a waste of the grain.

The same work creates the necessity for the poor-houses, prisons, insane retreats and reformatories that burden us with taxation to-day. It is sending our people to early graves at the rate of 30,000 a year—200,000 in a decade. Can we as a nation, afford to let an army of 500,000 drunkards go unmolested in this country? Can we sustain such an element of weakness with safety?

I cannot cease to condemn the vice of Intemperance, nor the traffic from which it results, not even to prevent the displeasure of those engaged in this illegal business. I am willing to meet my case before both human and divine courts of justice. I am sorry you injure yourself by such a threat as is implied by your note. You seem to regard me as your enemy. I am far from that. No one will be more ready to do you good if opportunity is given. It is the liquor traffic I detest, *not men*; and it is *that* I want to destroy, and the human beings whom God has redeemed at so great a cost.

—In Virginia City, Nevada, a poor widow, in overhauling an old vest of her husband, who had recently died, found a dirty paper in the pocket, which, on examination, proved to be the deed of three feet of the Savage claim. The Secretary of the company informed her that it was genuine, and that $1800 in dividends were due on it.—She took the money, sold the dirty paper for $14,000 and went to her home and friends in the East.

— The Cleveland Leader, in speaking of the defeat of the suffrage proposition in Ohio, says that no amendment to strike the word "white" out of the State Constitution, can be submitted to the people, until the election for Governor and Legislature in 1871, as the Constitution provides that amendments to the popular vote shall be submitted only at elections at which members of the Assembly were to be chosen.—But, under the Constitution, the question whether a Constitutional Convention to revise, alter and amend the Constitution shall be held, will be submitted to the people at the election of 1871. As the present Constitution is seriously defective in many respects, such a Convention will doubtless be voted for by both parties.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well as a WOOD OR COAL, an economiser of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington
under the Act of 1857.
No. 78 State street, (opposite Kilby street,) **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, stands on *seven rejected* applications. SEVENTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART.

Portsmouth, N. H.

SATURDAY, OCTOBER 19, 1867.

SCRAPS FROM WASHINGTON.—A man who was gardener for President Lincoln, and who is now keeping a rum shop in Washington, has been trying lately to sell letters of Mrs. Lincoln requesting him to commit forgery and perjury to defraud the Government, and wants to sell the history of the secrets of Mrs. Lincoln's domestic affairs.

The Government printing force has been reduced by furloughs until November.

Witnesses testified before the Judiciary Committee that the staff officers of the Governor of Maryland were mostly rebels; also that the leading regimental officers and troops could not be relied upon.

At the Democratic serenade given Voorhees and Montgomery Blair, the latter in a speech said General Grant was delighted at the defeat of the Radicals in Pennsylvania.

[Very likely Blair said so; but then his word is of no more value than Johnson's, and while Gen. Grant is sparing of his words to people in general, he would be specially cautious about saying anything to such a man as Blair.]

☞ The Boston Daily Evening Voice, started three years ago by the bolting or union printers of that city, we regret to see has been obliged to suspend. It has been a very good paper, but the one idea character (in this case, the interest of workingmen) is hard to sustain, as the mixed nature of nearly all successful papers and magazines, of whatever name, will show. It is hard work to establish a new paper now-a-days, but the old and well established ones grow stronger and stronger. We believe Mr. John J. Mason, formerly of the Messenger and Ballot in this city, and an excellent printer and able editor—was one of the managers of the Voice.

CABLE ITEMS, Oct. 17.—*France and Italy.*—Just before the departure of the Emperor from Biarritz on his return to Paris, he summoned the General Council to meet him at St. Cloud to consider the condition of affairs in Italy and decide what action France should take in the matter.—The Council was held Wednesday, the Emperor presiding. The result of its deliberations was a resolution that France should immediately intervene for the settlement of the Roman question, but without acting any longer in conjunction with the Italian Government to that end.

The *Moniteur* reproaches the Italians for violating the laws of nations, disregarding obligations of solemn treaties and fostering a dangerous spirit of Republicanism in Italy.

Owing to continued disturbances in Italy and the prospect of French intervention, the financial depression in the Bourse increases and Rentes are steadly declining.

The *Moniteur* asserts that the inhabitants of Rome and the Papal Provinces are loyal to the Pope, and only need assistance to drive the Italian invaders from the soil.

The *Patrie* contains an editorial urging that the intervention of France is necessary to save Italy from revolution and anarchy.

The London Times contains a long editorial on the Roman situation. It says the Prime Minister Ratazzi, must order the national troops to Rome and anticipate the arrival there of both the volunteers of Garibaldi and the regular troops of the French. The article concludes by declaring that the boldest policy is the best for Italy, and advising her to seize Rome and then treat with France.

News from the South continues favorable to the party of action. The Garibaldians have taken possession of the town of Nerola in the Papal States, where they have intrenched themselves and await the arrival of other bands to increase their number sufficiently to enable them to make a further advance. Signor Acerbi, one of the Deputies of the Italian Parliament, is Commander-in-Chief of the insurgents in that quarter of the Roman territory.

There is very little sense in all the recent cable dispatches on mysterious movements of the Fenians, but the report that they intend to seize the person of the Queen at Balmoral is the most absurd of all.

NEW HAMPSHIRE ITEMS.

—— The Nashua Gazette announces that Wm. Everett, Esq., of Boston, son of the late Hon. Edward Everett, has made a very generous donation of valuable and choice books to the Nashua City Library, amounting in value to about $400.

—— On the 16th of October, at Washington in this State, occurred the dedication of a monument to the brave men from that town who gave their lives in defence of the country during the late war,—on which occasion ex-Gov. Smyth gave an eloquent and appropriate address.

—— At the last session of the Legislature a statute was passed authorizing the town of Merimack to refund to those who put in substitute, the amount paid out by them, provided the vote of the town should be in favor of it. The vote was taken on Saturday, and stood 81 against to 75 for refunding.

—New chestnuts have come, and it is said they are going to be plenty.

WASHINGTON ITEMS, Oct. 17.—The declaration of Montgomery Blair in his speech that Gen. Grant, despite the contradiction that had been made, had expressed his gratification at the result of the late elections, excites some comment, for it is known that the Washington Star was fully authorized to deny the story when it first appeared. The friends of Gen. Grant declare that the Blairs have started this story as a part of a scheme to injure the Chase interest.

A host of Pennsylvania politicians arrived to see the President and Secretary McCulloch relative to internal revenue matters. It seems that when Collectors seize a lot of illicit distilleries, the owners rush to Washington to prefer charges against them of collusion and fraud, in order to shield themselves and secure the restoration of their property. The Secretary gave them a bearing.

The President, it is learned, lately takes a deep interest in financial matters, and freely consults with Secretary McCulloch on the financial policy of the Government. They both seem agreed on opposing any inflation of the currency, and on the other hand, favor its contraction.

[If this be true, of the President, we say he is very late; but better late than never, to do what is right.]

FROM RIO JANEIRO, *via* Lisbon.—The latest advices from Parana via Rio Janeiro were unfavorable. No movements had been made and no preparations were making for an attack. The land forces of the allies under Gen. Neitro, were lying idle under the Paraguayan forts, and the Argentine and brazilian fleets were hemmed in by Ganales and Lopez and compelled to remain inactive. The Brazilians were greatly discontented with the conduct of the war, and the peace party was in the ascendancy in all the States bordering on the Rio de la Platte. It was reported that Gen. Urguiza was dead.

AUSTRIA AND ROME.—A Vienna dispatch of Oct. 17 says the Emperor has referred to the Council of Ministers for their consideration the address received by his Majesty from the congregation of Roman Catholic Bishops of the Austrian Empire, which recently assembled at Vienna. The address protests against the adoption of a new Concordat, and strongly urges the Emperor not to make any revision in the sacred treaty now established between Austria and Rome.

In a communication to the Ministerial Council the Emperor reproves the Austrian Bishops for adopting a paper so liable to create public excitement at a time when tranquility is indispensable for the restoration of the country, and he takes occasion to remind them that the Emperor of Austria is the constitutional Prince, *as well* as the true son of the church.

The announcement of the reply made by the Emperor to the address of the Bishops in regard to the concordat, was received with prolonged cheering in the Reichsrath, (or legislature.)

The Reichsrath passed the organic law, which has been under consideration since the beginning of the session. This measure makes legal many new reforms introduced in the government of the empire.

☞ In Boston on Thursday evening the eminent English minister, Rev. Newman Hall was entertained at the house of Hon. E. S. Tobey, where clergymen and others were invited to meet him. After partaking of Mr. T.'s hospitality the guests assembled in the parlors, and Mr. Hall was requested to make remarks. Mr. Tobey then called upon Rev. Dr. Blagden to speak for the Orthodox, Dr. Hague for the Baptists, Mr. Mallalieu for the Methodists, E. E. Hale for the Unitarians, and Collector Russell for the laymen. Their brief adresses were followed by parting words from Mr. Hall.

☞ On Thursday evening, at Baltimore, a riot occurred about 9 o'clock, while a negro regiment was parading near the corner of Franklin and Howard streets. Twelve or fifteen shots were fired in the street, and Chas. A. Ellemeyer, white, aged 18, was instantly killed. Cause of the riot unknown. For a short time great excitement prevailed, but a large police force was soon upon the ground and prevented a further disturbance. The city is now quiet.

— Brewer Chamberlain of the city of Troy, N. Y., is a defaulter to the amount of $30,954.

—"The general cussedness of the political situation," to borrow the elegant phraseology of the N. Y. Tribune, has been immensely improved by the October elections. October has been a brilliant and auspicious month, both politically and meteorologically.—*Courier.*

—We have a report from the California Judiciary election. A San Francisco dispatch says the voting passed off quietly, and that the Democrats carry that city by 1000 majority. At the Judiciary election in 1855, it gave 364 Republican majority. Returns from the interior show decided Union gains. The Alta California claims the election of Sweet (Union) for Superintendent of Public Instruction as certain, and Curry (Union) for Judge of the Supreme Court as probable. The vote throughout the State was lighter than at the Gubernatorial election.

IMPORTANT DECISION.—At Charleston, S. C., Chief Justice Bryan, of the U. S. Court, decided in the case to test the validity of panelling a jury drawn by voters irrespective of color, that the laws of Congress now superceded the old State laws, and that Congressional enactments were virtually laws of the State. He held that the President had no power to restore any of the seceding States to the Union. He said: "I say it with a grave sense of the responsibility, that it is incompetent for the President, by any act of his, to bind Congress to restore the State to the Union and connect it by constitutional ligaments and resolutions. There was no legal government or State Constitution in South Carolina, and under the existing provisional government, the reconstruction acts of Congress were the supreme law and constitution of the State.

He says if there was any Constitution in South Carolina or legal State Government, then the act of 1840, commanding the Judge to accept as jurors alone those who are voters under the Constitution of the State, and who are qualified, by the act of its Legislature, then it would be a decision of this question and a panel should have been drawn of white men, but it is otherwise.

☞ If Asmodeus should unroof all the houses in New York, as the story says he unroofed those of Madrid, in the dressing rooms of nine-tenths of the *beau monde* would be seen Phalon's "Night-Blooming Cereus."—*Wilkesbarre Union.*

—The thirtieth anniversary of the installation of the Rev. Randolph Campbell as pastor of the Fourth Religious Society in Newburyport, took place Wednesday, and was quite an interesting event to the people of his church and Society.

—The Spanish Government offers to Louis Napoleon its assistance in the support of the Temporal Power. It must have a presentiment that the present dynsty of Spain is not likely to survive long the downfall of the States of the Church.

— Serious complaints come from various parts of Illinois, to the effect that pasturage is running short. The protracted dry and warm weather has literally dried up the grass in the fields and water in small streams. Stock raising and dairy interests are greatly suffering in consequence.

—The Italian people in the United States, in default of any specific national day, have begun the celebration of the discovery of America by Columbus as an event in which their nationality had a controlling participation. The idea comes rather late, being only 375 years after the event, but it will do very well until the occupation of Rome as the capital of Italy, when they will have a national anniversary of which any people might be proud.

— The National Roman Junta have issued a proclamation. They say they will not take issue with the Italian Government in its determination to maintain its treaty obligations, but at the same time leave each member of the liberal party to act for himself. The Junta confines itself to receiving contributions for the alleviation of distress which will grow out of the condition of affairs.

— The Providence Journal says that on Tuesday evening a Boston rough took passage on the Bristol steamboat train, and refused to pay his fare. Accordingly at Mansfield he was ejected from the cars by the Conductor. Just as the train was moving off, the fellow drew a large knife and dashed at the brakeman on the last car, named Potter, who drew back and received the downward stroke of the knife upon his knee. The fellow was arrested. The brakeman is not seriously hurt.

Take care of your health and that of your children, and use no other saleratus except Herrick Allen's Gold Medal Saleratus. It is acknowledged as being the only perfectly harmless article in the market; is peculiarly adapted to benefit weak stomachs and dyspeptic persons. Try one paper and you will have no other. Use it instead of soda. It is much better. Grocers and Druggists sell it. Depot 112 Liberty street, New York. 24.

☞ With the inducements held out to our citizens to aid a noble object, every man, woman and child should have a share of stock for the benefit of the Riverside Institute (located at Riverside, New Jersey) established for the gratuitous educ tion of the orphans of Soldiers and Sailors who fell in the great struggle for the perpetuation of the Union. This meritorious affair by under the control of the Washington Library Company of Philadelphia, who in order that their benevolent object may be successfully accomplished have issued five series of fine steel plate engravings, one of which is given with every share of stock sold, at prices much below their retail value. In connection with this superb inducement, every shareholder is guaranteed a present in the great distribution of presents to the shareholders —one of which is worth $40,000, ano her $20,000, another $10,000, &c. Each shareholder has an equal chance to obtain one of the most valuable presents—all will obtain some present, besides a beautiful engraving. Read advertisement.

CAUTION, THE PARENT OF SAFETY.—None should purchase any of the poisonous compounds called Saleratus, unless they desire decayed teeth, sore throats and dyspepsia. Tyler's Saleratus alone is harmless and wholesome. Sold by grocers everywhere, in one pound packages.

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column,—the best for Table, Family and Medicinal Use.

Where are you going?
I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.
Has he got Providence River Oysters?
Yes; and has made arrangements to have a supply of them all the time.
Does he cook them?
Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. 24

SOUTHERN RAILROADS AND REBEL BONDS.—The N. Y. Times' special Washington dispatch says the Wilmington Railroad of North Carolina have put a loan of £200,000 sterling on the London market in two mortgage bonds of £100,000 each, for which one-quarter payment will be taken in rebel cotton loan bonds.

The Southern Railroad Investigating Committee reached Richmond on Thursday and subpœned several Virginia railroad Presidents to meet them. The total indebtedness of Southern railroads to the Government is over six hundred millions.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She stands a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages of particular vintages for the wines of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We will these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That taint disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear distinctly when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the Dewitt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professional generality, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—and feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

Home Address, - Norway, Me.

QUARTER OF A MILLION SAVED A DAY.

One hundred thousand men now labor with good results, who, until they used

ALLCOCK'S POROUS PLASTERS,

had not done a day's work for years. So these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.

AN IMPORTANT LETTER.

SHREWSBURY, Monmouth Co., N. J., Jan. 19, 1860.
T. ALLCOCK & CO.—Gentlemen: I have been troubled with a lame back over ten years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters and wore it 3 weeks when I found my back entirely cured, and was able to mow and cradle as well as ever. I owe it to my best days. STEPHEN FUGSLEY.

ALLENSTOWN, Penn., April 4, 1865.
Messrs. T. ALLCOCK & CO.—Dear sirs: My daughter used one of your Porous Plasters. She had it over her hip joint, on her side and it cured her in one week. Yours truly,

DR. SCHENCK, THE LUNG DOCTOR.

The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can with certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a disease of bronchial tube. Patients can by Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone, when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube, and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stoppin the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 24 Bond street, New York, the Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, a charge of $5 his medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Dr. Schenck's Mandrake Pills, or Vegetable Liver Tonic, each $1 50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. Local.

☞ The sport at the Rockingham Trotting Park, Friday afternoon, was good, and the attendance large, including numerous ladies, gentlemen and families, in carriages, public and private. The grand stand was full of people; and in the Judges' stand were Albert Blaisdell, D. D. Perkins and J. Brad. Cilley,—with various newspaper reporters.

Nellie Locke and Gipsey Boy, in the hands of Copp and Rogers, for $500, were the attraction of the day, together with a minor trot and a greased pig. Nellie had the pole, but got a bad send-off, a length behind, and Gipsey Boy rather crowded in and took the inside at the first turn; but on the home stretch Copp went for the heat and won it prettily by half a length, in 2:38. Nellie made only a couple of skips during the heat, and the Gipsey we believe but one, when Nellie passed him coming in.

The second heat, Nellie inside of course, the Gipsey seemed to crowd Nellie again at the first turn, of which Copp complained when he came in—but the horse threw a shoe in the heat, and Nellie took it easily in 2:39. There was some excitement, and Nellie's friends claimed the Gipsey distanced for foul driving; but the Judges gave the mare the heat only. There was considerable interest shown in these two beats—and the lovely scene presented, the perfect weather, and the good music of the Portsmouth Cornet Band, made up a very enjoyable occasion.

The third heat was won handsomely by Nellie in 2:39. The pretty little mare outtrotted the horse all day, and won the money fairly and squarely, if Ike Copp *did* drive her. The Gipsey did not seem to have as much trot in him as he shew at the Fair, but he is a good and game one, and he and his driver will leave many friends here.

Between these beats came H. R. Stoddard's sorrel mare Topsey, driven by Mr. Rogers, and Frank Jones' black colt Jack of Clubs, driven by Geo. H. Shannon, for purse of $200. The mare drew the pole, and the colt, which is a good one, but rank and green, broke badly, and did not trot so well as in the colt race at the Fair. Topsey took the first heat in an exercise jog, 3:10. The second heat was much the same, but the black colt got a little steadier and drove Topsey to win in 3:07 1-2. Third heat and money to little Topsey in 2:55.

The greased Pig was then turned loose—a nice black fellow of 100 pounds, but too fat for a good race—and after much rushing, running, tumbling, screaming and fun, was caught and carried off by somebody who didn't care so much for clothes and dirt, as for pork.

The only reason for complaint was the delay in starting, which it always seems impossible to prevent everywhere.

CITY COUNCIL.—At a special meeting of the City Council on Monday evening, the following joint resolutions were passed:

Resolved, That the highway laid out by the County Commissioners from Creek street to Robinson road, on the petition of Nathan Jones and others, be discontinued.

Resolved, That a joint Committee of Arrangements for the reception of Gen. Sheridan be appointed:

Aldermen Henderson, Wilson and Carr; and Councilmen Stevens, Locke, Marston, Ham of Ward 2, and Hanscom, form the committee.

☞ Auct. Wendell will sell, at 10 o'clock this morning, a piano forte, furniture, dry goods, &c.'

Betton & Co. have their regular sales.

At 11 o'clock the desirably located real estate on Vaughan street, known as the Hill estate, will be disposed of at auction; also a lot of land fronting on Hill street.

At noon, Auct. Morse will sell a house and land on Pray street, with furniture, &c. See auction column.

THE LYCEUM for the winter is before the people, and the advertisement shows the manager has used all due exertions to please the public. The Temple is really much improved, and looks more tidy and inviting than ever before; and the reserved seats will be a great convenience, and we should suppose would be in quick demand. The musical feature therein will be a great attraction.

☞ The examination of Dr. Daniel W. Jones upon the charge of shooting John W. Stimson on the night of the 29th of September last, at Kittery, with intent to kill, took place before Justice Neadley at South Berwick on Monday last. The accused was bound over in the sum of one thousand dollars for his appearance at the Supreme Judicial Court in January next for trial. G. C. Yeaton, Esq. appeared for the State, and Abner Oakes, Esq. for the defence.—*Biddeford Jour.*

☞ Dr. Carpenter would inform the afflicted that he is permitted to refer to residents of Portsmouth and vicinity who have been greatly benefitted under his treatment, and are willing to converse with persons interested. Dr. C. can be consulted at the Franklin House a short time longer upon Catarrh and all diseases of the Eye, Ear, Throat, Lungs and air passages. *Consultation* free.

☞ The Mechanics' Brass Band of Amesbury, which recently visited this city with a Newburyport fire company, was lately presented with a very handsome silver pitcher and goblets, by gentlemen assembled to celebrate the completion of the new railroad bridge at Newburyport.

A CORONER'S VERDICT.—At Poughkeepsie, N. Y., Oct. 16, The coroner's jury in the case of Wm. Regan, fireman on board the Dean Richmond, drowned at the recent collision with the C. Vanderbilt, in the verdict say that the collision was caused by culpable carelessness, mismanagement and criminal intent of the persons navigating the Vanderbilt. Some of the jurors wished the verdict changed, making it less pointed as regards the blame attached to the Vanderbilt, but all finally signed it.

☞ Mr. Prescott, the able and energetic Superintendent of the Eastern Railroad, has had a new drovers' car built, exclusively for that class who wish to travel on the same train with their droves. It is fitted up with lounges, on which they may stretch out and take a nap, or, if more fastidious, they can strip and use a tier of berths.

☞ At Fairhaven, Vt., Thursday, seven men were badly injured by an explosion of gunpowder. Two kegs of powder were poured into a seam in a ledge, which probably had fire remaining from a former blast. It is thought three of the men must die.

☞ In the Universalist Convention of Massachusetts, on Thursday last, after a debate on the case of Rev. Rowland Connor, and after his own statements of views of doctrine, his request for membership was denied, by a vote of 95 to 16.

☞ A woman named Wade was killed in Boston, Thursday, by an explosion of a can of benzine.

ACROSS THE SIERRA NEVADAS.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most important LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will instantly connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the head of Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion of the road, and the through business for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$187,579 61	$86,548 47	$101,031 17

At a rate of two millions per annum, of which more than one-quarter are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

And to this are yet to be added the through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 855 miles $28,592,000, or at the average rate of $33,000 per mile—not including an absolute grant of 12,800 acres per mile of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first claim in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest, which is to be added in currency, at which rate they yield nearly

Nine per Cent. upon the investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government, and represent, in all cases, the *first liens* upon a completed, equipped and productive railroad, in which have been invested Government Bonds, stock subscriptions, donations, surplus earnings, etc., and which cost more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several notable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles east of San Francisco is being contracted upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin

Fifth—The principal as well as the interest of the Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Investors, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

AN EXTRAORDINARY MAN SENT TO THE ENGLISH PARLIAMENT. — Arthur McMurrough Kavanagh, one of the new Irish members recently sent to the English Parliament, is a very extraordinary character, and though a rabid Tory, is extremely popular with his countrymen. His personal and other qualifications and disqualifications are thus described in a London paper:

"Mr. Kavanagh has neither legs nor arms. He was born in this unfinished fashion, and in place of legs he has about six inches of muscular thigh stumps, one being an inch shorter than its fellow; while his arms are dwarfed to perhaps four inches of the upper portion of these members, and those are unfurnished with any terminations approaching in the remotest degree to the form of hands. Yet your readers will be surprised to hear that he is a beautiful cartographist, a dashing huntsman, an artistic draftsman, an unerring shot, and the most expert of yachtsmen—a combination of accomplishments, under the circumstances of his corporeal imperfections, that is certainly astonishing.

In face and bust Mr. Kavanagh is of a manly, handsome mold; fine, well marked features and eyes beaming with intelligence, leave no doubt that though the body has been unfortunately shorn of its legitimate proportions, the mind is full, capacious and well developed. He is now about forty years of age, and a large family of as handsome children as could be found has blessed his union with a lady as remarkable for her beauty as she is beloved for her amiability and consideration. Endowed with a healthy mind, Mr. Kavanagh has not permitted his physical afflictions to mar, curb or control the development of those faculties which, as if by way of compensation, Providence has vouchsafed to impart extraordinary power, energy and acuteness.—

His literary taste he has gratified in the fullest extent; and as a writer he is graceful, vivacious and observant. His mode of writing is simple, but must have been attended with great trouble before he attained the proficiency which he unquestionably has. He holds the pen or pencil in the mouth and guides its course by the arm-stumps, which are sufficiently long to meet across the chest; and thus he produces a hand-writing, each letter of which is distinctly formed, and all without any peculiarity, or what is called 'character.' When hunting he sits in a kind of saddle-basket, and his reins are managed with an expertness and an ease that are surprising; but perhaps the greatest of his achievements is driving 'four-in hand.' This he does to perfection; and as his team scampers away at a dashing pace, the sharp crack of his whip may be heard afar off."

The energy of the man may be gathered fact that some twenty years ago he traveled in Russia and Asia with his private tutor and a single servant, penetrating into Bokhara, and living for months in places where it has always been considered certain death for a giaour to show his face.

Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BARRINGTON, Druggist, Providence, R. I. Also by J. G. Goodwin & Co., Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered when his only child, a daughter, was given up to die. His child was cured and is now alive and well. Desirous of benefitting his fellow creatures, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption that it does not surely cure. Sold by all Druggists. Night sweats, nervousness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the breast, debility of the constitution, nausea at the stomach, inaction of the bowels, wasting away of the muscles.
The writer will please state the name of the paper they saw this advertisement in. Address, CRADDOCK & CO., 1032 Race street, Philadelphia, Pa.

The Chronicle.

A TERRIBLE ENCOUNTER.—Mr. William P. Merthevet, a gentleman from an interior town of Iowa, visited Marquette a few days since for health and recreation. While here he was seized with an irresistible curiosity to explore some of our inland streams which empty their waters in the lake, and indulge a venturesome disposition among the wild woods of an uninhabited portion of the country.

With this purpose in view, he set out on foot alone, taking a southwesterly direction toward Deer Lake. Reaching a point on a small branch running southwardly from the Carp river, in section 27, township 42, range 27 west, he encamped for the night. Building a fire and taking supper, he stretched himself out, and rolled up in his blanket soon fell asleep. He slept sweetly and soundly, awakening at early dawn refreshed and ready to resume his tramp. But while preparing his breakfast his attention was attracted by a rushing sound, as if of some tremendous bird flying through the thick foliage overhead. He looked up, and to his astonishment and admiration beheld a golden eagle, with outstretched wings, just alighting upon a dead limb some four feet only above his head. In an instant he had resolved to endeavor to capture the noble bird and if possible secure him alive. Accordingly he seized a knotted pine stick weighing some twelve or fourteen pounds and about five feet in length, and quicker than thought struck at the bird with the intention of knocking him senseless to the ground.

The blow was well aimed, but the eagle catching it upon his wing diverted its direction his head, and the stick slid off his body without effecting the purpose. It however enraged the king of birds, who, bent upon retaliation, swooped down upon Mr. Merthevet's head, and seizing his nose in his beak and planting his talons in his right eye, dislocated the one and seriously injured the other. This was accomplished before the unfortunate man could pick up his case knife which was lying by the side of the fire, and only a few paces from where he was standing. His rifle hung upon the twig of a tree several feet off. He instantly succeeded in disengaging himself from the grip of the infuriated bird, and bleeding and blinded rushed for his rifle and seized his knife. A second time the bird returned to the attack, but was this time met on the point of a knife which the man plunged into his body under one of his wings, while the eagle struck him a violent blow which felled him to the earth. The bird now attempted to soar aloft, but the knife had reached a vital spot, and with a shrill scream he fell lifeless to the ground.

Faint with pain and exhaustion, Mr. Merthevet lay for sometime upon the spot where he fell. After a time, however, he recovered sufficiently to be able to rise, and bandaging as well as he was able his wounded eye and nose, took up his march for the nearest point of shelter, which he found at the camp of some Indians, who dressed his wounds and cared for him until he was able to return home.—*Lake Superior Mining Journal.*

THE USE OF TIME.—Time has been given to man to use and not to waste. It is for rational use, and not for foolish abuse. And at times it appears to the reflecting mind that we are mistaken in our endeavors to crowd into half an hour what should fill half a day. We do not refer to our habits of hurried eating, so frequently the subject of critics and lecturers, but to the general hurry and haste that characterizes every movement of our people. In traveling we give preference to the fastest lines, this being the grand recommendation of one competing line over another. The annihilation of space and time is a modern boast, as though the feat were really meritorious.

It is to be questioned whether this idea is a correct one. Human life is more valuable than a few hours or days, yet we risk life and limb in patronizing those conveyances in the shortest possible time. The employees of railroad and steamboat companies have received the title of "baggage smashers," for no reason except that the companies and the exacting demands of the public will not allow them to handle baggage as Tom Hood advised the management of the body of the despairing suicide:

"Take her up tenderly,
Handle with care."

It is a public demand that everything shall be done in the shortest possible time, but it is a wasteful and often suicidal demand. We do not "live out half our days." If we exist the allotted space of man's life, we do not live. We are driven by this spirit of hurry as relentlessly as the poor souls in Dante's Inferno by the tormenting devils of Hades.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit, at a reasonable price, are invited to call and examine it whether they purchase or not.

TAXES, BONDS AND DEMAGOGUES.—The Concord Statesman has an editorial in which it says:

The most effective lever worked by Democratic speakers in the Ohio canvass was Untaxed Government Bonds. Other topics had their effect against the Republicans, but this was the chief lever. From the beginning to the close of the campaign, "unequal taxation" was the burden of the addresses of Democratic speakers. * * * Republican speakers and Republican journals, however much they speak and publish regarding national faith and sustaining the national credit, will find it impossible to persuade great numbers of men, even in our own household, of the justice of heavily taxing people of small means, and exempting the untold millions of those "whose eyes stand out with fatness, and who have more than heart can wish."

These things, says Uncle Toby, are worthy of consideration. But if any person expects to see equal taxation, any where, he will "die without the sight." And if any one is so green as to suppose that voting a democratic ticket is likely to lighten taxes or make them more equal,—he is easily deceived.

It does not require very large *means* to buy a $50 or $100 U. S. Bond. Many persons of rather *small* means have done this—and, since the U. S. bonds have been popular, thousands of democrats, and some rich and bitter copperheads also, have invested in the bonds.

The talk of foxy demagogues in Ohio or elsewhere, about economy and taxation, means chiefly that they seek office, power and pay.

☞ A Paris dispatch of Friday, at midnight, says Napoleon has made an imperative demand upon the Italian Government for a strict observance on the part of Italy of the Convention of September. The expedition at Toulon is equipped and ready to sail to the relief of Rome, and only waits for the reply of Italy, which is hourly expected, to the demand of the Emperor. It is believed that the Italian Government will yield.

It is reported that Gen. Garibaldi has again escaped from Caprera, and that he left the island on board an American ship.

The Garibaldians have appeared in the western district between Rome and the sea. They have taken a position on the railway running between the city of Rome and the seaport of Ostia, and torn up the rails, preventing all communication.

It is still believed in Florence that the Governments of Italy and France have a perfect understanding with each other, and are acting together in the treatment of the Roman question.

THE SEVEN-THIRTY COUNTERFEITS.—Col. Wood, Chief of the Secret Service of the Treasury Department, has had his detectives at work since the discovery of the counterfeit seven-thirty notes. It has been ascertained that over one thousand of them have been upon the market, and the plates were made in this country. Philadelphia has been the headquarters for printing.—The clue to the whole is said to be in possession of the officers.

One counterfeiter had been so successful with his seven-thirties, that he forgot his discretion, and commenced putting into circulation counterfeit ten and twenty dollar bank notes, and upon this latter charge he was captured, when he proved to be one of the men of whom Col. Woods and his assistants were in pursuit. He was identified as having passed a number of seven-thirties on a Brooklyn banker. His name is Cooper and he is known as one of a gang, and is now in prison in New York, awaiting the action of Solicitor Jordan and Col. Wood.

—The taxes of New York city have increased five millions the last year.—*Coppery Exchange.*

We guess there must be a screw loose somewhere in the office, either among the editors or printers, to tell so tough a story. But if it be true, then it must be Democratic Economy that raises toe tax, for that city is wonderfully "democratic" in the worst sense of that much abused word.

— The printers in the Memphis Bulletin office were lately on a strike, and some printers went from Nashville to take their places, but the members of the Printers' Union assaulted them, shooting one and beating another over the head, and they were glad to retire from the field. The Union men were then reinstated in their old places.

— The London Globe says "the agitation in France almost amounts to a crisis; in Italy it amounts to a crisis of the gravest character. That a great war is impending on the continent is what we have long announced; now the probability is that that war will not be unmixed with revolution. In order to meet the emergency, it is not improbable that the re-opening of the French Chambers will be signalized by imperial decrees widely extending the liberties of France."

NEW HAMPSHIRE ITEMS.

—In Concord, Friday night, Erastus Gilman was arrested for breaking into a store in Gilford, and stealing money. He sole $300 from his father a year ago and fled to Canada.

—Rev. John K. Young, D. D., many years pastor of the Congregational Society in Laconia, has become Stated Supply to Hopkinton.

—We were informed some days since, by one of the Trustees of Dartmouth College, that Hon. John Wentworth of Chicago had given $10,000 to the general fund of that institution.—*Statesman.*

—In Concord, on Friday, Edgar, son of Charles Quimby, a promising lad of 10 years, while playing in the school yard, was hit in the head by a chip thrown by a playmate, and died immediately, it is supposed from heart disease.

— Gen. Sheridan is expected to visit Concord about Tuesday, the 29th instant, while on his way from Maine to Vermont. He will have receptions at Dover, Manchester and Concord.

—The Concord Statesman says, "The Winslow House is supposed to have been set on fire by some malicious persons, because they were not invited to the dancing party then assembled at that elegant hotel. The proprietor's loss over insurance is at least $15,000."

— The Manchester Mirror informs us, that the beautiful Rocky Mountain Antelope, belonging to Mr. Stark of that city, came to a violent death on Thursday. It was in the yard near the house, when some pigs ran by, and frightened the antelope, which gave one long bound, struck against the wire fence and fell dead.

SECRETARY OF STATE'S OFFICE.
Concord, N. H., Oct. 18.

Editor Chronicle:—My attention has just been directed to the following, in your paper of Sept. 24.

"The Pamphlet Laws of 1867 have been printed some weeks. Will you ask the Secretary of State why they have not been distributed? QUERE."

I answer "Quere" thus: the custom has been to distribute the Pamphlet Laws in the month of January of the next year; but this year, at my own expense, I hired a man two days and distributed the Pamphlet Laws as soon as received, which was early in Sept. and long before "Quere" felt compelled to call upon a newspaper to publicly call me to action. I notice the Daily Monitor says it has not received a copy of the laws. say to the editors of the Monitor, that even the editors who have published the laws are in the same destitute condition, as well as 70,000 other citizens of our State; and this not from any lack of good will on my part towards them, but for the plain reason that the laws do not direct me to furnish them at the public expense. Most respectfully,

J. D. LYMAN, Sec. of State.

RACE BETWEEN A MAN AND A HORSE.—A very large concourse of people assembled at the Mystic Riding Park, Boston, Thursday, to witness the extraordinary spectacle of a race for $2000, between James Griffin, a pedestrian of considerable fame, and the noted horse, Capt. McGowan. The man was to run five miles and the horse ten, the one making the distance first to win. General opinion was in favor of the man. When Griffin passed under the wire at the end of the third mile, he was beating the horse,—but was running heavily, and seemed distressed. He had not quite made an eighth of a mile further, when he fainted and fell. He was taken away and cared for, while McGowan continued the race and trotted his remaining four miles. The time made by the horse was, first mile 2:56, second 2:52, third 2:55, fourth 2:53 1-2, fifth 2:55, sixth 2:58, seventh, 3:00, eighth 3:03 1-2, ninth 3:15, tenth 3:21 1-2,—aggregate time 30 minutes 9 3-4 seconds. Griffin's three mile time 17 minutes 42 3-4 seconds. The cause of Griffin's sudden defection is said to be an attack of diarrhœa on the previous day, from the effects of which he had not recovered. But the crowd, who had bet an immense amount of money on him, thought he sold the race, which he up to that time seemed to have.

A NITRO-GLYCERINE EXPLOSION—NARROW ESCAPE OF FOUR MEN FROM INSTANT DEATH.—We learn from the Bangor Whig that an explosion of the dangerous combustible known as nitro glycerine took place at the silver mine in Guilford, Me., on Monday morning last. It seems a box containing about 15 pounds of the combustible, sat on the forge in the shanty where the tools were prepared, and where the men were in the habit of warming themselves. At about eight o'clock Monday morning four of the men stood in the shanty together, and one of them sat on the box containing the glycerine. About five minutes after they left the shanty—two of them going to work in the drift, and the other two going home—a most terrific explosion took place, tearing everything in the vicinity into shreds, breaking up the steel drills into pieces, and cutting places out of them as if they had been bitten out, and stunning the men who were 120 feet into the drift. Had the men remained five minutes longer in the shanty, all must have inevitably met instant death.

THANKSGIVING in Massachusetts, Thursday, Nov. 28.

—In consequence of the dull state of the woolen trade, the Mills in Amesbury have reduced the pay of their help ten per cent.

— Gov. Merrill of Iowa is a native of Buxton, Maine, and married his wife from Standish in the same State.

—The valuation of Fall River is $15,220,628, and the rate of taxation $17 per $1000.

— Some women were thrown down and trodden upon during the great rush in Boston to see Gen. Sheridan. Margaret Brennan was so injured that she died on Friday last.

—Twelve young men have been severally fined $5 and costs for riding one Joseph Martin of Colchester, Vt., on a rail, for marrying his cousin, a girl of twelve years of age.

—The citizens of Hoboken, N. J., ask to be delivered from the nuisance of slaughterhouses, located in the midst of a dense, busy population. Their desire seems to be just and reasonable, and we hope it may prevail.

—In Newark, N. J., the other day, a young child at play was so frightened by the mischievous cry of her associate, "Look out for the bull," that she fell in running with so much force as to cause her death.

— A little girl in Cairo, who is losing her sight from a cataract, is studying all day and far into the night to store her mind for the time when the world will be blank to her eyes.

— The reunion of Vermont officers which was to have taken place on the 24th inst., has been postponed to the 30th inst., the day designated for the reception of Gen. Sheridan at Montpelier.

— The Portland Mutual Fire Insurance Company has declared a final dividend of 2 cents 6 1-2 mills per dollar, to the sufferers in that office by the great fire, payable on the 27th inst.

— A prairie fire, on the 7th inst., swept into the Government stock yard, at Fort Ransom, Dacotah, and destroyed all of the Government hay. The same fire ran into a half-breed camp, and burned ten half-breeds to death, and ten more were so badly burned that their lives are despaired of.

— A movement is to be made in Bangor to get up a subscription for those made destitute by the wreck of the Julia M. Tilden, and the loss of eighteen lives. Eight widows and fifteen fatherless children are left by the disaster.

—A writer in the Watchman and Reflector, speaking of Roger Williams, says: "It is now 236 years since he became pastor of the First Church in Salem, and the interesting fact is, that the meeting-house in which he there preached is still standing, and may be visited in that city."

—Rev. I. F. Holton, recently one of the editors of the Boston Recorder, has been engaged by Mr. I. N. Carlton to take charge of the departments of Chemistry, Natural History and Rhetoric in his school for young ladies at South Malden. Prof. Holton's wide experience and great success in this kind of labor render him a valuable acquisition to the teaching force of the flourishing institution.

BRUTAL AFFAIR.—The Lainville Newsdealer, published at Hyde Park, Vermont, states that about 9 o'clock on Thursday evening of last week, the house of Mrs. Deborah Loomis, a very pious and exemplary widow lady, 71 years old, and a sister of the lexicographer Worcester—possessed of some means, and supposed to have had considerable money on hand at the time, was entered through the cellar window by a ruffian in disguise. Mrs. L. lived entirely alone and had retired, but was not yet asleep, when she heard a noise in the kitchen, and went to see what it was. As she opened the door she confronted the villain, who immediately extinguished the light and seized the old lady in a violent manner and threw her upon the floor—she crying murder. The brute jumped upon her and beat her in a savage manner, when she appealed to him to know how she had ever offended or wronged him, and asked what he wanted, telling him she was a poor lone widow with no protector but God.

He replied that he wanted money, and money he would have. She told him she had none, and he seems to have taken her statement for truth, for after extorting a promise that she would give no alarm till morning, and volunteering a false name and the information that he had been hired by three men from Greensboro' to do the deed of robbery, and that they waited outside, he made off. The old lady soon after gave the alarm, and a search was made, when the tracks of boots were found across a plowed field to the house of one Chester Annis, whose boots were found bloody. He was arrested and locked up.

Saleratus, like port wine, can be made of almost any price, which is done by using cheap and deleterious substances. Herrick Allen's Gold Medal Saleratus is perfectly pure and unadulterated, and one paper will convince any intelligent lady that there is nothing equal to it. It will produce one-eighth more bread than any other; is much better than soda to use with cream tartar. Grocers and druggists sell it. 25

CAUTION, THE PARENT OF SAFETY.—None should purchase any of the poisonous compounds called saleratus, unless they desire decayed teeth, sore throats and dyspepsia. Fyle's Saleratus alone is harmless and wholesome. Sold by grocers everywhere, in one pound packages.

Where are you going?
I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.
Has he got Providence River Oysters?
Yes; and has made arrangements to have a supply of them all the time.
Does he cook them?
Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. e24

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and in unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Hence, if you would avoid the dangers of a settled consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal is the tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is conveyed into a poisonous agent of death. There is no disease in the entire catalogue of human ills, that treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may present itself, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.
Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in the city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, I went there myself, and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.
WM. CARTLEDGE, JR.
Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De la Ile House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. Many are going from this city to people should look with distrust upon professionals generally, who practice from place to place—but these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—as many residing in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

ALLCOCK'S POROUS PLASTERS,

had not done a day's work for years. So these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.

AN IMPORTANT LETTER.

SHRUB OAK, Yorktown, N. Y., Jan. 19, 1860.
T. ALLCOCK & CO.—Gentlemen: I have been troubled with a lame back, over ten years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters, and two in 3 weeks when I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days. STEPHEN FUGGLEY.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSE AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an ugly feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when this stomach is in the condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to the villi on the tongue, in which throw out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from the diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. In the commencement of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot fail freely through the blood when the system is in the above condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would often be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 36 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

AUCTION SALES.—The Hill estate on Vaughan street was disposed of by M. T. Betton & Co., on Saturday, as follows:—The lot fronting on Vaughan street 50 feet, and on Hill street 100 feet, was sold to B. F. Webster for $1475. The lot on which the house stands, nearly 33 feet front and 100 deep, was sold to John H. Folsom for $1025, which includes all the ruins. The lot in the rear, fronting on Hill street, 32 ft. front by 87 deep, was sold to B. F. Webster for $475. The last lot below, 40 feet front on Hill street, and 100 deep, was also purchased by Mr. Webster for $387. Total $3362.

☞ The Pray House with land, on Pray street, was sold on Saturday by J. P. Morse, auctioneer, for $750, to John Broughton.

☞ The Portsmouth Philharmonic Society, with Mr. W. K. Day as leader, have in rehearsal the Cantata of the Haymakers, which they will doubtless bring out, early in the winter, having the assistance of Mr. Barnabee and other talent of the first order. The prospects of the Philharmonic were never brighter than now. Their next rehearsal will be on Thursday evening, Oct. 24th.

☞ At the Piscataqua Fair, the matched horses of Dr. Wentworth of Kittery, took first premium of $12; E. Frink of Newington, 2d $8, and J. F. Kennard 3d of $5. The running race was won by S. A. Haley's Nero of Newmarket. John H. Ferguson's Pony 2d.

DUPREZ & BENEDICT'S MINSTRELS.—This great New Orleans Troupe, the favorites, will give a Concert at the Temple This (Monday) evening. The programme they offer to the lovers of amusement is a most attractive one, including several new features. Their burlesques, eccentricities and oddities are panaceas for all "the ills that flesh is heir to in the way of blues." The instrumental music is not the least attractive part of the programme. Let all those who enjoy a delightful Minstrel entertainment attend. Collins and Parkhurst, the famous clog dancers, are with this troupe.

☞ A Seaman named Thos. Cobar, wishes us to say, that he lost his pocket book and money in this city, several days since; and that it was honestly and kindly returned to him by the finder, Mr. Edwin A. Sanborn, who would receive no reward—but the loser wishes to express his grateful regard in this public manner.

☞ On Saturday noon a collision occured, on Market street, between a buggy of Mr. Moses Mann of Greenland and an express wagon, which resulted in the top and dasher of the buggy being broken entirely off.

Mr. J. H. Ferguson also had a fine buggy very much damaged on Saturday afternoon, from carelessness of the driver in turning too short a corner. Nearly every spoke in one wheel, and a number in the other wheels, were broken off.

☞ C. E. Shedd & Co. elsewhere give notice of their removal to the elegant new store in the Bell Tavern Block.

The office of the International Telegraph Co. is also removed to the same premises.

☞ It is expected that the steamer Piscataqua (first rate) will go into commission to day.

☞ In the colt trot at Dover Fair, the colt of Mr. H. Drew, in the hands of Mr. Rogers, won in the good stared time of 2:52, 2:54, 2:53, and not Mr. Wiggin's colt, as we had it, who only won the two first heats.

☞ The appointment of Jeremiah Smith of Dover as Judge, is one that does great credit to the appointing power of New Hampshire. We learn that Judge Smith was greatly desirous that a Democrat should be appointed to the vacancy, and that Gov. Harriman was asked by Councillor Bedel (the Democratic member of the Council) if he intended to appoint a Democrat, and the Governor replied in the negative. A ballot was then taken and Mr. Smith received the vote of every Councillor, and the people of the State fully endorse the appointment. No better man could have been selected for the place so ably filled by the lamented Bartlett.

☞ The Milwaukee Journal of Commerce, in a notice of the Woolen goods house of Mr. Winslow A. Nowell (a Portsmouth boy) states that "his sales often reach $10,000 daily, and as this is in one exclusive line of goods, woolens and flannels only, it places the house relatively in the front rank of western jobbers."

☞ In Philadelphia, the Republican candidates for Register of Wills, Clerk of the Orphans' Court, and City Commissioner have commenced a contest in the Court of Common Pleas, with the Democrats, who have received their certificates of election. Frauds are alleged in many wards. In one precinct, the Democratic election officers are said to have received 196 votes from persons not on the list of voters. Similar frauds are charged in the 2d, 4th, 5th, 17th and 26th wards, more than enough to change the result.

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most important LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation on the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready on hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses the previous estimate. The figures for the quarter ending August 31st are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$187,579 44	$80,548 87	$101,030 57

or at the rate of ten millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate business of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $105,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain Basin.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as they may be probable, the United States will have invested in the completion of 835 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds,

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government, and interposed, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested conveyances, subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Acts of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are based on the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from the Government.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest on liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds are payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

A SAGE SOLUTION,

It often occurs, if it be not the rule,
That a clever man takes for companion a fool;
At first this seems strange, but it can't be denied
That the "goose" and the "goose" should be closely allied!

HENRY A. WISE ON THE SITUATION. At the opening of the Virginia State Horticultural and Pomological Exhibition at Richmond, on Wednesday, ex-Governor Wise delivered an adress to a large assembly gathered from all parts of the State. He dwelt almost entirely upon the present condition of the South and the political situation. He denounced the Military Reconstruction Act as the source of most of the evils of which the South now complains. He declared that the civil authorities and the civil courts were overriden by epaulet-ted officers, and that State rights were entirely ignored. He would not recognize the division of his State, but claimed that whole and undivided, she presented superior advantages to immigrants and settlers. He rejoiced that slavery was done away with, and thought that alone was worth the loss and cost of the war, provided, as a result of the war, civil liberty be not destroyed.

OLD AGE.—For twilight and silence and solemnity, old age makes us like daily dwellers in the house of the Lord; and a mortal sickness does this, sometimes, as well as old age. But it is our own thoughts that have to supply the service, and our own hearts that make the music either triumphant or else a dirge. And the sermon is preached to us by conscience from some text taken out of the book of our remembrance. While to it all, "Amen" has been said by ourselves; and when it is said gladly, then there is an echo to it in heaven, and joy among the angels.

MR. LONGFELLOW'S devotion to those two greatest poets of the Roman Catholic Communion, Dante and Calderon, has given rise to a report which is circulating in England, that he has entered the Roman Church. His poem of Evangeline is understated with a profound respect for what Dr. Johnson called the Old Church, and his love of the mediæval past, so conspicuous in his poems generally, might well give ground for such a report.—*Boston Courier.*

"HE IS RIGHT.—An editor down South says he would as soon try to get to sea on a shingle, make a ladder of log, chase a streak of lightning through a crab apple orchard, swim up the rapids of Niagara river, raise the dead, stop the tongue of an old maid, or set Lake Erie on fire with a lucifer match, as to stop lovers getting married when they take it into their heads to do so.

SMOKE.—During the last four years it is estimated that one and three-quarter billions of cigars were returned for tax, paying about ten millions of duty. But the government knows as little about the true extent of cigar manufacture, as it does about that of whiskey.—*Courier.*

ENTERPRISE.—One of the imported citizens of Amesbury, a few Sundays since killed and dressed a hog weighing 300 lbs., on the plea that the better the day the better the deed, and sweeter the meat.—*Vitlager.*

—The man who wrote "Rally round the Flag," has gone into the flag-stone business. Instead of rally round the flag, he *flags* around the *alley.*

—"Are those bells ringing for fire?" inquired Simon of Timothy. "No indeed," answered Tim, "They have got plenty of fire, and are ringing for water."

— A German newspaper says that two years ago, a Mr. Christian Segemayer became father of his fifty-eighth child. His first wife gave birth to twenty-three, of which six were twins and eleven single born; his second wife to nineteen, and the third and yet living wife is mother to sixteen children. Of these fifty eight children, twenty eight are living, all being daughters.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild, PARIS, 8th April, 1864, 25 Rue Faubg. St. Honoré.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment: if you will send at the same time your account, I'll forward you the amount through Messrs. BELMONT & CO., New York.
Baron Solomon Rothschild having recommended to me one of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal—as a Sure relief and cure of Rheumatism and *Neuralgic Affections. Sprains, Bruises, &c.*, it is unequalled.—It is also most efficatious taken inwardly in the cure of *Cramp, Pains in the Stomach, Sick Headache, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Remedy the world affords. Major LANE will should be without it. Every TRAVELER by land or sea should have a bottle. BIRMAN and Negro Regiments will find it invaluable. Planters should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price **50 Cents** per bottle. For sale at wholesale and retail by Dennis Burnett & Co., 61 Park Row, N. Y.; Gale & Robinson, 188 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 28 3d Ave. N. Y., and by medicine dealers generally throughout the world. None genuine unless signed by JOHN THOS. LANE and countersigned by H. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."

Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. H. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists generally.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. His child was cured, and is now well and hearty. Desirous of benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption but that it will at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, soreness of chest in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.

HOW TO CURE A SPAVINED HORSE.—I have a fine mare, which three years ago became lame from a bone spavin on the inside of the left hind leg. After pretty hard driving for several days, she became so lame that she was unfit for use. The spavin was very tender, and she rested the foot constantly on the toe where she stood. I took her to the blacksmith and directed him to put on a shoe without any toe cork and with blunt heel corks two inches long. She immediately travelled much better, and when she stood, rested the foot on the toe and heel corks, thus relieving the contracted cord from the strain to which it had been constantly subjected. In a short time the inflammation and tenderness subsided. The swelling abated, and she travelled very well. She wore the inside cork off faster than the outer one, when she began to be lame again. I then had the shoe re-set and the corks made of the same length and she soon became well. After a few weeks I had the cork shortened a little, and the next time she was shod a little more, but I still have her wear heel corks an inch or more in length. There is a slight enlargement of the bone where the spavin is seated but she performs hard service, and is not at all lame. Several of my neighbors have applied the same remedy with equally good results, and think that a little thought and observation will satisfy any one that this is the appropriate remedy. The cords attached to the part where the enlargement is seated, became inflamed and contracted, and raise up the heel from the ground. When the horse brings the heel to the ground the cords are strained, and become irritated and inflamed. The long corks keep the heel raised permanently, and thus prevent the cords from being strained, and allow the inflammation to get well. Some enlargement and a slight degree of stiffness may remain, but seldom enough to affect the gait. I consider the discovery of so much importance, that I wish the owners of horses to know it, as I believe that many horses that are now considered of little value may by this simple means be restored to a serviceable condition.

LEVI REYNOLDS.

Wilmington, 1861.

— A young wife, being asked what she should do in case her husband should fail, replied: "Love him all the more to be sure. I have two and he has two, with hands at the end of them." We will risk that couple.

— Certain Rusian aristocrats, angry at the Czar for his emancipation act, are trying to circulate a story that he is afflicted with softenfog of his brain, is not responsible for acts and ought to be displaced by a regency that would restore serfdom.

— On Monday last several mule spinners, who have been employed in the Wamsutta Mills since the strike, received their bounty of $60 each, which was promised them in addition to better wages than common, on condition of their remaining six months.

— Mrs. Mary Rumsey, recently deceased in England, who was reported to be the daughter of the celebrated circumnavigator Captain Cook, bore no relation to that distinguished individual, except that her first husband made a voyage with Captain Cook.

— It is feared that there will be great distress among the negro population at the South this winter. They will need winter supplies of clothing and food, but have not wherewithal to purchase them. The partial failure of the cotton crop and the decline in price bring serious embarrassments to those who work for shares.

— Rev. W. L. Gage has in an advanced state of preparation a translation of Tischendorf's work on the Origin of the Gospels, the smaller form of which has already been published. The new edition is three times as large as the one now before the public, and is an exhaustive account of the rise of the canonical Gospels. While the smaller work is well adapted to the wants of the general Christian public, the larger one will be welcomed by our clergy and other scholarly readers.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from the large list of purchasers are given for reference:

American and Foreign Patents.
B. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington' under the Act of 1837.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or Drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made *twelve* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. B. H. Eddy has made forms THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGHART.

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 EXCHANGE ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Floor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and a speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, solicits a share of public patronage. He employs no *Steamboat Runners*, and consequently can afford to do as much for a patient in one visit as those who employ them can in two. Office hours 9 a. m. to 2 p. m. and 6 to 8 p. m. Sundays excepted.
N. B.—All letters must contain one dollar, or they will not be answered.

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, OCTOBER 22, 1867.

"ADAMS AND LIBERTY."—We hardly see the significance of this phrase, of which the Post seems to have taken out a patent. The supporters of Mr. Adams claim that the coming election relates wholly to local issues, so that the motto cannot have any reference to national freedom, especially as his sympathizers at the South and in Washington seem to think that there is too much "liberty" already. We suppose, then, that it comprises a personal tribute to the young gentleman himself, meaning the liberty to turn his back on all the principles of his ancestors, the liberty of securing a rather equivocal triumph (if all things be true) in a Democratic Convention, and the liberty of being ingloriously beaten at the polls. Hurrah, then, for "Adams and Liberty."—*Boston Jour.*

No, no,—says Uncle Toby, the People's Liberty Leagues in that State means the liberty to be sots, or the liberty to make others such. The party, under a very thin veil, virtually makes this an issue, and whatever gains can be made on it, will very naturally be credited to the most eminent sot in the nation.

☞ The N. Y. Times' special says Hon. James F. Wilson of Iowa, denies he expressed an opinion on impeachment outside of the committee room, and no one is authorized to say he will vote for or against reporting articles of impeachment. The President's intimate friends say he denies that he will resist Congress if impeached.

Gen. Sheridan is expected in Washington early in November, and is expected to take command of Maryland and the District of Columbia as a new Military District.

Gen. Steedman is in Washington.

☞ At the Riverside Track, Boston, for the benefit of William Woodruff, Saturday afternoon, assembled a large crowd, although it would undoubtedly have been greater had it been supposed that such remarkable time was to be made in the double team trot. The principal event was the double team race for a purse of 200, between Empress, Ben Franklin and Shifty, each with a running mate. Franklin was the favorite in the pools, $50 to $1, and finally only Empress and Shifty were sold. Franklin and mate won in three straight heats, 2:27, 2:19, 2:22. The fastest time (2:19) made by Ben Franklin with his thoroughbred mate, a four year old colt, on a half mile course, without being pressed to it by the other teams, is certainly remarkable, and old Ethan Allen must look well to his laurels. Ethan Allen and running mate were exhibited on the track during the afternoon, and were driven round several times by Mr. J. E. Maynard. There were also two other trots.

ITALY—By Cable Sunday night and Monday.—Dispatches from Rome report two battles as having taken place between the Insurgents and Pontifical troops, in which the latter were victorious. The towns of Revola and Orte, which had been taken by the Insurgents, were assaulted by the Papal forces and carried by storm.

It was reported at Rome that the Italian Prime Minister, Rattazi had resigned.

At Paris it is rumored that the leading European Powers will unite with France in intervention for the settlement of the Roman question and the preservation of peace.

The French cabinet has addressed a circular note to its representatives at foreign courts, pledging France to enforce the stipulations of the treaty of September.

The excitement and anxiety created by the rumors constantly arriving are very great, and rentes are fluctuating.

The Italian frontier troops are being reinforced and there is excitement in Italy relative to French intervention.

☞ Com. Vanderbilt and Ledger Bonner are old rivals in the fast trotting horse ownership—if indeed, Bonner can be said to have any rivals. Vanderbilt's young horse Mountain Boy was driven half a mile the other day, in harness, with Charlotte F. running by his side, ridden by Ben Mace, to force him along. At the third trial he made his half mile in 1 m. 7 1-2 s., an exceedingly good performance. Some of the papers state that it is an unprecedented one, but this is ignorance. In the race this spring between Dexter in harness, and Ethan Allen and running mate to the pole, the team went to the half mile in 1m. 4s., and Dexter was but about a second behind them. In the next heat, when he was on the outside, and had to trot round the team, he led at the half-mile pole in 1m. 6s., which time was taken and declared by the judges. This was in a public race. And Mr. Bonner declines Com. Vanderbilt's challenge to run a match between Mountain Boy and Dexter, as the best time of the former is seventy or eighty yards slower than Dexter's, and whenever he shall have closed up this gap and equaled Dexter's time—2:17 1-2—it will be soon enough to talk of a match—and it is well known the Ledger man has always refused to gamble with his horses.

☞ The late elections have thawed out Ex-President Frank Pierce of New Hampshire, who made a characteristic speech to a motley crew who called on him; but he didn't say anything about his correspondence with Jeff. Davis.—*Bellows Falls Times.*

SUPPOSED MURDER AT FITCHBURG, MASS.—The dead body of Frederick Powers of Fitchburg was found buried in a sand bank at West Fitchburg on Friday, and the appearance of the remains indicated that he had met his death by violence. His skull was broken, a gag was in his mouth, and there were three stabs in his body. Two Frenchmen and one American have been arrested on suspicion of having been the murderers, and the circumstantial evidence against them is regarded as quite strong. Mr. Powers had been paid off at his place of employment a few days ago, and he was probably murdered for his money. He had been missing for some days prior to the discovery of his remains, as above stated.

☞ A correspondent of the Tribune, signing himself "Justice," writes that he is sick of appeals from those who call themselves advocates of sobriety, order and decency, on the Lord's day, because he never finds them at the polls working to give effect to their views, while the law-breaking, drunkard-making, riot-loving crew are there in full force. He says that if those who profess to care so much for Sunday, would show it, just once, by their acts on election day, he might be induced to repose faith in them once more; but until they do, he must consider them humbugs, and civilly requests them to keep their addresses to themselves.

"Justice" is a little rough; but what he says is worth thinking of.

TURKEY AND CANDIA.—Accounts are received from the Island of Candia of the arrival there of the Turkish Grand Vizier and other members of the Commission of Inquiry sent out by the Sultan. The Grand Vizier had met a deputation of the Cretan insurgents at Canea in the presence of all the Consuls of foreign powers. The members of the deputation insisted upon a union of the Island of Candia with the Kingdom of Greece.

NO INVITATION.—"Why don't you trade with me?" asked a close fisted tradesman of a friend the other day. The reply was characteristic: "You have never asked me, sir. I have looked all through the papers for an invitation in the shape of an advertisement, and found none. I never go where I am not invited."

PENNSYLVANIA.—Full official returns give the Democratic party 1202 majority, in a poll of 535,000 votes.

— The Kennebec Journal comes to us with the name of Gen. Grant for President at the head of its columns.

— The Empress Eugenie and the Prince had a narrow escape from drowning near Biarritz.

—It is a somewhat curious fact that the author of the Bankrupt Bill, Hon. Thomas Jenckes of Rhode Island, was one of the first applicants for its benefit in his State.

— In Phillipston, Mass., on Wednesday, a little daughter of Charles Rider tipped over backwards in her high chair, while sitting at the table, and was so badly injured that she died next day.

— Last Sunday, while the family of Mr. Cross of Enochsburg, Vermont, were at church, the house was robbed of bonds and notes to the amount of $1500. The sudden departure of an individual for Canada points at him as the robber.

— Franklin Wetherby of Salisbury, Mass., who has been ill for some time, relieved himself, Monday week, by vomiting up a live snake, nine and a quarter inches long, and apparently of the spotted adder species.

— It is said that by the counterfeiting of seven-thirties, the Baltimore capitalists lose about $25,000, New York $400,000, Cincinnati $64,000, Boston $150,000, Louisville $130,000, St. Louis $200,000, and Chicago $150,000. This estimate reaches nearly eleven hundred thousand dollars.

—A special says that in response to a letter from Dr. Leiber, General Grant states that he trusts he may have strength to answer any responsibility devolving upon him, no matter how solemn it may be, and will not hesitate to accept what the country demands.

—The Times' special says the riot in Baltimore resulted in the killing of a young man who was accidentally mixed up in the crowd of rebels who were stoning a colored military company called the Lincoln Guard. The latter did not retaliate to the hooting and insults until stoned.

— The Tyler (Texas) Reporter says:—"The wine crop in this county has been large. It is certain that much more than a supply for home consumption has been secured. We observe that other counties in Eastern Texas have manufactured large quantities also, from the native grape."

— The Treasury officials authorize a contradiction of the sensational story that upward of one million counterfeit seven-thirty bonds had been circulated all over the country, and that the headquarters of the counterfeiting gang was in Philadelphia, where it was alleged the counterfeit bonds were printed. The story appears to have been manufactured out of whole cloth, for none of the pretended facts are known at the Treasury Department.

TERRIBLE SCENE.—Police officer McChesney was killed in New York city, on Saturday night, by a courtesan, called Fanny Wright, who is said to have come from Lowell originally. The woman was drunk and flourishing the knife over her head, at the corner of Mercer and Canal streets.—As McChesney approached her he said:—"You have got a knife." "No I aint." And with this reply she sprang with the rage of a maniac at the officer, plunging the blade of the knife into his neck one inch below his left ear.

Thus wounded, the officer immediately gave the alarm rap, when officer Seaman instantly arrived. "Seaman," said the wounded man, "I have been stabbed by this woman; arrest her." Officer Seaman then turned to the woman, who at that time was surrounded by a crowd, and attempted to take her into custody, but she drew back, raised her hand in which she held the bloody knife, and attempted to renew the assault; but stepping back, officer Seaman quickly struck her upon the wrist with his club and the knife fell upon the sidewalk, and she was arrested, bound and imprisoned.

The officer died in a few moments. He had recently been put on the police, was a fine looking man, six feet in hight, and well proportioned. He had been married but a few days previous to being placed on the police force. On hearing of the murder of her husband, Mrs. McChesney became frantic with grief.

☞ On Saturday the Democratic Convention at Brooklyn, N. Y., broke up in a row, during which the minutes of the meeting, notes, &c., were stolen from the Secretary, and torn to pieces. The Democratic organ of Brooklyn bolts the nomination of Kalbfleisch for Mayor. During the nomination of Justices there was the greatest confusion, and several subsequent small fights resulted among delegates of opposing candidates. It is stated that there will be another convention held.

FATAL EXPLOSION.—A terrible accident occurred at the Hoosac Tunnel on Saturday, by which thirteen men were either killed outright or suffocated to death. The gasoline works, at the mouth of the shaft exploded, setting fire to the building which contained them. The debris fell down the shaft, burying the whole gang of workmen at the bottom. The bodies will not be extricated for some days.

☞ Mr. Seth W. Fowle died at his residence in Boston Saturday evening. His illness has been of long continuance. He was widely known as a druggist, largely interested in several leading proprietary medicines.

☞ In Tennessee last week, a Mr. Porter, after being enticed from his house at Johnsonville, by a party of ex-rebels, was shot dead by one Pierce, who made his escape; the others were arrested.

☞ Last week, in Pennsylvania, James Rush, a watch peddler, was found dead in Rainsville, and as he had been robbed, foul play was suspected.

— The slave pen at Richmond has been converted into a divinity schoolroom for colored preachers.

— The accident at Dover, to Rev. Samuel Johnson of Lynn, came near proving very serious. He had been unwell for several days, and near Dover, feeling faint, he rose from his seat to reach the door of the car, which was the last he recollected, until found by the ticket master half an hour after, lying on the track, badly bruised and unconscious. One of his shoulders was dislocated, and he received other severe injuries about the face and head. He is now doing well.

MARRIAGE.—Marriage is one of the great blessing of the world; Herrick Allen's Gold Medal Saleratus is the other. One is the result of love, admiration and courtship; the other the result of perseverance, science and skill. Where matches have proved unsuitable, this article is well calculated to harmonize and make home happy and pleasant, by always giving you the nicest, whitest, lightest and best bread, biscuit, cakes and puddings that woman's hand can make, which purpose cannot be accomplished by the using of any other Saleratus or Soda. Most merchants sell it. 26

SHALL THE CHILDREN of the Soldiers and Sailors who gave their lives for the preservation of the Union, be provided with homes, and receive a good education? This is a question which will admit of but one answer—in the affirmative. It only remains therefore, for us to point out the plan mode in which it can be done. A careful examination has satisfied us, and will satisfy the public, that the projectors of the Riverside Institute, located in the village of Riverside, New Jersey, on the Delaware, have devised the most feasible method. Acting under the charter of the Washington Library Company of Philadelphia, incorporated by the State of Pennsylvania, they are offering stock at the low rate of one dollar per share, and will give to each subscriber a beautiful and valuable steel engraving, worth at retail more than the price of the stock, and as an additional inducement will distribute among the stockholders presents valued at $200,000. Who can refuse to do a patriotic and benevolent action on those terms? Let every lover of his country record his name. Read advertisement.

CAUTION, THE PARENT OF SAFETY.—None should purchase any of the poisonous compounds called saleratus, unless they desire decayed teeth, sore throats and dyspepsia. Pyle's Saleratus alone is harmless and wholesome. Sold by grocers everywhere, in one pound packages.

Where are you going?
I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.
Has he got Providence River Oysters?
Yes; and has made arrangements to have a supply of them all the time.
Does he cook them?
Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s24

☞ Had Congress not permitted themselves to be out-generalled, and placing some confidence in Johnson, left the government in his hands four months without check, to nullify and undo all their acts, he in our opinion, would have got less support at the late elections. Holding the appointing power, which is followed by every office seeker, and having apparently outwitted Congress, these office seekers, and all those who are always ready to vote with the successful party, went over to the Democrats. But let Congress do its duty, and those who follow in the footsteps of power would follow in their train.

☞ It will be remembered that at the election previous to the Harrison burrioane, the Democrats carried all before them.—Frank Pierce had a great vote, next preceding the election of Lincoln, and at the State and Congressional elections, next preceding Lincoln's triumphant re-election, these same States went over to the Democrats, with much stronger votes than last week, but came back to the Republicans when the great national question came up of resigning the Government into the hands of rebels and copperheads, in November, 1864, with a rush perfectly astounding to those who had taken courage from the previous State elections.

☞ If Asmodeus should unroof all the houses in New York, as the story says he unroofed those of Madrid, in the dressing rooms of nine-tenths of the *beau monde* would be seen Phalon's "Night-Blooming Cereus."—*Wilkesbarre Union.*

NOT GOLD ONLY,

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural productions, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a wee thing of her own wine, worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Sell Champagne,"
"Hock" and
"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences as those will be supposed to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been deaf for 34 years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in the city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot allow him to do so without a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should consult a physician with distinction generally, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success every where he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases to be made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

QUARTER OF A MILLION SAVED A DAY.

One hundred thousand men now labor with good results, who, until they used

ALLCOCK'S POROUS PLASTERS,

had not done a day's work for years. So these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.

AN IMPORTANT LETTER.

SHRUB OAK, Yorktown, N. Y., Jan 19, 1866.

J. ALLCOCK & SON—Gentlemen: I have been troubled with a lame back over ten years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters and nor eit 3 weeks when I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days. STEPHEN FUGSLEY.

MESSRS. T. ALLCOCK & CO.—Dear sirs: My daughter used one of your Porous Plasters. She had a very bad pain in her side and it cured her in one week. Yours truly,

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water brash and vomiting, and a great deal of what a person calls an ill-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of food, such, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets thick coat of slime on it, the quantity of the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this vitiated matter. Two-thirds of all cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, ceases to throw out bile, and the whole blood the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the stomach, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition. Without the aid of the Sea Weed Tonic and Mandrake Pills, to set it free all the vitiated blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed; the skin starts the alarm, by which

A Column From the Portsmouth Journal.

NEW CITY HALL.—The city have contracted for a cistern at the bottom of Brewster-street. It is to be six feet square and ten feet deep. A covered drain, a foot square on the inside, is to run from the bottom of the cistern about 250 feet into the mill pond, passing under the Concord and the Eastern railroad tracks. The mouth of the drain to be one foot below the low water mark, thus keeping in the cistern continually a full supply of clear water, however fast it may be drawn out.

MR. BARNABEE'S CONCERT SERIES.—Mr. Henry C. Barnabee advertises to-day another of his popular concert series which were so well received last winter. They are to take place if sufficient encouragement is given in the subscription for tickets. A little local pride in acknowledgement of the success of one of our Sons of Portsmouth, should, aside from the decided merit of the entertainments, lead to an early filling of the subscription lists.

GOOD LETTERING.—Attention has frequently been drawn to the well executed lettering on door posts and windows in the business part of our city, and the ready ease with which the painter (Mr. Edward Jarvis) peforms this work. He has been for some time located here, and excels in this particular branch of his business.

CAUTION TO NEWSPAPER PUBLISHERS.—There is no end to the frauds practiced by those who impose upon the community the Lottery or Gift Enterprise business. Last week we received a letter from New York signed "*Temple, Richardson & Co.*" containing five advertisements—four of them of reliable houses in New York, and one of them a Lottery advertisement signed by Wright, Bro. & Co. We were asked to mark our prices for each advertisement, and return immediately—"the payment to be made in an accepted time draft on the celebrated Banking House of Jay Cooke & Co."

We marked our prices, and also addressed a letter of inquiry to Jay Cooke & Co. In due time the circular was returned, with the acceptance of the terms for the *Lottery* advertisement only, and the promise that other advertisements would be forwarded in the course of a month, when the draft would be drawn for all together.

The mail also brought us a reply from the Banking House of Jay Cooke & Co. in which they say—"*We have no knowledge of Temple, Richardson & Co.—never gave them an order, and of course will not pay their drafts.*"

We give this information that the attempted fraud on the Newspapers of New England may at once be checked, and Temple, Richardson & Co. receive the exposure they deserve.

"Hold a mirror so that Planet Jupiter may be reflected in it when two of the satellites may be seen with the naked eye." So says a correspondent. We have tried it, and saw satellites of Jupiter. Turning to Venus, we found that planet exhibited satellites also! Either this latter is a discovery which the astronomers have overlooked, or mirrors play a deceitful game.

A correspondent of the Salem Gazette states that the expenses of the reception of General Sheridan, by the city authorities of Boston, cost thirteen or fourteen thousand dollars, for "barouching and banqueting." It is no part of our business to criticise the expenditures of Boston, excepting so far as what we think a bad example may have a bad influence in smaller places; but we cannot believe that expenditures of that nature come within the legitimate province of a municipal government. A hearty and spontaneous gathering of the people would have bestowed upon the gallant General a well-deserved welcome, which we do not doubt would have been more gratifying to him than the formal and organized parade with which he was received.

THE FIRST NOMINATION OF GEN. GRANT FOR THE PRESIDENCY.—The following resolution was adopted in the Maryland Republican Convention, yesterday, by a vote of 67 to 17:

Resolved, That the Republicans of Maryland earnestly recommend to the Republican party of the country the nomination of General U. S. Grant as their candidate for the next Presidency.

SCRAPS.—A New York paper says Rev. Dr. Chapin and Rev. H. W. Beecher preached on Sunday morning from the same text. If report is to be credited, the Universalist minister preached the *Orthodox* sermon.

"Rev. T. K. Beecher thinks it must be extremely difficult to edit a religious paper for evangelical readers in these days."

Generals Sheridan and Sickles, the two commanders removed, were received at Albany with the highest honors, as the former had been in his route through New England.

Said the parson to a female parishioner, "It is a long time since I saw you at church.—Have't you got your new bonnet yet?"—"Yes, (she replied' pointing to the cradle,) "There it is!" The pastor was quite *overcome*.

The Harpers are about bringing out a volume of Henry Ward Beecher's sermons. On discussing the title page one of them asked the Doctor how this would read?—"Sermons by H. W. B. *author of Norwood*." Norwood is the popular novel by Mr. Beecher, now publishing in the New York Ledger. "The facetious divine was greatly amused at the *hit*."

On the 31st of October, 1517, Martin Luther nailed his ninety-five theses against the doctrine of indulgences upon the door of the Wittemburg Cathedral. The Lutherans of this country propose celebrating the three hundred and fiftieth return of this day, one of the most momentous in the history of Protestant christianity, and will devote the thank offerings made upon that day to the endowment of some of their institutions of learning.

Napoleon III has been asked to extend the time of the Paris Exhibition one month, and it is supposed he will comply with the request. Pecuniarily, the Exhibition is not a success, thus far. A month ago, the expenditures exceeded the receipts about $300,000.

The Chronicle.

☞ Every Democratic and Copperhead paper entirely ignores the rebellion and pleads the cause of the poor abused South, just as though they had always been faithful to the Constitution and laws, and they have as much to say about constitutional rights as they could have said if they had not set the Constitution and laws at defiance, and done their utmost to overturn both.

During the rebellion these writers and prints were just as active as they are now. Rebels might set the Constitution, laws and Government at defiance, and these pseudo patriots would be active in seeking up quotations from great men, decisions and arguments on constitutional law, made for the rights and safety of good and loyal citizens in times of peace, for the benefit of rebels in arms. Gladly would they have have hampered the administration by the strictest construction of civil law, for the benefit of rebels, who were bound by no law.

MRS LINCOLN A MONOMANIAC.—In our issue of the 11th inst., referring to the letters of Mrs. Lincoln to Mr. Brady with reference to the disposal of her wardrobe, we called them the "pitiable incoherencies of a monomaniac." We did this understandingly, and not as a figure of speech. There is not, nor has there been for a long time, any doubt in the minds of those most intimate with her, that on this subject of income particularly Mrs. Lincoln is a monomaniac. It is said due to her and to her friends, who suffer unjustly from the scandal her action has begotten, that this statement should be made.

The facts and acts which have established this conviction in the minds of her acquaintance and friends here before the publication of the letters referred to, need not be detailed. It is sufficient for the public to know that these letters have confirmed previous convictions, and are entirely consistent with statements repeatedly made by her to intimate friends and relatives, and insisted upon in the face of controvertible facts. Mrs. Lincoln has never recovered from the terrible shock which thrilled the country with horror.—*Chicago Republican.*

☞ Gov. Seymour, of New-York, in his speech at the Democratic convention, was very bitter upon Mr. Seward, and said that a "spirit of cowardly and criminal violence went forth from the State Department during the war, to stalk back in the foul form of the assassin." It is only remarkable that he did not defend the assassination as well as condemn the proceeding against treason that provoked it. The New-York Commercial explains the temper of the soured and disappointed orator thus:

"Though Seymour ran fifteen hundred behind his ticket in 1864, he lacked only a few thousand votes of being re-chosen Governor. The fact that the pressure or influence emanating from the State Department deprived some of his 'friends' of the right to vote, through compulsory residence at Sing Sing, and led a good many more to migrate to Canada, prevented the Governor from receiving the necessary number of ballots to secure his re-election."

PRINTING PRESSES.—The *Petit Journal* of Paris has a daily circulation of over two hundred and fifty thousand copies. M. Marinoni has recently placed in the office of the *Petit Journal* four presses, each of which will print 600 impressions a minute or a total of 144,000 an hour. The Paris *Siecle*, in speaking of this fact, states that the American presses, which up to this moment have been regarded as the perfection of mechanical ingenuity, are now surpassed by the invention of M. Marinoni.

— Agassiz says Florida is seventy thousand years old.

—The Boston Transcript says, The public will never know how many foolish things Mr. Seward stopped while Mrs. Lincoln was mistress of the White House.

— Young Ladies—"Going to make a flower bed here, Smithers? Why it'll quite spoil our croquet ground!" Gardener—"Well, that's your pa's orders, Miss. He'll have it laid out for 'Orticulture, not for 'Usbandry!

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

Portsmouth, N. H.

WEDNESDAY, OCTOBER 28, 1867.

IOWA returns 25,724 Republican majority for Governor (Col. Merrill) in 72 counties. The present Republican Governor (Stone) had 16,375 majority in the whole State in 1865. Merrill's will exceed it by fully 10,000.

The official Democratic majority in PENNSYLVANIA is 922, instead of 1202, as first reported.

Gen. Hayes' majority for Governor of OHIO is 3258—all but eight counties official. The vote is the heaviest ever cast in the State, though the great Republican strongholds like Ashtabula are not nearly polled out.

A letter from INDIANA says: "The Republican majority in the whole State, is between 22,000 and 23,000, larger by nearly 3000 than our heavy majority in 1864, and by nearly 10,000 than our majority in 1866. The Republicans elected their county tickets in two-thirds of the counties, and ten of the eleven Congressional districts gave Republican majorities, the Second and Fourth being gains."

☞ The Washington Intelligencer, (Johnsonian organ) contains a letter from Postmaster General Randall on the political situation, addressed to a citizen of Wisconsin, denouncing the Republican party of that State for advocating in their State Convention the impeachment of President Johnson. He says the latter has done nothing to be impeached for, and maintains that if Congress had not interfered with him the policy of the Administration would have resulted long since in the representation, by *liberal* men, of every State in the South. He closes by trusting that Wisconsin will join New York in following Ohio and Pennsylvania. The letter places Mr. Randall squarely in sympathy with the President, and shows him up as a mere snob. No doubt if Congress had not interfered, A. J. & Co. would have been very *liberal* to traitors and criminals. But Congress did interfere, so that A. J. is not Dictator, but only President, and a poor one at that.

☞ Miss Waltz, who was injured by a benzine fire in Boston, when Miss Ware was killed by it, has died in the hospital.—She said they had been putting benzine on the furniture to cleanse it, using the fluid from a pitcher with a brush; that it took fire, and in an instant the room was in a blaze, and herself with it; that the doors and windows were closed; that the benzine took fire from the gas light burning (as the witness understood her) near the window. They had been using the benzine during the day, and had left their work and received company during the evening. They were preparing to retire, but Miss Ware proposed to finish the work at once, rather than endure the smell another day, and they were thus employed, when the explosion occurred. Miss Waltz ran out of the room, across the entry, into an adjoining room to obtain some water, and fell down unconscious, and so remained, until removed to the hospital.

— The Bowdoinham bank robbers deny that they have offered to "restore" $40,000 of the plunder taken from the bank, but say it is true they have offered to "give" that sum for the relief of sufferers at Bowdoinham, provided they can have a pardon. —*Exchange.*

They should be shut up and set to work, without another word.

— Complete returns from the revision of registration show the voting population of Richmond city to be as follows: White 5060; negroes, 6021; negro majority, 961.

—Gen. J. C. Abbott and John R. French, formerly newspaper men in New Hampshire, are in nomination for the Constitutional Convention in North Carolina.

—The strikers of the Idaho mineral companies have commenced work again.—Some of the companies were paying the advance demanded.

— A Western democratic paper says the democratic vote in Ohio would have been increased by ten thousand if Vallandigham had remained at home and kept his lips sealed. The State Committee did try to suppress him, but the democratic masses would have him on the stump.

— The Democratic Committee that went from New York to induce the President to make numerous official changes in the interest of their party, are said to have obtained only the assurance that Mr. Johnson would "pursue a vigorous policy." With that they returned home, and are now wondering when the vigorous policy is to begin.

— Philip Brown, in the employ of the New England Butt Company in Providence, while oiling machinery overhead a few days since, fell from the steps and his foot was caught in the gearing of a rattling machine, crushing his foot and leg shockingly, from the effects of which he died on Saturday. He was sixty-eight years of age.

NEW HAMPSHIRE ITEMS.

—— The bridge on the Grand Trunk Railway, just above the town of Stark, caught fire Friday afternoon from the sparks from the locomotive of a freight train, and was destroyed. It is restored.

—— On Sunday a young man named James Foley, belonging in Manchester, was gunning in the woods in Goffstown, when his piece went off when at the trail and he was shot through the right lung, making a terrible wound.

—— Professional thieves have been doing quite a business up country in stealing cattle from pastures and driving them to Massachusetts and selling them. Seven cows were taken from a pasture in New Ipswich, and eleven young cattle from the pasture of Moses Eaton in Francestown.—The thieves have been caught.

THE PROPOSED WALK FROM PORTLAND TO CHICAGO.—The proposed walk of Edward Payson Weston, from Portland, Me., to Chicago, Ill., excites much interest among sporting people. In the terms of the agreement the distance was given as 1200 miles, the time of starting to be between the 1st and 15th of October. From postal surveys the distance was found to be 1226 miles. Weston offered to walk the extra 26 miles if he could postpone the start till the 29th inst. This, it is said, the backers, Goodwin and Wilcox, agreed to; but now Weston's backer is asked to pay the $600 forfeit of the wager of $10,000 a side. Weston will appeal to the editor of the Clipper, and to the editor of Wilkes' Spirit, and if they decide against him he will, if he wins the stakes, pay the above named forfeit. Weston is to start from Portland at noon of the 29th inst. He has a card in the papers, stating that he is no sporting man, but wants to get money to pay his debts. He has got a hard road to travel, to do it—but no farther than other folks, perhaps, have to work to pay their debts.

P. S. We are informed by a Portland man, that the race is to commence to-day, Wednesday.

ITALY.—The whole posture of affairs in Italy has suddenly changed, in consequence of a single fact not heretofore known on this side of the water. This was the fact not only that Napoleon was resolved to enforce what is called the September convention for securing the Pope in the possession of Rome, but was *ready* for that step, having armed forces mobilized and so disposed that they could be thrown into Italy at a moment's notice. This shows how skilfully Napoleon has utilized the quiet and the diversion given to the attention of Europe by his famous Exposition. But this fact was probably known to Victor Emmanuel, and served to paralyze his action, and consequently to extinguish for the time the Garibaldian movement. So the Pope still lives in Rome.

IN LOUISIANA, the whole number of votes appear to be 79,174, of which 79,083 were for a Convention, 4006 against it, and 85 blank. A majority of the whole number of registered voters having voted, and a majority of the votes cast being for a Convention, as prescribed by the acts of Congress, the delegates elected at said election are notified to assemble in Convention at the Mechanics' Institute Hall in the city of New Orleans, La., on Saturday, Nov. 23, 1867.

SUDDEN DEATH.—Rev. Eben Carpenter, an Orthodox clergyman of Boston, died very suddenly on Monday morning, at the age of 67 years. He was afflicted with asthma and bronchitis.

☞ An English pickpocket named John Newman, on Saturday forenoon, in Boston, was brought up in the Municipal Court, charged with larceny of a $2 bank bill from the person of Mr. Nicholson, and an attempt to commit larceny from the person of an unknown woman, and sentenced to 15 months imprisonment on each, making a total of two years and six months in the House of Correction. He appealed and was held in $4000 for trial in the Court. Newman arrived in this country about a week since. He will probably get a heavier sentence on his appeal.

☞ At St. Louis, Monday night, the wholesale jewelry store of Meyer & Lopes, was entered, the safes opened, and from $10,000 to $15,000 worth of jewelry, consisting of large gold and silver watches, diamond rings and a large lot of gold and silver chains abstracted. No clue to the robbers has been obtained.

☞ Gen. Grant has issued another order looking to retrenchment. He directs that all private buildings occupied in Washington by any bureau of the War Department, be vacated at once and turned over to their owners. This will effect a saving of many thousand dollars per month.

☞ A special dispatch states the schooner Winona, of Boothbay, with 14 men, was lost Oct. 12, having capsized while racing. The Winona was a new vessel of 190 tons burthen.

— The right name of the murderess of Officer McChesney is Mary Walsh, born in Poughkeepsie, and she has been fully committed by the coroner on a charge of murder.

THE PITTSFIELD SWINDLER.—Humphries, the confidence man, was at the house of a Catholic priest at Chatham, Mass., when last arrested, and had succeeded in victimizing the priest with a forged draft of $500, pretending that somebody deceased had left a legacy of $450 to the church, and this draft was to pay it. The priest was just paying him the $50 change, when the officers arrived and took charge of the swindler. Three or four years ago, the "general" spent a part of the winter in Tyingham and Lee, under the name of Col. Lamar, of the rebel army, and was lionized and feasted by his "democratic" admirers, one of whom was swindled out of a considerable amount at that time.

TELEGRAPHIC DISPATCHES NOT PRIVATE PROPERTY.—In a case which was tried in the State of New York last week, a gentleman in charge of a telegraphic office was called as a witness and questioned as to certain telegrams said to have passed between the co-defendants in the case.—He declined to answer, on the ground that the dispatches were confidential communications, and the private property of the parties. The judge ruled that they were not privileged communications or private property in the sense mentioned, and he issued an order, requiring copies of the messages sent to be produced in evidence.

☞ A Washington dispatch says that on Saturday, Montgomery Blair applied to General Grant for the reinstatement of a clerk in the War Department, who was lately dismissed upon the reduction of the clerical forces. The request was not complied with, whereupon Blair declared that the clerk could probably be reinstated if he was not a democrat. He was informed in reply that politics had nothing to do with the qualifications of clerks in the War Department, either in their appointment or discharge.

—A dispatch from Philadelphia announces the discontinuance of Col. J. W. Forney's Sunday papers in that city and Washington.

—Mr. Jerome, the owner of Kentucky, lost 20,000 on the race against time. It is said that $150,000 changed hands in Wall street.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will not buy other saleratus or soda, if this article can be obtained. We see most of our merchants have it. One trial will convince any one. Their depot is 112 Liberty street, New York. 27

Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. 924

BIG ADVERTISING.—Bonner, of the New York Ledger, says that he has received an offer from Hon. CHARLES A. SHAW, of Biddeford, of *One Hundred Dollars per line* to insert an advertisement in the Ledger one week, but refuses to insert an advertisement in the Ledger at any price. But it is not all the craft who can afford to refuse such an offer— nor all advertisers that have pluck to offer them.

☞ So far as heard from only two conservatives have been elected to the Constitutional Convention of Alabama, called under the reconstruction laws of Congress. A most insignificant minority of the whites registered consented to vote, and of those who did vote, nine out of every ten cast their ballot against a convention. Sixteen negroes have positively been elected, and the probabilities are that fuller returns will increase the number.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be supprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

DEAFNESS AND CATARRH.

Testimonial of Mr. Wm. Cartledge, Jr., of Portsmouth.

My ears have been diseased 34 years, and I had become so deaf as to be unable to hear ladies addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skillful and reliable physician, I was induced to place myself under his care and under his treatment. I have recovered my hearing so I can hear *distinctly* when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons afflicted with diseases of the head to consult Dr. Carpenter and obtain relief. Shall be pleased to converse with any person interested, at my residence on Morning Street.

WM. CARTLEDGE, JR.

Portsmouth, N. H., Oct. 3, 1867.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. SCHENCK ON DYSPEEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of heart-burn, or a slight sensation of eating at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in dyspepsia, that throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this part ceased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The sympathetic membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the lungs when the system is in this locked up condition, without the aid of the Seaweed Tonic and Mandrake Pills. The Liver has all the work to do, and when it is torpid, and when it gets in a morbid condition, blood and tar run through the system mixed, and the whole body becomes poisoned, for the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhage ceases. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the ground work for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

TO OWNERS OF HORSES.—THOUSANDS of Horses Die Yearly from Colic. This need not be. Dr. Tobias' Venetian Horse Liniment will positively cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable ready for use. It is warranted superior to any liniment for the cure of Cuts, Wind Galls, Swellings, Sore Throat, Spavin, Bruises, Old Sores, &c. This Liniment is no new remedy. It has been used and approved of for 20 years by the first horsemen in the country. Given to an over-driven horse, it acts like magic. Orders are constantly received from the racing stables in England for it. The celebrated Hiram Woodruff, of trotting fame, used it for years, and said it was far superior to any other he had tried. Recollect, Dr. Tobias' Venetian Liniment is put up in pint bottles. Take no other. Sold by Druggists and Saddlers. Depot 56 Cortland street, N. Y. o8dwim

Local.

☞ The Hampton Falls correspondent of the Exeter News Letter has evidently got what Br. Gilman of the Portland Press used to call a "diarrhœa of rice water discharges" about the Piscataqua Fair. He had better take something. We should not have noticed him, but the editor says:

"We refer the Chronicle to our Hampton Falls correspondence. We would much prefer that our crusty and mercurial contemporary would not insinuate that the News Letter tells anything but the truth.—Such charges as the Chronicle makes must be pronounced U. T. erly false. We have no ink to waste on 'dead ducks' or 'side shows' like that of Portsmouth. Hampton Falls will attend to you, 'gentlemen of the quill.'"

No, no, don't; we beg of you not to direct his stream of "words, words, words" at us. We don't blame Br. Cram for disowning him, as not of Hampton Falls—though perhaps the fellow, by his H. F., means hifaluten, "Side show," eh? Well, we believe those premiums have been paid.—"Dead ducks," hey? Guess you'll hear from them next year, if not before.

POLICE COURT, Oct. 22.—John Barrett, for an assault on Julia Barrett, was fined $1 and $4.86 costs, and ordered to give $30 bonds to keep the peace.

John Barrett, for making a brawl and tumult, was fined $3 and $3.86 costs.

In the case of Julia Barrett, charged with making a brawl and tumult, a nol. pros. was entered.

James Quinn, John Russell, Lawrence Hartley and John Newton, marines, all pleaded guilty to a charge of drunkenness, and were each and severally fined $3 and $3.86 costs.

☞ The time-honored case of Nutter and Pickering vs. F. W. DeRochemont, of Newington, now being tried in this city without jury, before Judge Doe of the S. J. Court, was entered in court in 1851, and has ever since remained on the docket. Most of the counsel, who survive, in the case, are now elderly men, while the parties who have so long worshipped at the Temple of Justice, must have a beautiful anticipation in the thought of the little bills of cost the Knights of the Green Bag will present one of these days.

There has been no other trial during the week's session of the Court. Judge Doe evinces his usual desire to clear the docket of those old cases, and it is reported will sit here as long as there is a case ready to try.

A POOR RULE, ETC.—A naval officer has been tried at Portsmouth, N. H., and severely sentenced, for expressing, in the heat of a political discussion, the opinion that the President ought to be impeached. No doubt this is all right as far as it goes. But it seems that his harsh remark was provoked by the denunciation of Congress as unconstitutional and guilty of usurpation. Why, then, were not those who spoke disrespectfully of the Legislative Department of Government visited with the same discipline as the rash individual who ventured to have his say about the Executive? Probably, it will be said, because the latter was his superior officer. That may be a technical excuse: nevertheless it is mean business to put a heavy penalty upon one man for expressing his views of the President, and let others who abuse the representatives of the people and the law-makers, go free of censure. The better way would be to forbid political talk altogether in "the service." But Secretary Welles is a devout sycophant of Andrew Johnson, and I would hang his grandmother, provided he has one, if that spiteful egotist requested it. *Boston Journal.*

The Biddeford Journal thinks "the most astonishing thing about this is, that Mr. Welles was able to reach the case so quickly. Had a rebel pirate entered Portsmouth harbor during the war and captured the city and burnt the whole Navy Yard, he would not have discovered the disaster until waked up some three weeks afterwards by a delegation of paroled carpenters on foot from Kittery."

☞ We regret to learn that Mr. Payson Tucker, the popular conductor, etc., on the P. S. & P. Railroad, was taken suddenly and seriously ill in the cars at Exeter, Monday, and conveyed to his father's residence in Dover.

☞ Duprez & Benedict's Minstrels gave a good entertainment to a large audience on Monday evening. We learn that they are to appear here again on the 14th of December, en route for Newfoundland, thence to visit the West Indies.

☞ It is desired by the managers of the Philharmonic Society, that every member, and all persons who design becoming such, should be present at the Rehearsal on Thursday evening.

☞ Dr. Carpenter, the well-known Oculist and Aurist, is engaged in a large and successful practice, at the Franklin House in this city, where he can be consulted a short time longer upon Catarrh, Asthma and all Diseases of the Eye, Ear, Throat, Lungs and Air Passages. Consultation Free. 1daw

GEN. SHERIDAN left New York Monday afternoon, in the Bristol line, for Providence.

Gen. Sheridan arrived in Providence, R. I., at 10 o'clock on Tuesday forenoon, and had a grand military and civic reception.—In the afternoon he attended at Narragansett Park, and the races.

☞ The U. S. Treasurer denies that over $9,000 of spurious 7 30s have been discovered.

☞ The Presbyterian (Old School) Synod of Baltimore, is not prepared for union with the New. It laid on the table, by a vote of 45 to 20, a resolution declaring that the Synod express an earnest desire that the two branches of the Presbyterian Church may be soon united in cordial and harmonious unity.

THE ROMAN QUESTION is settled for the present by the assurance of Napoleon that he will defend the Pope's authority, in arms if need be. The Italian king succumbs.

—Mr. William C. Briggs, for many years the popular proprietor of the well known Railroad Eating House in North Berwick, died at his home in that town on Monday eve, the 15th inst., aged 53 years.

— John Somerville of Olneyville R. I, met with a serious accident Sunday. While gunning on Neutaconkanut Hill, his gun burst, badly maugling his left hand and arm, rendering their amputation necessary.

—Walter Chappell, a descendant from the Brewster family of Mayflower celebrity, died at Wampsville, N. Y., on 12th inst., aged 96 years. He cast a vote at every Presidential election from Washington's second term to Lincoln's last.

—Miss Eliza McKeever, of Hudson City, N. Y., has obtained a verdict of $4500 against a dry goods clerk employed in a house in New York, for seduction under a promise of marriage. The damages were laid at $5000.

—The Bangor Whig gives an account of a man named Edward Page taking fire from having benzine about his person, and, though water was freely used, the flames could not be extinguished until the benzine was consumed, burning one leg quite severely.

— The railroad business in the Vermont Legislature, opens promptly by the introduction of two or three bills designed to compel foreign corporations, controling franchises in that State, to make suitable connections with the State roads.

—The new Silver Tips recently introduced by the American Shoe Tip Company are decidedly ornamental. — The cigar steamer Preston, captured on the ways in Charleston harbor, when that city surrendered to the Federal forces at the close of the rebellion, has been purchased by a Washingtonian, and will be sawed in two and converted into two long boats.

— There is a coal famine in Cincinnati, owing to low water in the Ohio river, which prevents shipments from Pennsylvania. The Gazette says the high prices for coal and provisions, a scarcity of work for large classes of people, and exorbitant house rents, foresbadow a hard winter for the poor.

ACROSS THE SIERRA NEVADAS,

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most important LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Inland Empire*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Sacramento River, to the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will inject and connect with the roads now building east of the Rocky Mountains About **100** miles are now built, equipped and in running order from the summit of the Sierra Nevadas. Within a few days **35** miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and **10,000** men are employed in the construction.

The local business upon the completed portion surpassed all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$487,579 04	$86,548 17	$401,031 17

or at the rate of $1,604,124 per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, and on terms probable, the United States will have invested in the completion of 865 miles **$28,592,000,** or at the average rate of **$33,000** per mile—not including an absolute grant of **10,000,000 acres** of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by securing its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVESTS THE CAPITAL, CONTRACTS, AND PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds,

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at **95** per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent upon Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and as the same nearly only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the securities, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—Each Bond is a claim upon altogether the most vital and valuable portion of the through line.

Second—Secure the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

ADVICE.—The Concord Statesman, always cautious, thus advises:

The true course for the Republican party is to legislate with reference neither to the special desire of Germans or other foreigners, on the one hand, or ever zealous temperance reformers on the other; for, if the desires of the one were fully gratified, Sunday would become in some places the most disorderly of all the seven; and if those of the other party were met, the land would swarm with constables, making domiciliary visits into the dwellings of the people. Let the Republican party legislate upon principles of common sense; do what it can, by reasonable laws, for the preservation of the public morals, and bide its time. We would not have the Republican party legislate at all in the face of a threat—let it come from whomsoever it might; whether an army of foreigners, clamorous for the abrogation of laws intended to promote the public peace on all days of the week, or an equally formidable army of men whose zeal in the temperance reform is not "according to knowledge."

A STORY OF MR. SPURGEON.—A short time ago a clergyman of the Established Church expressed to a dissenting acquaintance a desire to hear Mr. Spurgeon, and asked to be informed of the place and hour in the event of a preaching visit of that gentleman to the neighborhood.

A visit of the kind happened to be soon afterward made, and the clergyman hearing of it, went with his wife to the service. The reverend gentleman happened to be put in a front pew up in the gallery by the side of the pulpit. He was an attentive listener, and saw a good deal of merit in the sermon. When it was over, a collection was made, the organist indulging in a voluntary during the proceeding. The clergyman having put his contribution in the plate, thought he would not wait for the concluding prayer, but would get out before the crowd was in motion, so he signaled his wife to rise. However, it was no easy task to pass before the other occupants of the pew, and the clergyman getting nervous at the rustling of dresses and knocking down of hymn books, pulled his wife's dress and whispered to her to come back. She, however, thought the worst was over and continued her journey. Again he tried to stop her, with a similar result, when Mr. Spurgeon, who had been looking on, and who divined the situation in an instant, leaned gently over the pulpit, and catching the clergyman's eye, said in a low but perfectly audible tone, humorous to the full, "You had better go on, sir, or you'll hear more of it." A joke from a clergyman always goes further than a joke from any one else, and a joke from the pulpit has higher advantages still; but there was real fun in this, and no one was more amused by it than the reverend incumbent whose domestic experiences were thus foretold.

A WINDFALL TO A PRINTER.—Major Wm. Huntley, a printer, residing in Albany, has had a legacy of $75,000 left him by an uncle lately deceased in Norwich Conn. The amount consists of $50,000 in United States Bonds, and $25,000 in real estate. The Major intends to build several houses for cheap rent to mechanics as soon as he comes into possession. Mr. H. is a graduate of Yale College, is an author of some celebrity, a writer of poetry, and has been connected with the press for many years.

— In Felt's annals of Salem there is a note, which says, under date of 1802, Oct. 12, "Mr. Corne is endeavoring to introduce the tomatoes. He finds it difficult to persuade us even to taste of them, after all his praise."

—The Prince of Wales, it is said, has signed the temperance pledge. If this be true, great numbers of the aristocratic and the wealthy will follow his course, and drinking will no longer be thought necessary among fashionable people.

— "Twenty dollars for a pair of pants," said a scion of an old family to his tailor, "why, that seems a large sum." "Young Slops took a pair from that piece and did not say a word about the price," responded the tailor. "That may be," said the gentleman, "for you know the Slops haven't had their money so long as the Temples."

— The New York Mercantile Library Association has 10,531 members, a library of over 90,000 volumes (10,000 more than last year), and the income last year was $40,767. The savings bank for merchants' clerks, in connection with it, has $1,815,073 on deposit. The past year was one of great prosperity to the Association. It is now out of debt.

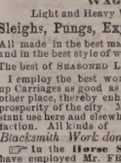
SPEER'S SAMBUCI WINE.
Prescribed by Physician for
FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated. *As a Diuretic,* it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections. *As a Blood Purifier,* it is superior, being one of the best alteratives known in the medical pharmacopœia.
The qualities of SAMBUCI are *"multum in parvo,"* being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.
N Bene Vivum bonum bonum sanguinem facit.
SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting ladies and children.
Be sure the signature of *ALFRED SPEER,* Passaic, N. J., is over the cork of the bottle.

[From "A Lover's Diary," by Alice Cary.]
MONA'S SONG.

All day yesterday as I spun,
The knots came into my thread,
And the sound of my wheel went 'hum-a-drum'
"Hum-a-drum" in my head.

Last night when I milked my cows and sung
Of the maiden all forlorn,
While the moon came up, a little star
Leading by the horn;
I heard a leaping over the stile,
And a whistle bithe and gay—
The tame doves knew him, my lad, my love,
And flew up out of his way.

I knew it was tenderness for me
That made him save the moth
That had dropt into my milking pail,
And was drowning in the froth.

And when I saw the ripple of red
Over his cheek that stole,
I knew the golden jewel of love
Was sinking in his soul.

Not once have I stopt, as I spun to-day,
To pull a knot apart;
And the sound of my wheel goes "Marry me!"
"Marry me!" in my heart.

MR. BANCROFT IN PRUSSIA.—Special correspondence referring to the opening of the Reichsrath, Sept. 18, says Mr. Bancroft, the American Minister, was subject to unusual distinction. As the King retired from the hall, a Royal Chamberlain brought to Mr. Bancroft a request from the Crown Princess that he would accept special audience with herself. According to Court etiquette, a new Minister should seek audience with the heir apparent to the throne, and ask to be presented to his wife. Mr. Bancroft intended to do this on the return of Prince Frederick William to Berlin, but the Princess Victoria, evidently desirous of having a personal interview with Mr. Bancroft, thus broke through all forms. Among the remarks of the Crown Princess, which were most flattering and complimentary to Mr. Bancroft, she also mentioned the name of Mr. Motley, saying she had read his works with the greatest pleasure.

— It is reported that an agricultural society, somewhere in the State of New York, offers larger premiums for butter and cheese than it does for horse racing.

— A young Englishman of wealth and culture recently fell in love with a squaw in Omaha, Kansas, and married her. The next day she got drunk and turned somersaults in the street. Johannes Taurus is at a loss what to do under the circumstances.

— The church in which Gen. Washington was married to Martha Custis, in New Kent county, Virginia, is very much dilapidated, and its congregation too poor to repair it. Contributions are therefore solicited to aid in preserving this historical relic.

— An eminent physician of the last generation, speaking of the progress of medical science in his day, said: "when I graduated, I had a dozen remedies for every disease; when I retired from practice I had a dozen diseases for every remedy."

— Professor De Mille, the author of the "Dodge Club," in Harper's Magazine, is, like the author of "Sam Slick," a Nova-Scotian. It is odd that that quiet province should produce two such amusing delineators of the absurd side of Yankee character.

— The Agricultural Fairs in Maine have shown that there has been a gradual gain in the size of neat cattle by the keeping of improved breeds, and the gain is over a foot in the girth of fine oxen. The improvement in the quality of horses has been very rapid and marked.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economiser of fuel, and a handy, well-made and durable stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prizes; but what is better, it receives the unqualified encomiums of its numerous purchasers. Those who know what a good stove is and how to appreciate it,
Pleasure is taken in showing the KEARSARGE and all its want of a stove at the first mention of moderate price, are invited to call and examine it whether they purchase or not.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1861.
No. 78 State street, (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, and in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities, for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN ALLOWANCES, *every one* of which was decided *in his favor* by the Commissioner of Patents.
We have found R. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Late Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in form to secure for them a speedy and favorable consideration at the Patent office.
EDMUND BURKE,
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 Endicott St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Falling Down, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon finds herself perfectly healthy.
Dr. Dow has no doubt had greater experience in the care of diseases of women than any other Physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

Portsmouth, N. H.

THURSDAY, OCTOBER 24, 1867.

GEN. SHERIDAN was at Brown University Wednesday forenoon, and in the afternoon at Narragansett Park, where he was to dine with Senator Sprague, Gov. Barnside and others. On Tuesday evening, at Providence, a torchlight procession, composed of about 250 members of Post One of the Grand Army of the Republic, was formed on Broad street, and accompanied by the Brass Band, marched to the residence of Gov. Burnside. Here a large crowd had assembled, and after the performance of a number of patriotic pieces by the band, there were loud calls for Gen. Sheridan, to which he finally responded by appearing at the window and addressing the crowd as follows:
